RE: SWR-433

Dear Mr Brady,

This will acknowledge the receipt of map to support the pre-1909 vested water right claim in the name of GLENN & LOREN TARBELL you returned with corrections and completions. I have added the map to the file. Thank you for your attention to this matter. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

JERRY CORNWALL-BRADY
257 S. FIRST STREET
ST. HELENS OR 97051

RE: File# SWR-433

DEAR JERRY CORNWALL-BRADY,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Glenn O. Tarbell and Loren G. Tarbell. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

✓ place of use ($\frac{1}{4}$ $\frac{1}{4}$)

ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." You must show the 1/16th lines on the map.

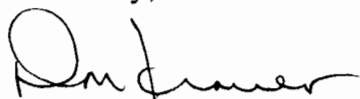

✓ scale

OAR 690-14-170-1 "The map scale shall be 1" = 1320', 1" = 400', or the scale of the county assessor map..." You must show the scale of the actual map (you have on the detail).

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

RE: SWR-433

Dear Mr & Mr Tarbell,

I am sending a copy of the letter Jerry Cornwall-Brady sent on May 4, 1993. I have not heard anything from you or your CWRE in regards to the required map to support your pre-1909 vested water right claim. I am in the process of reviewing the maps and will pass your file by at this time. I cannot complete my review without the required map. You must send me a map submission date.

If you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

WATER
RESOURCES
DEPARTMENT

GLENN O TARBELL - LOREN G TARBELL
33807 TARBELL RD
SCAPPOOSE OR 97052

Dear GLENN AND LOREN TARBELL,

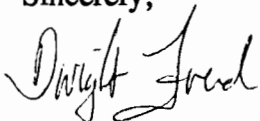

This will confirm our telephone conversation earlier this morning. You called to question my letter of April 2, 1993 in which I had requested additional fees in the amount of \$400.00. My calculations of your fees due was in error.

You sent \$200.00 and your receipt #95785 has been sent to you. You should have sent a total of \$430.00. The amount due is in fact **\$230.00**. As we discussed, there is a fee for each use. You have listed three uses on your form. The fee for stockwater and wildlife habitat is \$400.00 (\$200 for each) and the fee for irrigation of 15 acres or less is \$30.00. Your claim will not be processed until these remaining fees are received.

Please mark any correspondence related to your claim with your claim number: SWR-433.

I appologize for the misunderstanding.

Sincerely,

Dwight French

GLENN O. TARBELL - LOREN G. TARBELL
33807 TARBELL RD
SCAPPOOSE OR 97052

Dear GLENN AND LOREN TARBELL,

This will acknowledge that your Surface Water Registration Statement in the name of GLENN O. TARBELL - LOREN G. TARBELL has been received by our office. You failed to submit enough fees with your Surface Water Registration Statement as required under ORS 539.081.

You sent \$200.00 and your receipt #95785 is enclosed. You should have sent a total of \$600.00. The amount now due is \$400.00. Your claim will not be processed until these remaining fees are received. Your claim has been numbered SWR-433.

The map you submitted with your claim is not acceptable. ORS 539.240 (2) (d) requires the map be prepared by a Certified Water Right Examiner (CWRE). Within 60 days of this letter you must send a letter to this address indicating you have contracted with a CWRE to prepare your map. You should send your letter to my attention. In your letter you must identify the name of the CWRE who will prepare your registration statement map. We will contact the CWRE to arrange a map submittal deadline.

We will not be able to process your claim until we have received your map. If you have any questions regarding this process, please do not hesitate to give me a call.

Sincerely,

Dwight French

Registration Survey Report for Glenn O. Tarbell & Loren G. Tarbell

INFORMATION:

I met Mr. Loren Tarbell at his father's (Mr. Glenn Tarbell) pond. Mr. Loren Tarbell address is 33807 Tarbell Road, Scappoose, OR 97056 and his telephone number is (503)543-2570. Mr. Tarbell showed me the pond and earthen dam. Mr. Glenn Tarbell's father (Mr. A. H. Tarbell) bought this property with a great deal more farm land in 1908. Glenn was 8 years old at that time. He remembers a pond and dam at this site at the time. The pond may have been the site of a pre-1908 rock pit and the dam was a road fill acrossing the draw at the lower end of the rock pit.

SOURCE:

An unnamed creek which is a tributary of Scappoose Bay.

DIVERSION POINT (Dam Site):

The center of the dam at the upstream crest is South 265 feet & 50 feet East of the Southeast corner of Scott Acres.

USES:

This pond is used for stock watering directly from the pond and for wildlife habitat.

POINT OF BEGINNING:

I found the Northwest & Southwest corners of Lot 3, Block 2, Scott Acres and calculated the position of the Southeast corner of Scott Acres.

THE DAM:

The dam is an old earthen fill dam 105 feet long and about 20 feet wide. It is nearly flat from end to end and from 1.1 feet to 1.5 feet above the water level in the pond.

RECEIVED

DEC 14 1993

WATER RESOURCES DEPT.
SALEM, OREGON

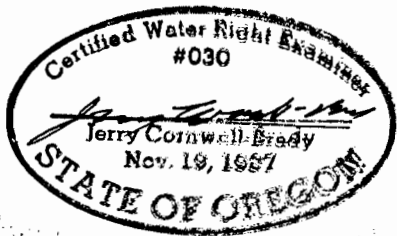

The Dam continued...

There is an earthen spillway across both ends of the dam. There is little sign of erosion at either spillway. I visited the dam site on Dec. 1, 1993 after several days of rain. The water level in the pond was the same as it was on May 13, 1993 and there was very little water going over the spillways. Elevations were shot with a theadolite & EDM on the dam centerline and both spillways.

There is no outlet conduit or structure.

There is no apparent weaknesses of this dam. I see no seepage zones or other defects. The dam is most likely more that 50 years old and is well settled and water tight by this time.

The Registration Survey and Inspection was completed by me on December 10, 1993 and the facts contained in this report and accompanying map are correct to the best of my knowledge.

RENEWAL DATE 12-31-93

Glenn O. Tarbell
Certified Water Rights Examiner

We, Glenn O. Tarbell and Loren G. Tarbell, agree to the findings of the CWRE and do submit this site report and map as my claim of beneficial use.

Attention: Dwight French

Reference: Claim #SWR-433; Letters of 4/2/93 and 4/9/93

Dear Mr. French:

As you requested, I am sending a copy of a letter of commitment from Brady Land Surveying confirming a scheduled time to survey and prepare a map as required under ORS 539.240 (2)(d). Mr Brady is a CWRE and is included on the list you sent us.

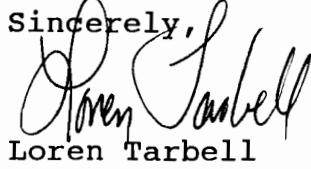

Also enclosed is the additional fee of \$230 you requested in your letters referenced above.

We also discussed submission of any statements of evidence to support our claim. I'm working on this with Dad and what our memories can compile will follow.

Mr. Brady did not give us a date when the map would be complete; however, he indicated it would not be too long.

Please let me know if I can be of further assistance.

Sincerely,

Loren Tarbell
