Dear Permit Holder:

The Water Rights Section received your written progress report for Permit #S-41437 (Application #S-52770). Receipt of the progress report was published on the Department's weekly Public Notice, dated May 20, 2003. The Department did not receive any public comment on the progress report.

Additionally, the Department determined that diligence toward completion of the project and compliance with the terms and conditions of the permit and extension has been demonstrated.

Your next written progress report for Permit #S-41437 is due by October 1, 2007. The report must be received by the Department not sooner than 90 days prior to the due date.

If you have any questions, please feel free to contact me by telephone at (503) 378-8455, extension 272.

Sincerely,

Lisa J. Jaul

REFERENCE: File #S-52770 (Permit #S-41437)

Dear Permit Holder:

On January 26, 2000, the Department issued a Final Order approving an Extension of Time for Permit #S-41437. The Final Order extended the time in which to complete construction of the water system from October 1, 1997, to October 1, 2017 and the time in which to accomplish beneficial use of water to the full extent under the terms of Permit #S-41437 from October 1, 1997, to October 1, 2018.

The Final Order approving the Extension of Time also included the following condition that requires:

The permittee must submit a written progress report to the Department by **October 1 of the years 2002, 2007 and 2012**. The report must be received by the Department not sooner than 90 days prior to the due date. The permittee's report must describe in detail the work done each year since the last extension was granted or the last progress report submitted.

The report shall include:

- a) The amount of construction completed;
- b) The amount of beneficial use of water being made, including the total volume of water used, water used relative to the specific authorizations (types of use, acres irrigated, etc.) contained in the permit, and the percent of the total allowable water use that this represents;
- c) A review of the permittee's compliance with terms and conditions of the permit and/or previous extension; and
- d) Financial investments made toward developing the beneficial water use.

Failure to submit a progress report by October 1, 2002, will result in cancellation of the undeveloped portion of the permit by the Department pursuant to ORS 537.260 or ORS 537.410 to 537.450. Within one year after cancellation, the permittee must submit a Claim of Beneficial Use and Final Proof Survey, pursuant to ORS 537.230 and 537.250, for the portion of the permit developed as of October 1, 2002.

To date, the Department has not received this progress report from you. In order to maintain the ability to continue developing water under this permit, you should submit this progress report immediately. For your reference, I have enclosed a copy of the Extension of Time Final Order containing this condition.

If you have any questions concerning this matter, please feel free to contact me by telephone at 503-378-8455, extension 272.

Sincerely,

Lisa J. Juul

Bill Ferber, Watermaster Dist. #16

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number 52770

Final Order
Extension of Time for Permit Number 41437

Appeal Rights

This is a final order in other than contested case. Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005, you may either petition the Director for reconsideration of this order or petition for judicial review of this order. As provided in ORS 536.075, this order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 day time period specified by ORS 183.484(2).

Application History

On JUNE 18, 1998, GRAND RONDE DOMESTIC WATER ASSOCIATION submitted an application to the Department for an extension of time for permit number 41437. The Department issued Permit number 41437 on APRIL 27, 1977. The permit called for completion of construction of the water development project by October 1, 1978 and complete application of water to the full beneficial use by October 1, 1979. In accordance with OAR 690-320-0010(8), on AUGUST 24, 1999, the Department issued a Proposed Final Order proposing to extend the time to complete development of the water development project to October 1, 2017, and/or the time to fully apply water to beneficial use to October 1, 2018. The protest period closed OCTOBER 8, 1999. No protest was filed.

The permittee must submit a written progress report to the Department by October 1 of the years 2002, 2007, and 2012. The report must be received by the Department not sooner than 90 days prior to the due date. The permittee's report must describe in detail the work done each year since the last extension was granted or the last progress report submitted. The report shall include:

- a) The amount of construction completed;
- b) The amount of beneficial use of water being made, including the total volume of water used, water used relative to the specific authorizations (types of use, acres irrigated, etc.) contained in the permit, and the percent of the total allowable water use that this represents;
- c) A review of the permittee's compliance with terms and

- conditions of the permit and/or previous extension; and
- d) Financial investments made toward developing the beneficial water use.

The Department will review the progress report to determine whether the permittee is exercising diligence towards completion of the project and complying with the terms and conditions of the permit and extension.

Failure to submit a progress report by the due date above will result in cancellation of the undeveloped portion of the permit by the Department pursuant to ORS 537.260 or 537.410 to 537.450. Within one year after cancellation, the permittee must submit a final proof survey pursuant to ORS 537.230 and 537.250.

If the Department finds that diligence is questionable, the Department may:

- a) request the permittee to submit additional information with which to evaluate diligence;
- b) apply additional conditions and performance criteria for perfection of the right; or
- c) cancel the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410 to 537.450. The Department will grant the permittee a hearing on the cancellation, if one is requested.

In determining whether the permittee has been diligent, the Department will consider information submitted to the Department by the permittee and any information submitted during the 30-day public comment period following public notice of submittal of the progress report.

If information is received through the public notice process indicating that the applicant has not been diligent toward completing the project, and if the director determines there are significant disputes related to the use of water, the Department will conduct a hearing.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 537.248, 537.630 and 539.010(5) (as appropriate).

Order

The extension of time for Application 52770, Permit Number 41437, therefore, is approved. The deadline for completing construction

is extended to October 1, 2017. The deadline for applying water to full beneficial use is extended to October 1, 2018.

DATED January 26, 2000

Martha O. Pagel, Director

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number 52770

Final Order
Extension of Time for Permit Number 41437

Appeal Rights

This is a final order in other than contested case. Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005, you may either petition the Director for reconsideration of this order or petition for judicial review of this order. As provided in ORS 536.075, this order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 day time period specified by ORS 183.484(2).

Application History

On JUNE 18, 1998, GRAND RONDE DOMESTIC WATER ASSOCIATION submitted an application to the Department for an extension of time for permit number 41437. The Department issued Permit number 41437 on APRIL 27, 1977. The permit called for completion of construction of the water development project by October 1, 1978 and complete application of water to the full beneficial use by October 1, 1979. In accordance with OAR 690-320-0010(8), on AUGUST 24, 1999, the Department issued a Proposed Final Order proposing to extend the time to complete development of the water development project to October 1, 2017, and/or the time to fully apply water to beneficial use to October 1, 2018. The protest period closed OCTOBER 8, 1999. No protest was filed.

The permittee must submit a written progress report to the Department by October 1 of the years 2002, 2007, and 2012. The report must be received by the Department not sooner than 90 days prior to the due date. The permittee's report must describe in detail the work done each year since the last extension was granted or the last progress report submitted. The report shall include:

- a) The amount of construction completed;
- b) The amount of beneficial use of water being made, including the total volume of water used, water used relative to the specific authorizations (types of use, acres irrigated, etc.) contained in the permit, and the percent of the total allowable water use that this represents;
- c) A review of the permittee's compliance with terms and

- conditions of the permit and/or previous extension; and
- d) Financial investments made toward developing the beneficial water use.

The Department will review the progress report to determine whether the permittee is exercising diligence towards completion of the project and complying with the terms and conditions of the permit and extension.

Failure to submit a progress report by the due date above will result in cancellation of the undeveloped portion of the permit by the Department pursuant to ORS 537.260 or 537.410 to 537.450. Within one year after cancellation, the permittee must submit a final proof survey pursuant to ORS 537.230 and 537.250.

If the Department finds that diligence is questionable, the Department may:

- a) request the permittee to submit additional information with which to evaluate diligence;
- b) apply additional conditions and performance criteria for perfection of the right; or
- c) cancel the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410 to 537.450. The Department will grant the permittee a hearing on the cancellation, if one is requested.

In determining whether the permittee has been diligent, the Department will consider information submitted to the Department by the permittee and any information submitted during the 30-day public comment period following public notice of submittal of the progress report.

If information is received through the public notice process indicating that the applicant has not been diligent toward completing the project, and if the director determines there are significant disputes related to the use of water, the Department will conduct a hearing.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 537.248, 537.630 and 539.010(5) (as appropriate).

Order

The extension of time for Application 52770, Permit Number 41437, therefore, is approved. The deadline for completing construction

is extended to October 1, 2017. The deadline for applying water to full beneficial use is extended to October 1, 2018.

DATED January 26, 2000

Martha O. Pagel, Director

Water Rights Division**

Water Right Permit Extension Application
for Permit Number 41437

Water Right Application Number 52770

Proposed Final Order

This Proposed Final Order applies only to permit number 41437.

Summary of Recommendation

The Department proposes to:

grant the extension for complete construction of the water system from October 1, 1997 to October 1, 2017, and

grant the extension for complete application of water from October 1, 1997 to October 1, 2018.

Application History

Permit no. 41437 was granted by the Water Resources Department on APRIL 27, 1977. The permit authorizes use of 0.44 CFS of water from SPRINGS for QUASI-MUNICIPAL in the YAMHILL RIVER basin. It specified that construction must be completed by October 1, 1978, and water applied to full beneficial use by October 1, 1979. A copy of permit no. 41437 is attached.

On JUNE 18, 1998, the Department received an application from GRAND RONDE DOMESTIC WATER ASSOCIATION for an extension of time to complete construction and to apply water to full beneficial use. The applicant has requested until October 1, 2017 to complete construction of the water system and until October 1, 2018 to apply water to full beneficial use. This is the FIFTH permit extension request.

Findings of Fact

ORS 537.230(2) and 537.630 (1) allows the Department to grant an extension of time to perfect a water right for good cause. In evaluating good cause, the Department has considered the written record in the permit application file in relation to the requirements of ORS 537.230(2), ORS 537.630 (1) and ORS 539.010(5) and makes the following findings.

1. The applicant is legally entitled to apply for an extension on this permit.
2. The applicant has submitted a completed permit extension form and the required fee.
3. The water project development made to date has been accomplished in accordance with the terms and conditions contained in the permit.
4. Progress in perfecting the permit is held up by the time required to serve a community. The hook-ups to water use take longer than the permit time limits allow. The permit holder has made steady, gradual progress in developing the water use under this permit.
5. The applicant has pursued perfection of the right in good faith and with reasonable diligence.
 - a) Work on the water development project completed to date includes construction of pumps, pipelines and the water system. 0.16 CFS of the water has been applied to the use.
 - b) The applicant has invested approximately \$ 2,000,000 of an estimated total water system project cost of \$ 2,500,000.
 - c) The work remaining to be completed consists of the remaining construction of the water delivery system and complete application of water.
6. Based on the written record, the Department finds there is good cause to approve the extension request. The applicant has pursued perfection of the right in good faith and with reasonable diligence.
7. Due to the reasons outlined above in item 4 and the water development progress to date, the Department finds that the length of time requested for completion of construction should be extended to October 1, 2017 and the length of time requested for completion of the application of water should be extended to October 1, 2018 as requested by the applicant.
8. By mutual consent, the applicant and the Water Resources Department agreed to defer processing of the permit extension request until such time as the Commission had adopted new permit extension rules.

Conclusions of Law

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230, and ORS 537.630.
2. The applicant has submitted an extension application form and the fee required by ORS 536.050(1)(L).
3. The applicant has pursued perfection of the right in good faith and prosecuted construction with reasonable diligence.
4. The applicant has shown good cause for the untimely completion of the water development project and complete application of water to full beneficial use pursuant to ORS 537.230(2), and ORS 537.630 (1).
5. The permit extension should be approved until October 1, 2017 to complete

construction and until October 1, 2018 to complete the application of water.

Conditions

The permittee must submit a written progress report to the Department by October 1, of the years 2002, 2007 and 2012. The report must be received by the Department not sooner than 90 days prior to the due date. The permittee's report must describe in detail the work done each year since the last extension was granted or the last progress report submitted. The report shall include:

- a) The amount of construction completed;
- b) The amount of beneficial use of water being made, including the total volume of water used, water used relative to the specific authorizations (types of use, acres irrigated, etc.) contained in the permit, and the percent of the total allowable water use that this represents;
- c) A review of the permittee's compliance with terms and conditions of the permit and/or previous extension; and
- d) Financial investments made toward developing the beneficial water use.

The Department will review the progress report to determine whether the permittee is exercising diligence towards completion of the project and complying with the terms and conditions of the permit and extension.

Failure to submit a progress report by the due date above will result in cancellation of the undeveloped portion of the permit by the Department pursuant to ORS 537.260 or 537.410 to 537.450. Within one year after cancellation, the permittee must submit a final proof survey pursuant to ORS 537.230 and 537.250.

If the Department finds that diligence is questionable, the Department may:

- a) request the permittee to submit additional information with which to evaluate diligence;
- b) apply additional conditions and performance criteria for perfection of the right; or
- c) cancel the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410 to 537.450. The Department will grant the permittee a hearing on the cancellation, if one is requested.

In determining whether the permittee has been diligent, the Department will consider information submitted to the Department by the permittee and any information submitted during the 30-day public comment period following public notice of submittal of the progress report.

If information is received through the public notice process indicating that the applicant has not been diligent toward completing the project, and if the director determines there are significant disputes related to the use of water, the Department will conduct a hearing.

Recommendation

The Department proposes to issue an order to:

extend the permit time to complete construction from October 1, 1997 to October 1, 2017
and

extend the permit time to complete application of water from October 1, 1997 to October 1, 2018.

DATED: AUGUST 24, 1999

Dwight French
Water Rights Section Manager

appropriate names and
phone numbers.*

Protest Rights and Comments

1. Under the provisions of OAR 690-320-0010(8) you have the right to protest this proposed final order. Your protest must be in writing and must include the following:
 - a) Your name, address and telephone number;
 - b) Your interest in this proposed final order, and if you claim to represent the public interest, a precise statement of the public interest represented;
 - c) A detailed description of how the action in the proposed final order would impair or be detrimental to your interest;
 - d) A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
 - e) Any citation of legal authority supporting your protest, if known; and
 - f) The \$25 protest fee required under ORS 536.050 (1)(j).
2. Each person submitting a protest shall raise all reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the comment period.
3. The Water Resources Department must receive written protests or written comments no later than **OCTOBER 8, 1999**.
4. After the close of the comment and protest period, the Director will either issue a final order, or schedule a contested case hearing if the Director finds there are significant disputes related to the use of water.

This document was prepared by Dallas Miller. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me toll free within Oregon at 1-800-624-3199 extension 272. Outside of Oregon you can dial 1-503-378-8455.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Adam Sussman. His extension number is 262.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 499. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 158 12th ST. NE Salem, OR 97310, Fax: (503)378-2496.

owner of record, or duly authorized agent, of Application No. S-52770 Permit No. 41437, do hereby request that the time in which to:

☒ complete the construction of diversion/appropriation works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, 1997, be extended to October 1, 2017,

and/or the time in which to:

☒ accomplish beneficial use of water to the full extent under the terms of the permit, which time now expires on October 1, 1997, be extended to October 1, 2018.

NOTE: The extension of time requested should be long enough to finish the project. Should this request be approved, it will be the Department's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.

Enclosed is an instruction sheet to assist you in completing the information on the permit extensions application form. Oregon Water Law and Administrative Rules requires this information to be considered by the Water Resources Department when reviewing a permit extension. All items must be completed or the application will be returned. Please feel free to provide the Department with any additional information that would aid us in making our decision. Please use additional sheets of paper as needed to fully respond to the questions.

After reviewing the application form and the instruction sheet, if you have any questions, please contact the Department at 1-800-624-3199, or locally in the Salem vicinity at (503) 378-3739, and request assistance from the Water Rights Division, permit extensions personnel.

1-Did water system construction/well drilling begin within the time specified in the permit [yes/no]?
Yes

2-Has construction of diversion/appropriation works, distribution system, and use of water, if any, been accomplished consistent with the limitations and conditions of this permit [yes/no]? Yes

A) Please describe how you have complied with each applicable permit condition (NOTE: the instruction sheet for permit extension applications provides some direction as to what is an "applicable" condition at time of permit extension review).

N/A

B) If you have not complied with all applicable conditions, please explain the reasons why and indicate a date certain, in the near future, by which time you will be in compliance with applicable conditions.

N/A

3-I have accomplished the following described works, purchases and installation of equipment necessary to the use of water under said permit:

A) Within the past year or, if a prior extension was authorized, during the last permit extension period:
1992-1998 Constructed 17,025 LF of 12" PVC and 13,920 LF of 4" PVC mainline
Constructed two 500,000 gal and 50,000 gal reservoirs; Constructed one
in-line booster pump; Added 70 new services.

B) Prior to the past year or, if a prior extension was authorized, prior to the last extension period:
Constructed a 115 gpm duplex booster pump station; Constructed 105,000
gal of inline storage; Constructed 12½ miles of distribution pipeline;
Added 115 services.

C) I have accomplished beneficial use of water under the permit to the extent of (amount of water used or acres irrigated):

Total = 0.62 cfs - (0.30 cfs T-3379) ÷ 2 (S-52769 and S-52770) = 0.16 cfs

0.16 cfs = 36%±

RECEIVED

JUL 30 1999

4-Cost of project to date \$2 MIL. Estimated remaining cost to complete the project \$500,000.
RESOURCES DEPT.
SALEM, OREGON

5-Please list the reasons why the project was not constructed, and/or water not beneficially used within permit time limits under the appropriate categories below. Please provide supporting information for each reason identified.

A) The project is of a size and scope that the original intent was to phase it in over a period longer than the timeframes allowed in the permit. This is a community water supply of sufficient quantity to allow for long-term growth

B) Financing and/or cash-flow needs to develop the project precluded completion of the project within authorized timeframes. No

C) Good faith attempts to comply with permit conditions and/or to acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

No

D) Acts of God or other unforeseen events delayed full development of the water system and use of water. No

6-Please identify the economic market or markets to which beneficial use of water under the permit is responding. The economic market includes increased population growth in the area and the development of entertainment and service facilities by the Confederated Tribes of the Grand Ronde

A) Has there been any change in this market since the permit was issued? It has greatly increased with the recent activities of the Tribe

B) Have these changes, if any, affected the economic feasibility of your project? Yes, they are the cause of increased demands that have made the water more valuable and necessary.

7-Are there other present competing demands for water in your community? Yes, water quality in the Yamhill River system

A) Has there been any change in these demands for water since the permit was issued? Yes, our permit was issued 22 years ago when the rural and small town communities along the river were much less populous.

B) Are you aware of alternative sources of water that may be able to satisfy the competing demands? Yes- several years ago a study exploring the possibility of large storage reservoirs was conducted for the area

C) Are you aware of any adverse affects on your source of water that may have been caused by recent changes in use of water in your community? No

RECEIVED

JUL 30 1999

WATER RESOURCES DEPT.
SALEM, OREGON

8-Will the income or use from the water development project authorized by this permit provide reasonable returns against the investment in the project? Yes, See attached rate schedule and policy.

9-If the extension request is denied, is the current level of water use economically feasible?
No, not with the community growing as it is and with the projected construction that the Tribe proposed for its members.

See attached list for water rights held by the Association.

I am the permittee, or have authorization from the permittee, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for the Department to suspend processing of the request and/or reason to deny the extension.

APPLICATION FOR EXTENSION OF TIME

TO: THE WATER RESOURCES DIRECTOR OF THE STATE OF OREGON

I, Grand Ronde Domestic Water Association
P.O. Box 253 Grand Ronde Oregon 97347 (503) 879-5624
Address City State Zip Phone

record owner of Permit No. 41437, do hereby request that the time in which to:

☒ complete the construction of works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1 1997, be extended to October 1, 2017, and/or the time in which to

☒ accomplish beneficial use of water to the full extent under the terms of the permit, which time now expires on October 1, 1997, be extended to October 1, 2018.

I have accomplished the following described works and/or purchase and installation of equipment necessary to use of water under said permit:

(1) within the past year 1997- Constructed 13,920 LF of 4" PVC Mainline; Added 7 New Service Memberships

(2) prior to this past year 1992-1997 - Constructed 17,025 LF of 12" PVC Mainline; Constructed Two 500,000 Gal. Reservoirs; Constructed One 50,000 Gal. Reservoir; Constructed One In-Line Booster Pump Station; Added 63 New Service Memberships.

(3) and have accomplished beneficial use of water to the extent of

(if for irrigation, state how many acres have been irrigated)

We are currently using 0.38 cfs on an average annual basis, however, 0.30 cfs of this quantity is covered by T-3379 (Certificate 68530) leaving only 0.08 cfs to be drawn from this and other permitted rights.

(4) am unable to complete construction and/or application of water within the permit time limits because This is a Quasi-Municipal right obtained to allow for long-term growth in the community we serve. The community is still growing and not using all of the permitted quantity.

Dear Water Right Permit Extension Applicant:

The Water Resources Commission has adopted new administrative rules that govern the processing of permit extension requests. New rules were necessary to make the permit extension process consistent with advice received from the Attorney General's office last summer. Many permit holders held their extension requests until the new rules are in place. Because of the Attorney General's advice, extensions will no longer be limited to one year in length for most permits and five years for municipalities and irrigation districts. You should request to extend your permit for the amount of time necessary to fully complete your project and put the water to beneficial use. Should the permit extension be approved, it is the Department's expectation that it will be the last extension granted.

In order to help staff to complete the processing of your extension application, we will need you to fill out the enclosed form. The new rules require that the Department consider this information when determining whether or not to approve an extension request. It is important for you to complete a response to all items on the form. If additional space is needed for your responses, please use a separate sheet of paper.

Please send the completed form at your earliest convenience to the following address:

Dallas Miller
Water Right Permit Extensions
Water Resources Department
158 12th Street NE
Salem, Oregon 97310

I would be happy to send you a copy of the new permit extension rules, upon request. If you have any questions, please contact me at 1-800-624-3199 extension 272. If I am not available, you may contact either Pat Lee (ext. 276) or Dwight French (ext 268).

Sincerely,

Dallas Miller

Dear Extension Applicant:

We have received your request for extension of time limits under your permit.

Because of action taken by the Oregon Attorney Generals Office the Water Resources Department is working on new administrative rules affecting the extension process. Anticipating this change in the rules, we will hold your application until the new rules are in effect. We estimate that the rules will be adopted late summer of 1998.

If it is necessary that you have an extension of time before that, it may be possible if you can make the statement that water can be fully used within five years.

If you have questions please contact me at the address below or phone 1-800-624-3199 ext. 272.

Sincerely,

Dallas Miller

REFERENCE: File 52769 & 52770

According to the terms of your Permit 41436 and 41437 complete application of water was to have been made by October 1, 1997.

Complete application of water means use of the water for the beneficial purpose described in the permit to the full extent intended. (In the case of irrigation, it means beneficial irrigation of the lands the permittee intends to cover.) This may be a smaller amount than the permit allowed. If the water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the Water Resources Director proof of completion of the appropriation as required by ORS 537.230 and 537.250, the Water Resources Director may, after 60 days notice by registered mail, order the cancellation of the permit."

You are hereby notified that, unless proof of beneficial use is received by **April 15, 1998** (within 60 days from the date of this letter) the permit may be canceled without further notice.

If you are no longer interested in the project described by the permit, we would appreciate being advised. If the property involved has been sold and any part of the project was completed, you should assign the permit to the new owner. An assignment form will be furnished upon request.

If additional information is needed, please contact me at extension 272 at 378-3739 or toll-free 1-800-624-3199.

Sincerely,

Dallas Miller
Natural Resource Specialist 2

CERTIFIED - RETURN RECEIPT REQUESTED

September 28, 1993

Grand Ronde Domestic Water Association
PO Box 183
Grand Ronde, OR 97347

REFERENCE: Files 52769, 52770, and T-3379

We have received your applications for extension of the time limit to make complete application of water under Permits 41436, 41437, and T-3379. We also have your check in the amount of \$300. Our receipt numbers 94144, 94145, and 94146 were given to Jeanne M. Boatwright of Boatwright Engineering, Inc.

The application indicates reasonable diligence toward completion of the proposed project. The time limit to make complete application of water is extended to October 1, 1997 for Permits 41436, 41437, and T-3379. The order approving the extension was entered September 23, 1993.

The area of use is restricted to the boundary as identified in 1975. Also, when 0.44 cubic foot of water per second (200 GPM) has been used, further extensions will not be needed.

If you have any questions, please contact the Water Rights Section at 378-3739.

Sincerely,

A. REED MARBUT

record owner of water permit No. 41436/41437, do hereby request that the time in which to:

☒ complete the construction of works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, 1987, be extended to October 1, 1987.92 *frk* and/or the time in which to

☒ accomplish beneficial use of water to the full extent now intended under the terms of said permit, which time now expires on October 1, 1987, be extended to October 1, 1987.92 *frk*

I have accomplished the following described works and/or purchase and installation of equipment necessary to the use of water under said permit:

- (1) within the past year approximately 3200 feet of pipeline was installed for improvement to the distribution system and approximately 10 new household connections were made.
- (2) During the four years prior to this past year some 12 miles of distribution pipeline, 105,000 gallons of in line storage, and a 115 gallon per minute duplex booster pump station were installed, to serve some 90 new customers, in a new area. Also some 15 new services to the original system were added. The source of supply has excess capacity to serve a greater number than the present 615 hookups.

(3) and have accomplished beneficial use of water to the extent of (IF FOR IRRIGATION, STATE HOW MANY ACRES HAVE BEEN IRRIGATED) _____

According to the terms of your permit number 41437. This permit describes the use of .44 cfs of water from a spring for quasi-municipal use.

complete application of water was to have been made by October 1, 1979

Complete application of water means the application of water to a beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 24, 1979

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the Water Resources Director proof of completion of the appropriation as required by ORS 537.230 and 537.250, the Water Resources Director may, after 60 days' notice by registered mail, order the cancellation of the permit..."

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If, for any reason, you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Sincerely,
James E. Sexson, Director

Mr. Martin G. Boatwright
M. G. Boatwright & Associates
2613 Twelfth Street S.E.
Salem, Oregon 97302

Dear Mr. Boatwright:

The application you submitted for Grande Ronde Domestic Water Association for a permit to appropriate 0.44 cubic foot per second of water from a spring area for domestic and stock use has been filed as No. 52769.

The application for a permit to appropriate 0.44 cubic foot per second from the spring area for quasi-municipal use has been filed as No. 52770.

Also acknowledged are copies of the water users agreement, bylaws of the Association, maps and fees of \$45.00 for application No. 52769 and \$30.00 for application No. 52770 for which receipts Nos. 45161, 45162 and 45215 were handed you.

The applications are in satisfactory form but final consideration will be withheld pending submission of an application for change in type of use of water under an existing right. The provisions and limitations of a permit approving application No. 52770 will be dependent on the transfer.

Very truly yours,

Trevor Jones
Assistant
