Dear Don

Enclosed are the following corrected maps:

- (1) Arita and Arlo Harwood SWR 542. I added the 1/16 lines and showed the location of the house.
- (2) Jane Muffett SWR 540 and SWR 539. I added the 1/16 lines.
- (3) Marcella Dailey SWR 452. I showed the location of the house.
- (4) Robert and Fontella Hankins SWR 454. These questions all concern the claimed use of irrigation. Mr. Hankins claims that there was irrigation of 5 acres of potatoe fields prior to 1909 and showed me where he thought it had been. As I explained in my final proof report there is currently no irrigation at this time and no sign that there has been in the near past. There is currently no point of diversion, no conveyance system and only an estimate of the original place of use. I have changed the hatchuring on the map to a dashed line to indicate that the irrigation is not a current use. If you have any questions about this I can be reached at 759-4467 or 267-2872.

Do you have?

Sincerely

Harvey Wilcox

RE: SWR-454

Dear Mr & Mrs Hankins,

I am in the process of reviewing the maps submitted in support of pre-1909 vested water right claims. The reason I am writing today is about your map. I received a letter from your CWRE, Harvey Wilcox in which he referred to a "final proof report". I do not have a copy of this report in your file. The information in the report is very necessary for me to understand your water use. I cannot complete my review of your claim without the report. You must send a copy as soon as possible.

If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

Sincerely,

RE: File# SWR-454

DEAR HARVEY WILCOX,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Robert L. Hankins & Fontella A. Hankins. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

diversion point location	ORS 539.240 (2) (d) (A) "...in reference to an established corner of the US public lands survey or recorded subdivision..."
conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."
place of use (¼ ¼)	ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." You must show the acreage by ¼ ¼'s.
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,
