THIS CERTIFICATE ISSUED TO

CARNEY LANSFORD
RT. 1, BOX 66
BAKER CITY, OR 97814

confirms the right to use the waters of DRAIN TILE LINE in the SALMON CREEK BASIN for SUPPLEMENTAL IRRIGATION OF 218.6 ACRES.

This right was perfected under Permit G-10150. The date of priority is MAY 16, 1983. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 2.73 CUBIC FEET PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source.

The well is located as follows:

SE 1/4 NW 1/4, SECTION 5, T 9 S, R 39 E, W.M.; 120 FEET NORTH AND 1000 FEET WEST FROM THE CENTER 1/4 CORNER OF SECTION 5.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The right shall be limited to any deficiency in the available supply of any prior right for the same land and shall not exceed the limitation allowed herein. It shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

Dear Mr. Rudi:

REFERENCE: File G-10969 and G-8821

This is to acknowledge your letter of June 25, 1983, advising that Lines 1 and 2 were completed under your Permit G-8236 and that Line 3 and additional lines are to be completed under a permit approving your Application G-10969.

Your Application G-10969 is now in satisfactory form and will be placed with the group to be considered for approval.

Sincerely,

WAYNE J. OVERCASH

Dear Mr. Rudi:

REFERENCE: Files G-10969 and G-8821

Your Application G-10969 describing the proposed use of 3.23 cubic feet per second of water from 1 tile line with 4 branch lines for the supplemental irrigation of 258.7 acres, together with the map prepared on tracing paper, has been reviewed.

We will need additional information on the statement: "the buried tile line proposed under Permit G-8236 was not constructed" noted in the remarks section of your application. If there were no tile lines constructed under your earlier Permit G-8236, the permit should be canceled. However, if water was developed under the earlier Permit G-8236, the extent of such development should be explained.

Further action on your Application G-10969 will be withheld for a reasonable length of time pending receipt of your reply regarding the development of water under your earlier permit.

Sincerely,

WAYNE J. OVERCASH

Dear Mr. Rudi:

REFERENCE: File G-10969

We have received your application for use of water for supplemental irrigation along with supporting data and fees. Our Receipt 36491 is enclosed. Your application has been filed and assigned number G-10969.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will receive a permit shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your application is approved, the permit authorizing the project described in the application would be subject to prior rights and require that the well be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The permit would also require that a weir, meter, or other suitable measuring device be installed, if required by the Watermaster, and a log be kept recording the amount of ground water withdrawals. If you have any questions regarding these provisions or the Well Standards, please contact this office.

Sincerely,

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.23 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one tile line with four branches

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 16, 1983

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

WITNESS my hand this day of, 19.....
