**WATER RESOURCES DEPT.  
SALEM, OREGON**

In response to your letter dated November 24, 1993 regarding the subject application, the diversion point consists of a three (3) inch PVC laying in the Creek channel. The pipe is buried about 100 feet southerly of the diversions and follows southerly along the stream course until it reached the culvert under Highway 36 where it re-enters the stream bed. At this point the pipe is reduced from a three (3) inch PVC to a two (2) inch PVC and passes through the culvert. At the southerly end of the culvert, the two inch PVC is again buried and traverses a southeasterly route away from the stream to the house.

Thank you for calling these omissions to my attention.

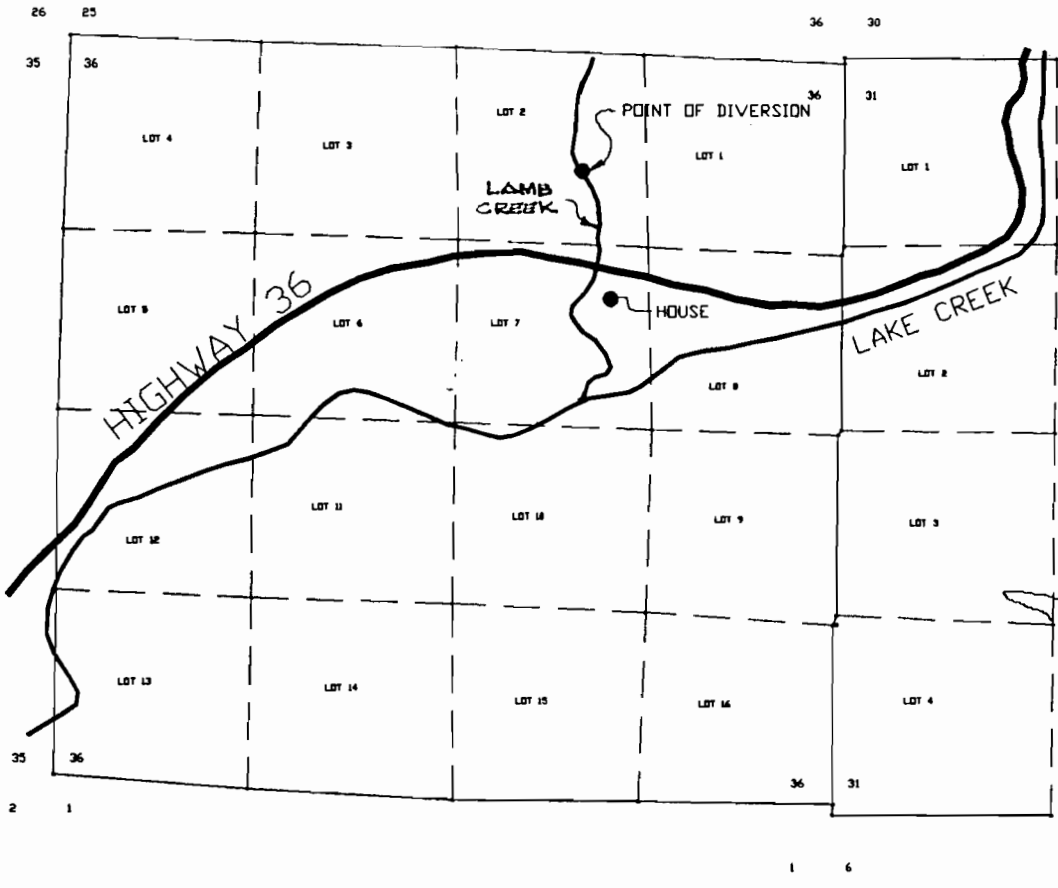

Sincerely,

STEPHEN H. FORD, INC.

according to the Official Plat of the Survey of the said Land, returned to the GENERAL LAND OFFICE by the Surveyor General: NOW KNOW YE, That there is, therefore, granted by the United States unto the said Charles C. Simmons

the tract of land above described: TO HAVE AND TO HOLD the said tract of Land, with the appurtenances thereof, unto the said Charles C. Simmons

and to his heirs and assigns forever, subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts, and also subject to the right of the proprietor of a vein or lode to extract and remove his ore therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law. And there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

IN TESTIMONY WHEREOF I, Theodore Roosevelt, President of the United States of America,

have caused these letters to be made patent, and the seal of the GENERAL LAND OFFICE to be hereunto affixed.

Given under my hand, at the City of Washington, the sixteenth day of October, in the year of our Lord one thousand nine hundred and three, and of the independence of the United States the one hundred and twenty eighth

INTEROFFICE MEMORANDUM

OREGON WATER RESOURCES DEPARTMENT

TO: Martha Pagel

FROM: Reed Marbut 

DATE: May 9, 1995

SUBJECT: Toftemark - SWR # 450

I spoke with Ms. Toftemark on the phone this a.m.

Don Knauer had spoken to Ms. Toftemark on 1/12/95 and 5/5/95. Don advised her in those calls that her SWR was in proper form and she could legally continue to use water under the Registration.

I reassured Ms. Toftemark that her SWR was on file and that she could continue to use water until the adjudication was completed, and that the actual adjudication would be completed in the local circuit court.

I explained the complexity of the adjudication process and the delay associated with the *U.S. v. OWRD* suit. I advised her that actual adjudication of the Siuslaw River and its tributaries may not be initiated for a number of years; however, in the interim her right was protected by her filed SWR. I told her she would have ample notice when the Siuslaw adjudication was started.

I gave her my name and number and asked her to call me if she had any further questions or concerns. She seemed satisfied and thanked me for the call.

I received a phone message from a woman inquiring about her surface water registration application. Will one of you (whoever is most appropriate) please return the call for me. Her name is Karen Tofkemark (sp??), application # SWR 450. If the file shows some extended history with her such that you think it is more appropriate for me to return the call myself, please let me know. Otherwise, I'd appreciate one or the other of you making the initial contact. Thanks. MOP

RE: File# SWR-450

DEAR PAULA L. NORNESS,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Viggo Toftemark. You could submit the additional information in a letter or report. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

✓ conveyance

ORS 539.120 "...the location of .... and each ditch, canal, pipeline or other means of conveying the water..."

✓ diversion point size

OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer

Dear MR TOFTEMARK,

This will acknowledge that your Surface Water Registration Statement in the name of VIGGO TOFTEMARK has been received by our office. The fees in the amount of \$400.00 have been received and our receipt #95813 is enclosed. Your registration statement has been numbered SWR-450.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.
