

WATERMASTER

WATER RIGHT PERMIT APPLICATION REVIEW

Application Number: G-19475

Applicant's Name: Spurlin Farm Inc

Evaluation of potential for injury to other water rights:

1. Would the proposed water allocation have the potential for injury to other water rights?

☐ Yes ☐ No

2. If the proposed water allocation will cause injury, can the permit be conditioned to avoid injury?

☐ Yes ☐ No ☐ N/A

If "Yes", please list conditions necessary to avoid injury:

Injury is partially determined by groundwater availability, which is evaluated by the Staff Hydrogeologist, please refer to the GW review. The Calapooia River and its tributaries are regulated in favor of instream water right C-66857 annually. A reduction in surface water flows in July-September could be injurious to surface water users.

Evaluation of appropriate Measurement, Recording and Reporting Condition:

3. Please select the measurement device(s) required for any permit issued under this application.

☒ Totalizing Flow Meter ☐ Other/None – please describe below:
☐ Staff Gage

4. Please select your recommended reporting requirement for any permit issued under this application.

Please consider site-specific information, including but not limited to potential for injury to other water rights, regulation history of the area, and level of stakeholder interest in the application.

☒ Require recording of volume of water diverted each month and require submission of a report to the Department annually.
☐ Do not require recording and reporting at this time.

5. Please provide any additional information or permit conditions that are necessary for this application:

6. Would you like to review a draft of any permit that might be issued under this application?

☐ Yes ☒ No
