The most recent extension authorized application of water to beneficial use by October 1, 2024. On December 2, 2024, the City of Aumsville submitted an application for an extension of time for Permit G-13679. In accordance with OAR 690-315-0050(2), on July 15, 2025, the Department issued a Proposed Final Order proposing to extend the time to fully apply water to beneficial use to October 1, 2059. The protest period closed August 29, 2025, in accordance with OAR 690-315-0060(1). No protest was filed.

## **FINDINGS OF FACT**

The Department adopts and incorporates by reference the findings of fact in the Proposed Final Order dated July 15, 2025.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

### **CONDITIONS**

1. **Well Construction Condition**

The City shall complete construction of an authorized well by the end of this extension of time period, being October 1, 2059. If construction of an authorized well is not completed by October 1, 2059, no future extensions of time will be authorized, and Permit G-13679, shall be canceled.

2. **Development Limitations**

No appropriation of water is currently allowed under Permit G-13679. Appropriation of any water (not to exceed the maximum amount authorized under this permit, being 0.45 cfs), shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 86 that authorizes access to a greater rate of appropriation of water under the permit consistent with OAR 690-086-0130(7). The required WMCP shall be submitted to the Department within 3 years of this Final Order. The amount of water used under Permit G-13679 must be consistent with this and subsequent WMCP's approved under OAR Chapter 690, Division 86 on file with the Department. For review of water management and conservation plans that propose to increase the maximum rate of water diverted under an Extended Permit, after January 1, 2042, that the additional diversion of water will not impair or be detrimental to the public interest (OAR 690-086-130(8)).

The Development Limitation established in the above paragraph supersedes any prior limitation of the appropriation of water under Permit G-13679 that has been established under a prior WMCP or Extension final order issued by the Department.

The deadline established in the Extension Final Order for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of the final order may also meet the WMCP submittal requirements of other Department orders.
