**RE: Public Records Request**

Dear Mr. Paul:

Our office makes the following request for public records under the INSPECTION OF PUBLIC RECORDS LAW, ORS 192.410 – 192.530. The requestor is willing to pay up to a maximum of \$100 in fees for the requested materials; however, please advise if the cost may exceed that amount. ORS 192.440(3). Otherwise, if there are any fees that occur during duplication of these materials, please enclose an invoice and our bookkeeper will pay upon receipt.

Please make the following files available for review and copying by our office on Monday, September 17, 2007: Application S-18304 (Permit S-14237), Transfer T-7926, Application G-12736 (Permit G-12134), Application G-13871 (Permit G-13015), Application S-86398 (Permit S-54331), ground water registrations GR3183, GR3184, and GR3185 and any related files. Should you have any questions, please contact Colm Moore or Katherine Thomas of this office at (503) 281-4100. Thank you for your assistance with these matters.

Oregon Water Resources Department  
Water Rights Division

Water Rights Application  
Number S-86398

**Final Order**

*Application History*

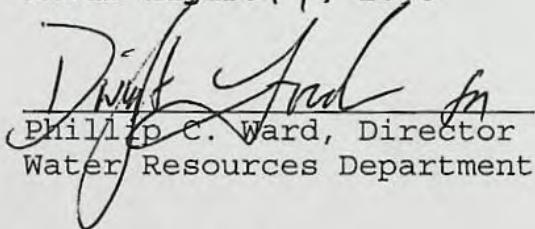

On August 10, 2005, EDWARD BUTTS submitted an application to the Department on behalf of CITY OF INDEPENDENCE for a water use permit. The Department issued a Proposed Final Order on June 6, 2006. The protest period closed July 21, 2006, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest.

**Order**

Application S-86398 therefore is approved as proposed by the Proposed Final Order, and Permit S-54331 is issued as limited by the conditions proposed by the Proposed Final Order.

**DATED August 17, 2006**

  
\_\_\_\_\_  
Phillip C. Ward, Director  
Water Resources Department

*Appeal Rights*

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the final order is not subject to judicial review.

*This document was prepared by Kerry Kavanagh. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 503-986-0816.*

*If you have previously filed a protest and want to know its status, please contact Mike Reynolds at 503-986-0820.*

*If you have other questions about the Department or any of its programs please contact our Customer Service Group at 503-986-0801.*

*Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1266, Fax: 503-986-0901.*

STATE OF OREGON

COUNTY OF POLK

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

CITY OF INDEPENDENCE  
PO BOX 7  
INDEPENDENCE, OR 97351

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-86398

SOURCE OF WATER: WILLAMETTE RIVER, A TRIBUTARY OF COLUMBIA RIVER

PURPOSE OR USE: MUNICIPAL USE

MAXIMUM RATE: 4.46 CUBIC FEET PER SECOND

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: AUGUST 10, 2005

POINT OF DIVERSION LOCATION: SW  $\frac{1}{4}$  SE  $\frac{1}{4}$ , SECTION 28, T8S, R4W, W.M.; 260 FEET NORTH & 3400 FEET EAST FROM SW CORNER, SECTION 28

THE PLACE OF USE IS LOCATED AS FOLLOWS:

WITHIN THE SERVICE BOUNDARIES OF THE CITY OF INDEPENDENCE

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter. The totalizing flow meter must be installed and maintained in good working order consistent with those standards identified in OAR 690-507-645(1) through (3). The permittee shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

B. The permittee shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

Within three years of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this time line to complete the required Water Management and Conservation Plan.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, Section 030 adopted November 13, 1991 shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

#### STANDARD CONDITIONS

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

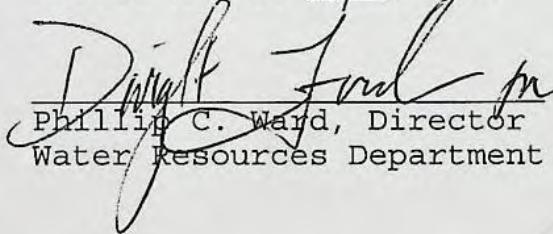

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

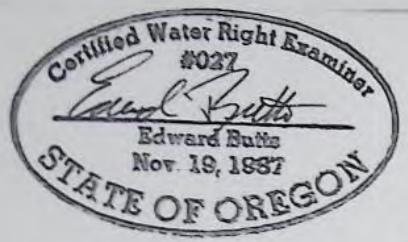

The permit holder shall commence and complete the construction of any proposed works within 20 years from the date of permit issuance. The Department may order and allow an extension of time to complete construction or to perfect a water right beyond 20 years from the date of permit issuance.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Oregon Water Resources Department  
Water Rights Division

Water Rights Application  
Number S-86398

Prior to the issuance of a permit, the Department must receive permit recording fees in the amount of \$250.00. Please include your application number on your check made out to the Oregon Water Resources Department. If this fee is not paid prior to **July 21, 2006**, issuance of a permit may be delayed.

**Proposed Final Order**

*Summary of Recommendation:* The Department recommends that the attached draft permit be issued with conditions.

*Application History*

On August 10, 2005, EDWARD BUTTS submitted an application to the Department on behalf of CITY OF INDEPENDENCE for the following water use permit:

- Amount of Water: 4.46 CUBIC FEET PER SECOND (CFS)
- Use of Water: MUNICIPAL USE
- Source of Water: WILLAMETTE RIVER, A TRIBUTARY OF COLUMBIA RIVER
- Area of Proposed Use: Polk County within THE SERVICE AREA OF THE CITY OF INDEPENDENCE.

On December 2, 2005, the Department mailed the applicant notice of its Initial Review, determining that "*The use of 4.46 cubic feet per second from Willamette River, a tributary of Columbia River for municipal use is allowable year round.*" The applicant did not notify the Department to stop processing the application within 14 days of that date.

On December 6, 2005, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

Application S-86398

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any comments received

*Findings of Fact*

The Willamette Basin Program allows MUNICIPAL USE.

Senior water rights exist on WILLAMETTE RIVER, A TRIBUTARY OF COLUMBIA RIVER, or on downstream waters.

WILLAMETTE RIVER, A TRIBUTARY OF COLUMBIA RIVER is not within or above a State Scenic Waterway.

An assessment of water availability has been completed. This assessment compared a calculation of natural streamflow minus the consumption portion of all relevant rights of record. A copy of this assessment is in the file. This assessment determined that water is available for further appropriation (at an 80 percent exceedance probability) during the full season requested.

The Department finds that the amount of water requested, 4.46 CFS, is an acceptable amount.

In accordance with OAR 690-33-330, an interagency team reviewed this proposed use for potential adverse impacts on sensitive, threatened and endangered fish populations. This team consisted of representatives from the Oregon Departments of Water Resources (WRD), Environmental Quality, Fish and Wildlife (DFW), and Agriculture. WRD and DFW representatives included both technical and field staff. The interagency team recommended that additional limitations or conditions of use be imposed on this application as follows:

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, Section 030 adopted November 13, 1991 shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter. The totalizing flow meter must be installed and maintained in good working order consistent with those standards identified in OAR 690-507-645(1) through (3). The permittee shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

*Conclusions of Law*

Under the provisions of ORS 537.153, the Department must presume that a proposed use will not impair or be detrimental to the public interest if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Willamette Basin Plan, or a preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

Application S-86398

The proposed use will not injure other water rights.

The proposed use complies with other rules of the Water Resources Commission not otherwise described above.

The proposed use complies with the State Agency Agreement for land use.

For these reasons, the required presumption has been established.

Once the required presumption has been established, under the provisions of ORS 537.153(2) it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use will impair or be detrimental to the public interest as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
  - (A) The specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected; and
  - (B) Specifically how the identified public interest would be impaired or detrimentally affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use will impair or be detrimental to the public interest.

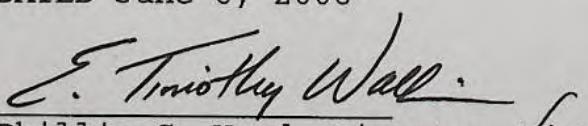

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use will not impair or be detrimental to the public interest as provided in ORS 537.170.

When issuing permits, ORS 537.211(1) authorizes the Department to include limitations and conditions which have been determined necessary to protect the public interest. The attached draft permit is conditioned accordingly.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED June 6, 2006

  
\_\_\_\_\_  
Phillip C. Ward, Director *for*  
Water Resources Department

If you have any questions,  
please check the information  
box on the last page for the  
appropriate names and  
phone numbers.

#### Protests

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for ground water), you can protest this proposed final order. Protests must be received in the Water Resources Department no later than **July 21, 2006**. Protests must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the protest fee of \$250 required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing. If you do not request a hearing, the Department will presume that you do not wish to contest the findings of the proposed final order.
- *If you do not protest this Proposed Final Order and if no substantive changes are made in the final order, you will not have an opportunity for judicial review, protest or appeal of the final order when it is issued.*

#### Requests for Standing

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for ground water), persons other than the applicant who support a proposed final order can request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order.

Requests for standing must be received in the Water Resources Department no later than July 21, 2006. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the proposed final order as issued;
- A detailed statement of how the requester would be harmed if the proposed final order is modified; and
- A standing fee of \$50.00. If a hearing is scheduled, an additional fee of \$200.00 must be submitted along with a request for intervention.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and either:

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

*This document was prepared by Kerry Kavanagh. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 503-986-0816.*

*If you have questions about how to file a protest or a request for standing, please refer to the respective sections in this Proposed Final Order entitled "Protests" and "Requests for Standing". If you have previously filed a protest and want to know its status, please contact Mike Reynolds at 503-986-0820.*

*If you have other questions about the Department or any of its programs please contact our Customer Service Group at 503-986-0801. Address all other correspondence to:*

*Water Rights Section, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1266, Fax: 503-986-0901.*

DRAFT

This is not a permit.

DRAFT

STATE OF OREGON

COUNTY OF POLK

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

CITY OF INDEPENDENCE  
PO BOX 7  
INDEPENDENCE, OR 97351

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-86398

SOURCE OF WATER: WILLAMETTE RIVER, A TRIBUTARY OF COLUMBIA RIVER

PURPOSE OR USE: MUNICIPAL USE

MAXIMUM RATE: 4.46 CUBIC FEET PER SECOND

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: AUGUST 10, 2005

POINT OF DIVERSION LOCATION:

SW  $\frac{1}{4}$  SE  $\frac{1}{4}$ , SECTION 28, T8S, R4W, W.M.; 260 FEET NORTH & 3400 FEET  
EAST FROM SW CORNER, SECTION 28

THE PLACE OF USE IS LOCATED AS FOLLOWS:

WITHIN THE SERVICE BOUNDARIES OF THE CITY OF INDEPENDENCE

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter. The totalizing flow meter must be installed and maintained in good working order consistent with those standards identified in OAR 690-507-645(1) through (3). The permittee shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

B. The permittee shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

Within three years of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this time line to complete the required Water Management and Conservation Plan.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, Section 030 adopted November 13, 1991 shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

#### STANDARD CONDITIONS

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The permit holder shall commence and complete the construction of any proposed works within 20 years from the date of permit issuance. The Department may order and allow an extension of time to complete construction or to perfect a water right beyond 20 years from the date of permit issuance.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

The purpose of this checklist is to be used as a working document by Department staff to aid in the production of the related Initial Review, Proposed Final Order, or Final Order. It is not intended to be a complete record of all factors which were considered to produce the document, nor is it intended to serve any purpose other than that stated above. The related Initial Review, Proposed Final Order, or Final Order is intended to stand alone as the record of factors considered in its production.

## ODFW DIVISION 33 APPLICATION REVIEW SHEET

Recommendations for Water Right Applications that may affect the Habitat of Sensitive, Threatened or Endangered Fish Species,  
OAR 690-33-310 through 340.

Date: 12/2/05 Please return to WRD before January 5, 2006. Application #: S-86398

Applicant's Name: EDWARD BUTTS CITY OF INDEPENDENCE

1) Will the proposed use occur in an area that may affect the essential habitat of sensitive, threatened, or endangered fish species?  
[690-33-330(1)]

Spring Chinook Salmon, Winter Steelhead

NO  YES Species: Pacific Lamprey Status: Sensitive, Threatened, Endangered

IF ANSWER TO QUESTION (1) IS YES, CONTINUE ON THIS PAGE TO QUESTION (2),

IF ANSWER IS NO, FILL OUT PUBLIC INTEREST REVIEW SHEET  (PAGE 2)What stage or value is at risk (circle all that apply): Spawning, Incubation,  Rearing,  Passage,  Habitat Value

2) Will the proposed use result in a LOSS in the essential habitat of THREATENED OR ENDANGERED SPECIES or a NET LOSS in the habitat of a SENSITIVE SPECIES?

NO  YES

A) Standard of NET LOSS applies to sensitive species statewide. [690-33-330(2)(a)]

B) Standard of LOSS applies to T or E species outside the Columbia Basin. [690-33-330(2)(b)]

3) Can conditions be applied to mitigate the impact to the essential habitat of a S, T or E species?

NO (if no go to 4)  YES [690-33-330(3)]Which conditions are recommended? fishdiv 33

(Try to select conditions from the Menu of Conditions)

4) If conditions cannot be identified to offset impacts to the essential habitat of S, T or E species, would the proposed use harm the species?

NO / YES [690-33-330(4)]

If YES, please explain:

---

---

---

5) If WRD determines that it is in the public's interest to approve a permit even if the impact cannot be mitigated what fish screening, bypass or other conditions should be included in the permit?

# WATERMASTER DIVISION 33 APPLICATION WORK SHEET

Recommendations for Water Right Applications that may affect the Habitat of Sensitive, Threatened or Endangered Fish Species,  
OAR 690-33-310 through 340.

Date: 12/2/05 Please return to WRD before January 5, 2006. Application #: S-86398

Applicant's Name: EDWARD BUTTS CITY OF INDEPENDENCE

SOURCE OF WATER:  GROUNDWATER  SURFACE WATER  STORAGE

DESCRIPTION OF THE SOURCE: Well R.  
(A spring, well, sump, exempt pond, unnamed stream, etc.)

1) If from surface water, does the water at the proposed diversion location flow above ground in a defined channel into another water body?

YES  NO  SOMETIMES

If sometimes, describe the time period, Between: \_\_\_\_\_ and \_\_\_\_\_.

2) Does the source ever go dry in the area of the proposed diversion?

YES  NO

3) To your knowledge, has the requested source of water been regulated because of insufficient flow to satisfy existing water rights including instream water rights?

YES  NO

If YES, please explain: \_\_\_\_\_  
\_\_\_\_\_

4) Do you agree with the water availability recommended period of use?

YES  NO  I DON'T KNOW

If NO, why do you disagree with the recommended period of use and what period do you recommend? \_\_\_\_\_  
\_\_\_\_\_

5) Did you meet with staff from another agency to discuss this application?

YES  NO

Who: \_\_\_\_\_ Agency: \_\_\_\_\_ Date: \_\_\_\_\_

6) Is mitigation an option?

YES  NO

If YES, please explain: \_\_\_\_\_  
\_\_\_\_\_

The purpose of this checklist is to be used as a working document by Department staff to aid in the production of the related Initial Review, Proposed Final Order, or Final Order. It is not intended to be a complete record of all factors which were considered to produce the document, nor is it intended to serve any purpose other than that stated above. The related Initial Review, Proposed Final Order, or Final Order is intended to stand alone as the record of factors considered in its production.

The Main Stem Willamette River Subbasin includes the Willamette River from Willamette Falls near river mile 27 in Oregon City to the confluence of the Middle Fork and Coast Fork Willamette south of Springfield. Stream systems which are tributary to the Willamette River main stem above Willamette Falls are included in the subbasin, except for the major tributary subbasins specified in OAR 690-502-0060 through 690-502-0150:

(1) Surface water classification:

(a) The following streams and tributaries are withdrawn from further appropriation except storage:

- (A) Second Periwinkle Creek (also known as Cox Creek and Ash Creek) and tributaries near Willamette River mile 118 at Albany are withdrawn from further appropriation by order of the State Engineer dated November 20, 1950;
- (B) Croisan Creek and tributaries near Willamette River mile 84 at Salem are withdrawn from further appropriation by order of the State Engineer dated August 4, 1950;
- (C) Pringle Creek and tributaries near Willamette River mile 84 at Salem are withdrawn from further appropriation by order of the State Engineer dated August 4, 1950;
- (D) Mill Creek and tributaries near Willamette River mile 84 at Salem are withdrawn from further appropriation by order of the State Engineer dated September 22, 1950;
- (E) An unnamed stream and tributaries flowing through Section 24, Township 6 South, Range 4 West, Willamette Meridian, a tributary to Spring Valley Creek in Section 19, Township 6 South, Range 3 West, Willamette Meridian, are withdrawn from further appropriation by order of the State Engineer dated August 18, 1950;
- (F) Corral Creek and tributaries near Willamette River mile 40 are withdrawn from further appropriation by order of the State Engineer dated August 7, 1951;
- (G) Hatlin Creek and tributaries tributary to Potter Creek near Oregon City are withdrawn from further appropriation by order of the State Engineer dated September 22, 1950.

(b) The Willamette River main stem down-stream from the west line of Donation Land Claim 55 in T11S, R4W, upstream from the mouth of the Calapooia River near Albany, except as otherwise specified in subsection (a) of this section, is classified for domestic, livestock, municipal, industrial, agricultural, commercial, power, mining, fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses;

(c) The Willamette River main stem upstream from the west line of Donation Land Claim 55 in T11S, R4W, upstream from the mouth of the Calapooia River near Albany, to the confluence of the McKenzie and Willamette Rivers, except as otherwise specified in subsection (a) of this section, is classified for domestic, livestock, municipal, industrial, agricultural, commercial, power, mining, fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses from September 1 through June 30, and only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses from July 1 through August 31;

(d) The Willamette River main stem above the confluence with the McKenzie River to the confluence of the Middle and Coast Forks of the Willamette River, except as otherwise specified in subsection (a) of this section, is classified for domestic, livestock, municipal, industrial, agricultural, commercial, power, mining, recreation, fish life, wildlife, pollution abatement, wetland enhancement and public instream uses from November 1 through June 30, and only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses from July 1 through October 31;

(e) Except as specified in subsection (1)(a) of this rule, tributaries of the Main Stem Willamette River Subbasin are classified for domestic, livestock, municipal, industrial, irrigation, agricultural, commercial, power, mining, fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses from September 1 through June 30, and only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses from July 1 through August 31.

(2) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life and to minimize pollution and of attaining the highest and best use of waters released from storage, no appropriations of water except for domestic or livestock uses or waters to be legally stored or legally released from storage shall be made or granted by any state agency or public corporation of the state for the following waters and as shown in Table 1:

- (a) The Willamette River or its tributaries above USGS Gage 14174000 (SW 1/4 Section 6, Township 11 South, Range 3 West) at Albany, Oregon, for natural flows of the Willamette River below 1,750 cubic feet per second plus waters released from storage of up to 3,140 cubic feet per second measured at the aforementioned gage;
- (b) The Willamette River or its tributaries above USGS Gage 14191000 (SW 1/4 Section 22, Township 7 South, Range 3 West) at Salem, Oregon, for natural flows of the Willamette River below 1,300 cubic feet per second plus waters released from storage of up to 4,700 cubic feet per second measured at the aforementioned gage;
- (c) The Willamette River or its tributaries above USGS Gage 14198000 (SE 1/4 Section 23, Township 3 South, Range 1 West) at Wilsonville, Oregon, for natural flows of the Willamette River below 1,250 cubic feet per second plus waters released from storage of up to 4,700 cubic feet per second measured at the aforementioned gage;
- (d) The Willamette River or its tributaries above Willamette Falls at Oregon City for natural flows of the Willamette River below 1,500 cubic feet per second plus waters released from storage of up to 4,700 cubic feet per second measured at or near said Willamette Falls and maintained to the mouth.

APPLICATION S-86398

RECEIVED

JAN 02 2006

WATER RESOURCES DEPT  
SALEM, OREGONBARGAIN AND SALE DEED

WHEREAS, GEORGIA-PACIFIC CORPORATION, a Georgia corporation, hereinafter referred to as "Grantee", is the owner of all the issued and outstanding capital stock of INMAN-POULSEN TIMBER CORPORATION, an Oregon corporation, hereinafter referred to as "Grantor", and

WHEREAS, on December 17th, 1962, Grantor delivered duplicate originals of its Statement of Intent to Dissolve to the Corporation Commissioner of the State of Oregon, and on said date the Corporation Commissioner of the State of Oregon filed said Statement of Intent to Dissolve pursuant to the provisions of ORS 57.541, and

WHEREAS, adequate provision has been made for the payment and discharge of all debts, obligations, and liabilities of Grantor, and adequate provision has been made for the satisfaction of any judgment, order or decree which may be entered against Grantor in any pending suit and under a plan of complete liquidation of Grantor, Grantee, as the owner of all the issued and outstanding shares of stock of Grantor, is entitled to distribution of all of the assets of Grantor, including the real property hereinafter described, now, therefore,

KNOW ALL MEN BY THESE PRESENTS, That Grantor does hereby grant, bargain, sell and convey unto Grantee, its successors and assigns, all of the real property and interests in real property described

in EXHIBIT A

hereto annexed and hereby

incorporated in and made a part hereof as fully as if set forth herein,  
 including the hereditaments, tenements and appurtenances thereunto  
 belonging or in anywise appertaining, together with all other real pro-  
 perty of whatsoever kind and description wheresoever situated owned by  
 Grantor on the date hereof, including, but without limitation, the sawmills,  
 plants, factories, buildings, and improvements situated on any part or  
 parcel of the real property as described in and conveyed hereby and all  
 logging truck roads, mill sites, booming grounds, log ponds and dumps,  
 bridges, rights of way, easements, water and riparian rights, reservoir  
 and reservoir sites, pipelines and all other interests in real property  
 owned by Grantor on the date hereof, it being the intention of the parties  
 hereto that all real property owned by Grantor on the date hereof shall  
 be as fully embraced herein and conveyed hereby as though such property  
 was specifically described herein, provided, however, the conveyance hereby  
 of any easement, right of way or privilege, contract to purchase, or other  
 interests which require the consent or approval of any third person is ex-  
 pressly made subject to such consent or approval and shall not become  
 operative until such consent or approval is obtained.

TO HAVE AND TO HOLD said real property unto Grantee, its  
 successors and assigns, forever.

IN WITNESS WHEREOF, Grantor has caused these presents to be  
 executed by its duly authorized officers and its corporate seal to be hereunto  
 affixed this 18th day of December, 1962.

INMAN-POULSEN TIMBER CORPORATION  
 an Oregon corporation

By Harold J. Karch  
 Vice President

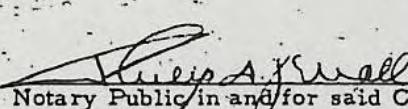

By May O. McLain  
 Secretary

STATE OF NEW YORKCounty of New York

ss

On this 19 day of December, 1962, before me, a Notary Public in and for said County and State, personally appeared the within named H. J. KANE and MARY A. McCRAVEY, to me known, who being first duly and severally sworn did say that he, said H. J. KANE is Vice President, and that she, said MARY A. McCRAVEY is Secretary of INMAN-POULSEN TIMBER CORPORATION, the corporation hereinbefore named, that the seal affixed to the foregoing instrument is the corporate seal of said corporation; that said instrument was signed and sealed in behalf of said corporation by authority of its Board of Directors; and said H. J. KANE and MARY A. McCRAVEY severally acknowledged the execution of said instrument to be the free act and deed of said corporation.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my official seal the day and year first in this my certificate above written.

  
Philip D. Ferrall  
Notary Public in and for said County  
and State

My commission expires March 30, 1964

PHILIP D. FERRALL  
Notary Public State of New York

EXHIBIT A.

Polk County, Oregon

Township 8 South, Range 4 West, Willamette Meridian

Those certain tracts of land situated in Sections 28 and 33, Township 8 South, Range 4 West, Willamette Meridian, more particularly described as follows:

PARCEL 1:

(1). Commencing at a point in the property line between the G. H. Gohres and W. H. Denlinger properties, which bears North 18 degrees 45 minutes East 1500 feet from the quarter ( $\frac{1}{4}$ ) corner of Sections 28 and 33 in Township 8 South, Range 4 West of the Willamette Meridian; thence following said property line East approximately 475 feet to the Meander Line at low water of the Willamette River, thence following said Meander Line down said Willamette River to a point in the property line of the G. H. Gohres and Verd Hill properties, thence following said property line West approximately 900 feet to a point which bears North 5 degrees 31 minutes East 1935 feet from the quarter corner of Sections 28 and 33; Township 8 South, Range 4 West of the Willamette Meridian; thence running South 9 degrees 25 $\frac{1}{2}$  minutes East 110 feet, thence running South 34 degrees 58 minutes East 490 feet to the point of beginning, all lying in the Henry Hill Donation Land Claims in Sections 28 and 33, North Range Four, West of the Willamette Meridian; and

(2). Commencing at a point in the property line between the L. R. Hill and the Homer Hill properties, which point bears North 89 degrees 39 minutes East 760 feet from the quarter ( $\frac{1}{4}$ ) corner of Sections 28 and 33 in Township 8 South, Range 4 West of the Willamette Meridian; thence following said property line North 89 degrees 39 minutes East approximately 100 feet to the Meander Line at low water of the Willamette River, thence following said Meander Line, down said river to the property line between the Homer Hill and the W. H. Denlinger properties, thence following said property line South 89 degrees 39 minutes West approximately 275 feet to a point which bears North 35 degrees East 1035 feet from the quarter corner of Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian, thence South 11 degrees 48 minutes East 865 feet to the point of beginning, all lying within the Henry Hill Donation Land Claims, in Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian.

## PARCEL 2:

Commencing at a South West corner of the Henry Hill Donation Land Claims in Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian, thence running South 4.62 feet, thence running North 89 degrees 17 minutes East 690 feet to the West line of the right-of-way of the Southern Pacific Railroad, thence running North 13 degrees 28 minutes East 51.4 feet along said right-of-way line, thence running South 89 degrees 17 minutes West 700 feet to a point in the West boundary line of the Henry Hill Donation Land Claims, thence running South 45.38 feet to a point of beginning, all lying within the Henry Hill Donation Land Claims in Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian.

## PARCEL 3:

Commencing at a point in the property line between the Homer Hill and W. H. Denlinger properties, which point bears North 35 degrees East 1035 feet from the quarter ( $\frac{1}{4}$ ) corner of Sections 28 and 33 in Township 8 South, Range 4 West of the Willamette Meridian; thence following said property line East approximately 275 feet to the Meander Line at low water of the Willamette River, thence following said Meander Line down said river to a point in the property line between the W. H. Denlinger and the G. H. Cohres properties, thence following said property line West approximately 475 feet to a point which bears North 18 degrees 45 seconds East 1500 feet from the quarter corner of Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian, thence running South 11 degrees 48 seconds East 580 feet to the point of beginning, all lying within the Henry Hill Donation Land Claims in Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian.

## PARCEL 4:

Commencing at a point in the boundary line between the Verd Hill and G. H. Cohres properties, which point bears North 5 degrees 31 $\frac{1}{2}$  seconds East 1095 feet from the quarter ( $\frac{1}{4}$ ) corner of Sections 28 and 33, in Township 8 South, Range 4 West of the Willamette Meridian; thence following said property line East approximately 900 feet to the Meander Line at low water of the Willamette River, thence following the said Meander Line of the Willamette River downstream to a point 1090 feet North of the point of beginning in the property line between the Verd Hill and the G. H. Cohres properties, thence running West approximately 1200 feet parallel to the said property line to a point 100 feet East of the East line of First Street in Hill's Addition to Independence, thence running South 9 degrees 25 $\frac{1}{2}$  seconds East 1100 feet to the point of beginning, all lying in Sections 28 and 33, Township 8 South, Range 4 West of Willamette Meridian.

## PARCEL 4 (continued)

Also an easement for right of way purposes from the east end of G Street and parallel with said G Street extended to the west boundary of the property described in the foregoing paragraph:

Together, also, with the right to acquire an easement to use the inner channel of the Willamette River from the north line of the first above described property north to a line parallel to and 1206 feet north of the north line of I Street in Hill's Addition to Independence, and east thereof to the main channel of the Willamette River as a booming ground for the rafting and storage of logs, together with the right to dredge, establish and maintain said inner channel as may be necessary to provide an adequate, practical and convenient booming ground and to use the gravel which may be removed therefrom for the purpose of constructing and maintaining a road grade and ballast the same from the river to a connection with the Valley & Siletz Railroad; also

(1) Commencing at a point in the boundary line between the L. R. Hill and the Homer Hill properties, which point bears North 89 degrees 39 seconds East 760 feet from the quarter ( $\frac{1}{4}$ ) corner of Sections 28 and 33 in Township 8 South, Range 4 West of the Willamette Meridian, thence running South 7 degrees 34 seconds East 25 feet, thence running South 82 degrees 26 seconds West 5 feet, thence following the arch of the curve to the right, of a radius equal to 423.34 feet and central angle 78 degrees 29 seconds, thence running South 19 degrees 5 seconds East 30 feet, thence following the arch of the curve to the right, of a radius equal to 453.34 feet and central angle equaling 14 degrees 51 seconds to the East right-of-way line of the Albany Independence Highway, thence following the said highway right-of-way line South 20 degrees 35 seconds East to an intersection with the South property line of the L. R. Hill property, thence following the arch of the curve left of radius equal to 503.34 feet and central angle of 14 degrees 5 seconds, thence South 19 degrees 5 seconds East 30 feet, thence following a curve to the left of a radius equal to 533.34 feet and central angle equaling 61 degrees 43 seconds to the Meander Line at low water of the Willamette River, thence following said Meander Line down said river to a point in the boundary line between the L. R. Hill and the Homer Hill properties, thence following said boundary line South 89 degrees 39 seconds West, approximately 100 feet to the point of beginning, and

(2) Commencing at an iron pipe where the West right-of-way line of the Albany Independence Highway intersects the boundary line between the Verd Hill and the L. R. Hill properties, which bears South 29 degrees 30 seconds East 670 feet from the quarter corner of Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian, thence following said boundary line South 89 degrees 17 seconds West 1652 feet to a point in the East right-of-way line of the Southern Pacific Railway, thence

PARCEL 4 (continued)

running North 13 degrees 28 seconds East 51.4 feet along the said right-of-way line, thence North 89 degrees 17 seconds East 1619 feet to the West right-of-way line of the Albany Independence Highway, thence southeasterly along said right-of-way line to the point of beginning, being a strip of land 50 feet in width along the South side of the L. R. Hill property, between the highway and the Southern Pacific Railroad right-of-way in Sections 28 and 33, Township 8 South, Range 4 West of the Willamette Meridian.

Township 8 South, Range 8 West, Willamette Meridian

DEED

THE STATE OF OREGON, acting by and through the State Parks and Recreation Commission on behalf of the STATE PARKS AND RECREATION DEPARTMENT, Grantor, for true and actual consideration does convey unto the City of Independence, Grantee, the following described real property on Exhibit "A" attached hereto and by this reference made a part hereof.

This conveyance is made and delivered upon the following express conditions, reservations and restrictions:

1. Subject to special assessments, existing restrictions, reservations and easements of record, if any.
2. It is understood that if the property described on attached Exhibit "A" or any portion thereof is used other than for public recreation purposes, all rights to the property or portions thereof used other than for public recreation purposes shall automatically revert to and vest in Grantor.
3. Subject to compliance with Section 6(f)3 of the Land and Water Conservation Fund Act.

THIS INSTRUMENT WILL NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY APPROVED USES AND TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES AS DEFINED IN ORS 30.930.

Until a change is requested, all tax statements are to be sent to the following address:

P.O. Box 7  
Independence, Oregon 97351

RE: City of Independence-Application S-86398

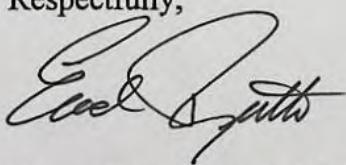

Dear Mr. Gainey,

Pursuant to your letter of October 31, 2005, and acting on behalf of the City of Independence, I wish to comply with your request to provide the estimated number of years that will be required to commence and complete construction of the intake and treatment facility from the date of permit issuance.

The water requested under this application is based on a projection of additional potable water supplies outlined in the city's current Water System Master Plan to be needed within the next 20 years and is forecast to be required to supplement current water supplies as system demand and growth dictates. Specific planning and funding for this project is not currently in place and, depending on the actual rate of city growth, is presently expected to occur between of Years 2010-2025. Based on this scenario, we request a period of time not to exceed twenty (20) years from the date of issuance of the permit to commence and complete construction of this facility.

Thank you for your consideration in this matter and please let me know if I can be of additional service.

Respectfully,

Edward Butts, PE, DEE, CWRE

Dear Applicant:

**THIS IS NOT A PERMIT AND IS  
SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.**

This letter is to inform you of the preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

**Initial Review Determinations:**

1. The proposed use is not prohibited by law or rule except where otherwise noted below.
2. The use of water from Willamette River, a tributary of Columbia River for municipal use is **allowable** under OAR 690-502, the Willamette Basin Program.
3. Water in the amount of 4.46 cubic feet per second for municipal use is **available** year round.
4. The Department has determined there are deficiencies with the application. Please refer to the **Additional Information Required** section below for specific information.

**Summary of Initial Determinations**

**The use of 4.46 cubic feet per second from Willamette River, a tributary of Columbia River for municipal use is allowable year round.**

Because of these favorable determinations, the Department can now move your application to the next phase of the water rights application review process. This phase is where public interest factors will be evaluated.

**Additional Information Required:**

Additional information is required to process your application. Please provide the following:

- Please provide the Department with a copy of the legal description of the property where the point of diversion is located. A legal description is a description of a specific parcel of real estate which often uses one of the following methods; government survey metes and bounds, aliquot parts, subdivision block and lot numbers, or a combination of these. It is often found on a deed, land sales contract, or title insurance policy. OAR 690-310-0040(1)(a)(I) requires the legal description of the property from which the water is to be diverted, any property crossed by the proposed ditch, canal or other work, and any property on which the water is to be used as depicted on the map.

**Please submit this information no later than Thursday, January 5, 2006.** If you are unable to submit the information listed above, you may request an administrative hold for up to an additional 180 days. You must submit the request in writing, stating how much more time you will need and why you need additional time. If an administrative hold is granted, your application will not be processed further until the requested information is received or the extended deadline has passed.

If we do not receive the item requested above or a request for an administrative hold by this date, the Department will proceed with a Proposed Final Order recommending denial of the application.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

**To Proceed With Your Application:**

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Friday, December 16, 2005**. For your convenience you may use the enclosed "STOP PROCESSING" form.

If A Permit Is Issued It Will Likely Include The Following Conditions:

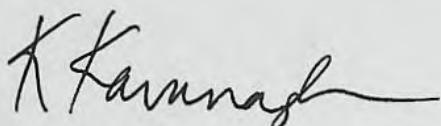

1. Measurement, recording and reporting conditions:
  - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
  - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
2. The priority date for this application is August 10, 2005.
3. You may be required to install fish screens at the diversion to meet Oregon Department of Fish and Wildlife specifications for adequate protection of aquatic life.
4. If the riparian area is disturbed in the process of developing a point of diversion, the water user shall be responsible for restoration and enhancement of such riparian area.
5. Within three years of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this time line to complete the required Water Management and Conservation Plan.

The water source identified in your application may be affected by an Agricultural Water Quality Management Area Plan. These plans are developed by the Oregon Department of Agriculture (ODA) with the cooperation of local landowners and other interested stakeholders, and help to ensure that current and new appropriations of water are done in a way that does not adversely harm the environment. You are encouraged to explore ODA's Water Quality Program web site at [http://www.oda.state.or.us/nrd/water\\_quality/index.html](http://www.oda.state.or.us/nrd/water_quality/index.html) to learn more about the plans and how they may affect your proposed water use.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our customer service staff at 503-986-0801. Feel free to call me at 503-986-0816 if you have any questions regarding the contents of this letter. Please have your application number available if you call. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1271, Fax: 503-986-0901.

Sincerely,

Kerry Kavanagh  
Water Right Application Caseworker

Dear Mr. Butts:

The Department is currently in the process of reviewing your application for a permit to use water for municipal use. House Bill 3038 (HB3038), which became effective on June 29, 2005, amended ORS 537.230 and ORS 537.630 to provide the applicant of a permit for a municipal water use a maximum of 20 years to commence and complete construction of proposed works. In order to comply with HB3038, please submit the following:

- a statement providing the number of years (not to exceed 20 years) you need to commence and complete construction from the date of permit issuance.

**Please submit this information no later than December 30, 2005.**

If you request more than 20 years to complete construction, the Department will likely recommend denial of your application.

Should you have any questions regarding your application, please call me at (503) 986-0816.

Sincerely,

Kerry Kavanagh  
Water Right Application Caseworker

Thank you for sharing the materials on applications S 86398 & S 86399 for the City of Independence & City of Monmouth. Given the size of the project, potential growth in the area, status of several fish species in the Willamette System and other regional water supply efforts in Polk County, it is recommended that any proposed final order be **conditioned to have a water management and conservation plan within three years of issuance of the permit**. Extensions of time on this condition should be allowed upon approval of the Director.

Please add Gene Clemens to the contact list for these applications.

\* Optional information

For Department Use

App. No. 586398

Permit No. \_\_\_\_\_

Date \_\_\_\_\_

## 2. SOURCE AND PROPERTY OWNERSHIP

### **A. The Proposed Source of Water**

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Willamette River Tributary to: Columbia River

Source 2: \_\_\_\_\_ Tributary to: \_\_\_\_\_

Source 3: \_\_\_\_\_ Tributary to: \_\_\_\_\_

Source 4: \_\_\_\_\_ Tributary to: \_\_\_\_\_

### **B. Property Ownership**

Do you own all the land where you propose to divert, transport, and use water?

Yes (Skip to section 3 "Water Use.")

No (Please check the appropriate box below.) *(POD land owned by applicant)*

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

*This application is for a joint water development project with City of Monmouth. See Attached Application Map for Details*

*Point of diversion will occur on property owned and controlled by the City of Independence*

## 3. WATER USE

*Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.*

### **A. Type(s) of Use(s)**

*See list of beneficial uses provided in the instructions.*

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: \_\_\_\_\_
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

**RECEIVED**

AUG 10 2005

WATER RESOURCES DEPT  
SALEM, OREGON

**B. Amount of Water**

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

Source	Type of use	Amount
Willamette River	Municipal	2000 <input type="checkbox"/> cfs <input checked="" type="checkbox"/> gpm <input type="checkbox"/> af
RECEIVED		<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
AUG 10 2005		<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
WATER RESOURCES DEPT SALEM, OREGON		<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af

**C. Period of Use**

Indicate the time of year you propose to use the water: Year Round  
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

**D. Acreage**

If you will be applying water to land, indicate the total number of acres where water will be applied or used: NA  
(This number should be consistent with your application map.)

#### 4. WATER MANAGEMENT

**A. Diversion**

What method will you use to divert water from the source?

Pump (give horsepower and pump type): Raw Water Inft Pump = Vertical Turbine  
 Head-gate (give dimensions): Approx. HP = 75 HP  
 Other means (describe): \_\_\_\_\_

**B. Monitoring**

How will you monitor your diversion to be sure you are within the limits of your water right (allowed rate and duty) and you are not wasting water?

Weir  Meter  Periodic Sampling  
 Other means (describe): \_\_\_\_\_

**C. Transport**

How will you transport water to your place of use?

Ditch or canal (give average width and depth):

Width \_\_\_\_\_ Depth \_\_\_\_\_

Is the ditch or canal to be lined?  Yes  No

Pipe (give diameter and total length):

Diameter 16" Length Approx. 3000'

Other (describe) \_\_\_\_\_

**D. Application/Distribution Method**

What equipment will you use to apply water to your place of use? Booster pumping

equipment will deliver water to city customers from treatment facilities

Irrigation or land application method (check all that apply):

<input type="checkbox"/> Flood	<input type="checkbox"/> High-pressure sprinkler	<input type="checkbox"/> Low pressure sprinkler
<input type="checkbox"/> Drip	<input type="checkbox"/> Water cannons	<input type="checkbox"/> Center pivot system
<input type="checkbox"/> Hand lines	<input type="checkbox"/> Wheel lines	
<input type="checkbox"/> Siphon tubes or gated pipe with furrows		
<input type="checkbox"/> Other, describe <u>NA</u>		

Distribution method

Direct pipe from source  In-line storage (tank or pond)  Open canal

**E. Conservation**

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

City will perform an aggressive leak detection & correction survey/program & develop a Water Conservation & Management Plan with the overall goal to lower water losses to 10%-15%.

## 5. RESOURCE PROTECTION

**A. Protection Practices**

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions: Primary screening will consist of self-cleaning screens sized to maintain an average approach velocity of less than .5 FPS to prevent fish impingement

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions: The pump station will be set back from the actual intake and all excavation performed for inlet piping will be restored and banks rip-rapped.

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe: As indicated above, primary screening will be sized and located to avoid damage to aquatic life.

Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe: There will be no chemicals or filter backwash facilities present at the raw water pump station, therefore, the risk of run-off is minimal.

Other: \_\_\_\_\_

RECEIVED

AUG 10 2005

WATER RESOURCES DEPT  
SALEM, OREGON

#### 6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: January 1, 2009

Proposed date construction will be completed: July 1, 2010

Proposed date beneficial water use will begin: January 1, 2011

#### 7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

If adequate live flow from the Willamette River is not available year-round the City may consider pursuing a contract to purchase stored water from the Willamette Project. This application is submitted as a joint project with the City of Monmouth.

#### 8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

#### 9. SIGNATURE

RECEIVED

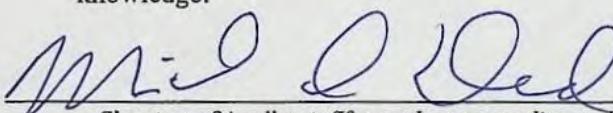

AUG 10 2005

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

WATER RESOURCES DEPT  
SALEM, OREGON

I swear that all information provided in this application is true and correct to the best of my knowledge:

7-25-2005

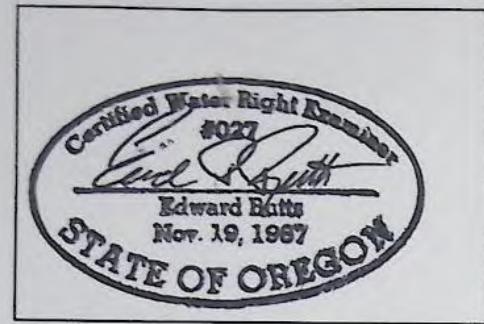

Signature of Applicant (If more than one applicant, all must sign.)

Date

Public Works Director

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at [www.wrd.state.or.us](http://www.wrd.state.or.us) or call (503) 986-0900.

Water Use

Average yearly demand: 745.97 AFY Year: 2003-04

Per-capita daily consumption (in gallons): 92.9 GPCD

(Divide average annual water sales by population to arrive at consumption, then divide by 365 to get daily values.)

Peak season (by month/day): June 1 to Sept 30 Total peak season demand: 350 Acre-feet

Peak season per-capita daily consumption: 130 GPCD (122 days)  
(Divide total peak season demand by population and the number of days during the peak.)

Annual amount of water:

produced: 338.0 MG (1037.47 Ac. Ft.)  
(diverted or pumped)

delivered: 243.033 MG (745.96 Ac. Ft.)

Is your system fully metered?  Yes  No

Describe your rate structure: Increasing Block Rate  
(e.g. flat rate, increasing or decreasing block rate or combination of different systems)

## Request for Water

A. Discuss the reason(s) for your request for additional water

(e.g. loss of current supply, peak demand, growth, or other): Additional water beyond current groundwater supply is required due to projected growth and decline of current groundwater sources

B. How long is the amount of water requested in this application expected to meet future needs?

(e.g. until the year 2040) At current population growth projections until 2030

C. Briefly discuss operation of water system and the most constraining component of the system:

Current water system utilizes groundwater sources exclusively from 8 wells at 2 sites. Wells deliver water to reservoirs and is repumped to the system with booster pumps (see drawing). Primary constraint is a limit to additional groundwater

D. Percentage of water use by type:

Residential: 84.4%

Commercial: 12.3%

RECEIVED

Public Authority: 0%

Agricultural: 0%

AUG 10 2005

Unaccounted for use: 0%

Industrial: 3.3%

Other (specify use):

WATER RESOURCES DEPT  
SALEM, OREGON

E. List cost to implement proposed request.

Compare cost and benefits with other water supply, or combination of supply options. This should include water efficiency measures such as replacing current showerheads with low-flow types. (Attach documentation, as available.)

Due to a severe limitation of additional groundwater supplies, future growth will need to be accommodated from filtered surface water supplies. Estimated cost of new facilities ≈ \$5,000,000 (Total for both cities). See Below

F. How and by how much will your proposed water use efficiency programs increase efficiency?

(Express as a percentage of per-capita consumption.)

The city will perform a detailed leak survey to ascertain the location of leakage and repair found leaks. The city will also prepare a Water Conservation and Management Plan which will address water conservation methods and implement recommendations for increased water use efficiency. The goal is to lower current water losses from 28% to between 10%-15%.

Last revision: April 9, 1996

**For Local Government Use Only**

*The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.*

**— A. Allowed Use**

Check the appropriate box below and provide requested information.

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 127.020(E)(P). Go to section B "Approval" below.

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not being pursued

**Note:** Please attach documentation of applicable local land use approvals which have already been obtained.  
(Record of Action/land use decision and accompanying findings are sufficient.)

**— B. Approval**

Please provide printed name and written signature.

Name: Autumn Hillebrand Date: 8-5-05  
Title: OSIF Phone: 503-623-9237  
Signature: Autumn Hillebrand

**— C. Additional Comments**

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

**RECEIVED**

AUG 10 2005

WATER RESOURCES DEPT  
SALEM, OREGON

**Note:** If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

**Receipt for Request for Land Use Information**

Name of applicant: \_\_\_\_\_

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included with the application filed with the Water Resources Department if the local government cannot provide the requested land use information while the applicant waits.

City or County: \_\_\_\_\_

Staff contact: \_\_\_\_\_ Phone: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Oregon Water Resources Department  
Land Use Information Form**

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. WRD will use this and other information to evaluate the water use application. THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water right transfer, allocation of conserved water, or exchange and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm use zone.

**To Be Completed By Applicant**

This section must be completed by the individual or group that is filing an application with the Water Resources Department. Attach a copy of the map from the application to this form.

**A. Applicant**

Name: City of Independence

Address: PO Box 7

City: Independence State: OR Zip: 97351 Day Phone: 503-838-1212

**B. Land and Location**

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)	Proposed Land Use
