File No.

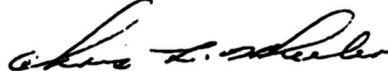

Dear Mr. & Mrs. Reed:

Enclosed is the final proof in connection with
the incomplete water right represented by your permit
number ~~6-4645~~.

The data contained in the proof, which is based
on an inspection and survey of your project made by a
representative of this department, defines the extent to
which your water right has been completed within the terms
of your permit. The proof should be dated and signed by
you and returned to this office.

Upon receipt of the proof, properly executed
and accompanied by the statutory recording fee of \$1.50,
a certificate of water right will be issued confirming
the right thereunder and, after being recorded in the
county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir and Madam:

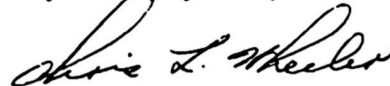

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-4645.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. Hendrix:

This will acknowledge an application for a permit to construct a reservoir and store 1.5 acre foot therein from Cold Spring Creek for irrigation, supplemental irrigation, and fish culture, a small dam data sheet and the fee of \$20 for which our receipt No. 21433 is enclosed. This application has been filed and numbered R-47680.

Also acknowledged is an application for a permit to appropriate 0.11 cubic foot per second from Cold Spring Creek and Reservoir for the irrigation and supplemental irrigation of 5.0 acres, fish culture, legal description, map, and the fee of \$30 for which our receipt No. 21434 is enclosed. This application has been filed and numbered 47681.

Enclosed is a copy of the map submitted with application No. G-4979. These 4.0 acres designated as supplemental irrigation on the application map does not include all of the land designated as 4.0 acres of irrigation from the well. Is the entire 4.0 acres to be supplemented from the reservoir? If so, the map should be in agreement with that submitted with the earlier application.

Are hydraulic engineer indicates that the spillway described on the small dam data sheet is not adequate to pass the anticipated fifty-year flood. If the depth of 2.5 feet is to be maintained, a bottom width of 12 feet is recommended.

I am returning both applications, small dam data sheet, the map and print for correction, endorsed so that in order to retain their priority dates, they must be returned to this office on or before January 18, 1971.
