Dear Sir: I have the inclosed card. I think that your files will show that last winter I submitted my proof for domestic purposes and at the same time ask for an extension of time in which to apply the water for irrigation and which extension was granted. Later I wrote you that I had decided not to try to appropriate the water for irrigation and ask you to issue the certificate for domestic use only. In answer to this you said the Water Master would make the examination. This examination is not hard to make as a pipe line runs from the spring to the Highway. Hope it can be adjusted soon.

Yours truly

H. B. McAllister

Dear Sir:

In reply to your letter of November 15th I am enclosing herewith a copy of a letter dated February 9, 1926, by G. Q. McAllister, which is self-explanatory.

I might also add that in answer to question number twelve of the proof the following appears: "The water is pumped from the point of appropriation through a pipe line to the above point of use and is used for domestic purposes only, the right to the use of the water for irrigation having been waived as stated in a former communication."

In accordance with your request I am enclosing an abstract of Permit No. 6164, in the name of G. S. Sloan

I believe that Mr. McAllister's certificate is alright as issued, and am therefore returning the same herewith for recording.

Dear Sir:-

Enclosed please find my official receipt No. 8960 for \$9.50, which amount was transmitted with your letter of December 28th and your application for permit to appropriate water. I am also in receipt of two maps. This application has been numbered 8226 and placed on file and will be taken up for approval as soon as the same can be reached and you will be further advised.

No recent filing has been made on any water in Tp. 40 S R 2 E.

I note the application states the water is not tributary to any stream. If at any time of the season the water would be tributary to Emigrant or Bear Creek, rights that were initiated prior to Feb. 24, 1909, should be claimed under the adjudication, but I do not have the name of the appropriator. It is impossible to determine whether water rights have been recognized under the adjudication.
