Don Knauer
Adjudication Specialist
Water Resources Dept.
3850 Portland Rd NE
Salem, Or 97310

Dear Don

Enclosed are the following corrected maps:

- (1) Arita and Arlo Harwood SWR 542. I added the 1/16 lines and showed the location of the house.
- (2) Jane Muffett SWR 540 and SWR 539. I added the 1/16 lines.
- (3) Marcella Dailey SWR 452. I showed the location of the house.
- (4) Robert and Fontella Hankins SWR 454. These questions all concern the claimed use of irrigation. Mr. Hankins claims that there was irrigation of 5 acres of potatoe fields prior to 1909 and showed me where he thought it had been. As I explained in my final proof report there is currently no irrigation at this time and no sign that there has been in the near past. There is currently no point of diversion, no conveyance system and only an estimate of the original place of use. I have changed the hatchuring on the map to a dashed line to indicate that the irrigation is not a current use. If you have any questions about this I can be reached at 759-4467 or 267-2872.

Sincerely

Harvey Wilcox
Harvey Wilcox

PS: The Benson Creek Stock map is in their possession and I have asked them to send it to you. Also I am no longer an employee of Stuntzner Engineering. I have started my own business called Wilcox Land and Forestry Services, 759-4467, 3190 N. Lake Rd Lakeside, Or 97449. I can also be reached at Stuntzner Engineering as I finish up work that I have started for them.

CLAIM OF BENEFICIAL USE AND SITE REPORT FOR PRE 1909 VESTED
WATER RIGHTS.

FILED - 4 1933

INFORMATION:

THE PERMITEE IS ARITA AND ARLO HARWOOD. I TALKED TO ARITA AND ARLO ON THE SITE. THEY SHOWED ME THE GRAVITY SYSTEM THAT SUPPLIES THERE DOMESTIC NEEDS AND ALL THE PLACES WHERE THERE STOCK WATERS FROM THE VARIOUS CREEKS ON THEIR PROPERTY.

ADDRESS:

ARITA AND ARLO HARWOOD
315 BIG CR. ROAD
LAKESIDE, OREGON 97449

SOURCE:

THE SOURCE FOR THE DOMESTIC WATER IS A SPRING AT THE HEAD OF AN UNNAMED STREAM. THE SOURCE FOR THE STOCK WATERING INCLUDES 5 UNNAMED STREAMS, CARLSON CREEK AND BIG CREEK.

DIVERSION POINT:

THE DIVERSION POINT FOR THE DOMESTIC USE IS UNDER GROUND AND CANNOT BE SEEN. NEITHER ARITA OR ARLO KNEW THE EXACT LOCATION OR DESCRIPTION OF THE UNDERGROUND COLLECTION SYSTEM. THERE IS A 4'X4'X2' PLASTIC LINED WOOD BOX THAT SERVES AS A SETTLEMENT TANK. THE WATER FLOWS INTO THIS BOX FROM A BURIED 2" IRON PIPE. THE LOCATION OF THE DIVERSION POINT IS TO THIS SETTLEMENT TANK. THERE IS A STOCK WATERING TANK BELOW THE HOUSE THAT DIVERTS WATER FROM A SMALL SEEP BELOW THEIR DRIVEWAY AND DIRECTLY INTO A TANK. THERE IS INSTREAM STOCK WATERING FROM 5 UNNAMED STREAMS, CARLSON CREEK AND BIG CREEK.

MOTOR/PUMP:

THIS IS A GRAVITY SYSTEM.

PIPE

THERE IS 200' OF 1 1/4" PLASTIC PIPE WHICH REDUCES TO 1" FOR 600' WHICH REDUCES TO 3/4" FOR 400' WHICH REDUCES TO A TEMPORARY GARDEN HOSE FOR 100' TO THE HOUSE. THERE IS ALSO 300' OF TEMPORARY GARDEN HOSE FROM TH HOUSE TO THE BARN. THERE ARE STOCK WATERING TANKS AT THE BARN, NEAR THE HOUSE AND BELOW THE HOUSE AS SHOWN ON THE MAP.

HEADS

IRRIGATION OF LAWN AND GARDEN IS ACCOMPLISHED WITH A STANDARD 5/8" GARDEN HOSE AND WAVE SPINKLER.

USES

THE WATER IS BEING USED FOR DOMESTIC HOUSEHOLD USE INCLUDING IRRIGATION OF LESS THAN 1/2 ACRE OF LAWN AND GARDEN. IT IS ALSO USED FOR STOCK WATERING BOTH INSTREAM AND FROM TANKS. THE TANKS ARE AS SHOWN ON THE MAP.

LIFT

THE SETTLEMENT TANK I 250' ABOVE THE HOUSE AND J 170' ABOVE THE BARN AS MEASURED BY ALTIMETER. I TRIED TO MEASURE THE PRESSURE BUT IT WAS HIGHER THAN THE 100PSI MAX THAT MY GAUGE WILL READ. THE PRESSURE AT THE HOUSE CALCULATES TO 108 PSI AND THE PRESSURE AT THE BARN CALCULATES TO 74 PSI.

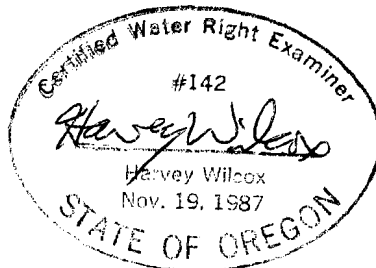

CALCULATIONS

SEE THE ATTACHED CALCULATION SHEET AND NOMOGRAPH. THE SYSTEM CAPABILITY IS A MINIMUM OF .017 CFS AT THE HOUSE AND A MINIMUM OF .0085 CFS AT THE BARN. THERE ARE PRESENTLY 38 CATTLE AND 22 HORSES ON THE RANCH. THE OWNERS STATED THAT THE HIGHEST NUMBER OF STOCK THAT THEY RUN IS 70 CATTLE AND 40 HORSES. AT 15 GAL PER DAY FOR CATTLE AND HORSES THIS GIVES 1650 GALLONS PER DAY.

SURVEY TIE

IN 1991 I DID A SURVEY THAT TIED MOST OF THE CORNERS IN SECTION 2. I TIED THE SETTLEMENT TANK INTO MY OLD CONTROL AND CALCULATED THE POSITION OF THE TANK IN RELATION TO THE 1/4 CORNER BETWEEN SECTIONS 2 AND 3. THE TANK BEARS S19 DEG 20'E 1225' FROM THE 1/4 CORNER. THE BASIS OF BEARINGS IS SOLAR AS PER MY SURVEY OF SECTION 2.

THE PRE 1909 VESTED WATER RIGHTS SURVEY AND INSPECTION OF THE USE AS FOUND TO BE COMPLETED UNDER THE CONDITIONS AND TERMS OF PRE 1909 WATER RIGHTS WAS COMPLETED BY ME ON DEC. 24, 1992. THE FACTS CONTAINED ON THIS REPORT ARE CORRECT TO THE BEST OF MY KNOWLEDGE.

WE, ARITA AND ARLO HARWOOD, AGREE TO THE FINDINGS OF THE CWRE AND DO SUBMIT THIS SITE REPORT AND MAP AS OUR CLAIM OF BENEFICIAL USE OF THE WATER AS PROVIDED UNDER THE TERMS AND CONDITIONS OF PRE 1909 VESTED WATER RIGHTS.

WATER RESOURCES
SALEM, OREGON

Calculations

The pressure was too high for me to measure so I calculated it as follows

$$\text{House} - 250\text{ft} \quad \frac{62.4 \text{ lb}}{\text{ft}^3} \quad \frac{1\text{ft}^2}{144\text{in}^2} = 108 \text{ PSI}$$

$$\text{Barn} - 170\text{ft} \quad \frac{62.4 \text{ lb}}{\text{ft}^3} \quad \frac{1\text{ft}^2}{144\text{in}^2} = 74 \text{ PSI}$$

I used the enclosed nomograph to figure the system capacity

House - 1300 ft gives 8.3 psi per 100' of line
I used 3/4" pipe to get a minimum of .017 CFS

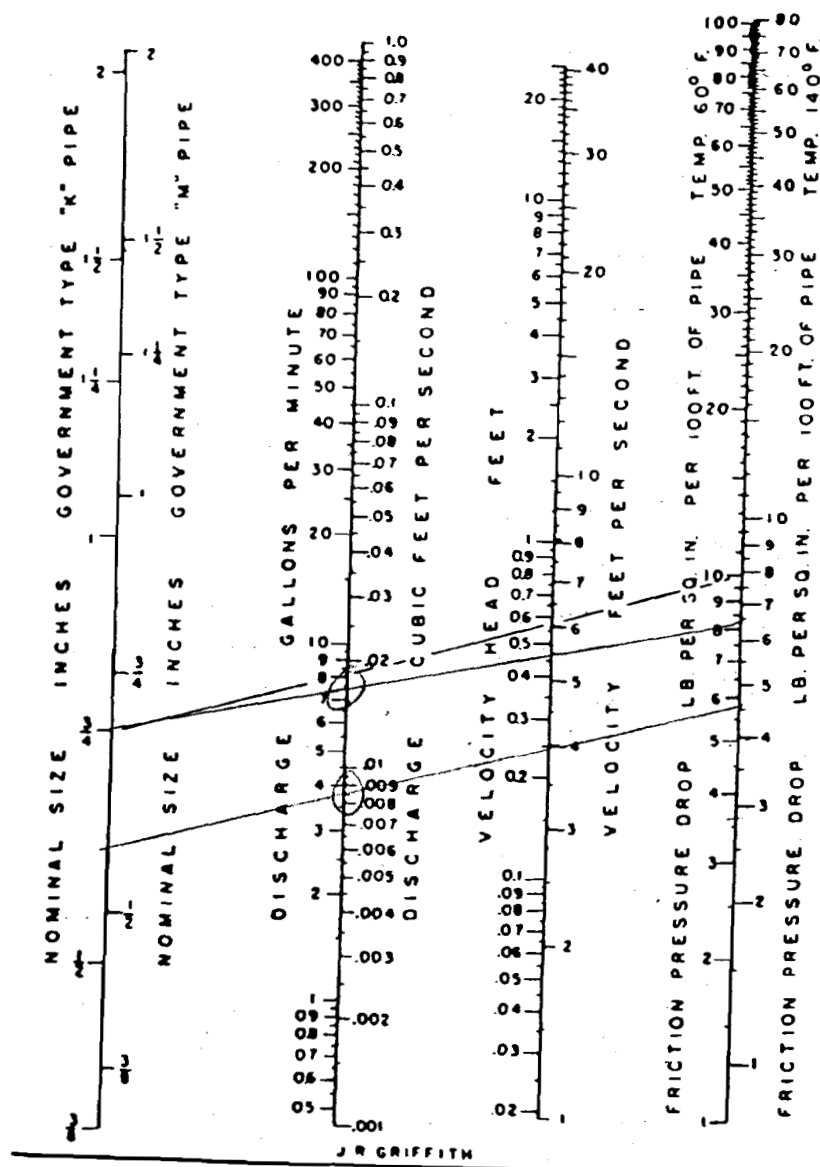

Barn - 1600 ft gives 4.6 psi per 100' of line
I used 5/8" pipe to get a minimum of .0085 CFS

STOCK -

presently 38 cattle and 22 horses
highest 70 cattle and 40 horses

$$70 + 40 = 110 \times 15 \text{ gal/day} = \text{1650 gal/day}$$

FLOW OF WATER IN COPPER & BRASS PIPES

Flow of Water in Small Pipes

3/4 to 2-in. diam.

THERE have been numerous nomographic charts published for the flow of water in pipes, including four of my own. However, I have not previously seen one applicable to pipes in the smaller size ranges.

The accompanying chart is based on tabular data published by the Bridgeport Brass Co.* Being applicable to the flow of water at temperatures both 60 deg. F. and 140 deg. F., it should be convenient in the design of building and boiler installations. It would be applicable to pipes of other material of corresponding smoothness with care being taken for corrosive waters.

Government types "K" and "M" have been included, the difference being in the wall thickness and internal diameter. The following table indicates the difference for the included sizes:

Nominal Size	Outside Dia., In.	Wall Thickness, In. Type "K"	Type "M"
3/4	.500	.049	.025
1/2	.625	.049	.028
3/4	.875	.065	.032
1	1.125	.065	.035
1 1/4	1.375	.065	.042
1 1/2	1.625	.072	.049
2	2.125	.083	.058

A single straight line intersecting all scales is necessary for a solution of this chart. Any two known, or assumed, values will determine the direction of the solution line. A solution line has been drawn for the following problem:

Required to determine the discharge of water at 60 deg. F. in 3/4-in. Government type "K" copper tube for a total pressure

drop of 20 lb. per sq. in. for a 200-ft. run of pipe.

$$\text{Pressure drop} = \frac{20}{2} = 10 \text{ lb. per sq. in. per 100 ft.}$$

A line has been drawn between the pipe size and this pressure drop. The following information is then obtained from the other scales:

$$\begin{aligned} \text{Discharge} &= 8.2 \text{ gal. per min.} \\ \text{Discharge} &= 0.018 \text{ cu. ft. per sec.} \\ \text{Velocity} &= 6.1 \text{ ft. per sec.} \\ \text{Velocity head} &= 0.57 \text{ ft.} \end{aligned}$$

Pressure loss for same pipe but water at 140 deg. F. would be 7.9 lb. per sq. in. for 100 ft. of pipe.

From the tables,* Discharge = 8.2 gal. per min.

$$\text{Discharge} = \frac{8.2}{448.83} = 0.0183 \text{ cu. ft. per sec.}$$

$$\begin{aligned} \text{Area of } 3/4\text{-in. type "K" pipe} \\ A = \frac{3.1416[0.875 - 2(0.065)]^2}{4} = 0.436 \text{ sq. in.} \end{aligned}$$

$$\text{Area} = \frac{0.436}{144} = 0.00303 \text{ sq. ft.}$$

$$\text{Vel.} = \frac{\text{Discharge}}{\text{Area}} = \frac{0.0183}{0.00303} = 6.04 \text{ sec. ft.}$$

$$\text{Velocity head} = \frac{V^2}{2g} = \frac{6.04^2}{64.4} = 0.57 \text{ ft.}$$

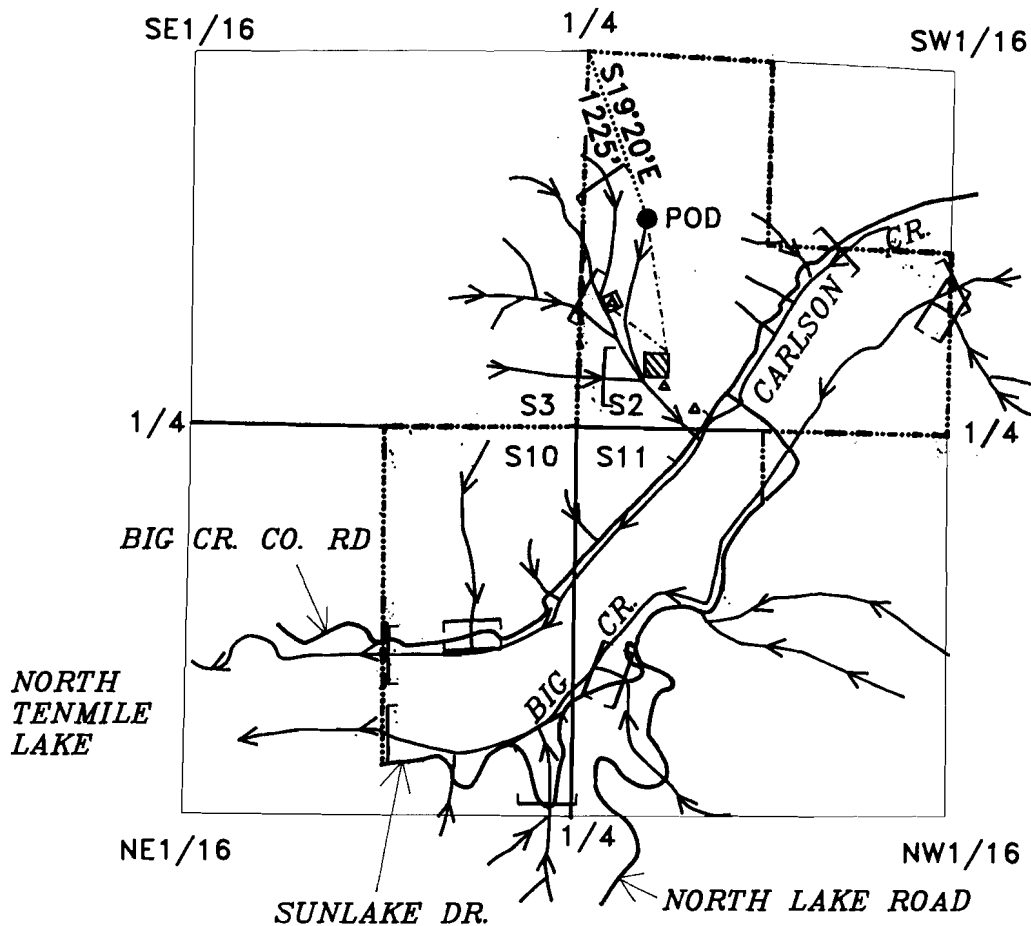

* Water Pipe Sizes, by Walter S. Timmla, Bridgeport Brass Co., Bridgeport, Conn.

NOTES FOR 1967 EDITION

Not many references pertaining to small diameter tubing or pipe are available at present, particularly as regards head loss in fittings or bends. Manufac-

turers data must be consulted for these situations. It should be noted that this chart presents flow data only for straight sections of the described pipe. TJM

THE CENTENNIAL HISTORY OF OREGON

RECEIVED

JAN 25 1893

683 WATER RESOURCES DEPT
SALEM, OREGON

in the buying and selling of horses and cattle until the big drought. He then went to Indian Territory where he leased land from the Indians which he cultivated in wheat and grain for two years. In 1896 he settled in Monmouth, Oregon, later returning to British Columbia. Here he remained only one year, when he came to Coos county and bought land near Ten Mile lake, where he lived until 1906. In 1907 he removed to Reno, Nevada, where he died in 1907. He and his wife were the parents of three children: Elizabeth, the wife of H. H. Hallock, owner of a twenty-thousand acre ranch in Oklahoma; Lucy A., now Mrs. J. S. Roberts, who lives near her father's home in Coos county; and Charles P., of this county.

Charles P. Coleman after completing his preliminary education entered Tabor College at Tabor, Iowa, and after spending some time in that institution attended the University of Wisconsin Agricultural College at Ames, where he spent two years gaining a scientific and practical knowledge of professional farming. After finishing his education he joined his father in business and remained connected with him until 1907. In that year William Coleman died and his son took over the homestead in Coos county, in which he had previously owned a half interest. Recently he retired from active life, although he still lives on his farm. He gives special attention to the operation of the dairy and was a professional cheese and butter maker. He still takes an interest in the branch of agriculture and owns six hundred acres of land recognized throughout the county as the best individual dairy ranch in the district. He is also extensively interested in other properties in Coos county and is a firm believer in the future agricultural development of the state of Oregon. In 1902 he leased most of his land with the exception of his dairy farm and is now living retired. He spent three years in Wyoming but returned to Coos county, where he lives five miles south of Lakeside, on Ten Mile lake.

In 1905 Mr. Coleman was united in marriage to Miss Mabel Morgan, a native of Kansas who came to Oregon in her childhood with her parents, who are still living on the river in Coos county. They are the parents of seven children: Mrs. McGee, of Bend; Arthur, who resides in Seattle; Washington; Norris, who is married and lives in Coos county; Agnes, of Lane county; and Benton county, Oregon; and Gertrude and Willie, both of whom are living at home. Mrs. Coleman received her education in Coos county and after its completion she taught school in that district for many years. Mr. and Mrs. Coleman are the parents of one son, William Norris.

Mr. Coleman gives his allegiance generally to the republican party, but reserves the right to vote for the men whom he considers best fitted for the position. He is a member of the Independent Order of Odd Fellows in Sheridan, Wyoming, but beyond that has no fraternal affiliation. He is a

member of the Methodist Episcopal church, to which faith his wife and family also give allegiance. He has been largely successful in the conduct of his farm and his model dairy and his prosperity is based upon his thorough efficiency, his industry and ability along agricultural lines. His success has demonstrated the fact that in the cultivation of the soil, as in other business or professional lines, efficiency and system are sure roads to prosperity.

ALEXANDER CARLSON is one of the substantial and enterprising farmers who are doing much to promote the development of Coos county and the state of Oregon. He owns one of the most productive farms on North lake, five miles above Lakeside. Here he carries on general farming, operates a dairy and does an extensive business in live stock. He was born in Finland, on January 1, 1863, and is a son of Jacob and Annie Carlson. His parents came to America in 1872 and settled first in Michigan, where they remained for ten years. At the end of that time they moved to Colorado and one year later, January 9, 1883, they came to Oregon and settled in Marshfield, Coos county. They subsequently moved to Ten Mile lake, where the father took up a homestead claim and improved and operated it until his death, in 1905. His wife's death preceded his by some years. They were the parents of four children, all of whom are now deceased with the exception of the subject of this sketch. Charles and Mary, the latter the deceased wife of Andrew Kino, both died at Marshfield, while one child died in infancy in Finland.

Alexander Carlson received his education in the public schools of his native country and came to America on June 12, 1880. He settled first in Weber county, Michigan, where he worked in the woods for two years, at the end of which time he went with his parents to Colorado, where he worked upon a railroad for one year. In 1884 he came to Coos Bay, Oregon, and settled in Marshfield, where he lived until 1886. In that year he located at Ten Mile lake and lived in that section with his parents until 1905, when his father died. He then inherited one hundred and sixty acres of land which his father had taken up as a homestead claim. He added to this by purchase one hundred and sixty acres adjoining and he now operates one of the finest farms on the lake. He specializes in dairying and stock-raising and does an extensive business in these two directions. He also owns a tract of land on Haynes inlet.

In 1902 Alexander Carlson was united in marriage to Miss Belle Krick. She was born in Oregon and is a daughter of Fred and Mary Krick, the former a native of Germany and the latter of Missouri. The father of Mrs. Carlson came to Oregon some time before his marriage and was among the early pioneers of this state. The mother crossed the plains with ox teams when she was a child of only three years, and married Fred Krick in eastern Oregon, where Mr.

JAN 05 1933

WATER RESOURCES DEPT.
SALEM, OREGON

Krick proved up a homestead claim upon which they lived for six years. At the end of that time they moved to California where they remained for thirteen years, coming to Coos county in 1901. They settled first at Empire city but later bought land on Ten Mile lake where they are still living and actively operating one hundred and twenty acres. They became the parents of nine children, William, Belle, John, Charles, Flora, Thadeus, Maud, Ella and Gertrude. Mrs. Carlson received her early education in the public schools of California and came to Oregon some years ago. She and her husband are the parents of five children: Mabel, whose birth occurred on March 5, 1904; Gertrude, who was born on the 23d of June, 1906; Mary, born April 12, 1908; Fred, born January 3, 1910; and Norman, whose birth occurred on the 26th of September, 1911. Mr. Carlson gives his political allegiance to the republican party but has never sought public office although he takes an intelligent interest in local affairs. He and his family are affiliated with the Lutheran church and are active in religious circles. Mr. Carlson gives his entire time and attention to farming, dairying and stock-raising and has been successful in these lines. Agriculture is the principal industry of Coos county and men like Mr. Carlson who carry it on intelligently and scientifically are contributing their full share to the development and growth of this section.

JONATHAN PAUL DUCKWORTH, for twenty-seven years a resident of Lake county, Oregon, has for the past twelve years been engaged in the livery and transfer business in Lakeview conducting the Lakeview Transfer Company. He was born in Bentonville, Benton county, Arkansas, July 27, 1862, and is a son of Jonathan Paul and Nancy (Alexander) Duckworth, the former a native of Missouri and the latter of Kentucky. The parents were married in Arkansas and settled on a farm, where they reared their family, residing on one place for more than forty years. Both died in the town of Rogers, Arkansas, not far from Bentonville, the mother in 1906, in her seventy-seventh year, and the father in 1908, in his eighty-seventh year. They had seven sons and two daughters: Pulaski Alexander and Marten, both deceased; Joseph W., of San Antonio, Texas; Mary Frances, the wife of T. B. Vernon, of Lake county; G. A., of Washington; G. W. who is in business with his brother; Jonathan P.; A. J., who died leaving a widow; and Nancy Sarah Dorcas, who died at the age of twenty years.

Jonathan Paul Duckworth spent his youthful days in his native state and had the usual experiences of farm life. On leaving home, when twenty-three years of age he came to Oregon, making Lake county his destination. Since that time he has resided in or near Lakeview, working as a farm laborer for several years, although for the past twelve years he has been engaged in the livery and transfer business in connection with two partners under the firm style of the Lake-

view Transfer Company. They have a liberal patronage and are well prepared to take care of a large amount of business.

Mr. Duckworth was married, in 1903, to Miss Mabel Young, a native of San Francisco, who died June 8, 1905, leaving a daughter, Mabel Olive, who was but twelve days old at the time of the mother's death. Mr. Duckworth was for many years a democrat but since McKinley was presidential candidate has supported the republican party. He holds membership in the Baptist church and belongs to the Independent Order of the Fellows, the Woodmen of the World and the Foresters. He displays many sterling traits of character, and is widely and favorably known throughout the county where he has so long made his home.

C. E. A. SIESTREEN. The life of C. E. A. Siestreen has been an eventful one. He has traveled extensively in South America and in the United States. He has mined and prospected in all the principal gold districts of western North America and is now engaged in the operation of one of the most modernly equipped dairy farms in Oregon. He is a native of Sweden, having been born in Stockholm, in 1841. He is a son of Peter and Matilda Siestreen, both of whom lived and died in their native country. His father followed the sea as captain during the greater part of his life and had been practically on all the waters of the world. He and his wife were the parents of six children, all of whom are living in Sweden with the exception of our subject. They are Edwin G., Avina, Laonilda, Laonaid, Charles of this review, and Almgard.

Charles E. A. Siestreen received his early education in the public schools of his native country. He left Sweden in 1859 and went to South America where he remained for two years. In 1861 he came to the United States and settled in California where he stayed only one year. At the end of that time he went to Nevada and mined in the gold fields of that state for two years. He then went to Boise City, Idaho, where he remained for one summer, prospecting for gold and then came to Umatilla Landing, Baker City, and operated a freight wagon between that point and Boise City. In 1865 he came to Ogden, Oregon, where he again mined for gold a short time. He later located at White Pine, Nevada, and went from there to Arizona, prospecting for gold. From Arizona he went to California and then to Jackson county, Oregon, where he spent one winter in the mines of that section. In 1873 he came to Coos county and settled in Marshfield. He remained in that city only a short time and in the same year came to Ten Mile lake where he engaged in farming for seven years. At the end of that period he proved up a preemption claim on Big creek near North lake, which he improved and operated for some time. He later added a one hundred and twenty acre homestead to his holdings and at the present time is the owner of two hundred and eighty-eight acres in Coos county. He is engaged in general farm-

RE: SWR-542

Dear Mr Wilcox,

This will acknowledge the receipt of map to support the pre-1909 vested water right claim in the name of ARITA & ARLO HARWOOD you returned with corrections and completions. I have added the map to the file. Thank you for your attention to this matter. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

RE: File# SWR-542

DEAR HARVEY WILCOX,

The Water Resources Department (WRD) received a little over 600 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Anita S. Harwood and Arlo T. Harwood. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

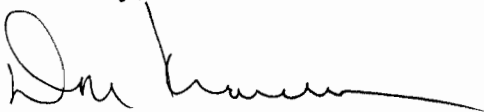

✓ place of use ($\frac{1}{4}$ $\frac{1}{4}$)

ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." You must show the 1/16th lines and the actual location of the house.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

LAKESIDE OR 97449

Dear HARWOODS,

This will acknowledge that your Surface Water Registration Statement in the name of ARITA S AND ARLO T HARWOOD has been received by our office. The fees in the amount of \$400.00 have been received and our receipt #96008 is enclosed. Your registration statement has been numbered SWR-542.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Don Knauer
Adjudication Specialist
