

Form C

**IMPORTANT**—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

**NOTE:** In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.  
Fill out, detach and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Dear Mr. Clayton:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. **23877**.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

LEWIS A. STANLEY  
State Engineer

Sorry I did not understand. We thought this was all settled. The water is converted into our ditches and we do use the water. Did not know we had to let you know when & if we used the water. We can use this water before we use the water out of cow creek in spring and fall for our cattle & irrigation. The surplus runs on back into cow creek. C. F. Clayton
