TO WHOM IT MAY CONCERN:

I, George P. Ross, was born in Marshfield, (now Coos Bay) July 29, 1905 and was raised on my father's and grandfather's farm at the confluence of Catching Inlet and Ross Inlet. The farm at that time was a major portion of what now is the Catching Inlet Drainage District.

I can verify from my own memory and experience playing and fishing on Ross Inlet that all of the bottom land within the present boundaries of the district was cleared and drained before my earliest memories. It has continued without interruption in livestock use, even though many of the ownerships have changed hands until this day.

I would also like to say that the land now owned by Paul and Marilyn Evans was part of my grandfather's original farm and the first house built in 1862 continued to be occupied until 1955 when ~~Fred Hill~~ ^{Frank Porter} replaced it with the one Evans now live in and which is served by the same spring.

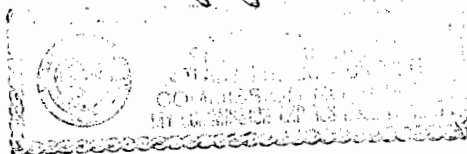

G. R.

Sincerely,

George P. Ross

To Whom it may Concern:

I, George Ross, Jr., was born in Marshfield (now Coos Bay) July 29, 1905 and was raised on my father's dairy farm on Catching Inlet and Ross Slough.

My earliest memories are of the milk boat with its deck lined with milk cans from the dairies on Catching Inlet stopping at our wharf to pick up the milk. Its destination was the Coos Bay Creamery on the other side of Bull Island in the old Coos River channel.

The creamery was built in 1892, my grandfather, Frank Ross, being one of the founders. When my parents, George Ross and Lucy Black were married in 1899, Frank Ross gave them the farm and a herd of dairy cows. I have positive knowledge that from that time to the present the dairy has continued uninterrupted. It included more land in 1899, running from what is now Azalea Acres on Catching Inlet down to Ross Inlet and up Ross Inlet including Boekeloos, Evans, Atkins, and Dr. Levy's.

In 1900 my father sold the land straight across from us to John Collver. Ida Matson used to tell the story when I was less than two years old, looking across the slough and saying, "John Collver's cows are sitting down. This land was later sold to Albert Collver, Everett Messerle's grandfather, and has been in Messerle ownership ever since as a dairy until the barn burned down and as a beef ranch since that time.

The portion that my son Gordon dairies now was divided into five fields. Four of them had watering troughs fed from springs along the foothill, while in the pasture next to Ross Inlet, the cows had to drink out of the slough. I remember this from my early memories of going after the cows with my father and later on my pony.

My early associations with Gordon Collver, my same age, across on Stock Slough, of fishing up Collver Creek (Stock Slough) afforded me the knowledge that the Collvers had dairied there for many years and that livestock has continued until this day on all the bottom lands on Stock Slough on lands now owned by John Stalcup, John Dubisar, Foster McSwain, Messerle's, Dan Scoville, Lou Ann and John Rode, Mel Burnette, Gordon Ross, John Szymik, and Chet Fors, and have dairied and ran stock on every acre of it at one time myself.

My grandfather, Henry Black, milked cows on a farm halfway to Sumner now owned by Bill Cole and the Messerle farm, called the Anchor Ranch, was four separate dairies in the early years. On to Sumner from Henry Blacks we could go by wagon to the Byers Ranch. Uncle Frank Black married Alice Byers. This farm is still in dairying being owned now by V. J. Willis. The Messerle farm in Sumner was at that time owned by Capt. Harris. Mrs Harris had her own cheese plant, and in 1902 exhibited the Grand Champion Cheese at the Chicago Expedition.

I can attest that all of the ownerships I have specifically mentioned have been in livestock production continuously from my earliest memories until this day, and that I can say with equal certainty that any bottom land on Ross Inlet, Catching Inlet, Stock Slough, or Sumner has supported livestock from the time it was cleared and drained until the present with the exception of a few annual crops for a season at a time.
