NOTICE OF BEGINNING OF CONSTRUCTION

I, R. L. Hammer & Co., the holder of Application No. 14911, being
(Reservoir or Enlargement) Permit No. 10869, issued by the State Engineer of the State of Oregon
for the appropriation of 0.6 second-feet of the waters of Clear Creek
in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
began the actual construction of the works described therein on the 4 day of March, 1934,
being within the time limitation as fixed in said permit for the beginning of construction work.
dug new ditch 500ft. two men employed for ten days

The appropriator should state the manner of beginning construction work, number of men and teams employed, the amount of work completed up to the date of this
all completed but cement dam

statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 16 day of August, 1934.
Selma Oregon

(Present Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon.

by R. L. Hammer *Aug.*

Form C
NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE 14911

I, R. L. Hammer & Co., the holder of Application No. 10869, being
(Reservoir or Enlargement) Permit No. 10869, issued by the State Engineer of the State of Oregon
for the appropriation of 0.6 second-feet of the waters of Clear Creek,
in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
completely applied the water to a beneficial use, on the 12 day of June, 1934,
being the time limitation as fixed in said permit or as extended by the State Engineer for the complete
application of water to a beneficial use.

Remarks: This water was used as far as possible but
Owing to drought conditions, sufficient water could not
be obtained

If all of the water granted in the permit has not been fully applied to beneficial use, you should state, so that delinquent appropriators may
have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 12 day of March, 1937.

(Present Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon.

May 8, 1972

2591

R. L. Hammer, Sr.
Box 417
Selma, Oregon 97538

Dear Mr. Hammer:

This will acknowledge return of your corrected application for Transfer of Water Right and map along with your letter dated April 17, 1972.

In examining the application, it is noted that you have added change in place of use and indicated under item no. 13 that 0.5 acre is to be transferred to lands not within the description submitted of your property. If it is your intention to change the place of use of 0.5 acre from its original location to a new location, then you must indicate on your map where this 0.5 acre is being transferred from in addition to where it is being transferred to.

Based on the information at hand, it would seem that you intend to change the point of diversion for 1.5 acres within your property description and change the place of use to the irrigation of 0.5 acre not inside the land described in the legal description submitted, all of said 2.0 acres to be irrigated from the same proposed new point of diversion. To properly indicate this change, item no. 5 should be corrected to show "1.5 acre, point of diversion and 0.5 acre, place of use and point of diversion, as we have penciled in on the application for change. In connection with this change in place of use, it will be necessary for you to submit an additional \$5.00 to cover the fees.

In your letter, you stated that you believe that the water rights south of the forty line should be canceled for non-use of more than five years. If you are the owner of the property to which the 12.0 acres of water right is appurtenant, being within the $\frac{5}{8}$ NW $\frac{1}{4}$ of Section 11, Township 38 South, Range 8 West, W.M., and will sign an affidavit that the water right has not been used for a five year period, we will provide

R. L. Hammer & Co.

DESCRIPTION OF WORKS

9. (a) If a dam has been constructed, give description: Height, 1 ft.; length on top, 15 ft.; length on bottom 10 ft.; material used and character of construction, Bedrock outcrop. One log and earth fill.

(b) Give description of headgate: Width, none ft.; depth, ft.; material used and character of construction, 6 "x8" box flume. Can place board in front.

(c) Size of canal: Width on top (at waterline) 1.5 ft.; width on bottom, 1.0 ft.; depth of water, 0.6 ft.; grade, 5 ft. fall per 1,000 ft. Actual capacity, 0.6 sec.-ft.
Give general description: Earth ditch

(d) Pipe line: Description of intake,
Length of pipe, ft.; size at intake, in.; size at ft. from intake, in.; size at place of use, in. Difference in elevation between intake and place of use, ft.
Is grade uniform? Actual capacity of pipe line, sec.-ft.
Give general description:
(Material: Steel, wrought, cast iron, wood stave, etc.)

(e) Pumping plant: Give size and type of pump,
Suction lift, ft.; discharge lift, ft. Type of motor used
Horse power rating, H. P. Actual capacity of pump, sec.-ft.

10. During what months is water beneficially used? March 15th to Sept. 1

11. State character of soil Gravelly Kerby loam.
Kind of crops raised Garden, pasture

12. Does the accompanying map, filed with your application, show correctly the point of diversion, area of land irrigated, or place of use? Yes but no land irrigated on west side of Clear Creek

13. If not, wherein is such map in error?

14. Domestic use: Give number of families actually using water at this time

15. If for power, mining, municipal, manufacturing, storage or any other purpose than irrigation, give extent and method of such use

Application No. 14911

County Josephine

PROOF OF APPROPRIATION OF WATER

Hammer, Jr.

1. Name R. L. Hammer & Co. by R. L. / 2. Address Selma, Oregon

3. Source of supply Clear Creek

Tributary of Illinois River

4. Amount of water 0.8 c.f.s. measured at 0.3 the point of diversion from the stream 0.14

5. Priority date Apr. 27, 1933 for 0.38 s.f. & June 8, 1933 for 0.22 s.f.

6. Use Irrigation

7. Location of point of diversion, SEC. SW_{1/4} Sec. 2, Twp. 38 S., Range 8 W., W. M. (Legal Subdivision)

8. The description of land given below corresponds to that found in your permit covering land to be irrigated, or, if for other purposes, the place of use. In the blank column on the right, headed "No. acres actually irrigated", fill in the number of acres you have irrigated in each of the tracts described:

Township	Range	Section	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
38 S	8 W	11	NE _{1/4} NW _{1/4}	3	3 ✓
			SE _{1/4} NW _{1/4}	12	12 ✓
			SW _{1/4} NW _{1/4}	15	0
				30	15

If for irrigation, this appropriation shall be limited to 1/50 of one cubic foot per second, or its equivalent, for each acre irrigated throughout the irrigation season from April 1, to November 1, of each year and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

This column must be filled in if water is used for irrigation

(Attach separate sheet if necessary)

REPORT OF PERSON MAKING INSPECTION

(For use by representative of State Engineer)

I, **Tom R. Pearce**, do hereby certify that I have made an inspection of the works described herein and in Permit No. **10869**, on the **13th** day of **June**, 193**9**, and found the foregoing statements and descriptions of works to be accurate. In my opinion the appropriation has been completed to the extent of **0.3 SEC. FT.** (Quantity of water in second-feet or acre-feet) and I recommend the issuance of water right certificate for this amount.

NOTICE TO INSPECTORS

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.

STATE OF OREGON

COUNTY OF JOSEPHINE

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 12241

OK
R. L. HAMMER & Co. by R. L. Hammer, Jr. of SELMA
State of Oregon , has made proof to the satisfaction of
the State Engineer of Oregon, of a right to the use of the waters of
Clear Creek (Cedar Creek) a tributary of Illinois River , for the purpose of
Irrigation

under Permit No. 10869 of the State Engineer, and that said right to the use of
said waters has been perfected in accordance with the laws of Oregon; that the
priority of the right hereby confirmed dates from April 27, 1933 for 0.19 s.f. &
June 8, 1933 for 0.11 s.f.;
that the amount of water to which such right is entitled and hereby confirmed,
for the purposes aforesaid, is limited to an amount actually beneficially used
for said purposes, and shall not exceed 0.3 c.f.s. measured at the point of
diversion from the stream,

or its equivalent in case of rotation.

The point of diversion is located in the $SE\frac{1}{4}SW\frac{1}{4}$ of Section 2, Township 38 South,
Range 8 West, W. M.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands shall be limited
to one-fiftieth of one cubic foot per second per acre, or its equivalent
for each acre irrigated throughout the irrigation season from April 1, to
November 1, of each year,

and shall conform to such reasonable rotation system as may be ordered by the
proper state officer.

A description of the place of use under the right hereby confirmed,
and to which such right is appurtenant, is as follows:

3 acres in the $NE\frac{1}{4}NW\frac{1}{4}$
12 acres in the $SE\frac{1}{4}NW\frac{1}{4}$
Section 11
Township 38 South, Range 8 West, W. M.

The right to the use of water for the purposes aforesaid is restricted
to the lands or place of use herein described.

REMARKS: *Source of supply is Clear Creek,*
otherwise OK. *Tom R. Pearce*
Watermaster.

Gentlemen: Attention: R. L. Hammer, Jr.

It will be appreciated if you will advise this department whether you wish to make proof under your Permit No. 10869 to the extent that the right has been completed and water applied to the use intended, or whether you wish to make an application for an extension of time.

If the extension is desired, the blank which was mailed to you February 25th should be signed before a notary public and submitted to this office. If you wish to abandon your proposed appropriation from Clear Creek, your advice to that effect and your authority to cancel the permit will be appreciated.

Very truly yours,

Ed K. Humphrey, Assistant

February 25, 1939

The R. L. Hammer Company
Selma, Oregon

Gentlemen: Attention: R. L. Hammer, Jr.

This will acknowledge receipt of your letter of February 15th relative to the use of water from Clear Creek under Permit No. 10869 covering the irrigation of 30 acres of land.

If you wish to make proof and receive a certificate of water right covering the number of acres that you have actually irrigated, kindly execute and submit to this office the enclosed Form C. After its receipt, a representative of this office will make an inspection of your appropriation for the purpose of checking the number of acres actually irrigated, the amount of water used, etc., and after that a certificate of water right will be issued.

If you wish an extension of time in which to make complete application of water as described in your permit if you think such completion is possible, you may execute the enclosed blank before a notary public and submit to this office. Upon receipt of this application for an extension of time, the matter of extending the time limits under your permit will be given attention.

Very truly yours,

FEB 16 1938

STATE ENGINEER
SALEM, OREGON

February 5, 1938.

R. L. Hammer & Co.,
Selma, Oregon.

Gentlemen:

According to the terms of your Application No. 14911, Permit No. 10869, which is for the appropriation of 0.6 second-feet of water from Clear Creek for the irrigation of 50 acres, complete application of water was to have been made on or before October 1, 1937. It appears from our records that you have failed to submit the notice of complete application, although a postcard, calling this matter to your attention, was mailed to you on October 13, 1937.

Section 47-806, Oregon Code 1930, provides: "Whenever the time within which any appropriation under a permit should have been perfected shall have expired and the owner of such permit shall fail or refuse within the period of three months thereafter to submit to the State Engineer proof of the completion of such appropriation as required by Section 47-508, Oregon Code, the State Engineer may, after 60 days' notice by registered mail, order the cancellation of such permit, * * *."

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water, after which we will send you a blank for use in making final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

In accordance with the provisions of Section 47-806, Oregon Code 1930, a part of which is quoted above, you are hereby notified that unless we hear from you within 60 days from the date of this letter, your permit will be cancelled without further notice.

Very truly yours,

Chas. E. Stricklin

Gentlemen:

Your Permit No. 10869 has been called to my attention, and I note that you have failed to reply to my letter of March 16 or submit an application for an extension of time.

Inasmuch as the time limit for the complete application of water expired under this permit on October 1, some action must be taken under it within the near future.

If you wish to make proof and receive a certificate for those lands which have actually been irrigated, I will be glad to send you a form for such purpose, but if you wish additional time within which to attempt to complete the development, an application for an extension of time should be submitted immediately. I am enclosing a new form which may be used for this purpose for fear that the one previously sent you may have become lost or misplaced.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer.

March 16, 1937.

R. L. Hammer & Co.,
Selma, Oregon.

Gentlemen:

The notice of complete application of water under your Permit No. 10869 has been received, and your statement to the effect that the water has been used as far as possible, but that due to drouth conditions you have been unable to appropriate the entire amount allowed, has been noted.

Inasmuch as the law requires the State Engineer to limit the right under a certificate to the extent that the appropriation has been completed when proof is made, I believe that you should probably request an extension of time so that all of the water may be applied before proof is made if you are interested in perfecting a right to the full extent allowed in the permit.

I am therefore enclosing a form for your convenience in submitting such an application for an extension of time, and I am also enclosing a form which you may use in submitting the notice of complete application of water when the water has actually been fully applied.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

R. L. Hammer & Co.,
Selma, Oregon.

Gentlemen:

According to the terms of your Application No. 14911, Permit No. 10869, which is for the appropriation of 0.6 second-feet of water from Clear Creek for the irrigation of 50 acres, complete application of water was to have been made on or before October 1, 1936. It appears from our records that you have failed to submit the notice of complete application, although a postcard, calling this matter to your attention, was mailed to you on October 14, 1936.

Section 47-806, Oregon Code 1930, provides: "Whenever the time within which any appropriation under a permit should have been perfected shall have expired and the owner of such permit shall fail or refuse within the period of three months thereafter to submit to the State Engineer proof of the completion of such appropriation as required by Section 47-508, Oregon Code, the State Engineer may, after 60 days' notice by registered mail, order the cancellation of such permit, * * *."

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water, after which we will send you a blank for use in making final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

In accordance with the provisions of Section 47-806, Oregon Code 1930, a part of which is quoted above, you are hereby notified that unless we hear from you within 60 days from the date of this letter, your permit will be cancelled without further notice.

Very truly yours,

Chas. E. Stricklin

STATE ENGINEER
RECEIVED

Mr. Chas. E. Stricklin,
State Engineer,
Salem, Oregon.

JUN 8 1933

SALEM, OREGON

Dear Sir:

Enclosed is form of Proof of Appropriation
under Permit No. 9359 for Joel K. Brown.

Also enclosed is application for permit to
appropriate 0.60 sec.ft. of water in the name of
R. L. Hammer. According to your suggestion, I inter-
viewed Mr. Hammer, informing him of the recent de-
cision that the State Engineer may allow the limita-
tion of water in the Illinois Valley to be at the rate
of 1/50th sec.ft. per acre. Mr. Hammer had received the
copy of the letter you sent me and had interpreted
its meaning to signify that he was to be cut down in
the amount of water. He was much pleased when learning
there was to be an increase.

The enclosed check for \$1.00 is for recording
fee for Joel K. Brown.

Yours very truly,

Tom R. Pearce

Watermaster District No. 16.

May 31, 1955

Mr. Tom R. Pearce
Watermaster
Grants Pass, Oregon

Dear Sir:

This is in regard to an application for permit to appropriate 0.58 second-foot of water from Clear Creek, tributary of the Illinois River, which I believe that you prepared for the R. L. Hammer and Company. The application is for the use of 0.58 second-foot of water for the irrigation of 30 acres, which would be at the rate of 1/50th second-foot per acre. In the past the State Engineer has been limiting the right granted under each permit to 1/50th of one second-foot per acre for all irrigation regardless of the location. It has recently been decided that in view of the fact that the courts have allowed varying amounts in different localities that the State Engineer should follow such decrees in limiting the quantity of water in the various areas.

The amount of water allowed under the decree from the Illinois River and its tributaries is 1/50th second-foot per acre, and unless it is considered otherwise advisable, all permits to be issued for water from the Illinois River or its tributaries will have that limitation. I believe, therefore, that the applicant in this case should have an opportunity to amend the application for 0.6 second-foot instead of 0.58 second-foot, if that quantity will be required for irrigation on these particular thirty acres.

I am forwarding the application to you endorsed so that in order to retain its priority it must be returned within thirty days or on or before June 29, so that you may take the matter up with the applicants and amend it if advisable.

Very truly yours

CHAS. E. STRICKLIN
State Engineer

Gentlemen:

This acknowledges receipt of your application for permit to appropriate 0.58 second-foot of water from Clear Creek for irrigation purposes, together with your remittance in the sum of \$9.50 as fees. Receipt No. 16105 is inclosed.

The application, which has been filed and given No. 14911, appears to be in satisfactory form and is being placed in line for approval and issuance of a permit.

Very truly yours

CHAS. E. STRICKLIN
State Engineer
