NOTICE OF BEGINNING OF CONSTRUCTION

I, David H. Canfield, Acting Superintendent, the holder of Application No. 15515, being
Reservoir Permit No. 11389, issued by the State Engineer of the State of Oregon
(Reservoir or Enlargement)
 for the appropriation of .015 second-feet of the waters of Lake Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 began the actual construction of the works described therein on the 29th day of October, 1934,
 being within the time limitation as fixed in said permit for the beginning of construction work.

By laying pipeline and surveying same. Excavating for reservoir, employing
 The appropriator should state the manner of beginning construction work, number of men and teams employed, the amount of work completed up to the date of this
about fifty men. Most of the pipe have been strung along the line.
 statement, and any additional information which may tend to show the beginning of work in good faith.
Work about 40% completed.

IN WITNESS WHEREOF, I have hereunto set my hand this 23rd day of March, 1935.
Federal Building, Medford, Oregon

NOTICE OF COMPLETION OF CONSTRUCTION

David H. Canfield
 I, Superintendent Oregon Caves Natl. Monument, the holder of Application No. 15515, being
Pipe Line & Reservoir Permit No. 11389, issued by the State Engineer of the State of Oregon
(Reservoir or Enlargement)
 for the appropriation of .015 second-feet of the waters of Lake Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 have completed the construction of the works described therein the 20th day of June, 1935,
 being within the time limitation as fixed in said permit or as extended by the State Engineer for the com-
 pletion of construction work.

Remarks: If the works have a less capacity than as described in the permit, or you have definitely abandoned your plan of irrigating any of the lands described
in your permit, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of November, 1935.

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

David H. Canfield
 I, Superintendent Oregon Caves Natl. Monument, the holder of Application No. 15515, being
Pipe Line & Reservoir Permit No. 11389, issued by the State Engineer of the State of Oregon
(Reservoir or Enlargement)
 for the appropriation of .015 second-feet of the waters of Lake Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 completely applied the water to a beneficial use, on the 20th day of June, 1935,
 being the time limitation as fixed in said permit or as extended by the State Engineer for the complete
 application of water to a beneficial use.

Remarks: If all of the water granted in the permit had not been fully applied to beneficial use, you should so state, so that delinquent appropriators may
have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of November, 1935.

REPORT OF PERSON MAKING INSPECTION

(For use by representative of State Engineer)

I, Tom R. Pearce, do hereby certify that I have made
an inspection of the works described herein and in Permit No. 11389, on the 12th day
of April, 1936, and found the foregoing statements and descriptions of works to
be accurate. In my opinion the appropriation has been completed to the extent of 0.15
(Quantity of water in
second-feet or acre-feet)
and I recommend the issuance of a water right certificate for this amount.

NOTE TO INSPECTORS

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.

STATE OF OREGON

COUNTY OF JOSEPHINE

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 11631

Oregon Caves National Monument of Medford
State of Oregon, has made proof to the satisfaction of
the State Engineer of Oregon, of a right to the use of the waters of
Lake Creek
a tributary of Sucker Creek for the purpose of
Domestic, hotel and fire protection
under Permit No. 11389 of the State Engineer, and that said right to the use of
said waters has been perfected in accordance with the laws of Oregon; that the
priority of the right hereby confirmed dates from September 8, 1934;

that the amount of water to which such right is entitled and hereby confirmed,
for the purposes aforesaid, is limited to an amount actually beneficially used
for said purposes, and shall not exceed 0.15 cubic foot per second measured at
the point of diversion from the stream,

or its equivalent in case of rotation.

The point of diversion is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 10, Township 40 South,
Range 6 West, W. M.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands shall be limited to
of one cubic foot per second per acre,

and shall conform to such reasonable rotation system as may be ordered by the
proper state officer.

A description of the place of use under the right hereby confirmed,
and to which such right is appurtenant, is as follows:

PLACE OF USE:

SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 9,
Township 40 South, Range 6 West, W. M.

The right to the use of water for the purposes aforesaid is restricted
to the lands or place of use herein described.

REMARKS:

O.K.

Tom R. Pearce
Watermaster.

December 22, 1959

Mr. Otto M. Brown, Superintendent
Crater Lake National Park
Medford, Oregon

Re: Your file L54-OC

Dear Mr. Brown:

With your letter of December 21 you enclosed an application for a change in point of diversion and place of use of water for which you hold a right under State Engineer's Permit No. 11986. Your application and all of the enclosures listed in your letter are returned herewith for the following reasons:

It is my opinion that this proposed change in point of diversion and place of use of water does not properly come within the provisions of ORS 540.510 to 540.530 because the new water supply which you propose to develop is entirely separate and distinct from the water supply from which you hold a right. This is true regardless of the fact that both the original source and the proposed new source are tributaries of the same stream. There is a possibility that your proposed new water supply would interfere with existing rights when the existing right under the permit does not so interfere. That would be true if the amount of water appropriated from the new source exceeds the amount available at the old point of diversion.

As an example and so that you may benefit by our thinking on this matter, if you were to apply for a change in point of diversion to a point lower down on Cave Creek that application probably would be granted but on condition that the amount of water you were to take at the new point of diversion should not exceed the amount which would be available at the old point.

Another point which controls our thinking in this matter is how far this principle could be expanded if we granted changes from one tributary to another. Under that concept we could approve a change from the Willamette River to the Deschutes River because they are both tributaries of the Columbia River.

Mr. Otto M. Brown

- 2 -

December 22, 1959

I suggest that the best procedure for you in this case is to file a new application for a permit describing the new source of water.

Very truly yours,

LEWIS A. STANLEY
State Engineer

Salem, Oregon

RECEIVED
DEC 22 1959
STATE ENGINEER
SALEM, OREGON

Dear Mr. Stanley:

The following attachments relate to the application for transfer of the Cave Spring water right in Oregon Caves National Monument:

1. Application for Transfer of Water Right
2. Purchase Order 34-232 for examination and recording fees.
3. Voucher for examination and recording fees for your signature and return to this office.
4. Purchase Order 34-233 for advertising
5. Voucher for advertising for your signature and return to this office for processing for payment.

This application was previously submitted to your office on December 11, 1958 but was returned because you felt a new source was involved. Actually this is not the case since both points of diversion are tributary to Cave Creek and water from the two points commingle at the junction of Cave and Lake Creeks as a common source for downstream appropriations. The point of diversion is being transferred approximately a mile and a half down the main fork of Cave Creek to the junction of the Lake Creek fork and thence about a mile up to a point on the unnamed tributary, all within the drainage of Cave Creek.

The attached application and map show more clearly the relationship between the old and new points of diversion, and we hope you will now be able to process them for us.

Sincerely yours,

Otto M. Brown
Superintendent

Re: your file L-54

Dear Mr. Novak:

I have your letter of November 25 submitting an original and one copy of affidavit of David H. Canfield relating to the appropriation of public waters for use in Oregon Caves National Monument under certificates of water right recorded at page 11631, Volume 10, and 11917, Volume 11, State Record of Water Right Certificates.

Pursuant to your request we have noted on our records the change in name from Oregon Caves National Monument to United States of America.

If you desire new certificates of water right issued showing the change in name we shall be glad to do so upon receipt of \$2 certificate recording fees, being the fee required to have such certificates recorded in the county clerks office of Josephine County.

Very truly yours,

Gentlemen:

Attached are the original and one signed notarized copy of an affidavit of David H. Canfield relating to the appropriation of public waters for use at Oregon Caves National Monument. This affidavit clarifies the ownership of Application 15515, Certificate 10-11631 and Application 16177, Certificate 11-11917. Please amend the water rights to show title in the United States of America instead of in Oregon Caves National Monument.

The affidavit was previously submitted to your office on December 11, but was returned together with our request for a transfer of the Cove Springs water right (Certificate 11-11917). It is requested that title of the water right be amended regardless of the outcome of our request for transfer of the point of diversion and place of use.

Sincerely

Fred J. Novak

AFFIDAVIT OF DAVID H. CANFIELD RELATING TO
THE APPROPRIATION OF PUBLIC WATERS FOR USE
AT OREGON CAVES NATIONAL MONUMENT

I, David H. Canfield, now residing at Santa Fe, New Mexico, and employed by the National Park Service, Department of the Interior, Region Three Office, Santa Fe, New Mexico, being duly sworn, depose and say:

1. That on or about the 8th day of September, 1934, I filed in the Office of the State Engineer at Salem, Oregon, Application No. 15515 for a permit to appropriate the public waters of the State of Oregon for use at Oregon Caves National Monument, and that pursuant to such application, Permit No. 11389 was thereafter issued by the State Engineer and, following final proof, a certificate of water right was issued on December 7, 1936 in the name of "Oregon Caves National Monument".

2. That on or about the 9th day of December, 1935, I filed in the Office of the State Engineer at Salem, Oregon, Application No. 16177 for a permit to appropriate the public waters of the State of Oregon for use at Oregon Caves National Monument, and that pursuant to such application, Permit No. 11986 was thereafter issued by the State Engineer and, following final proof, a certificate of water right was issued on December 16, 1937 in the name of "Oregon Caves National Monument".

3. That the above-mentioned applications were filed in my own name with the title "Acting Superintendent, Oregon Caves National Monument". That, at all material times, I was employed by the National Park Service, Department of the Interior, and acted on behalf of the United States Government as part of my official duty in filing the above-mentioned applications. The use of my name as applicant was inadvertent, it being my intention that the applications would result in the appropriation of public waters by and for the benefit of the United States of America, the owner of Oregon Caves National Monument, and that I would acquire no individual interest in the same.

Mr. R. K. Rundell
Acting Superintendent
Crater Lake National Park and
Oregon Caves National Monument
Medford, Oregon

Re: Your file L-54

Dear Mr. Rundell:

This will acknowledge receipt of your letter of December 11 submitting the following attachments:

1. Application for Transfer of Water Right
2. Affidavit of David H. Canfield relating to the appropriation of public waters for use at Oregon Caves National Monument
3. Purchase Order 34-438 for examination and recording fees
4. Voucher for examination and recording fees
5. Voucher for advertising.

From an examination of the application it appears that you desire to change the point of diversion to an entirely different source and not actually change the use, place of use and point of diversion of the water involved in the original appropriation. The source of supply cannot be changed through an application for transfer of water right. Since it will be a new appropriation from a different source, an application for a permit should be filed in this office. Blank form for this purpose is being enclosed.

The enclosures or attachments mentioned above are being returned herewith.

Very truly yours,

LEWIS A. STANLEY, State Engineer

March 16, 1945.

Mr. Chas. E. Stricklin,
State Engineer,
Salem, Oregon.

My dear Mr. Stricklin:

The Water Rights Division, Branch of Engineering, of the National Park Service, has been transferred from San Francisco to Chicago. Accordingly, all matters relating to the perfection and preservation of water rights for the national parks and monuments should hereafter be sent to the Director's Office in Chicago. It will be appreciated if you will change the address on the rights which have already been initiated. Also, as far as possible, when special cases require direct communication with our Regional Offices or field officials, we should like to have a copy of the letter forwarded to the Director.

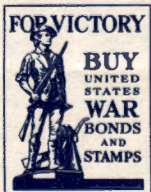

Further notices of proofs or other reports which you may require should be addressed to the Director in connection with the following rights:

<u>Application</u>	<u>Permit</u>	<u>License</u>	<u>Area of Use</u>
15515	11389	11631	Oregon Caves National Monument

METHOD OF OR ABSENCE OF ADVERTISING

(Section 3709 of the Revised Statutes)

1. After advertising in newspapers.

2. (a) After advertising by circular letters sent to _____ dealers.

(b) And by notices posted in public places.

(If notices were not posted in addition to advertising by circular letters sent to dealers, explanation of such omission must be made by notation on the certificate on the face of the voucher must be "2 (a) (b)" or "2 (a)," depending on whether or not notices were posted.)

3. Without advertising, under an exigency of the service which existed prior to the order and would not admit of the delay incident to advertising.

4. Without advertising in accordance with _____

5. Without advertising, it being impracticable to secure competition because of _____

Rate fixed by state law

(Here state circumstances under which the securing of competition was impracticable)

NOTE.—The above form "Method of or Absence of Advertising" is to be used when purchases are made or services secured under proper authority without written agreement in any form. In case of a written agreement (formal contract, proposal and acceptance, or less formal agreement) Standard Form No. 1036 (Revised) should be used for abstracting the method of or absence of advertising and award of contract. (See General Regulations No. 51, Supplement No. 6, General Accounting Office, August 20, 1930.)

10-1761

September 21, 1936.

Mr. David H. Canfield, Superintendent,
Crater Lake National Park,
Crater Lake, Oregon.

Dear Sir:

Your final proof of appropriation of water under Permit No. 11389 has been received in this office and found acceptable. The voucher in the amount of \$1.00 for the certificate recording fee has been signed and is being returned herewith for payment.

When the remittance in the amount of \$1.00 is received, the matter of final confirmation of the right by the issuance of a water right certificate will be given consideration.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer.

By

V. S. Bovelie, Assistant.

Please certify the attached voucher at the places indicated by pencil (X)
and return in the enclosed self-addressed envelope which requires no postage.

June 8, 1936

Mr. David H. Canfield, Superintendent
Crater Lake National Park
Medford, Oregon

Dear Sir:

This is in reply to your letter of June 6, with which you inclosed forms A, B and C under your Permit No. 11986.

In response to the notices a form is being sent to the watermaster for his inspection. When his inspection is completed and his report is made, the form will be sent to you for your affidavit.

According to our records, the watermaster has made an inspection under your Permit No. 11589 and the form for making proof was sent you with my letter of April 15. Probably it was not received or has become lost in some manner, and I am, therefore, inclosing a new form for making proof under this permit.

All questions in the proof which are applicable to your appropriation must be carefully answered. If the map filed with the application does not show correctly the location of your diversion and other works, you should show by pencil lines on the map the actual location of such works.

The affidavit of appropriator should be executed by you and the proof then returned to this office with a fee of \$1.00 for recording the water right certificate in the county records.

Very truly yours

CHAS. E. STRICKLIN
State Engineer

By
V. S. Bevalle, Ass't.

VSB EL

April 15, 1936.

Oregon Caves National Monument,
David H. Canfield, Superintendent,
Medford, Oregon.

Gentlemen:

I am enclosing the final proof blank under your Permit No. 11389 for the affidavit of appropriator. The affidavit should be signed before a notary public, and the proof should then be returned to this office with a fee of \$1.00 for recording the certificate in the county clerk's office.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer.

By V. S. Bovelie, Assistant.

April 15, 1936.

Mr. Tom R. Pearce,
Watermaster Dist. #16,
Grants Pass, Oregon.

Dear Mr. Pearce:

This is in reply to your letter of April 13th with which you submitted final proof under Permit No. 11389, in the name of the Oregon Caves National Monument.

I note you refer to the withdrawal of the waters of Sucker Creek, and I am enclosing a copy of the State Engineer's order withdrawing such waters. You will note that the waters of Sucker and Althouse Creeks are withdrawn for all purposes other than domestic use or for power or mining where such may be made without actual consumption of water or injury to existing rights.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

By V. S. Bovelie, Assistant.

State Engineer,
Salem, Oregon.

RECEIVED
APR 14 1936
STATE ENGINEER
SALEM, OREGON

Dear Sir:

The enclosed proof of appropriation under Permit No. 11389 was inspected April 12th. Affidavit of Appropriator and recording fee was not obtained.

The engineering features of this construction is worthy of commendation. The system was not in use at time of inspection so that I was unable to ^{test} the actual capacity.

I am aware that Sucker Creek and tributaries have been withdrawn from further appropriation but believe the withdrawal will be waived in this instance. The concession resort is using water from another source of supply than the one listed in this application.

Yours very truly,

Don R. Pearce

Watermaster Dist. No. 16.

Dear Sir:

We are enclosing form B, Notice of Completion of Construction, and Form C, Notice of Complete Application of Water to a Beneficial Use, in conjunction with our application no. 15,515, permit 11,389, for the diversion of 0.15 second feet of water from Lake Creek for use at Oregon Caves National Monument.

This work was completed some time ago, and we have been rather negligent in sending in these forms.

Very truly yours, -

David H. Canfield

STATE ENGINEER
SALEM, OREGON

October 9, 1934

Mr. G. F. Whitworth
Park Engineer for ECW
Crater Lake, Oregon

Dear Sir:

This acknowledges receipt of your letter of October 3, with which you forwarded a check in the sum of \$5.00 as the examination fee under Application No. 15555. Receipt No. 17259 is inclosed.

I note you ask that the issuance of a permit be expedited. As soon as the recording fee in the sum of \$5.00 is paid we will proceed with the issuance of a permit. We would be glad to issue the permit at once, but the law requires that all of the fees be turned over to the State Treasurer before a permit can be issued, and until the recording fee is received we cannot, therefore, issue a permit. I note that the voucher has been forwarded for the recording fee and presume that the check will be received within the near future. As soon as it is received a permit will be issued.

Very truly yours

CHAS. R. STRICKLIN
State Engineer

September 18, 1934

Mr. Stricklin
State Engineer
Salem, Oregon

Dear Mr. Stricklin:

In accordance with your letter of September 10th we are enclosing Voucher in the sum of \$5.00 for recording purposes for the use of water obtained by diversion at Lake Creek for Oregon Caves National Monument.

Due to the serious water situation at this location we would appreciate anything you could do to expedite approval of application, and issuance of a permit.

Very truly yours,

David H. Canfield
Acting Superintendent

By 
G. F. Whitworth
Park Engineer for ECW

Enclosure

September 10, 1934.

Mr. G. F. Whitworth,
Park Engineer,
Crater Lake National Park,
Crater Lake, Oregon.

Dear Sir:

This acknowledges receipt of your letter of September 5th with which you submitted an application in the name of David H. Canfield, Acting Superintendent of the Oregon Caves National Monument, for permit to appropriate 0.15 second-foot of water from Lake Creek for domestic, hotel supply and fire protection, together with a voucher in the amount of \$5.00 as the examination fee. The application, which has been filed and given No. 15515, appears to be in satisfactory form. The voucher in the amount of \$5.00 has been signed and is being returned herewith.

The law provides that the State Engineer shall collect a fee of \$5.00 for recording for the use of water for any purposes other than irrigation, storage or power purposes in addition to the examination fee, and there is therefore a balance of \$5.00 due under this application which must be paid before a permit can be issued.

I do not believe that it will be necessary to submit an application for permit to store water in connection with this development.

As soon as your remittance in the sum of \$5.00 for recording purposes is received the application will be placed in line for approval and issuance of a permit.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

OFFICE OF THE SUPERINTENDENT

September 5, 1934

Mr. Charles E. Stricklin
State Engineer
Salem, Oregon

RECEIVED
SEP 8 1934

STATE ENGINEER
SALEM, OREGON

Dear Mr. Stricklin:

We are enclosing application for permit to appropriate the public water of the State of Oregon, together with a voucher for \$5.00 to cover the examination fee. Will you please sign the voucher at the place marked 'X', and return to us at your early convenience so that we may forward it to the Finance Officer, San Francisco, for payment.

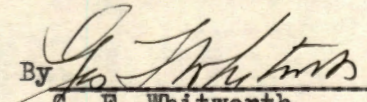

It is our understanding that the storage tank mentioned in this application does not come under the head of Reservoir, and hence it will be unnecessary to pay the \$1.00 recording fee mentioned on page 12 of the Handbook.

Will you please advise if it is necessary for the Federal Government to pay the filing fees described under general fees on page 12 of the Handbook. If such is the case, to count all words both printed and typed on the application or merely the typed words, or is there another type of form used for filing. If so, please furnish us with copy of same.

We are also enclosing a tracing and one copy of a blue print as called for in instructions. We would appreciate prompt action on this application, for, as described to you in a previous letter, the water situation in the Oregon Caves area is very serious at the present time.

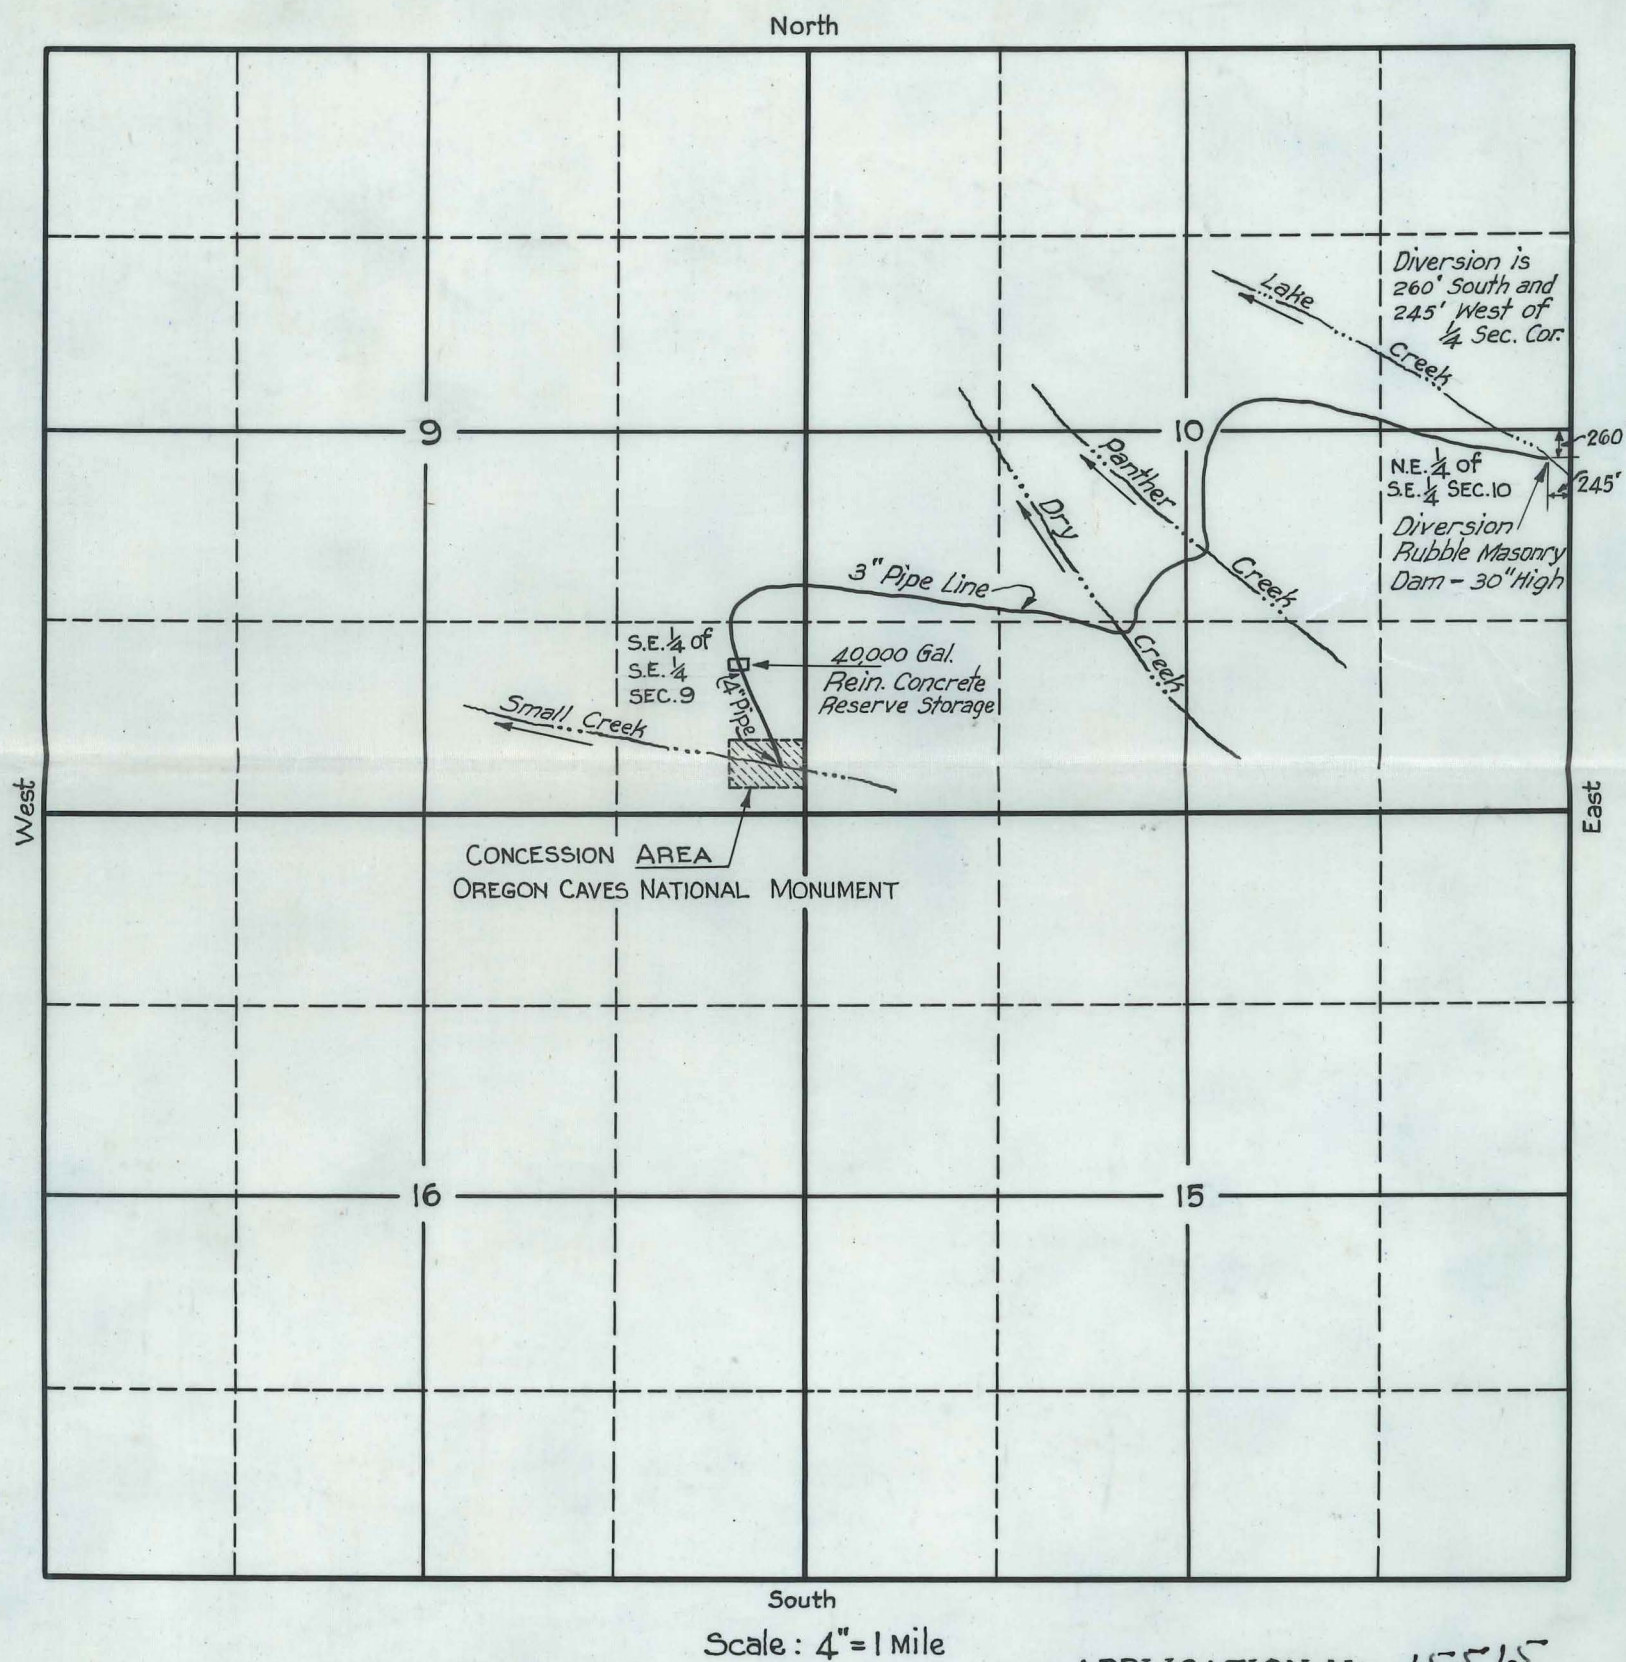

Very truly yours,

David H. Canfield
Acting Superintendent
