 MALIN OR 97632

confirms the right to the use of water perfected under the terms of Permit G-15405. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15495

SOURCE OF WATER: A WELL IN LOST RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 167.5 ACRES

MAXIMUM RATE: 2.09 CUBIC FEET PER SECOND

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MAY 10, 2001

WELL LOCATION:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
40 S	11 E	WM	36	NE SE	WELL 1 - 1350 FEET NORTH AND 50 FEET WEST FROM SE CORNER, SECTION 36

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

Twp	Rng	Mer	Sec	Q-Q	Acres
40 S	11 E	WM	36	NE SE	34.4
40 S	11 E	WM	36	NW SE	24.8
40 S	11 E	WM	36	SW SE	18.3
40 S	11 E	WM	36	SE SE	32.8
41 S	11 E	WM	1	NE NE	20.4
41 S	11 E	WM	1	NW NE	36.8

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this right, the Director may require the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time. Reports shall be submitted to the Department within 30 days of measurement.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level against which any future measurements will be compared is 107.94 feet below land surface for Well 1.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If it is determined there are no underlying rights for these same lands after the adjudication of claims in the Klamath Basin, a certificate resulting from use of water under this right may allow primary, rather than supplemental, irrigation of the lands described above. However, the right evidenced by such a certificate will be limited to the actual use made under this right.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

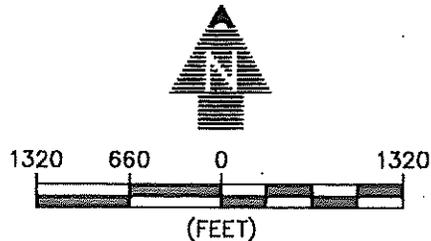

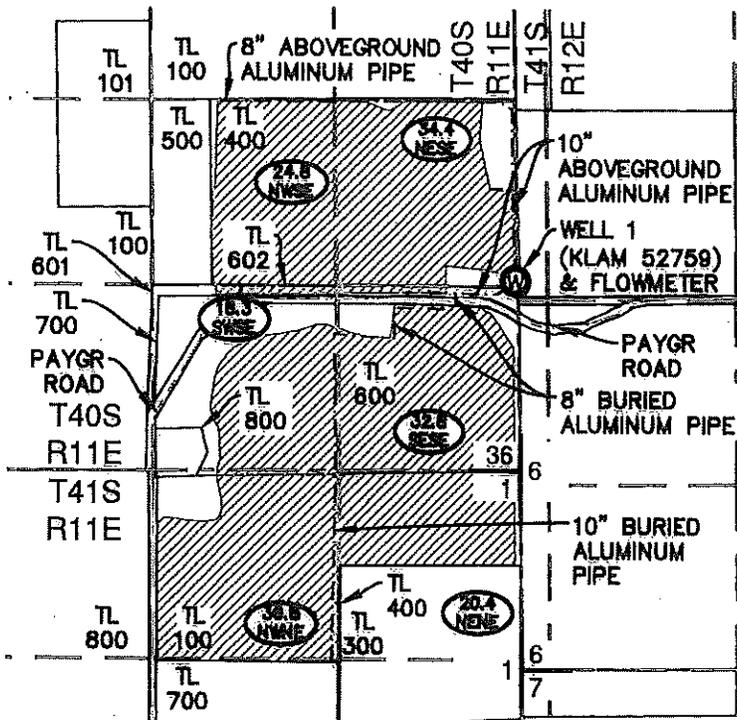

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued JAN 26 2024

Dwight French
Water Right Services Division Administrator, for
Douglas E. Woodcock, Acting Director
Oregon Water Resources Department

RECEIVED

APR 25 2023

OWRD

**A fee of \$230 must accompany this form for permits
with priority dates of July 9, 1987, or later.**

A separate form shall be completed for each permit.

In cases where a permit has been amended through the permit amendment process, a separate claim for the permit amendment is not required. Incorporate the permit amendment into the claim for the permit.

This form is subject to revision. **Begin each new claim** by checking for a new version of this form at:
<https://www.oregon.gov/OWRD/Forms/Pages/default.aspx>

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. **Every item must have a response.** If any requested information does not apply to the claim, insert "NA." **Do not delete or alter any section of this form unless directed by the form.** The Department may require the submittal of additional information from any water user or authorized agent.

"Section 8" of this form is intended to aid in the completion of this form and should not be submitted.

A claim of beneficial use includes both this report and a map. If the map is being mailed separately from this form, please include a note with this form indicating such.

If you have questions regarding the completion of this form, please call 503-979-9103.

The Department has a program that allows it to enter into a voluntary agreement with an applicant for expedited services. Under such an agreement, the applicant pays the cost to hire additional staff that would not otherwise be available. This program means a certificate may be issued in about a month. For more information on this program see
<https://www.oregon.gov/OWRD/programs/WaterRights/RA/Pages/default.aspx>

SECTION 3
CLAIM DESCRIPTION

OWRD

1. Point of appropriation name or number:

POINT OF APPROPRIATION (POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
Well 1	KLAM 52759	37550

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of appropriation source, if indicated on permit:

POA NAME OR NUMBER	SOURCE BASIN LOCATED WITHIN	TRIBUTARY
Well 1	Lost River Basin	N/A

3. Developed use(s), period of use, and rate for each use:

POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	ACTUAL RATE OR VOLUME USED (CFS, GPM, OR AF)
Well 1	Supplemental Irrigation	Hay and Grain	April 1 – September 30	3.70 CFS
Total Quantity of Water Used				3.70 CFS

4. Provide a general narrative description of the distribution works. This description must trace the water system from each point of appropriation to the place of use:

North of Paygr Road

From Well 1, water can be diverted to the north and west.

To the north from Well 1, water is diverted approximately 800' through 10" aboveground aluminum pipe. From there, water is diverted approximately 590' north through 8" aboveground aluminum pipe before turning west and traveling approximately 2,120' through 8" aboveground aluminum pipe.

To the west from Well 1, water is diverted approximately 1,000' through 10" aboveground aluminum pipe.

These mainlines can be tied into wheel lines with 3/16" sprinkler nozzles to irrigate lands in the NW1/4 SE1/4, NE1/4 SE1/4, SW1/4 SE1/4, and SE1/4 SE1/4 of Section 36.

South of Paygr Road

From Well 1, water is diverted west approximately 460' through 10" aboveground aluminum pipe. From there, the mainline can be tied into 8" buried aluminum pipe before passing through a culvert beneath Paygr Road. After passing through the culvert, the 8" buried aluminum pipe can travel west-southwest approximately 1,200' before tying into 10" buried aluminum pipe. The 10" buried aluminum pipe continues directly south for approximately 2,000'.

These mainlines can be tied into wheel lines with 3/16" sprinkler nozzles to irrigate lands in the SW1/4 SE1/4 and SE1/4 SE1/4 of Section 36, and the NW1/4 NE1/4 and NE1/4 NE1/4 of Section 1.

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

5. Variations:

Was the use developed differently from what was authorized by the permit, permit amendment final order, or extension final order? If yes, describe below. **YES**

(e.g. "The permit allowed three points of appropriation. The water user only developed one of the points." or "The permit allowed 40.0 acres of irrigation. The water user only developed 10.0 acres.")

The permit allowed 172.2 acres for supplemental irrigation; however, only 167.5 acres were developed for beneficial use.

6. Claim Summary:

POA NAME OR #	MAXIMUM RATE AUTHORIZED	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED	USE	# OF ACRES ALLOWED	# OF ACRES DEVELOPED
Well 1	2.15 CFS	3.70 CFS	N/A	Supplemental Irrigation	172.2	167.5

RECEIVED

APR 25 2023

OWRD

SECTION 4
SYSTEM DESCRIPTION

RECEIVED

APR 25 2023

Are there multiple POAs?

NO

A. Place of Use

1. Is the right for municipal use?

OWRD

NO

TWP	RNG	MER	SEC	QQ	GLOT	DLC	USE	IF IRRIGATION, # PRIMARY ACRES	IF IRRIGATION, # SUPPLEMENTAL ACRES
40S	11E	WM	36	NE SE			Supplemental Irrigation	0.0	34.4
40S	11E	WM	36	NW SE			Supplemental Irrigation	0.0	24.8
40S	11E	WM	36	SW SE			Supplemental Irrigation	0.0	18.3
40S	11E	WM	36	SE SE			Supplemental Irrigation	0.0	32.8
41S	11E	WM	1	NE NE			Supplemental Irrigation	0.0	20.4
41S	11E	WM	1	NW NE			Supplemental Irrigation	0.0	36.8
Total Acres Irrigated								0.0	167.5

Reminder: The map associated with this claim must identify Donation Land Claims (DLC), Government Lots (GLOT), Quarter Quarters (QQ), and if for irrigation, the number of acres irrigated within each projected DLC, GLOT, and QQ.

B. Groundwater Source Information (Well)

1. Is the appropriation from a well?

YES

2. Describe the access port (type and location) or other means to measure the water level in the well:

0.75" cap on the south side of well 1.0' above ground

3. If well logs are not available, provide as much of the following information as possible:

CASING DIAMETER	CASING DEPTH	TOTAL DEPTH	COMPLETION DATE OF ORIGINAL WELL	COMPLETION DATES OF ALTERATIONS	WHO THE WELL WAS DRILLED FOR	WELL DRILLED BY
N/A						

4. In addition to the information requested in item "3" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

KLAM 52759

C. Groundwater Source Information (Sump)

1. Is the appropriation from a dug well (sump)?

NO

D. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport and apply the water from the point of appropriation to the place of use.

RECEIVED

APR 25 2023

YES

1. Is a pump used?

2. Pump Information:

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Unknown	Unknown	Unknown	Turbine	16"	12"

3. Motor Information:

MANUFACTURER	HORSEPOWER
U.S. Electrical Motors	150 HP

4. Theoretical Pump Capacity:

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *IF A WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
150 HP	60	133.0'	65.0'	3.70 CFS

5. Provide pump calculations:

See Attachment D for theoretical pump calculations.

6. Measured Pump Capacity (using meter if meter was present and system was operating):

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
N/A			

Reminder: For pump calculations use the reference information at the end of this document.

7. Is the distribution system piped?

YES

8. Mainline Information:

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
8"	2710'	Aluminum	Above Ground
10"	1800'	Aluminum	Above Ground
8"	1200'	Aluminum	Buried
10"	2000'	Aluminum	Buried

9. Lateral or Handline Information:

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
N/A			

10. Sprinkler Information:

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
3/16"	60 PSI	7.8 GPM	99	99	1.72 CFS
3/16"	60 PSI	7.8 GPM	171	171	2.97 CFS

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Drip Emitter Information:

SIZE	OPERATING PSI	EMITTER OUTPUT (GPM)	TOTAL NUMBER OF EMITTERS	MAXIMUM NUMBER USED	TOTAL EMITTER OUTPUT (CFS)
N/A					

12. Drip Tape Information:

DRIPPER SPACING IN INCHES	GPM PER 100 FEET	TOTAL LENGTH OF TAPE	MAXIMUM LENGTH OF TAPE USED	TOTAL TAPE OUTPUT (CFS)	ADDITIONAL INFORMATION
N/A					

13. Pivot Information:

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
N/A				

E. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)? NO

F. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe? NO

G. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system? NO

H. Additional notes or comments related to the system:

RECEIVED

APR 25 2023

OWRD

SECTION 5 CONDITIONS

All conditions contained in the permit, permit amendment, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits and extension final orders contain any or all of the following dates: the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or permit extension order:

	DATE FROM PERMIT	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	5/1/2003		
BEGIN CONSTRUCTION (A)	N/A	N/A	N/A
COMPLETE CONSTRUCTION (B)	N/A	N/A	N/A
COMPLETE APPLICATION OF WATER (C)	10/1/2007	5/1/2003	Full beneficial use of water was ready, willing, and able to be used.

* MUST BE WITHIN PERIOD BETWEEN PERMIT, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETELY APPLY WATER

RECEIVED

APR 25 2023

2. Is there an extension final order(s)?

NO

3. Initial Water Level Measurements:

OWRD

a. Was the water user required to submit an initial static water level measurement? YES

b. What month was the initial measurement to be taken in?

March

c. Was the measurement submitted to the Department? YES

d. If the initial measurement was not submitted, provide that measurement now, if available:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT
N/A			

4. Annual Static Water Level Measurements:

a. Was the water user required to submit annual static water level measurements? YES

b. Provide the month, or months, the static water level measurement(s) were to be made:

March

c. Were the static water level measurements taken in the month(s) required? YES

d. If "YES", were those measurements submitted to the Department? YES

e. If the annual measurements were not submitted, provide the measurements now:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT
N/A			

5. Pump Test:

a. Did the permit require the submittal of a pump test? **YES**

Ground water permits with priority dates on or after **December 20, 1988**, require the submittal of a pump test prior to issuance of a certificate. In some cases, the permit holder may qualify for a multiple well exemption or an unreasonable burden exemption.

For additional information regarding pump tests see:

<https://www.oregon.gov/OWRD/programs/GWWL/GW/Pages/PumpTestProgram.aspx>

b. Has the pump test been previously submitted to the Department? **NO**

c. Is the pump test attached to this claim? **NO**

d. Has the pump test been approved by the Department? **NO**

e. Has a pump test exemption been approved by the Department? **NO**

RECEIVED

APR 25 2023

OWRD

**** Claims will not be reviewed until a pump test or exemption has been approved by the Department**

6. Measurement Conditions:

a. Does the permit, permit amendment, or any extension final order require the installation of a meter or approved measuring device? **YES**

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

b. Has a meter been installed? **YES**

c. Meter Information

POD/POA NAME OR #	MANUFACTURER	SERIAL #	CONDITION (WORKING OR NOT)	CURRENT METER READING	DATE INSTALLED
Well 1	Aquamaster	40264	Not Working	N/A	June 2001
Well 1	Seametrics	02211512	Working	66.817381 AF	Spring 2021

***The Aquamaster flowmeter was the original flowmeter installed around June 2001 when the original pump was installed; however, this meter stopped working and was replaced by the Seametrics meter in Spring 2021.**

7. Recording and reporting conditions:

a. Is the water user required to report the water use to the Department? **YES**

b. Have the reports been submitted? **YES**

If the reports have not been submitted, attach a copy of the reports if available.

8. Other conditions required by permit, permit amendment final order, or extension final order:

a. Were there special well construction standards? **NO**

b. Was submittal of a ground water monitoring plan required? **NO**

c. Was submittal of a water management and conservation plan required? **NO**

d. Was a Well Identification Number (Well ID tag) assigned and attached to the well? **NO**

***The well was assigned well tag ID 37550; however, a physical tag was not attached to the well.**

WELL ID #	DATE ATTACHED TO WELL
N/A	N/A

e. Other conditions?

NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

SECTION 6

ATTACHMENTS

Provide a list of any additional documents you are attaching to this report:

ATTACHMENT NAME	DESCRIPTION
Attachment A	Copy of Permit G-15405
Attachment B	Claim of Beneficial Use Map (on mylar)
Attachment C	Claim of Beneficial Use Map (paper copy)
Attachment D	Theoretical Pump Capacity and Sprinkler Calculations
Attachment E	Well Log KLAM 52759
Attachment F	Klamath County Tax Maps 40-11-36 & 41-11-1
Attachment G	Certificate Reimbursement Authority Estimate Application

SECTION 7

CLAIM OF BENEFICIAL USE MAP

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

This Claim of Beneficial Use Map was prepared from field measurements, NAIP 2022 aerial photography, Klamath County tax maps, and Oregon GLO maps.

Map Checklist

Please be sure that the map you submit includes ALL the items listed below.

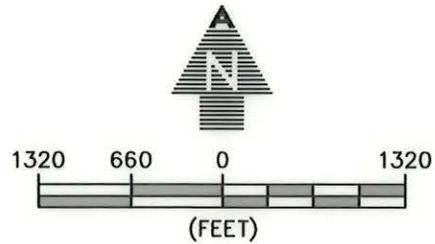

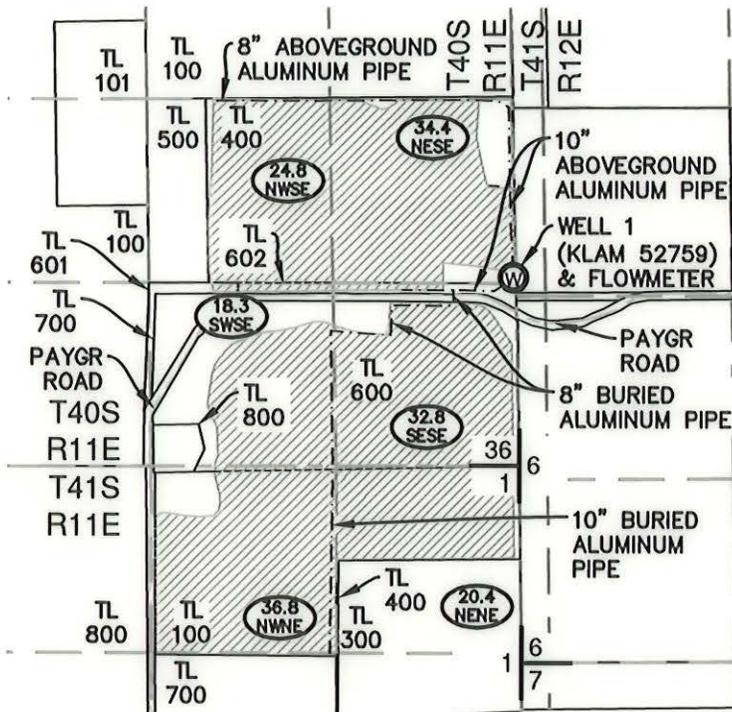

(Reminder: Incomplete maps and/or claims may be returned.)

- Map on polyester film
- Appropriate scale (1" = 400 feet, 1" = 1320 feet, or the original full-size scale of the county assessor map)
- Township, Range, Section, Donation Land Claims, and Government Lots
- If irrigation, number of acres irrigated within each projected Donation Land Claims, Government Lots, Quarter-Quarters
- N/A Locations of fish screens and/or fish by-pass devices in relationship to point of diversion
- Locations of meters and/or measuring devices in relationship to point of diversion or appropriation
- Conveyance structures illustrated (pumps, reservoirs, pipelines, ditches, etc.)
- Point(s) of diversion or appropriation (illustrated and coordinates)
- Tax lot boundaries and numbers
- N/A Source illustrated if surface water
- Disclaimer ("This map is not intended to provide legal dimensions or locations of property ownership lines")
- Application and permit number or transfer number
- North arrow
- Legend
- CWRE stamp and signature

CLAIM OF BENEFICIAL USE AND FINAL PROOF MAP

FOR
CRISS DUNCAN
T40S, R11E, SEC.6, WM; T41S, R11E, SEC.1, WM
KLAMATH COUNTY, OREGON
PERMIT G-15405
APPLICATION G-15495

STATE OF OREGON

COUNTY OF KLAMATH

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

JO ANN WOLLENHORST-RUSS
RUDOLPH PAYGR
17823 COUNTRY RD 85 B
EPARTO, CALIFORNIA 95627

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15495

SOURCE OF WATER: A WELL IN LOST RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 172.2 ACRES

MAXIMUM RATE: 2.15 CUBIC FEET PER SECOND

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MAY 10, 2001

WELL LOCATION: NE ¼ SE ¼, SECTION 36, T40S, R11E, W.M.; 1400 FEET NORTH
& 200 FEET WEST FROM SE CORNER, SECTION 36

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE ¼ SE ¼ 37.9 ACRES
NW ¼ SE ¼ 24.8 ACRES
SW ¼ SE ¼ 18.3 ACRES
SE ¼ SE ¼ 34.0 ACRES

SECTION 36

TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.

NE ¼ NE ¼ 20.4 ACRES

NW ¼ NE ¼ 36.8 ACRES

SECTION 1

TOWNSHIP 41 SOUTH, RANGE 11 EAST, W.M.

Application G-15495 Water Resources Department

PERMIT G-15405

RECEIVED

APR 25 2023

OWRD

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

Before Use of Water Takes Place

Initial and Annual Measurements

The Department requires the permittee to submit an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

After Use of Water has Begun

Reference Water Level Determination

Following the first year of water use, the user shall submit one static water level measurement in the month specified above which will establish the reference level against which future annual measurements will be compared. The water user is not required to measure additional water levels after the reference level has been determined unless required by the Director. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer,

licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If it is determined there are no underlying rights for these same lands after the adjudication of claims in the Klamath Basin, a certificate resulting from use of water under this permit may allow primary, rather than supplemental, irrigation of the lands described above. However, the right evidenced by such a certificate will be limited to the actual use made under this permit.

STANDARD CONDITIONS OWRD

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2007. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit,

Application G-15495 Water Resources Department

PERMIT G-15405

the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

Subject: Certificate RA Estimate R12954-23 for Criss Duncan involving Application G-15495 - need pump test
Attachments: RA contract_G-15495.pdf; estimate request_G-15495.pdf; estimate receipt_G-15495.pdf

Hello,

Please find the attached estimate and agreement to review the claim of beneficial use (Claim). If the proposed agreement is acceptable to you, please return a signed copy to our office along with the payment of the estimated cost to review the claim of beneficial use.

Based on cursory review of the Claim and Department records, I do not see receipt of a pump test or pump test exemption request for the claimed well (KLAM 52759). A pump test or pump test exemption must be submitted and approved by the Department's Groundwater Section staff prior to certificate issuance.

Please submit a pump test or pump test exemption request for the claimed well (KLAM 52759).

If you have any questions, please send me an email at kerry.l.kavanagh@water.oregon.gov.

Thanks,
Kerry

STATE OF OREGON

COUNTY OF KLAMATH

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

JO ANN WOLLENHORST-RUSS
RUDOLPH PAYGR
17823 COUNTRY RD 85 B
EPARTO, CALIFORNIA 95627

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15495

SOURCE OF WATER: A WELL IN LOST RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 172.2 ACRES

MAXIMUM RATE: 2.15 CUBIC FEET PER SECOND

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MAY 10, 2001

WELL LOCATION: NE ¼ SE ¼, SECTION 36, T40S, R11E, W.M.; 1400 FEET NORTH
& 200 FEET WEST FROM SE CORNER, SECTION 36

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE ¼ SE ¼ 37.9 ACRES
NW ¼ SE ¼ 24.8 ACRES
SW ¼ SE ¼ 18.3 ACRES
SE ¼ SE ¼ 34.0 ACRES
SECTION 36
TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.
NE ¼ NE ¼ 20.4 ACRES
NW ¼ NE ¼ 36.8 ACRES
SECTION 1

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

Before Use of Water Takes Place

Initial and Annual Measurements

The Department requires the permittee to submit an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

After Use of Water has Begun

Reference Water Level Determination

Following the first year of water use, the user shall submit one static water level measurement in the month specified above which will establish the reference level against which future annual measurements will be compared. The water user is not required to measure additional water levels after the reference level has been determined unless required by the Director. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer,

licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If it is determined there are no underlying rights for these same lands after the adjudication of claims in the Klamath Basin, a certificate resulting from use of water under this permit may allow primary, rather than supplemental, irrigation of the lands described above. However, the right evidenced by such a certificate will be limited to the actual use made under this permit.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2007. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit,

the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 1, 2003

Paul R. Cleary, Director
Water Resources Department

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

1. **Purpose.** The purpose of this Agreement is to expedite the processing of the **Claim of Beneficial Use (Application Number: G-15495)**
2. **Authority.** ORS 536.055 authorizes the OWRD to enter into a voluntary agreement with any applicant, permittee or regulated entity (collectively Applicant) for expediting or enhancing a regulatory process. In making this agreement, OWRD shall require the applicant to pay the full cost of expedited process.
3. **Restrictions.** Criss Duncan and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
4. **Effective Date and Duration.** Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service has been received by OWRD.
5. **Consideration.** Criss Duncan shall pay OWRD in advance for actual costs incurred by OWRD. Criss Duncan agrees to pay the full amount of **\$1810** to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost. The costs stated in this Agreement do not include the statutory application processing and filing fees.
6. **Confidentiality.** Criss Duncan agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.
7. **Indemnity.** Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD, and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the expedited service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.

PCA 47126

8. **Termination.** Applicant may request to terminate this agreement only in writing at any time during the process. The Applicant agrees to pay for the work done by the Reimbursement Authority personnel up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant, will refund any unspent balance after paying the Reimbursement Authority personnel for the work done.
9. **Funds Authorized and Available.** By its execution of this Agreement, Applicants certifies that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
10. **Duration of Estimate.** The Estimate of Time to complete the work is no later than one hundred and twenty days (120) days once this Agreement has been fully executed and payment of the estimated cost deposited. However, this estimate is contingent on the Applicant's expeditious resolution of any deficiency and may be affected by the Department's work load. This Estimate of Time may become null and void after thirty (30) days from the date the Applicant's Agreement is mailed. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant may need to re-apply for a new estimate.
11. **Completion Date.** OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information.
12. **Captions.** The captions or headings in this Agreement are for the convenience only and in no way define limit or describe the scope or intent of any provision of this Agreement.
13. **Amendment and Merger.** The terms of this Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
14. **Signatures.** All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.

Subject: Certificate RA Estimate R12954-23 for Criss Duncan involving Application G-15495 - need pump test
Attachments: RA contract_G-15495.pdf; estimate request_G-15495.pdf; estimate receipt_G-15495.pdf

Hello,

Please find the attached estimate and agreement to review the claim of beneficial use (Claim). If the proposed agreement is acceptable to you, please return a signed copy to our office along with the payment of the estimated cost to review the claim of beneficial use.

Based on cursory review of the Claim and Department records, I do not see receipt of a pump test or pump test exemption request for the claimed well (KLAM 52759). A pump test or pump test exemption must be submitted and approved by the Department's Groundwater Section staff prior to certificate issuance.

Please submit a pump test or pump test exemption request for the claimed well (KLAM 52759).

If you have any questions, please send me an email at kerry.l.kavanagh@water.oregon.gov.

Thanks,
Kerry

In the Matter of Application for Extension of Time for Permit G-15405, Water Right Application G-15495, in the name of William Bowman Revocable Living Trust and Criss Duncan	PROTEST OF PROPOSED FINAL ORDER RE: EXTENSION OF PERMIT G-15405
---	---

INTRODUCTION

Permit holder and applicant William Bowman, Trustee of the William Bowman Revocable Living Trust, files this protest pursuant to OAR 690-002-0030, OAR 690-315-0010, OAR 690-315-0060, and ORS 537.630.

On July 28, 2022, Mr. Bowman applied for an extension of Permit G-15405 from the original completion date of October 1, 2007, through October 1, 2025 (“Extension Application”). A copy of the Extension Application is attached as Exhibit A to this Protest. The permit authorizes use of up to 2.15 cubic feet per second of groundwater from one well for supplemental irrigation of 172.2 acres. Mr. Bowman is a co-holder of the permit with neighbor Criss Duncan. The well is located on Mr. Duncan’s property and the permitted place of use is divided between Mr. Bowman (109.5 acres) and Mr. Duncan (62.7 acres).

On October 25, 2022, the Oregon Water Resources Department (“OWRD” or “department”) issued a Proposed Final Order (“PFO”) proposing to grant an extension through October 1, 2014 instead of Mr. Bowman’s requested extension through October 1, 2025. For reasons described below, the PFO is in error and deficient.

OWRD’s decision to limit the extension to October 1, 2014, appears to be based on the reviewer’s understanding that the permit had been fully developed as of that date. That is understandable given the contents of the Extension Application. However, Mr. Bowman is elderly and relied heavily on the assistance of a staff person named Michelle in the local watermaster’s office to prepare the extension application. Apparently, she misunderstood the extent of development under the permit and mistakenly asserted that the entire place of use had been irrigated. In reality, Mr. Bowman has not developed his portion of the permitted use (109.5 acres out of the permitted 172.2 acres) and therefore cannot develop the use and submit the required claim of beneficial use without a longer extension.

This Protest seeks to set the record straight regarding past water use, establish the need for a longer extension, and pursue approval of the requested extension through October 1, 2025.

ELEMENTS OF PROTEST

The elements of a protest, as required by OAR 690-315-0060(2) and OAR 690-002-0030(1), are addressed as follows:

1 – PROTEST OF PROPOSED FINAL ORDER RE: APPLICATION FOR EXTENSION OF PERMIT G-15405

1. Protestant's Name and Address and Telephone Number (OAR 690-315-0060(2)(a); OAR 690-002-0030(1)(c))

William Bowman, Trustee
William Bowman Revocable Living Trust
26112 Paygr Way
Malin, OR 97632

RECEIVED

DEC 09 2022

OWRD

2. Description of the Protestant's Interest in the PFO (OAR 690-315-0060(2)(b))

Mr. Bowman is the applicant and is therefore directly and adversely affected by the PFO. The PFO proposes to grant an insufficient extension of time for Mr. Bowman to develop his portion of Permit G-15405.

3. Detailed Description of How the Action Proposed in the PFO Would Adversely Affect or Aggrieve the Protestant's Interest (OAR 690-315-0060(2)(c))

Mr. Bowman intends to make economic use of the real property by using supplemental groundwater to irrigate crops. Failure to grant an extension of Permit G-15405 through October 1, 2025, would adversely affect and aggrieve Mr. Bowman in the planned economic use of his property. Without an adequate extension, Mr. Bowman cannot prove up on his portion of the permit, resulting in total loss of his portion of the permit, inability to irrigate when surface water is unavailable, and devaluation of the associated real property.

4. Detailed Description of How the PFO is in Error or Deficient and How to Correct the Alleged Error or Deficiency (OAR 690-315-0060(2)(d)); Statement of Facts Sufficient to Show that the Protestant is Entitled to the Relief or Action Requested and Statement of Specific Relief or Action Requested (OAR 690-002-0030(1)(a) & (b))

For reasons described below, the PFO is in error and deficient. OWRD should correct the errors and deficiencies by issuing a superseding proposed final order and/or final order approving the requested extension through October 1, 2025. The following Findings of Fact (FOF) and Conclusions of Law (COL) are erroneous and deficient:

A. FOF #12: "The Department record shows that...177.0 acres have been irrigated..."

The water use report referenced in this finding (for water year 2014) states that water was used on only 65.0 acres, not 177.0 acres. The total reported water use was 177.0 acre-feet. Further, the reports for other years in which water was used under the permit (2015, 2017, and 2018) confirm that only 65.0 acres were irrigated. This roughly corresponds to the 62.7-acre portion of the permit that is located on the neighboring property owned by the permit co-holder, Mr. Duncan. A copy of the online water use reporting for this permit is attached as Exhibit B.

B. FOF #13: *“According to the Application, a maximum rate of 2.15 cfs of water has been appropriated from the Well for supplemental irrigation of 172.2 acres.”*

This finding does not accord with the facts due to an apparent misunderstanding at the time OWRD staff filled out the extension application for Mr. Bowman. The Extension Application did, in error, state that the entire 172.2 acres had been irrigated, which presumably led the extension reviewer to conclude that the permit had been fully developed and that Mr. Bowman would not need an extension through October 1, 2025. Yet elsewhere in the Extension Application, Mr. Bowman emphasized the need for additional time to construct a well on his own property. (Extension Application, pp. 9-11.) Although he signed the Extension Application, he did not realize it contained erroneous statements indicating that his property had been irrigated from the permitted well.

C. FOF #14: *“An estimated investment of approximately \$63,000, has been made which is the total cost for complete development of the permit as currently authorized.”*

Due to the mistaken understanding described above, OWRD found that the \$63,000 represented the “total cost for complete development of the permit as currently authorized,” when, in fact, it was merely the estimated cost for partial development of the permit. The finding does not include the remaining estimated cost of \$73,000 to fully develop Mr. Bowman’s portion of the permit.

D. FOF #27: *“The authorized well is located on a neighbor’s property, and currently cannot be accessed by the Applicant.”*

This finding is accurate as far as it goes. However, due to the above-described misunderstanding, the extension reviewer apparently did not understand that the denial of access to the well has made it impossible for Mr. Bowman to complete development of his portion of the permit from the currently-authorized well. As stated in the Extension Application, Mr. Bowman would need to amend the permit to add a well on his property, construct the proposed well, and irrigate his portion of the permitted place of use from that well. Otherwise, Mr. Bowman cannot file a claim of beneficial use that meets the requirements of OAR Chapter 690, Division 14, and will ultimately lose his portion of the permit.

E. FOF #29: *“As of July 28, 2022, no additional work is needed to complete development of the permit as authorized. * * * Given the amount of development left to occur, the Department has determined that the permit holder’s request to have until October 1, 2025, is not reasonable or necessary. Based on FOF 12, and 13, the Department has determined and [sic] Extension of Time to October 1, 2014, is necessary to accomplish the application of water to beneficial use under the terms and conditions of Permit G-15405.”*

Mr. Bowman incorporates the above discussion regarding the mistaken understanding that led OWRD to make this finding. Mr. Bowman has not developed his portion of the permit to date and needs the requested extension through October 1, 2025, to do so.

RECEIVED

DEC 09 2022

OWRD

F. COL #3: *“Based on Finding of Facts 7, through 29, completion of construction and full application of water to beneficial use can be accomplished by October 1, 2014, as required by OAR 690-315-0040(1)(c).”*

Mr. Bowman incorporates the above discussion regarding the mistaken understanding that led OWRD to reach this conclusion. Mr. Bowman has not developed his portion of the permit to date and needs the requested extension through October 1, 2025, to do so.

G. COL #4: *“The applicant can complete the project within the time period requested for the extension on the project, and is granted only for the reasonable time necessary to complete water development an [sic] apply water to beneficial use. OAR 690-315-0050(4).”*

Mr. Bowman incorporates the above discussion regarding the mistaken understanding that led OWRD to reach the conclusion that an extension through October 1, 2014, would be “the reasonable time necessary to complete water development...” Mr. Bowman has not developed his portion of the permit to date and needs the requested extension through October 1, 2025, to do so.

H. *Proposed Order: “Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to: Extend the time to apply water to beneficial use under Permit G-15405 from October 1, 2007, to October 1, 2014.”*

Mr. Bowman incorporates the above discussion regarding the mistaken understanding that led OWRD to issue a proposed order to extend Permit G-15405 through October 1, 2014. For reasons described above, Mr. Bowman has not developed his portion of the permit to date and needs the requested extension through October 1, 2025, to do so.

Other than the above findings and conclusions, Mr. Bowman notes that the department’s findings and conclusions are accurate, including positive findings of compliance with permit conditions, good faith, reasonable diligence and ultimately good cause. As a co-holder of the permit, Mr. Bowman is entitled to the requested extension through October 1, 2025, based on those positive findings and the remaining need to develop his portion of the permit.

5. Citation of Legal Authority to Support the Protest, if Known (OAR 690-315-0060(2)(e); OAR 690-002-0030(1)(d))

Legal authority known to the Protestant at this time:

ORS 537.630 relating to permit extensions.

ORS 539.010(5) relating to permit extension considerations.

ORS Chapter 183 pertaining to agency orders.

OAR Chapter 690 Division 14 relating to claims of beneficial use.

OAR Chapter 690 Division 315 relating to permit extensions.

OAR Chapter 690 Division 002 relating to protests and contested case hearings.

Case law relating to the above statutes and rules.

6. Protest Fee (OAR 690-002-0030(1))

Please deduct the protest fee of \$480.00 (applicant's fee) from Schwabe, Williamson & Wyatt's account with the Oregon Water Resources Department.

7. Request for Contested Case Hearing (OAR 690-315-0060(3)(b); OAR 690-002-0010(6))

Mr. Bowman hereby requests a contested case hearing.

CONCLUSION

Given the above-described facts and legal arguments – most importantly, the unfortunate misunderstanding upon which OWRD proposed an insufficient extension of time – Mr. Bowman is entitled to relief. Specifically, he requests that OWRD issue a superseding proposed final order or a final order approving the requested extension of Permit G-15405 through October 1, 2025.

Although Mr. Bowman has requested a contested case hearing to reserve his legal right to a hearing, he would prefer to resolve this Protest through informal resolution and would welcome an opportunity to engage with OWRD to that end. Absent the misunderstanding described above, Mr. Bowman believes the department would have realized the need for additional time and granted the requested extension through October 1, 2025, to allow for construction of an additional point of appropriation on his property and irrigation of his portion of the authorized place of use.

If this matter goes to hearing, Mr. Bowman reserves the right to raise additional issues that were not readily identifiable or reasonably ascertainable during the time allowed for filing this Protest.

DATED: December 9, 2022.

Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to (1) complete construction, and/or to (2) apply water to beneficial use.

In order to approve a permit extension request the Department must be able to find:

- 1) Construction has begun:
 - A. For Groundwater Permits
Construction of the well(s), *authorized by the permit*, began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.
 - B. For Surface Water or Reservoir Permits
Construction of the water system began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

The Department will also confirm that:

- 2) If required, a fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water. An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

Application for an Extension of time for a Permit

Page 2 of 12

Before submitting your Application for Extension of Time, make sure the following items are included:

- This completed Application for Extension of Time.
- Statutory fee of \$780
- Signature page (Second page of this Application for Extension of Time).
- Letter granting an agent authority to act on behalf of the permit holder (if applicable)
- All supporting documentation and/or evidence referenced in the Application for Extension of Time. (ODFW Fish screen approval or waiver, contract for stored water, etc)

MAIL COMPLETED APPLICATION
along with the Supporting documents and/ or evidence and correct fee to:

Salem, Oregon 97301

RECEIVED

JUL 28 2022

OWRD

GENERAL TIPS:

- Permit holders of municipal or quasi-municipal water use permits DO NOT use this form. The correct form is APPLICATION FOR EXTENSION OF TIME FOR MUNICIPAL AND QUASI-MUNICIPAL WATER USE PERMITS.
- Request the reasonable amount of time necessary to fully complete construction of the water project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate APPLICATION FOR EXTENSION OF TIME must be submitted for each permit. OAR 690-315-0020(2).
- Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at the State of Oregon, Secretary of State Website. To be granted an extension of time, the Department must make four specific findings; 1) the application is complete, 2) construction of the water system began within the time specified in the permit and applicable statute, 3) there is good cause, and 4) the project can be completed within the time being requested. If the Department cannot make all four findings, the extension of time cannot be approved.
- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 690-315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights Services Division.

- An Application for an Extension of Time will be reviewed for completeness. A response is required for each item contained in the application. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

Reference Materials Needed to Complete this Application:

- **The water right permit.** If needed, a copy of the water right permit can be downloaded from the Department's Website, or, a copy of the permit may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- **Previous Applications and Orders.** Copies of previous applications and orders that may inform the completion of the Application for Extension of Time, if available, may be downloaded from the Department's Website. **NOTE: If the document requested is not available on the Department's website, you may be required to submit a Public Record Request.**
- **Documentation which demonstrates compliance with permit conditions** (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

Questions to complete this application for an Extension of Time
Please see the Instruction sheet to help you answer these items.

1. **Beginning Construction within required deadlines.** OAR 690-315-0020(3)(d)

2a. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2nd column are contained within it. Using the extra row labeled "other" to specify any other additional conditions included in the permit, or specified in a final order approving a permit amendment or prior extension of time. In the 1st column check the box for each condition (row) identified as relevant. In the 3rd column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4th column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

CHART-A

Page 6 of 12

[OAR 690-315-0020(3)(e)(B)]

Provide evidence of the maximum rate (or duty, if applicable) of water diverted for beneficial use under this permit made to date. *Rate is 2.15 cfs*

TIP: Report the rate used to date. Unless full beneficial use has been made, this rate will be less than the rate authorized on the permit.

6. For Surface Water Permit Extensions (e.g. S-XXXX or R-XXXX):

TIP: Report the rate in the same units of measurement as specified in the permit.

Maximum rate used to date = _____ cfs (cubic feet per second) or,

Maximum rate used to date = _____ gpm (gallons per minute) or,

Maximum volume of stored water used to date = _____ AF or,

Maximum volume stored annually to date = _____ AF

7. For Ground Water Permit Extensions (e.g. G-XXXX):

TIP: Include information from ALL wells that pertain to this permit, including drilled wells not currently used.

[OAR 690-315-0020(3)(f)(j)]

10. In the chart below provide a summary of your future plans and schedule to complete the construction of the water system, and/or apply water to full beneficial use under the terms and conditions of the permit.

CHART-E

APPROXIMATE DATE RANGE (projected)	WORK OR ACTION TO BE ACCOMPLISHED (projected)	ESTIMATED COST (projected)
2022	Permit Admendment or Permit split	
	well drilled approx 300'	\$50,000.00
	Pump	3,000.00
	new well line	10,000.00
	ELECTRIC	\$10,000.00
Year: 2022	Date intend to apply water to full beneficial use under the terms and conditions of this permit.	
Total Cost:		\$73,000.00

approx.

[OAR 690-315-0020(3)(g)]

11. Estimated remaining cost to complete the project:

(The total cost from CHART-E) 1. This extension of time needs to be

- Completed
- 2. A permit Admendment OR permit split needs to be done
- 3. A new POA needs to be done for MR. Bowman's property

[OAR 690-315-0020(3)(j)]

12. Provide a summary of your plan to complete construction, meeting all permit conditions and apply the water to beneficial use: (List all tasks or steps needed to complete the project, the date when each task will be completed, and the cost associated with each task; attach additional pages if necessary.) The POA#1 is located on Criss Duncan's property and he will not give me access to the POA. So I need to drill my own well for my crops & property.

[OAR 690-315-0020(3)(k)]

13. Justify the time requested to complete the project and/or apply the water to full beneficial use. (Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.)

I will need to file a permit split and then a permit amendment and then have a new well drilled

[OAR 690-315-0020(3)(l)]

14a. Will a denial of the extension result in undue hardship? (Describe the hardship and the effects.)

Yes, I will not be able to farm and use my supplemental water right for my crops, which is my only income.

14b. Are there any other reasonable alternatives that exist for meeting your water use needs? (Explain in detail, consider other potential sources of water, and describe their feasibility)

No, even if I could use ~~and~~ the existing well (POA#1). Pump test need to be done and the CBU filed

15. Was the delay in the timely completion of this water development project and/or timely application of water to full beneficial use caused by any additional government requirements, other than the conditions contained within the permit, which significantly delayed the completion and perfection of this right? (Explain in detail, including how much time did this delay the project; list dates.) _____

N/A

RECEIVED

JUL 28 2022

OWRD

[OAR 690-315-0020(3)(h)]

16. Describe any unforeseen events which contributed to the delay of completion of this project that you had no control over. (Explain in detail what the unforeseen events were (i.e. health issues, natural disaster) and how much time was spent addressing the unforeseen events. Delays caused by business decisions are not considered unforeseen events.) _____

The original permit owners pass away and the property was in trusts for AND THE LAND WAS LEASED.

[OAR 690-315-0020(3)(h)]

17. Describe an additional reasons why the construction was not completed, and/or water was not beneficially used within permit time limits. (Provide supporting information for the reason(s) that best fits your circumstances.) MR. BOWMAN purchased the

land and found out he was able to use the well on his property. So he couldn't call for a QBU

[OAR 690-315-0020(3)(m)(n)]

18. Provide any other information you wish OWRD to consider while evaluating your Application for Extension of Time.

The well for this WR Permit is on the other landowner Criss Duncan. Mr. Duncan will not allow access to well so he can use it to irrigate his property. He wants to add a POA to his property.

[OAR 690-315-0040(2)(f)]

19. Will the income or use of the water project provide a fair and reasonable return on your investment? (Explain in detail) _____

It will take approx. 5 yrs to re-comp the investment for this new well

[OAR 690-315-0040(4)(d)]

20. Describe in detail if there are other economic interest, beyond those of the permit holder, which are dependent upon the completion of this project. (Who will be effected and how?)

REFERENCE: Application for Extension of Time

Dear Extension of Time Applicant:

The Water Right Services Division has received your application for an extension of time for APPLICATION FILE #: G-15495 (Permit G-15405). Your application will be reviewed in the future. Following the review, you will receive a Proposed Final Order either approving or rejecting the extension of time request. A 45-day protest period begins upon issuance of the Proposed Final Order. After the protest period closes, a Final Order is issued.

You may continue the use of water under your water right until the Water Resources Department formally takes action on your extension application. If your permit includes conditions, water use reporting, water level measurement reporting, etc., you are required to comply with the conditions.

Any additional development that occurs after the expired completion date, identified on the permit or an extension order, can only be claimed upon an approved extension application.

If you have questions concerning your extension of time application, please contact Jeffrey Pierceall at (503) 979-3213. For general information about the Water Resources Department, you may contact the Water Resources' Customer Service Group at (503) 986-0801 or you may access the Department's website at: www.wrd.state.or.us.

*The water year is named for the calendar year in which it ends. Example: the 2018 water year begins Oct. 1, 2017 and ends Sep. 30, 2018.

- The Water Resources Department makes reasonable efforts to screen the data for quality control; however, the Department cannot accept responsibility for errors, omissions, or accuracy of the information. Notification of any errors is appreciated. Send notifications to owrd.waterusereporting@water.oregon.gov or call 971-345-7489.
- Water use is reported by point of diversion (POD), rather than by water right.
- If a POD is shared with multiple water rights, it is not feasible to separate out the amount used under the water right being queried from water used by other rights using this same POD.
- Monthly amounts indicate:
 - For diverted rights, the total amount diverted during the month;
 - For storage rights, the amount generally stored in the reservoir/pond during the month, as represented by the volume of water impounded on approximately the same day each month.
- Water use amounts have all been converted to "acre-feet" (AF), regardless of the original measurement unit reported. One AF is the volume of water that will cover an acre of ground one foot deep = 325,850 gallons.
- Zeros indicate that a report was received stating that no water was used during those months; if a year is not listed, no report of water use was received for that year.

RE: Protest / William Bowman (Permit G-15405 / Application G-15495)
Our File No.: 140401-276681

Dear Patricia:

Enclosed for filing on behalf of William Bowman is a Protest of the Proposed Final Order Re Extension of Permit G-15405 issued on October 25, 2022 in connection with Mr. Bowman's Application for an extension of Permit G-15405. I will represent Mr. Bowman in this matter.

Please charge the Protestant's filing fee of \$480.00 to Schwabe, Williamson & Wyatt's account with the department.

Best regards,

Shonee D. Langford

Patricia,

I have reviewed the protest.

I would like to see an updated Application for Extension since the basis of the protest is Erroneous info in the submitted App. Specifically information on why no work has been done in over 14 years.

Thanks -
Jeffrey

Application for Extension of Time

In the Matter of the Application for an Extension of Time)	
for Permit G-15405, Water Right Application G-15495, in)	PROPOSED
the name of William Bowman Revocable Living Trust, and)	FINAL
Criss Duncan)	ORDER

Permit Information

Application:	G-15495
Permit:	G-15405
Basin:	14 – Klamath / Watermaster District 17
Date of Priority:	May 10, 2001
Source of Water:	a well in Lost River Basin
Purpose or Use:	supplemental irrigation of 172.2 acres
Maximum Rate:	2.15 cubic feet per second (cfs)

Please read this Proposed Final Order in its entirety.

In Summary, the Department proposes to:

- Grant an extension of time to apply water to full beneficial use from October 1, 2007, to October 1, 2014¹.

This Extension of Time request is being processed in accordance with Oregon Revised Statute 537.630 and 539.010(5), and Oregon Administrative Rule Chapter 690, Division 315.

¹Pursuant to ORS 537.630(5), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

ACRONYM QUICK REFERENCE

Application – Application for Extension of Time
Department – Oregon Department of Water Resources
FOF – Finding of Fact
PFO – Proposed Final Order
Well – KLAM 52759
cfs - cubic feet per second

AUTHORITY

Generally, see ORS 537.630 and OAR Chapter 690 Division 315.

ORS 537.630(2) provides in pertinent part that the Oregon Water Resources Department (Department) for good cause shown shall order and allow an extension of time within which irrigation or other works shall be completed or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

ORS 539.010(5) instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefor; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-315-0040 provides that in order to approve an application for an extension of time to complete construction or apply water to full beneficial use, the Department shall make the findings in OAR 690-315-0040(1) including a finding that there is “good cause” to approve the extension. OAR 690-315-0040(2)-(4) contains the factors that the Department must consider to make findings that support a “good cause” determination.

FINDINGS OF FACT

1. On May 1, 2003, Permit G-15405 was issued by the Department. The permit authorizes the use of up to 2.15 cfs of water from a well in Lost River Basin for supplemental irrigation of 172.2 acres. The permit specified complete application of water was to be made on or before, October 1, 2007.
2. On April 26, 2022, a partial assignment by proof from Jo Ann Wollenhorst-Russ and Rudolph Paygr, to William Bowman Revocable Living Trust, was recorded in the records of the Water Resources Department.
3. On July 29, 2022, a partial assignment by proof from Jo Ann Wollenhorst-Russ and Rudolph Paygr, to Criss Duncan, was recorded in the records of the Water Resources Department.

4. On July 28, 2022, William Bowman, owner of William Bowman Revocable Living Trust, submitted an "Application for Extension of Time" (Application) to the Department, requesting the time to apply water to full beneficial use under the terms and conditions of Permit G-15405 be extended from October 1, 2007, to October 1, 2025.
5. On August 9, 2022, notification of the Application for Permit G-15405 was published in the Department's Public Notice. No public comments were received regarding the Application.

Review Criteria [OAR 690-315-0040]

In order to approve an Application for an Extension of Time to complete construction and/or apply water to full beneficial use pursuant to ORS 537.230 or 537.630, or to begin construction, pursuant to ORS 537.248, the Department must make the findings in OAR 690-315-0040(1)(a) – (d).

Complete Extension of Time Application [OAR 690-315-0040(1)(a)]

6. On July 28, 2022, the Department received a completed Application and the fee specified in ORS 536.050 from the permit holder.

Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]

7. Construction of the well began prior to permit issuance.
8. According to the well log received by the Department on June 22, 2001, construction of KLAM 52759 (Well) began May 18, 2001.

Based on Finding of Fact (FOF) 7, and 8, the Department has determined that the prosecution of the construction of the well began prior to October 1, 2007.

Good Cause [OAR 690-315-0040(1)(d)]

The Department must find that there is "good cause" to approve the extension. In making a "good cause" finding, the Department shall consider the requirements set forth under OAR 690-315-0040(2).

Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]

In order to make a finding of "good cause" to approve the extension, the Department shall consider whether the applicant has demonstrated "reasonable diligence" in previous performance under the permit. OAR 690-315-0040(2)(a). In determining "reasonable diligence", the Department shall consider, but is not limited to, the following factors: a) The amount of construction completed within the time allowed in the permit or previous extension; b) The amount of beneficial use made of the water during the permit or previous extension time limits; c) Water right holder conformance with the permit or previous extension conditions; and d) Financial investments made toward developing the beneficial use of water.

Amount of Construction [OAR 690-315-0040(3)(a)]

The amount of construction completed within the time allowed in the permit or previous extension.²

9. Construction of the well began prior to permit issuance.
10. Work accomplished during the original development time frame under Permit G-15405 includes installation of a pump, mainline and irrigation equipment.

The Application provides evidence of progress of physical work made towards completion of the water system, enough to qualify as the minimum necessary for the Department to find good cause and reasonable diligence towards complete application of water to a beneficial use.

Compliance with Conditions [OAR 690-315-0040(3)(c)]

The water right permit holder's conformance with the permit conditions.

11. The Department has considered the permit holder's compliance with conditions, and has identified the following concerns: (1) annual reports of the amount of water used each month have not been received by the Department by October 1, 2007, (2) the record does not show that a meter or other suitable measuring device has been installed by October 1, 2007, and (3) the required March static water level measurements have not been received by the Department by October 1, 2007.

Based on FOF 11, the Department has determined that the permit holder has not demonstrated compliance with following permit conditions as required by Permit G-15405:

- "Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director." and
- "To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March."

In order to legally perfect the use of water under this permit, the permit holder must demonstrate that all conditions of the permit have been satisfied within the timeline provided by the permit.

² "Actual Construction" is defined in OAR 690-315-0020(3)(d)(A) and (B) as physical work performed toward completion of the water system which demonstrates the water right permit holder's good faith and intention to complete the project with reasonable diligence. Actual construction does not include planning a diversion system, formulating a business plan, securing financing, letting contracts, purchasing but not installing equipment, surveying, clearing land or planting crops.

12. The Department record shows that (1) a water use report was submitted for water year 2014 (October 1, 2013, through September 30, 2014) identifying 177.0 acres have been irrigated, (2) the report identifies a flowmeter as the method of measurement, and (3) the first March static water level measurement was taken March 22, 2011.

Based on FOF 12, the Department has determined the above listed conditions have been satisfied by October 1, 2014.

Beneficial Use of Water [OAR 690-315-0040(3)(b)]

The amount of beneficial use made of the water during the permit time limits.

13. According to the Application, a maximum rate of 2.15 cfs of water has been appropriated from the Well for supplemental irrigation of 172.2 acres.

Based on FOF 11, the Department has determined that beneficial use of water, in compliance with the terms and conditions of the permit has not been demonstrated under this permit because not all permit conditions were satisfied by October 1, 2007.

Financial Investments to Appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b),(3)(d),(4)(d)]

14. An estimated investment of approximately \$63,000, has been made which is the total cost for complete development of the permit as currently authorized.
15. The Application identifies an additional investment is needed to submit a request for a permit amendment to add an additional point of appropriation.

Based on FOF 14, the Department has determined that the permit holder had made an investment, which provides evidence of good cause and reasonable diligence towards the complete application of water to a beneficial use.

Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]

The Application provides evidence of progress towards completion of the water system; a financial investment has been made; the permit holder has not demonstrated compliance with all permit conditions within the time authorized by the permit, and; beneficial use has not been demonstrated. The Department has determined the applicant has demonstrated the minimum necessary for the Department to find reasonable diligence towards complete application of water to a beneficial use.

The Market and Present Demands for Water [OAR 690-315-0040(4)(a-f)]

The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:

- *(a) The amount of water available to satisfy other affected water rights and scenic waterway flows;*
- *(b) Special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d);*
- *(c) The habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife;*
- *(d) Economic investment in the project to date;*
- *(e) Other economic interests dependent on completion of the project; and*
- *(f) Other factors relevant to the determination of the market and present demands for water and power.*

OAR 690-315-0040(4)(a)

The amount of water available to satisfy other affected water rights and scenic waterway flows.

16. A review of the amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit G-15405; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined when an Application for a new water right is submitted.

OAR 690-315-0040(4)(b)

Special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d).

17. The point of appropriation for Permit G-15405, located within the Lost River Basin, is not located within a limited or critical groundwater area.
18. Lost River is located above Klamath Scenic Waterway.
19. The point of appropriation is not in an area listed by the Department of Environmental Quality as a water quality limited stream.

OAR 690-315-0040(4)(c)

The habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife.

20. Lost River is located within an area ranked “low” for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife.

OAR 690-315-0040(4)(d)

Economic interests dependent on completion of the project.

21. An approximate total of \$63,000 has been invested in the project.

OAR 690-315-0040(4)(e)

Other economic interests dependent on completion of the project.

22. Other economic interests dependent on completion of the project have not been identified.

OAR 690-315-0040(4)(f)

Other factors relevant to the determination of the market and present demand for water and power.

23. No other factors relevant to the determination of the market and present demand for water and power have been identified.

Fair Return Upon Investment [OAR 690-315-0040(2)(f)]

24. The use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

Other Governmental Requirements [OAR 690-315-0040(2)(g)]

25. Delay in the development of this project was not caused by any other governmental requirements.

Unforeseen Events [OAR 690-315-0040(2)(h)]

26. The Applicant identifies that the original permit holders passed away and the land was leased by the Trust.

Denial of the Extension Will Result in Undue Hardship [OAR 690-315-0040(2)(i)]

27. The Applicant states a denial of the extension would result in undue hardship, and that there are no other reasonable alternatives exist for meeting water use needs. The authorized well is located on a neighbor's property, and currently cannot be accessed by the Applicant.

Good Faith of the Appropriator [OAR 690-315-0040(2)(e)]

28. The Application provides evidence of good faith of the appropriator under Permit G-15405.

Based on FOF 7, 8, 9, 10, 12, 13, 14, and 21, the Department has determined that the applicant has shown good faith and reasonable diligence.

Duration of Extension [OAR 690-315-0040(1)(c)]

Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.

29. As of July 28, 2022, no additional work is needed to complete development of the permit as authorized.
30. The Applicant is requesting an Extension of Time to October 1, 2025, to allow them to submit a Permit Amendment to add an additional point of appropriation on the Applicants property.

Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2025, is not reasonable or necessary. Based on FOF 12, and 13, the Department has determined and Extension of Time to October 1, 2014, is necessary to accomplish the application of water to beneficial use under the terms and conditions of Permit G-15405.

Good Cause [OAR 690-315-0040(1)(d)]

The Department must find that there is "good cause" to approve the extension. In making a "good cause" finding, the Department shall consider the requirements set forth under OAR 690-315-0040(2).

The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).

CONCLUSIONS OF LAW

1. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
2. The applicant has complied with the construction timeline requirements to begin construction as required by ORS 537.630, OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
3. Based on Finding of Facts 7, through 29, completion of construction and full application of water to beneficial use can be accomplished by October 1, 2014, as required by OAR 690-315-0040(1)(c).

4. The applicant can complete the project within the time period requested for the extension on the project, and is granted only for the reasonable time necessary to complete water development an apply water to beneficial use. OAR 690-315-0050(4).
5. The applicant has demonstrated good cause for the extension.

PROPOSED ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to apply water to beneficial use under Permit G-15405 from October 1, 2007, to October 1, 2014.

DATED: October 25, 2022

Dwight French, Administrator,
Water Right Services Division

*If you have any questions,
please check the information
box on the last page for the
appropriate names and
phone numbers.*

Protests

Pursuant to OAR 690-315-0060(1), the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. Protests must be received by the Water Resources Department no later than **December 9, 2022**, at this address: Oregon Water Resources Department, Water Right Services Division, 725 Summer St NE, Suite A, Salem, OR 97301-1266. Protests may not be submitted by electronic mail. OAR 690-002-0025(3).

Protests must be in writing and include all of the following:

- The name, address, and telephone number of the protestant
- A detailed description of the protestant's interest in the proposed final order, and, if the protestant claims to represent the public interest, a precise statement of the public interest represented
- A detailed description of how the action proposed in the proposed final order would impair or be detrimental to the protestant's interest
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency
- If the applicant protests, a statement of whether a hearing is requested
- Citation of legal authority supporting the protestant, if known

OWRD

Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to (1) complete construction, and/or to (2) apply water to beneficial use.

In order to approve a permit extension request the Department must be able to find:

1) Construction has begun:

A. For Groundwater Permits

Construction of the well(s), *authorized by the permit*, began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

B. For Surface Water or Reservoir Permits

Construction of the water system began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

The Department will also confirm that:

- 2) If required, a fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water. An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

GENERAL TIPS:

OWRD

- Permit holders of **municipal or quasi-municipal water use permits DO NOT use this form**. The correct form is APPLICATION FOR EXTENSION OF TIME FOR MUNICIPAL AND QUASI-MUNICIPAL WATER USE PERMITS.
- Request the reasonable amount of time necessary to fully complete construction of the water project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate APPLICATION FOR EXTENSION OF TIME must be submitted for each permit. OAR 690-315-0020(2).
- Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at the State of Oregon, Secretary of State Website. To be granted an extension of time, the Department must make four specific findings; 1) the application is complete, 2) construction of the water system began within the time specified in the permit and applicable statute, 3) there is good cause, and 4) the project can be completed within the time being requested. If the Department cannot make all four findings, the extension of time cannot be approved.
- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 690-315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights Services Division.

- An Application for an Extension of Time will be reviewed for completeness. A response is required for each item contained in the application. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

Reference Materials Needed to Complete this Application:

- **The water right permit.** If needed, a copy of the water right permit can be downloaded from the Department's Website, or, a copy of the permit may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- **Previous Applications and Orders.** Copies of previous applications and orders that may inform the completion of the Application for Extension of Time, if available, may be downloaded from the Department's Website. **NOTE: If the document requested is not available on the Department's website, you may be required to submit a Public Record Request.**
- **Documentation which demonstrates compliance with permit conditions** (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

Questions to complete this application for an Extension of Time

Please see the instruction sheet to help you answer these items.

1. **Beginning Construction within required deadlines.** OAR 690-315-0020(3)(d)

2a. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2nd column are contained within it. Using the extra row labeled "other" to specify any other additional conditions included in the permit, or specified in a final order approving a permit amendment or prior extension of time. In the 1st column check the box for each condition (row) identified as relevant. In the 3rd column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4th column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

10. In the chart below provide a summary of your future plans and schedule to complete the construction of the water system, and/or apply water to full beneficial use under the terms and conditions of the permit.

CHART-E

APPROXIMATE DATE RANGE (projected)	WORK OR ACTION TO BE ACCOMPLISHED (projected)	ESTIMATED COST (projected)
2022	Permit Admendment or Permit split	
	well drilled approx 300'	\$50,000.00
	Pump	3,000.00
	new well line	10,000.00
	ELECTRIC	\$10,000.00
Year: 2022	Date intend to apply water to full beneficial use under the terms and conditions of this permit.	
Total Cost		\$73,000.00

approx.

[OAR 690-315-0020(3)(g)]

11. Estimated remaining cost to complete the project:

(The total cost from CHART-E) 1. This extension of time needs to be

- Completed
- 2. A permit Admendment or permit split needs to be done
- 3. A new POA needs to be done for MR. Bowman's property

[OAR 690-315-0020(3)(j)]

12. Provide a summary of your plan to complete construction, meeting all permit conditions and apply the water to beneficial use: (List all tasks or steps needed to complete the project, the date when each task will be completed, and the cost associated with each task; attach additional pages if necessary.)

The POA#1 is located on Criss Duncan's property and he will not give me access to the POA. So I need to drill my own well for my crops & property.

[OAR 690-315-0020(3)(k)]

13. Justify the time requested to complete the project and/or apply the water to full beneficial use. (Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.)

I will need to file a permit split and then a permit amendment and then have a new well drilled

[OAR 690-315-0020(3)(l)]

14a. Will a denial of the extension result in undue hardship? (Describe the hardship and the effects.)

Yes, I will not be able to farm and use my Supplemental Water Right for my crops, which is my only income.

14b. Are there any other reasonable alternatives that exist for meeting your water use needs? (Explain in detail, consider other potential sources of water, and describe their feasibility)

No, even if I could use ~~the~~ the existing well (POA#1). Pump test need to be done and the CBU filed

REFERENCE: Application for Extension of Time

Dear Extension of Time Applicant:

The Water Right Services Division has received your application for an extension of time for **APPLICATION FILE #: G-15495 (Permit G-15405)**. Your application will be reviewed in the future. Following the review, you will receive a Proposed Final Order either approving or rejecting the extension of time request. A 45-day protest period begins upon issuance of the Proposed Final Order. After the protest period closes, a Final Order is issued.

You may continue the use of water under your water right until the Water Resources Department formally takes action on your extension application. If your permit includes conditions, water use reporting, water level measurement reporting, etc., you are required to comply with the conditions.

Any additional development that occurs after the expired completion date, identified on the permit or an extension order, can only be claimed upon an approved extension application.

If you have questions concerning your extension of time application, please contact Jeffrey Pierceall at (503) 979-3213. For general information about the Water Resources Department, you may contact the Water Resources' Customer Service Group at (503) 986-0801 or you may access the Department's website at: www.wrd.state.or.us.

Aspen West, LLC
Attn: Criss Duncan
PO Box 64
Malin, OR 97632

Reference: Application G-15495, Permit G-15405

The partial assignment by proof from Jo Ann Wollenhorst-Russ and Rudolph Paygr to Criss Duncan has been recorded in the records of the Water Resources Department.

The Departments records will now show Criss Duncan and William Bowman Revocable Living Trust as the permit holders of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 138726 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Please note that this permit required complete application of water to the proposed use by October 1, 2007, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE). The Department was notified on July 21, 2022, that Adkins Engineering and Surveying has been retained to complete the claim.

Sincerely,

Mary F. Bjork
Water Rights Program Analyst
Water Right Services Division

STATUTORY WARRANTY DEED

Eileen L. Wallenhorst,

Grantor(s), hereby convey and warrant to

Criss Duncan,

Grantee(s), the following described real property in the County of Klamath and State of Oregon free of encumbrances except as specifically set forth herein:

PARCEL 1

Unsurveyed Parcel 1 of Land Partition 35-10 situated in the N1/2 SE1/4 of Section 36, Township 40 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon March, 2011 for Lawful Creation, recorded April 20, 2011, more particularly described as follows:

The N1/2 SE1/4 of Section 36, Township 40 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon.

EXCEPTING THEREFROM the West 435 feet of the NW1/4 SE1/4 of said Section 36.

PARCEL 2

A portion of the S1/2 SE1/4 of Section 36, Township 40 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon, more particularly described as follows:

Beginning at a point that is 647.40 feet East of the Southwest corner of the NW1/4 SE1/4 of Section 36, Township 40 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon; thence East (along the 1/16 line) approx 1992.6 feet to the section line common to Section 36 and Section 6; thence South approx 200 feet to the Northerly right of way line of Paygr Way (County Road 1113); thence Westerly along the Northerly right of way line of Paygr Way (County Road 1113) to a point that is 65 feet South of the point of beginning; thence North 65 feet to the point of beginning.

The true and actual consideration for this conveyance is \$216,000.00.

The above-described property is free of encumbrances except all those items of record, if any, as of the date of this deed and those shown below, if any:

87

BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON TRANSFERRING FEE TITLE SHOULD INQUIRE ABOUT THE PERSON'S RIGHTS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010. THIS INSTRUMENT DOES NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY THAT THE UNIT OF LAND BEING TRANSFERRED IS A LAWFULLY ESTABLISHED LOT OR PARCEL, AS DEFINED IN ORS 92.010 OR 215.010, TO VERIFY THE APPROVED USES OF THE LOT OR PARCEL, TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES, AS DEFINED IN ORS 30.930, AND TO INQUIRE ABOUT THE RIGHTS OF NEIGHBORING PROPERTY OWNERS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010.

Categories: Red Category

Hi Criss,

Thanks for your interest in the Assignment process and the following steps needed to become a permit holder of record on Application G-15495, [Permit G-15495](#). *G-15495*

- Submit a completed Request for Assignment by Proof of Ownership Form (attached) and the required \$120 fee. As discussed, the by proof assignment form is required because current permit holders of record, Jo Ann Wollenhorst-Russ and Rudolph Paygr are not available to sign the assignment form. Additionally, this is a partial assignment because you own a portion of the property covered by the permit.
- Partial assignments require a map indicating the portion of the permit to be assigned.
- By proof assignments require proof that you own the property (see #1 on the assignment form for examples). They also require proof that you are unable to contact Ann Wollenhorst-Russ and Rudolph Paygr (see #3 on the assignment form for examples).

We also discussed the [Extension](#) process. Please contact Jeffrey Pierceall (503-979-3213) with specific questions on extensions.

The District 17 Watermaster is Dani Watson (541-883-4182 or 541-891-4631), email Danette.M.Watson@water.oregon.gov.

Please let me know if you have any additional questions.

Hi Michelle,

Thanks for the correspondence on this file. I'm copying Jonnine Skaug who sent the 60-day letter, and Jeffrey Pierceall who works on extension. Information on the extension mailing within the next 2 weeks and plan to pursue a Permit amendment has been copied to both paper and electronic files. If there should be a delay in William's timelines, please let us know.

Mary,

I will be helping William Bowman with his extension of time for this permit. So he can do a Permit amendment. The extension will be mailed within the next 2 weeks.

Is this enough information on the behalf of Mr. Bowman?

If you have any questions please call!

Have a great day!

Thank-you

Sent: Tuesday, May 31, 2022 9:57 AM
To: BJORK Mary F * WRD
Subject: permit G-15405

Mary,

William Bowman came in, in a panic. Your letter wasn't post marked until 5/19/2022 and your deadline in the letter is June 1, 2022. He talked to Adkin engineering about doing his CBU and they are behind and told him it would be awhile. So should he do a extension of time? He needs to add a POA for the WR, because the owner of the other parcel where the well is located won't let Mr. Bowman use the well. Please let me know what he needs todo.

If you have any questions please call!

Have a great day!

Thank-you
Michelle Angell

Malin, OR 97632

Reference: Application G-15495, Permit G-15405

The partial assignment by proof from Jo Ann Wollenhorst-Russ and Rudolph Paygr to William Bowman Revocable Living Trust has been recorded in the records of the Water Resources Department.

The Departments records will now show Jo Ann Wollenhorst-Russ, Rudolph Paygr, and William Bowman Revocable Living Trust as the permit holders of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 137914 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Please note that this permit required complete application of water to the proposed use by October 1, 2007, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE). As of this date, the claim of beneficial use has not been received by the Department. Cancellation proceedings were started with the mailing of a 60-day letter. Currently a 60-day hold action deadline is in place until June 1, 2022.

Sincerely,

Mary F. Bjork
Water Rights Program Analyst

Rudolf "Rudy" Paygr

BIRTH 28 Aug 1910
Malin, Klamath County, Oregon, USA

DEATH 30 Dec 2003 (aged 93)
Klamath Falls, Klamath County, Oregon, USA

BURIAL Malin Cemetery
Malin, Klamath County, Oregon, USA

MEMORIAL ID 28732394

Photo added by USA Grannie

Added by J

Rudolf "Rudy" Paygr, 93, the first child born in the Couch settlement of Malin, died Tuesday, Dec. 30 in Klamath Falls.

Obituary services will be held 10 a.m. Saturday at the Malin Community S.S.P.C. Cemetery with Rev. Fletcher serving as minister of ceremonies. Funeral arrangements are being handled by O'Hair & Riggs Funeral Chapel and Cremation Center.

Mr. Paygr was born April 28, 1910, in Malin, the son of Frank and Alberta Hruska Paygr. (The Couch spelling of Paygr was later Americanized to "Paygr.") He was the youngest of three children and was the first child born in Malin, which was originally settled by Couch immigrants.

As a teenager, he rode a horse to the old Blaine View School, he learned the value of hard work as a youngster and when he was hired to help drive cattle from Malin to Klamath Falls with the 10th Ranch, he Malin High School, he was on the athletic team, played basketball and football and was on the track team.

Following graduation in 1928, Mr. Paygr attended an agricultural experimental school in Oakland, Calif.

He was ditch rider for the Blaine View Irrigation District in the 1930s. Mr. Paygr loved farming and worked with his family on Paygr Farms in an area which covers more than 2,000 acres.

In the winter, he and other "farm boys" went to Klamath Falls to work about in the old Blaine Area. One of those a number he and Mary Jane Hardy, who would the years for doctor. They married March 20, 1936, and made their home in Malin, where he continued to work with his family in the 1930s he turned on his own growing potatoes, hay, grain and other work. He retired in 1974.

Mr. Paygr loved the outdoors and enjoyed fishing with his brother, Frank, at Medicine Lake and Boulder Creek. He was an avid sports fan and often attended the games of local teams. He especially enjoyed ballroom dancing and dance recitals during with his wife, and also he skated, played ice hockey and tennis.

After his retirement he met and spent winter, skunking more than 100 miles for the family's use. He and his brother, who enjoyed flying, bought an airplane and put it in storage on the ranch.

At age 88 he was still doing farm equipment.

His family and Mr. Paygr was a "thick-skinned" man who loved to debate and have lively discussions of a political nature. Less known, he loved opera, knew opera prices and every Saturday morning out to his chair with his pet cat in the lap and listened to opera broadcasts.

Mr. Paygr joined the Elks in 1937 and later became a life member. He enjoyed being at the Elks Lodge, working and games and taking his wife to dances. They spent age to and Mary Jane participated in an auction. This fund-raiser, a rather skating show where they demonstrated their dance skills in the Elks January ballroom, which is now the Klamath County Museum.

Survivors include his wife, Mary Jane Paygr of Malin, and three sons: Frank, Harry and Paul Paygr of Malin, and one daughter, Nancy and Paul Harvey of San Diego and one son and her husband, Kay and Ruth Fletcher of Malin.

Mr. Paygr was preceded in death by his parents, Frank and Alberta Paygr, Frank, Harry and Paul Paygr, Frank, Harry and Paul Harvey, Nancy Paygr and nephew, Steven Paygr.

Contributions in memory of Mr. Paygr may be made to the Lane River High School Athletic Fund.

See Exhibit A.

OWRD

The true actual consideration for this transfer is \$0.00. ORS 93.930.

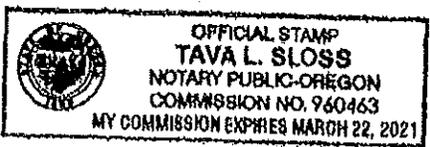

BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON TRANSFERRING FEE TITLE SHOULD INQUIRE ABOUT THE PERSONS RIGHTS, IF ANY, UNDER ORS 195.300 (Definitions for ORS 195.300 to 195.336), 195.301 (Legislative findings) AND 195.305 (Compensation for restriction of use of real property due to land use regulation) TO 195.336 (Compensation and Conservation Fund) AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010. THIS INSTRUMENT DOES NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY THAT THE UNIT OF LAND BEING TRANSFERRED IS A LAWFULLY ESTABLISHED LOT OR PARCEL, AS DEFINED IN ORS 92.010 (Definitions for ORS 92.010 to 92.192) OR 215.010 (Definitions), TO VERIFY THE APPROVED USES OF THE LOT OR PARCEL. TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES, AS DEFINED IN ORS 30.930 (Definitions for ORS 30.930 to 30.947), AND TO INQUIRE ABOUT THE RIGHTS OF NEIGHBORING PROPERTY OWNERS, IF ANY, UNDER ORS 195.300 (Definitions for ORS 195.300 to 195.336), 195.301 (Legislative findings) AND 195.305 (Compensation for restriction of use of real property due to land use regulation) TO 195.336 (Compensation and Conservation Fund) AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010.

IN WITNESS WHEREOF, That said Grantor has signed and sealed these presents the day and year first above written. Signed, sealed, and delivered in the presence of:

William B. Bowman
William B. Bowman

Reference: Application G-15495, Permit G-15405

The requested partial assignment by proof from William B Bowman to William B Bowman cannot be performed at this time. The request for assignment has multiple deficiencies as described below.

The form used is outdated and does not reflect the current fee. I have attached the current Request for Assignment by Proof of Ownership form. It is also available on our website.

The submitted recording fee of \$100 is insufficient. As of July 1, 2021, the fee for a request for assignment is \$120. Additionally, the check is incomplete as it is filled out. It is missing the amount written in letters.

The Request for Assignment by Proof of Ownership form is filled out incorrectly as the current holder of record portion reflects the name William B Bowman. The current holder of record is meant to indicate the current permit holder(s) of record. The current permit holders of record are Jo Ann Wollenhorst-Russ and Rudolph Paygr. Their names and address should be captured in this area of the form.

For assignments of a portion of a permit, a map indicating the portion to be assigned is required. The required map was submitted. Some of the tax lots on the maps were highlighted. Please write on the maps that the highlighted portions are the portions being requested for assignment, if that is your intent.

Also, the form is not signed in the area labeled, Signature of Party Requesting Assignment.

Please return the request with the required items so that the Department may process it in a timely manner.

Should you have any questions, please do not hesitate to contact me at the address above or by telephone at 503-979-9895.

Sincerely,

Mary F. Bjork
Water Rights Program Analyst

EPARTO, CA 95627

Reference: Application G-15495, Permit G-15405

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2007.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2007. The fee for submitting a claim of beneficial use is \$230.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

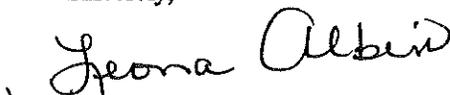

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$780.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (April 5, 2022) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$610.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, please contact me at Jonhine.L.Skaug@water.oregon.gov, the address above or by telephone at 503-979-3943. Due to Covid-19, email may be the best way to reach me.

Sincerely,

Jonhine Skaug

JO ANN WOLLENHORST RUSS
PO BOX 126
MALIN, OR 97632

Reference: Application G-15495, Permit G-15405

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2007.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2007. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (August 14, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee plus a \$100.00 time fee.

Should you have any questions, please contact
Bamberger by telephone at 503-981-2222

Sincerely,

Jerry Sauter
Water Rights Program Analyst

Hi Vickie,

No problem on placing a hold on this permit, will get it taken care of. Ilene would have to submit a Request for Assignment in order to submit the extension, since she is not a permit holder. We can only accept an application from a permit holder of record.

Thank you,

Corey A Courchane

Hi Corey,

We just learned that Jo Ann Wollenhorst-Russ passed away last Saturday. Her sister, who lives in HI, is here taking care of things and said that she does want to go ahead with the Time Extension. The only problem is that Jo Ann, like so many, didn't have the best of filing systems, boxes to be exact, and it will take her time to find the receipts Jo Ann has and was going to send to us.

Ilene, the sister, will be here for about a week, then going back to HI for 1-2 months. She will be returning to Klamath Falls after that to try and finish things, such as the water rights as she does not want to lose them. With all that being said, we are asking for an Administrative Hold to be placed on this Permit until the sister can return and get us the receipts needed to submit the Time Extension, which we have ready to send.

One other thing, can the sister sign the Time Extension application even though she is not listed on the deed?

Thank you,

We are moving!

Good afternoon,

I'm performing a follow up on the Department compliance letter that was issued to the permit holder on June 15, 2015. The Department is ready to issue a cancellation of the permit. However, correspondence was received from you July 1, 2015, indicating you were retained by Jo Ann Wollenhorst to do a Claim and possible extension of time. Is a CBU being submitted, and if so, is there a time frame in mind? I would like to remove this from cancellation.

Thank you,

Corey A Courchane

Good afternoon Jerry,

Are you enjoying the heat? ☺

We have been retained by Jo Ann Wollenhorst to do a Time Extension and COBU for Permit G-15405. We will add her to our schedule and work on her project as time permits.

Have a wonderful 4th of July!

Corey,

Thank you for responding right away. We will let Ilene know about the Request for Assignment and will submit it with the Time Extension.

Have a great afternoon!

We are moving!
As of Sept. 25, 2017 our new address will be:

Hi Vickie,

No problem on placing a hold on this permit, will get it taken care of. Ilene would have to submit a Request for Assignment in order to submit the extension, since she is not a permit holder. We can only accept an application from a permit holder of record.

Thank you,

Corey A Courchane

Subject: RE: Jo Ann Wollenhorst-Russ, Permit G-15405

Hi Corey,

We just learned that Jo Ann Wollenhorst-Russ passed away last Saturday. Her sister, who lives in HI, is here taking care of things and said that she does want to go ahead with the Time Extension. The only problem is that Jo Ann, like so many, didn't have the best of filing systems, boxes to be exact, and it will take her time to find the receipts Jo Ann has and was going to send to us.

Ilene, the sister, will be here for about a week, then going back to HI for 1-2 months. She will be returning to Klamath Falls after that to try and finish things, such as the water rights as she does not want to lose them. With all that being said, we are asking for an Administrative Hold to be placed on this Permit until the sister can return and get us the receipts needed to submit the Time Extension, which we have ready to send.

One other thing, can the sister sign the Time Extension application even though she is not listed on the deed?

Thank you,

We are moving!

Good afternoon,

I'm performing a follow up on the Department compliance letter that was issued to the permit holder on June 15, 2015. The Department is ready to issue a cancellation of the permit. However, correspondence was received from you July 1, 2015, indicating you were retained by Jo Ann Wollenhorst to do a Claim and possible extension of time. Is a CBU being submitted, and if so, is there a time frame in mind? I would like to remove this from cancellation.

Thank you,

Corey A Courchane

Reference: Application G-15495, Permit G-15405

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2007.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2007. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (August 14, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, please contact Corey Courchane by telephone at 503-986-0825, Machelie Bamberger by telephone at 503-986-0802, or myself at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

OREGON WATER RESOURCES DEPARTMENT SUMMARY OF WATER RIGHTS FOR WATER USE REPORT

Dear Water User: Water year 2004 has ended! All water use reports for October 2003 to September 2004 are requested to be submitted. During the past year we transferred our data to a new computer system, and have developed a website from which you may submit your data, if you so choose. In some cases the references numbers for points of diversion may have been changed. If this creates a problem for you, please contact me. If you would like to use the new site go to the web address listed below. You will not need to mail in this completed form. This information is important for water management in Oregon. Please, complete the form on the reverse side for the water rights listed below by December 31, 2004. If you have questions, or need more time please, contact me at 503-986-0833. Thank you for your attention to this matter. Mary Grainey

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number G-15495

Final Order

Application History

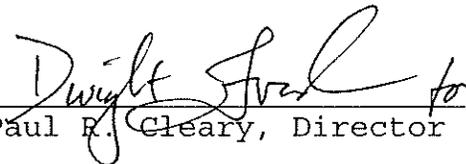

On MAY 10, 2001, JO ANN WOLLENHORST-RUSS AND RUDOLPH PAYGR submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on February 18, 2003. The protest period closed April 4, 2003, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest.

Order

Application G-15495 therefore is approved as proposed by the Proposed Final Order, and Permit G-15405 is issued as limited by the conditions proposed by the Proposed Final Order.

DATED May 1, 2003

Paul R. Cleary, Director

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of this order must be filed within the 60 day time period specified by ORS 183.484(2).

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the final order is not subject to judicial review.

This document was prepared by Anita Huffman. If you have any questions about any of the statements contained in this document I am the most likely the best person to answer your questions. You can reach me at 1-503-378-8455 extension 229.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun. Her extension number is 239.

STATE OF OREGON

COUNTY OF KLAMATH

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

JO ANN WOLLENHORST-RUSS
RUDOLPH PAYGR
17823 COUNTRY RD 85 B
EPARTO, CALIFORNIA 95627

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15495

SOURCE OF WATER: A WELL IN LOST RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 172.2 ACRES

MAXIMUM RATE: 2.15 CUBIC FEET PER SECOND

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MAY 10, 2001

WELL LOCATION: NE ¼ SE ¼, SECTION 36, T40S, R11E, W.M.; 1400 FEET NORTH & 200 FEET WEST FROM SE CORNER, SECTION 36

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE ¼ SE ¼ 37.9 ACRES

NW ¼ SE ¼ 24.8 ACRES

SW ¼ SE ¼ 18.3 ACRES

SE ¼ SE ¼ 34.0 ACRES

SECTION 36

TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.

NE ¼ NE ¼ 20.4 ACRES

NW ¼ NE ¼ 36.8 ACRES

SECTION 1

TOWNSHIP 41 SOUTH, RANGE 11 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

Before Use of Water Takes Place

Initial and Annual Measurements

The Department requires the permittee to submit an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

After Use of Water has Begun

Reference Water Level Determination

Following the first year of water use, the user shall submit one static water level measurement in the month specified above which will establish the reference level against which future annual measurements will be compared. The water user is not required to measure additional water levels after the reference level has been determined unless required by the Director. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer,

licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If it is determined there are no underlying rights for these same lands after the adjudication of claims in the Klamath Basin, a certificate resulting from use of water under this permit may allow primary, rather than supplemental, irrigation of the lands described above. However, the right evidenced by such a certificate will be limited to the actual use made under this permit.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2007. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit,

the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 1, 2003

Paul R. Cleary, Director
Water Resources Department

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

Reviewer's Name

SUBJECT: Application G-15495

GROUNDWATER/SURFACE WATER CONSIDERATIONS

- 1. PER THE _____ Basin rules, one or more of the proposed POA's is/is not within _____ feet/mile of a surface water source (_____) and taps a groundwater source hydraulically connected to the surface water.
- 2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed groundwater use
 - a. ___ will, or _____ have the potential for substantial interference with the nearest
 - b. ___ will not _____ surface water source, namely _____; or
 - c. will if properly conditioned, adequately protect the surface water from interference:
 - i. The permit should contain condition #(s) 7B;
 - ii. ___ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. ___ The permit should be conditioned as indicated in item 4 below; or
 - d. ___ will, with well reconstruction, adequately protect the surface from substantial interference.

GROUNDWATER AVAILABILITY CONSIDERATIONS

- 3. BASED UPON available data, I have determined that groundwater for the proposed use
 - a. ___ will, or _____ likely be available in the amounts requested without injury to prior rights
 - b. ___ will not _____ and/or within the capacity of the resource; or
 - c. ___ will if properly conditioned, avoid injury to existing rights or to the groundwater resource:
 - i. ___ The permit should contain condition #(s) _____;
 - ii. The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. ___ The permit should be conditioned as indicated in item 4 below; or
- 4.
 - a. ___ THE PERMIT should allow groundwater production from no deeper than _____ ft. below land surface;
 - b. ___ The permit should allow groundwater production from no shallower than _____ ft. below land surface;
 - c. ___ The permit should allow groundwater production only from the _____ groundwater reservoir between approximately _____ ft. and _____ ft. below land surface;
 - d. ___ Well reconstruction is necessary to accomplish one or more of the above conditions.
 - e. ___ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS: See memo to file for special recommendations;
Consult with Dwight French re: letter to applicants;

(Well Construction Considerations on Reverse Side)

G-15495

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. THE WELL which is the point of appropriation for this application does not meet current well construction standards based upon:
- a. ___ review of the well log;
 - b. ___ field inspection by _____;
 - c. ___ report of CWRE _____;
 - d. ___ other: (specify) _____
6. THE WELL construction deficiency:
- a. ___ constitutes a health threat under Division 200 rules;
 - b. ___ commingles water from more than one groundwater reservoir;
 - c. ___ permits the loss of artesian head;
 - d. ___ permits the de-watering of one or more groundwater reservoirs;
 - e. ___ other: (specify) _____
7. THE WELL construction deficiency is described as follows: _____
8. THE WELL a. ___ was, or constructed according to the standards in effect at the time of
b. ___ was not original construction or most recent modification.
c. ___ I don't know if it met standards at the time of construction.

RECOMMENDATION:

- A. ___ I recommend including the following condition in the permit:
"No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. ___ I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. ___ REFER this review to Enforcement Section for concurrence.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit

_____, 199____

From: Michael J. Zwart

Subject: Application Review: G-15495, JoAnn Wollenhorst-Russ & Rudolph Paygr

This application proposes to use about 966 gpm from one proposed well for supplemental irrigation of 172.2 acres (see also file G-15381). There is no proposed well construction information and therefore I would normally return the file for completion prior to review. However, based on my earlier review, the well will very likely produce water from a confined to semiconfined aquifer developed in Tertiary basalt rocks, likely the Basalt of Basin and Range (Tb2) as mapped by Sherrod and Pickthorn (1992).

The proposed well is about 1500 feet from an unnamed pond and about 3300 feet from the D Canal. There is no potential for substantial interference with surface water sources, based on the confined to semiconfined nature of the targeted aquifer.

The proposed location is only about 600 feet from the well for file G-15327. This raises a concern about potential for interference with senior rights to appropriate ground water. I do not believe that substantial interference (690-08-001(8)) will be caused, but it may be wise for the applicants to consider moving the proposed well site farther from the existing well to minimize mutual well interference.

This application for supplemental irrigation is for the same source of water as that for pending application G-15043 (Shasta View Irrigation District) which also covers these lands. That application is on administrative hold pending the results of an ongoing long-term test at one of the proposed wells. At this time I am unable to make a finding as to whether ground water is available for the proposed use. I recommend that the applicant be notified that a finding will be possible by no later than early 2002. I also recommend that the applicant request an administrative hold on this application.

I also recommend permit condition 7B.

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number G-15495

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft permit be issued with conditions.

Application History

On MAY 10, 2001, JO ANN WOLLENHORST-RUSS AND RUDOLPH PAYGR submitted an application to the Department for the following water use permit:

- Amount of Water: 2.15 CUBIC FEET PER SECOND (CFS)
- Use of Water: SUPPLEMENTAL IRRIGATION OF 172.2 ACRES
- Source of Water: A WELL IN LOST RIVER BASIN
- Area of Proposed Use: KLAMATH County within SECTION 36, TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M., AND SECTION 1, TOWNSHIP 41 SOUTH, RANGE 11 EAST, W.M.

On January 11, 2002, the Department mailed the applicant notice of its Initial Review, determining that "the use of 2.15 CUBIC FEET PER SECOND of water from A WELL IN LOST RIVER BASIN for IRRIGATION OF 172.2 ACRES is not allowable, and it appears unlikely that you will be issued a permit." The applicant did not notify the Department to stop processing the application within 14 days of that date.

On January 29, 2002, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

Within 30 days of the Department's public notice, written comments were received from Jerry Derry, on behalf of the applicants, submitting requested information to complete the file.

On February 7, 2003, the Department completed a second groundwater review for the proposed use under this application.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- designations of any critical groundwater areas
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any general basin-wide standard for flow rate and duty of water allowed
- the need for a flow rate and duty higher than the general standard
- any comments received

Findings of Fact

The Klamath River Basin Compact allows IRRIGATION.

A WELL IN LOST RIVER BASIN is not within or above a State Scenic Waterway.

The Groundwater Section finds, per OAR 390.835(9), there is not a preponderance of evidence that the proposed use of groundwater will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

The Department determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.

An assessment of groundwater availability has been completed by the Department's Groundwater/Hydrology section. A copy of this assessment is in the file. The proposed use of groundwater will, if properly conditioned, avoid injury to existing rights and the resource.

The Department finds that the amount of water requested, 2.15 CFS, is an acceptable amount.

The proposed well is not within a designated critical ground water area.

Conclusions of Law

Under the provisions of ORS 537.153, the Department must presume that a proposed use will not impair or be detrimental to the public interest if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12) (i.e. the use of water is human consumption or livestock), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Klamath River Basin Compact, or a preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with other rules of the Water Resources Commission not otherwise described above.

The proposed use complies with the State Agency Agreement for land use.

No proposed flow rate and duty of water higher than the general basin-wide standard is needed.

For these reasons, the required presumption has been established.

Under the provisions of ORS 537.621, once the presumption has been established, it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use would not ensure the preservation of the public welfare, safety and health as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
 - (A) The specific aspect of the public welfare, safety and health under ORS 537.525 that would be impaired or detrimentally affected; and
 - (B) Specifically how the identified aspect of the public welfare, safety and health under ORS 537.525 would be impaired or be adversely affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by

a preponderance of evidence that the proposed use would impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use would ensure the preservation of the public welfare, safety and health as described in ORS 537.525.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED February 18, 2003

Dwight French
Water Rights Section Manager

*If you have any questions,
please check the information
box on the last page for the
appropriate names and
phone numbers.*

Protest Rights and Standing

Under the provisions of 537.621(7), you have the right to protest this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing. If you do not request a

hearing, the Department will presume that you do not wish to contest the findings of the proposed final order.

- If you do not protest this Proposed Final Order and if no substantive changes are made in the final order, you will not have an opportunity for judicial review, protest or appeal of the final order when it is issued.

Requests for Standing

Under the provisions of 537.621(6), persons other than the applicant who support a proposed final order may request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order. A request for standing shall be in writing, include a statement that the requester supports the proposed final order, and a statement of how the requester would be harmed if the proposed final order is modified. The fee required at the time of submitting this request is \$50.00. If a hearing is scheduled, an additional fee of \$150.00 must be submitted along with a request for intervention. Forms to request standing are available from the Department.

Your protest or request for standing must be received in the Water Resources Department no later than **April 4, 2003**.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

This document was prepared by Anita Huffman. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 1-503-378-8455 extension 229.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun. Her extension number is 239.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 201.

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MAY 10, 2001

WELL LOCATION: NE ¼ SE ¼, SECTION 36, T40S, R11E, W.M.; 1400 FEET NORTH
& 200 FEET WEST FROM SE CORNER, SECTION 36

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE ¼ SE ¼ 37.9 ACRES
NW ¼ SE ¼ 24.8 ACRES
SW ¼ SE ¼ 18.3 ACRES
SE ¼ SE ¼ 34.0 ACRES
SECTION 36

TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.

NE ¼ NE ¼ 20.4 ACRES
NW ¼ NE ¼ 36.8 ACRES
SECTION 1

TOWNSHIP 41 SOUTH, RANGE 11 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

Before Use of Water Takes Place

Initial and Annual Measurements

The Department requires the permittee to submit an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

After Use of Water has Begun

Reference Water Level Determination

Following the first year of water use, the user shall submit one static water level measurement in the month specified above which will establish the reference level against which future annual measurements will be compared. The water user is not required to measure additional water levels after the reference level has been determined unless required by the Director. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided

by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If it is determined there are no underlying rights for these same lands after the adjudication of claims in the Klamath Basin, a certificate resulting from use of water under this permit may allow primary, rather than supplemental, irrigation of the lands described above. However, the right evidenced by such a certificate will be limited to the actual use made under this permit.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department

approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2007. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued _____, 2003

DRAFT - THIS IS NOT A PERMIT

Paul R. Cleary, Director
Water Resources Department

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

This article shall become effective upon its enactment by the States of Idaho, Montana, Oregon and Washington and upon ratification by Congress by virtue of the authority vested in it under section 10, Article I of the United States Constitution.

ARTICLE XI

This compact shall continue in force and remain binding upon each state until renounced by it. Renunciation of this compact must be preceded by sending six months' written notice of intention to withdraw from the compact to the other parties hereto.

ARTICLE XII

The State of Nevada or any state having rivers or streams tributary to the Columbia River may become a contracting state by enactment of the Columbia River Natural Resources Management Compact. Upon admission of any new state to the compact, the purposes of the compact and the duties of the commission shall extend to the development of joint programs for the use and governance of the Columbia River and its natural resources in which the contracting states share mutual concerns.

This article shall become effective upon its enactment by the States of Idaho, Montana, Oregon and Washington and upon ratification by Congress by virtue of the authority vested in it under section 10, Article I of the United States Constitution.

[1999 c.540 §1]

Note: 542.550 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 542 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

KLAMATH RIVER BASIN COMPACT

542.610 Klamath River Basin Compact ratified; when effective. (1) The Legislative Assembly of the State of Oregon hereby ratifies the Klamath River Basin Compact set forth in ORS 542.620, and the provisions of such compact hereby are declared to be the law of this state upon such compact becoming effective as provided in subsection (2) of this section.

(2) The compact shall become effective when it has been ratified by the legislatures of the States of California and Oregon, and has been consented to by the Congress of the United States as provided in Article XIII of the compact. [1957 c.142 §1]

Note: The Klamath River Basin Compact became effective on September 11, 1957. The compact was ratified by the State of California by chapter 113, California Statutes 1957 (signed by Governor on April 17, 1957, and effective on September 11, 1957). The Congress of the United States consented to the compact by Public Law

222, 85th Congress (signed by President on August 30, 1957).

542.620 Klamath River Basin Compact. The provisions of the Klamath River Basin Compact are as follows:

ARTICLE I PURPOSES

The major purposes of this compact are, with respect to the water resources of the Klamath River Basin:

A. To facilitate and promote the orderly, integrated and comprehensive development, use, conservation and control thereof for various purposes, including, among others: The use of water for domestic purposes; the development of lands by irrigation and other means; the protection and enhancement of fish, wildlife and recreational resources; the use of water for industrial purposes and hydroelectric power production; and the use and control of water for navigation and flood prevention.

B. To further intergovernmental cooperation and comity with respect to these resources and programs for their use and development and to remove causes of present and future controversies by providing (1) for equitable distribution and use of water among the two states and the Federal Government, (2) for preferential rights to the use of water after the effective date of this compact for the anticipated ultimate requirements for domestic and irrigation purposes in the Upper Klamath River Basin in Oregon and California, and (3) for prescribed relationships between beneficial uses of water as a practicable means of accomplishing such distribution and use.

ARTICLE II DEFINITION OF TERMS

As used in this compact:

A. "Klamath River Basin" shall mean the drainage area of the Klamath River and all its tributaries within the States of California and Oregon and all closed basins included in the Upper Klamath River Basin.

B. "Upper Klamath River Basin" shall mean the drainage area of the Klamath River and all its tributaries upstream from the boundary between the States of California and Oregon and the closed basins of Butte Valley, Red Rock Valley, Lost River Valley, Swan Lake Valley and Crater Lake, as delineated on the official map of the Upper Klamath River Basin approved on September 6, 1956, by the commissions negotiating this compact and filed with the Secretaries of State of the two states and the General Services Administration of the United States,

which map is incorporated by reference and made a part hereof.

C. "Commission" shall mean the Klamath River Compact Commission as created by Article IX of this compact.

D. "Klamath Project" of the Bureau of Reclamation of the Department of the Interior of the United States shall mean that area as delineated by appropriate legend on the official map incorporated by reference under subdivision B of this Article.

E. "Person" shall mean any individual or any other entity, public or private, including either state, but excluding the United States.

F. "Keno" shall mean a point on the Klamath River at the present needle dam, or any substitute control dam constructed in section 36, township 39 south, range 7 east, Willamette Base and Meridian.

G. "Water" or "waters" shall mean waters appearing on the surface of the ground in streams, lakes or otherwise, regardless of whether such waters at any time were or will become ground water, but shall not include water extracted from underground sources until after such water is used and becomes surface return flow or waste water.

H. "Domestic use" shall mean the use of water for human sustenance, sanitation and comfort; for municipal purposes; for livestock watering; for irrigation of family gardens; and for other like purposes.

I. "Industrial use" shall mean the use of water in manufacturing operations.

J. "Irrigation use" shall mean the use of water for production of agricultural crops, including grain grown for feeding wildfowl.

ARTICLE III

DISTRIBUTION AND USE OF WATER

A. There are hereby recognized vested rights to the use of waters originating in the Upper Klamath River Basin validly established and subsisting as of the effective date of this compact under the laws of the state in which the use or diversion is made, including rights to the use of waters for domestic and irrigation uses within the Klamath Project. There are also hereby recognized rights to the use of all waters reasonably required for domestic and irrigation uses which may hereafter be made within the Klamath Project.

B. Subject to the rights described in subdivision A of this Article and excepting the uses of water set forth in subdivision E of Article XI, rights to the use of unappropriated waters originating within the Upper Klamath River Basin for any beneficial use in the Upper Klamath River Basin, by direct diversion or by storage for later use, may be acquired by any person after the effective

date of this compact by appropriation under the laws of the state where the use is to be made, as modified by the following provisions of this subdivision B and subdivision C of this Article, and may not be acquired in any other way:

1. In granting permits to appropriate waters under this subdivision B, as among conflicting applications to appropriate when there is insufficient water to satisfy all such applications, each state shall give preference to applications for a higher use over applications for a lower use in accordance with the following order of uses:

(a) Domestic use,

(b) Irrigation use,

(c) Recreational use, including use for fish and wildlife,

(d) Industrial use,

(e) Generation of hydroelectric power,

(f) Such other uses as are recognized under the laws of the state involved.

These uses are referred to in this compact as uses (a), (b), (c), (d), (e) and (f), respectively. Except as to the superiority of rights to the use of water for use (a) or (b) over the rights to the use of water for use (c), (d), (e) or (f), as governed by subdivision C of this Article, upon a permit being granted and a right becoming vested and perfected by use, priority in right to the use of water shall be governed by priority in time within the entire Upper Klamath River Basin regardless of state boundaries. The date of priority of any right to the use of water appropriated for the purposes above enumerated shall be the date of the filing of the application therefor, but such priority shall be dependent on commencement and completion of construction of the necessary works and application of the water to beneficial use with due diligence and within the times specified under the laws of the state where the use is to be made. Each state shall promptly provide the commission and the appropriate official of the other state with complete information as to such applications and as to all actions taken thereon.

2. Conditions on the use of water under this subdivision B in Oregon shall be:

(a) That there shall be no diversion of waters from the Upper Klamath River Basin, but this limitation shall not apply to out-of-basin diversions of waters originating within the drainage area of Fourmile Lake.

(b) That water diverted from Upper Klamath Lake and the Klamath River and its tributaries upstream from Keno, Oregon, for use in Oregon and not consumed therein and appearing as surface return flow and waste water within the Upper Klamath River Basin

TO: Water Rights Section Feb. 7, 2003
FROM: Ground Water/Hydrology Section Michael Zwart
SUBJECT: Application G- 15495 Reviewer's Name

GROUND WATER/SURFACE WATER CONSIDERATIONS

1. PER THE _____ Basin rules, one or more of the proposed POA's is/is not within _____ feet/mile of a surface water source (_____) and taps a ground water source hydraulically connected to the surface water.

2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed ground water use
 - a. ___ will, or have the potential for substantial interference with the nearest
 - b. ___ will not surface water source, namely _____; or
 - c. will if properly conditioned, adequately protect the surface water from interference:
 - i. The permit should contain condition #(s) 7B;
 - ii. ___ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. ___ The permit should be conditioned as indicated in item 4 below; or
 - d. ___ will, with well reconstruction, adequately protect the surface from substantial interference.

GROUND WATER AVAILABILITY CONSIDERATIONS

3. BASED UPON available data, I have determined that ground water for the proposed use
 - a. ___ will, or likely be available in the amounts requested without injury to prior rights
 - b. ___ will not and/or within the capacity of the resource; or
 - c. will if properly conditioned, avoid injury to existing rights or to the ground water resource:
 - i. The permit should contain condition #(s) 7E;
 - ii. ___ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. ___ The permit should be conditioned as indicated in item 4 below; or

4.
 - a. ___ THE PERMIT should allow ground water production from no deeper than _____ ft. below land surface;
 - b. ___ The permit should allow ground water production from no shallower than _____ ft. below land surface;
 - c. ___ The permit should allow ground water production only from the _____ ground water reservoir between approximately _____ ft. and _____ ft. below land surface;
 - d. ___ Well reconstruction is necessary to accomplish one or more of the above conditions.
 - e. ___ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS: Supersedes review memo of June 18, 2001.

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. THE WELL which is the point of appropriation for this application does not meet current well construction standards based upon:
- a. ___ review of the well log;
 - b. ___ field inspection by _____;
 - c. ___ report of CWRE _____;
 - d. ___ other: (specify) _____
6. THE WELL construction deficiency:
- a. ___ constitutes a health threat under Division 200 rules;
 - b. ___ commingles water from more than one ground water reservoir;
 - c. ___ permits the loss of artesian head;
 - d. ___ permits the de-watering of one or more ground water reservoirs;
 - e. ___ other: (specify) _____
7. THE WELL construction deficiency is described as follows: _____
8. THE WELL
- a. ___ was, or constructed according to the standards in effect at the time of
 - b. ___ was not original construction or most recent modification.
 - c. ___ I don't know if it met standards at the time of construction.

RECOMMENDATION:

- A. ___ I recommend including the following condition in the permit:
"No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. ___ I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. ___ REFER this review to Enforcement Section for concurrence.

SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL THIS

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit
_____, 199__.

Reviewer: Michael Zwart

**OREGON WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO**

To: Ground Water files Date: June 18, 2001
From: Michael J. Zwart
Subject: Application Review: G-15495, JoAnn Wollenhorst-Russ & Rudolph Paygr

This application proposes to use about 966 gpm from one proposed well for supplemental irrigation of 172.2 acres (see also file G-15381). There is no proposed well construction information and therefore I would normally return the file for completion prior to review. However, based on my earlier review, the well will very likely produce water from a confined to semiconfined aquifer developed in Tertiary basalt rocks, likely the Basalt of Basin and Range (Tb2) as mapped by Sherrod and Pickthorn (1992).

The proposed well is about 1500 feet from an unnamed pond and about 3300 feet from the D Canal. There is no potential for substantial interference with surface water sources, based on the confined to semiconfined nature of the targeted aquifer.

The proposed location is only about 600 feet from the well for file G-15327. This raises a concern about potential for interference with senior rights to appropriate ground water. I do not believe that substantial interference (690-08-001(8)) will be caused, but it may be wise for the applicants to consider moving the proposed well site farther from the existing well to minimize mutual well interference.

This application for supplemental irrigation is for the same source of water as that for pending application G-15043 (Shasta View Irrigation District) which also covers these lands. That application is on administrative hold pending the results of an ongoing long-term test at one of the proposed wells. At this time I am unable to make a finding as to whether ground water is available for the proposed use. I recommend that the applicant be notified that a finding will be possible by no later than early 2002. I also recommend that the applicant request an administrative hold on this application.

I also recommend permit condition 7B.

Dear Applicants:

**THIS IS NOT A PERMIT AND IS
SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.**

This letter is to inform you of the unfavorable preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The proposed use is not prohibited by law or rule.
2. The use of water from A WELL IN LOST RIVER BASIN for IRRIGATION OF 172.2 ACRES is a **classified use** under ORS 542.620, the Klamath River Basin Compact.
3. The Department has determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.
4. At this time, The Department is unable to determine, based upon available data, if groundwater in the amount of 2.15 CUBIC FEET PER SECOND for IRRIGATION OF 172.2 ACRES is available. Please see **NOTICE** statement below for more information.
5. The standard irrigation season for groundwater determined to not be in hydrologic connection with surface water is March 1 through October 31 of each year. The applicant requests the season of use April 1 through September 30 of each year. The proposed season of use is within the allowed season and therefore will be allowed if a permit is issued.
6. The Department has determined there are deficiencies with the application map

submitted. In addition, the Department has noted that a road transverses the properties involved with this application. Please refer to the **ADDITIONAL INFORMATION REQUIRED** section below for specific information.

Summary of Allowable Water Use

Because item #4 above is unfavorable, the use of 2.15 CUBIC FEET PER SECOND of water from A WELL IN LOST RIVER BASIN for IRRIGATION OF 172.2 ACRES is not allowable, and it appears unlikely that you will be issued a permit. At this time, you must decide whether to proceed or to withdraw your application as described below. until the requested information is received or the extended deadline has passed.

NOTICE: The determinations of this Initial Review are subject to change contingent on the results of a groundwater study being completed by the Department. The water source identified in your application is in an area that is currently being studied by the Department for interference with other water rights within the Shasta View Irrigation District and vicinity. WRD will be looking at information from the study to see if additional conditions or restrictions are needed to protect resources within the study area. One possible outcome is that the Water Resources Department will propose in the proposed final order that your application be denied.

This study will help make sure that current and new appropriations of water are done in a way that does not adversely harm the resource and existing water rights. You are encouraged to contact Mike Zwart, (503) 378-8455, extension 207, to learn more about the study and how it may affect your proposed water use.

ADDITIONAL INFORMATION REQUIRED:

OAR 690-310-050((4)(b) requires the application map submitted to the Department to show the location of pipelines, ditches or other means of transporting water for the proposed use. Please indicate the location of the main line proposed under this application.

In addition, it has been noted that a road, specifically Paygr Way, transverses the properties involved with this application. If this road is a public right of way, you must provide the Department with the mailing address and a written authorization or easement of the managing entity; ie Klamath County Road Department, if applicable.

Please submit the required information by February 28, 2002. If you are unable to submit the above listed information, you may request a "time out from processing" for up to an additional 180 days. You must submit the request in writing, stating how much more time you will need and why you need additional time. If a time out is granted, your application will not be processed further until the requested information is received or the extended deadline has passed.

Dear Mr. Derry,

Please use this letter as your Permit from Klamath County Public Works Department to install and maintain a sprinkler mainline pipe through a Road Department culvert under Paygr Way at 26112 Paygr Way.

1. The main line shall not be installed prior to May 1st
2. The main line shall be removed on or before October 15th
3. In the event of main line failure causing damage to the culvert or to Harpold Road, you accept responsibility for repairs.
4. Klamath County is not responsible for damage to the main line due to traffic accidents, road maintenance, or ditch maintenance.
5. This Permit is revocable upon five days written notice.

If you accept the terms and conditions of this Permit, please sign below and return this Permit to Klamath County Public Works. A signed and approved copy will be sent to you.

Sincerely,

Tom Gilleland
 Right-of-Way Inspector

I, Jerry Derry, accept the terms and conditions as stated above.

DATED this 4 day of February, 2002.

ADDITIONAL INFORMATION REQUIRED:

OAR 690-310-050((4)(b) requires the application map submitted to the Department to show the location of pipelines, ditches or other means of transporting water for the proposed use. Please indicate the location of the *main line* proposed under this application.

In addition, it has been noted that a road, specifically Paygr Way, transverses the properties involved with this application. If this road is a public right of way, you must provide the Department with the mailing address and a written authorization or easement of the managing entity; ie Klamath County Road Department, if applicable.

Please submit the required information by *February 28, 2002*. If you are unable to submit the above listed information, you may request a "time out from processing" for up to an additional 180 days. You must submit the request in writing, stating how much more time you will need and why you need additional time. If a time out is granted, your application will not be processed further until the requested information is received or the extended deadline has passed.

If we do not receive the items requested above by this date, or a request for time out from processing, we **may** reject your application consistent with ORS 537.153. If your application is rejected, any fees submitted in excess of the examination fee will be refunded; however, the examination fee is non-refundable and will not be returned. In addition, the priority date associated with your application will be lost.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Friday, January 18, 2002**. For your convenience you may use the enclosed "STOP PROCESSING" form.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
2. The tentative priority date for this application is MAY 10, 2001.

The water source identified in your application is in an area in which an Agricultural Water Quality Management Area Plan is being developed. These plans are developed by the Oregon Department of Agriculture (ODA) with the cooperation of local landowners and other interested

stakeholders. These plans help make sure that current and new appropriations of water are done in a way that does not adversely harm the environment. You are encouraged to contact Mike Wolf, (503) 986-4711 at the ODA to learn more about the plan and how it may affect your proposed water use.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our Water Right Information Group at (503) 378-8455 extension 499. Feel free to call me at (503) 378-8455 extension 229 if you have any questions regarding the contents of this letter. Please have your application number available if you call. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 158 12th ST. NE Salem, OR 97310, Fax: (503)378-6203.

Sincerely,

Anita M. Huffman

Reference: Application # G-15495

Dear Applicants:

Your Initial Review has been processed, and I found that additional information is required to complete your application for water use. The following information must be received:

Additional Information Required:

According to Department records, the application map for this Application # G-15495 does not accurately describe the location of the main lines for the system. Please provide the following required item(s):

- ▶ **The application map must show the location of the main line. You may draw the main line on the enclosed map copy.**

In addition, the Department has noted that there is a road, Paygr Way, transversing the property. Please enclose a note stating whether or not Paygr Way is a public right-of-way. If Paygr Way *is not* a private road, you must provide the Department with the name and mailing address of the entity managing the roadway, and a notification of whether or not you have an easement or written authorization to transverse the road (via culverts) for the proposed use.

Please submit this information no later than *February 28, 2002*. If you are unable to submit the above listed information, you may request a "time out from processing" for up to an additional 180 days. You must submit the request in writing, stating how much more time you will need and why you need additional time. If a time out is granted, your application will not be processed further until the requested information is received or the extended deadline has passed.

SENDER: COMPLETE THIS SECTION

- Complete items 1, 2, and 3. Also complete item 4 if Restricted Delivery is desired.
- Print your name and address on the reverse so that we can return the card to you.
- Attach this card to the back of the mailpiece, or on the front if space permits.

For Department Use		
App. No. <u>G15495</u>	Permit No. _____	Date _____

2. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 3 "Ground water Development.")
 No Please check the appropriate box below.
 I have a recorded easement or written authorization permitting access.
 I do not currently have written authorization or easement permitting access.

List the names and mailing addresses of all affected landowners.*

*If more than 25 landowners are involved, a list is not required. See instructions.

3. GROUND WATER DEVELOPMENT

A. Number of well(s): 1 B. Name of nearest surface water body: _____

C. Distance from well(s) to nearest stream or lake: 1) _____

2) _____ 3) _____ 4) _____

D. If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) _____

2) _____ 3) _____ 4) _____

E. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to question F in this section of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by: TO be constructed. Van Meter & Despain

Address: _____

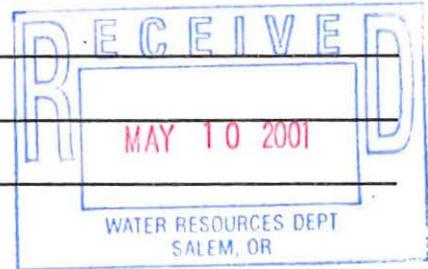

Completion date: _____

2. Please provide a description of your well development. (Attach additional sheets if needed.)

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth	
				WELLS NOT CONSTRUCTED YET Per Corey Engel R.W.						

F. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach Form I
- If your proposed use is **mining**, attach Form R
- If your proposed use is **municipal or quasi-municipal**, attach Form M
- If your proposed use is **commercial/industrial**, attach Form Q

15495

Application No. 5
 Permit No.
 Ground Water 3

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
		IRRIGATION			966

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 966
(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: 4-1 TO 9-31
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

E. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used: 172.2
(This number should be consistent with you application map.)

5. WATER MANAGEMENT

A. Diversion

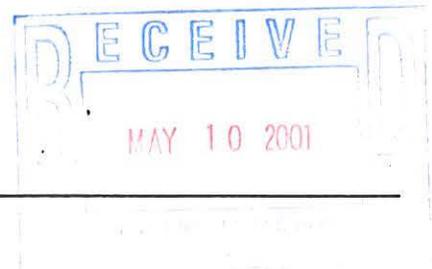

What equipment will you use to pump water from your well(s)? TO BE DETERMINED when well is CONSTRUCTED.

- Pump (give horsepower and pump type) _____
 Other means (describe) _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth)
Width _____ Depth _____
Is the ditch or canal to be lined? Yes No
- Pipe (give diameter and total length)
Diameter 12" MAINLINE Length 4500 FEET
- Other (describe) _____

C. Application/Distribution Method

What equipment will you use to apply water to your place of use? wheel lines -
HAND LINE

Irrigation or land application method (check all that apply):

- Flood
- Drip
- Hand lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____
- High-pressure sprinkler
- Water cannons
- Wheel lines
- Low pressure sprinkler
- Center pivot system

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

DRIP IRRIGATION HAS NOT BEEN PROVEN
IN THIS LOCATION. SPRINKLER ARE THE ONLY WAY
BECAUSE YOU CAN NOT FLOOD.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin 5-7-01

Proposed date construction will be completed _____

Proposed date beneficial water use will begin _____

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

Application No. 515456

Permit No. _____

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

X *[Signature]* Date 4/30/2001
 Signature of Applicant

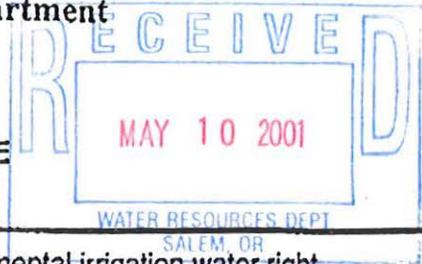

Rudolph Payer Date _____
 Signature of Co-applicant

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

Oregon Water Resources Department

FORM I
FOR IRRIGATION WATER USE

1. Please indicate whether you are requesting a primary or supplemental irrigation water right.

Primary Supplemental

If supplemental, please indicate the number of acres that will be irrigated for each type of use.

Primary: 172.2 Acres

Secondary: _____ Acres

List the permit or certificate number of the primary water right:

no. SHASTA VIEW IRRIG. Dist.

2. Please list the anticipated crops you will grow and whether you will be irrigating them for a full or partial season:

- 1. ALFALFA Full season Partial season (from: 4-1 to 9-31)
- 2. GRAIN Full season Partial season (from: 4-1 to 9-31)
- 3. Potatoes Full season Partial season (from: 4-1 to 9-31)
- 4. _____ Full season Partial season (from: _____ to _____)

3. Indicate the maximum total number of acre-feet you expect to use in an irrigation season:

516.6 acre-feet

(1 acre-foot equals 12 inches of water spread over one acre, or 43,560 cubic feet, or 325,851 gallons.)

4. How will you schedule your applications of water? Will you be applying water in the evenings, twice a week, daily?

- Daily during daytime hours Daily during nighttime hours
- Two or three times weekly during daytime Two or three times weekly during nighttime
- Weekly, during daytime hours Weekly, during nighttime hours
- Other, explain: _____

Application Supplement for Drought Emergency Water Use Permit

This form is used to provide supplemental information necessary to process an application for an Emergency Water Use Permit following a declaration by the Governor that a severe, continuing drought exists.

Please complete all items. Items 1 through 3 will help us process your application expediently; items 4 and 5 are required by OAR 690-19-040.

1. County of use: KIAMATH
2. Identify your existing right: Application #: SNASTA VIEW IRRIGATION DISTRICT Permit #: _____ Certificate: _____
3. If your source of emergency water is groundwater and your well has an ID tag, please provide the tag number: WELL NOT DRILLED AT THIS TIME
4. Describe how drought conditions have created an inability to obtain water under your existing right.
BUREAU OF RECLAMATION HAS DENIED WATER DELIVERY TO THE IRRIGATION DISTRICT
5. Is your proposed emergency use of water of a short-term nature? Yes No
If not, please describe it:
GROWING SEASON FOR 2000

Requirements to file an application: To file an application for an Emergency Water Use Permit, the following conditions must apply:

1. There must have been a declaration by the Governor that a severe, continuing drought exists in the area where the proposed water use will occur.
2. Drought conditions must have created an inability on the part of the applicant to obtain water under an existing right.
3. The application must be complete, and must include the information requested on the other side of this page, in addition to all other items necessary to file a non-emergency application (including an ordinary application form, Land Use Information Form, legal description, etc.). If your application is not complete, it will be returned to you unfilled.

EXHIBIT "A"
LEGAL DESCRIPTION

The S1/2 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian; and the N1/2 NE1/4 NE1/4, EXCEPTING the Southerly 15 feet, all of the NW1/4 NE1/4 and the Westerly 15 feet of the following described land: S1/2 NE1/4 NE1/4 and all that part of the SE1/4 NE1/4 lying North of the Adams Canal, all in Section 1, Township 41 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon.

EXCEPTING a tract of land described as follows: Beginning at an iron pin on the Section Line which pin lies in the East right of way line of the County Road 30 feet East from the South quarter corner of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in Klamath County, Oregon, and running thence: continuing East along the South section line of Section 36 a distance of 284.2 feet to an iron pin; thence North 30 degrees East a distance of 184.8 feet to a pin; thence North 13 degrees 03' West a distance of 191.7 feet to an iron pin; thence West a distance of 333.3 feet to an iron pin which lies on the East right of way line of the County Road; thence South along the East right of way line of the county Road a distance of 346.7 feet more or less to the point of beginning, in the SW1/4 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in Klamath County, Oregon.

ALSO EXCEPT THEREFROM: A parcel of land situated in the SW1/4 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in the County of Klamath, State of Oregon, more particularly described as follows: Beginning at an iron pipe located at the South and East right of way of the old Linkville-Tulelake Road at the point said road leaves the North and South centerline of Section 36, Township 40 South, Range 11 East, Willamette Meridian, and runs East; said iron pipe being also North 1,218.0 feet and North 89 degrees 48' East 30.0 feet from South quarter-section corner of Section 36; thence North 89 degrees 48' East along the South right of way of said Linkville-Tulelake Road, 477.4 feet to the Northwesternly right of way of the County Road #1113 known as Paygr Road; thence along Paygr Road South 43 degrees 06' 20" West 154.25 feet to a beginning of curve; thence around a 10 degree 30' 40" curve to the left (radius 548.05) a distance of 107.68 feet; thence South 31 degrees 47' 20" West 581.5 feet to the intersection of the Westerly right of way of the Old Linkville-Tulelake Road; thence North 690.92 feet, more or less, to the point of beginning.

ALSO EXCEPTING THEREFROM a tract of land for Shasta View Irrigation District as set forth in Volume 91 page 573 and Volume 138 at page 382, Deed Records of Klamath County, Oregon.

ALSO EXCEPTING THEREFROM: Beginning at a point that is the Southwest corner of Gerald E. Moore and Lori L. Moore's property, that is described in a deed recorded at M87-19492, October 27, 1987; which is also the Southwest corner of the NW1/4 SE1/4 Section 36, Township 40 South, Range 11 East, Willamette Meridian, Klamath County, Oregon. Thence East along the 1/16 line 647.40 feet. Thence South approximately 65 feet to the northern right-of-way line of the old Linkville-Tulelake Road. Thence West paralleling the above said 1/16 line 647.40 feet. Thence North approximately 65 feet, to the point of beginning.

ALSO EXCEPTING THEREFROM: Beginning at a point that is 647.40 feet East of the Southwest corner of the NW1/4 SE1/4 Section 36, Township 40 South, Range 11 East, Willamette Meridian, Klamath County, Oregon. Thence East along the 1/16 line approximately 1,992.6 feet to the Section line common to Section 36 and Section 6. Thence South approximately 200 feet to the northerly right of way line of Paygr Way (County Road 1113). Thence westerly along the northerly right of way line of Paygr Way (County Road 1113) to a point that is 65 feet south of the point of beginning. Thence North 65 feet to the point of beginning.

Application No. 515495
Permit No.

EXHIBIT "A"
LEGAL DESCRIPTION

The S1/2 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian; and the N1/2 NE1/4 NE1/4, EXCEPTING the Southerly 15 feet, all of the NW1/4 NE1/4 and the Westerly 15 feet of the following described land: S1/2 NE1/4 NE1/4 and all that part of the SE1/4 NE1/4 lying North of the Adams Canal, all in Section 1, Township 41 South, Range 11 East of the Willamette Meridian, Klamath County, Oregon.

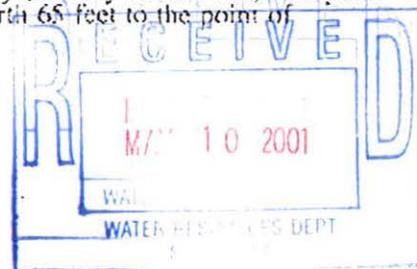

EXCEPTING a tract of land described as follows: Beginning at an iron pin on the Section Line which pin lies in the East right of way line of the County Road 30 feet East from the South quarter corner of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in Klamath County, Oregon, and running thence: continuing East along the South section line of Section 36 a distance of 284.2 feet to an iron pin; thence North 30 degrees East a distance of 184.8 feet to a pin; thence North 13 degrees 03' West a distance of 191.7 feet to an iron pin; thence West a distance of 333.3 feet to an iron pin which lies on the East right of way line of the County Road; thence South along the East right of way line of the county Road a distance of 346.7 feet more or less to the point of beginning, in the SW1/4 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in Klamath County, Oregon.

ALSO EXCEPT THEREFROM: A parcel of land situated in the SW1/4 SE1/4 of Section 36, Township 40 South, Range 11 East, Willamette Meridian, in the County of Klamath, State of Oregon, more particularly described as follows: Beginning at an iron pipe located at the South and East right of way of the old Linkville-Tulelake Road at the point said road leaves the North and South centerline of Section 36, Township 40 South, Range 11 East, Willamette Meridian, and runs East: said iron pipe being also North 1,218.0 feet and North 89 degrees 48' East 30.0 feet from South quarter-section corner of Section 36; thence North 89 degrees 48' East along the South right of way of said Linkville-Tulelake Road, 477.4 feet to the Northwesterly right of way of the County Road #1113 known as Paygr Road; thence along Paygr Road South 43 degrees 06' 20" West 154.25 feet to a beginning of curve; thence around a 10 degree 30' 40" curve to the left (radius 548.05) a distance of 107.68 feet; thence South 31 degrees 47' 20" West 581.5 feet to the intersection of the Westerly right of way of the Old Linkville-Tulelake Road; thence North 690.92 feet, more or less, to the point of beginning.

ALSO EXCEPTING THEREFROM a tract of land for Shasta View Irrigation District as set forth in Volume 91 page 573 and Volume 138 at page 382, Deed Records of Klamath County, Oregon.

ALSO EXCEPTING THEREFROM: Beginning at a point that is the Southwest corner of Gerald E. Moore and Lori L. Moore's property, that is described in a deed recorded at M87-19492, October 27, 1987; which is also the Southwest corner of the NW1/4 SE1/4 Section 36, Township 40 South, Range 11 East, Willamette Meridian, Klamath County, Oregon. Thence East along the 1/16 line 647.40 feet. Thence South approximately 65 feet to the northern right-of-way line of the old Linkville-Tulelake Road. Thence West paralleling the above said 1/16 line 647.40 feet. Thence North approximately 65 feet, to the point of beginning.

ALSO EXCEPTING THEREFROM: Beginning at a point that is 647.40 feet East of the Southwest corner of the NW1/4 SE1/4 Section 36, Township 40 South, Range 11 East, Willamette Meridian, Klamath County, Oregon. Thence East along the 1/16 line approximately 1,992.6 feet to the Section line common to Section 36 and Section 6. Thence South approximately 200 feet to the northerly right of way line of Paygr Way (County Road 1113). Thence westerly along the northerly right of way line of Paygr Way (County Road 1113) to a point that is 65 feet south of the point of beginning. Thence North 65 feet to the point of beginning.

Application No. 915495
Permit No.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): Article 54. Go to section B "Approval" below
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: ALLEN GEORGE Date: 4/2/01
 Title: PLANNER Phone: (541) 883-4200
 Signature: Allen George

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Application No. 515495
Permit No.

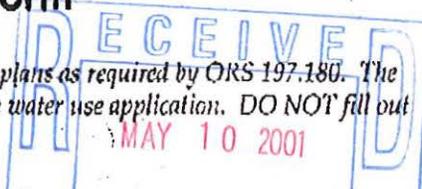

Note: If this form cannot be completed while the applicant is present, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Copy

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. Applicant

Name: Joanne Wallenhurst

Address: 17823 Country Road 85 B

City: Esparto State: GA Zip: 95627 Day Phone: _____

B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
R-4011-03600-00400-000	(agriculture)	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Klamath County

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): Irrigation

Briefly describe: Irrigation to crops.

Application No. 915495
Permit No. _____

D. Source

Indicate the source for the proposed water use:

Reservoir/Pond Ground Water Surface Water _____ (source)

E. Quantity

Indicate the estimated quantity of water the user will require:

CFS GPM Acre-Feet
