8) remarks:

Neighbors in the area have stated that this place and other nearby places have never had water available except from the river on a year round basis. The only lapse in usage that can be found is a three year period for the years of 1985, 1986, 1987. which is when the property had no residents, it still had livestock during this period. The farm was used for Dairy most of the time.

The deeds listing the owners as Taxants is currently the only means of showing residence of the property which would have necessitated the use of the water. later in the latter half of January or 1st half of February when the county water board will allow me to see additional records such as tax records I may then be able to send better proof of usage.

The CWRE cannot provide
a map until on or before the
End of Feb. 1993. The one
I made this appointment with
is Forrest J. Hales

IF as this time draws near
and it looks like he may not be
able to keep the date I may try
to find another CWRE to supply the
map by the End of Feb.
