DATE MAILED: FEBRUARY 16, 2018

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JOYCE W GANDY TRUST
330 S POPLAR 103
PIERRE, SD 57501

confirms the right to store water perfected under the terms of Permit R-12020. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-70679

SOURCE OF WATER: A WELL AND TWO SUMPS, APPROPRIATED UNDER APPLICATION G-12241, PERMIT G-12777, AND AN UNNAMED STREAM, A TRIBUTARY OF BUMMER CREEK

STORAGE FACILITY: 5 UNNAMED RESERVOIRS

PURPOSE or USE: AESTHETICS AND WILDLIFE IN RESERVOIRS #1, 3, 4, 5, AND 6

MAXIMUM STORAGE VOLUME: 4.67 ACRE-FEET (AF) PER YEAR, BEING 0.90 AF IN RESERVOIR #1, 0.09 AF IN RESERVOIR #3, 1.98 AF IN RESERVOIR #4, 0.23 AF IN RESERVOIR #5 AND 1.47 AF IN RESERVOIR #6, EACH YEAR

PERIOD OF USE: DECEMBER 1 THROUGH MARCH 31 FROM THE UNNAMED STREAM AND TWO SUMPS;
YEAR ROUND FROM THE WELL

DATE OF PRIORITY: SEPTEMBER 24, 1990

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
34 S	6 W	WM	28	SE SW	WELL – 170 FEET SOUTH AND 360 FEET WEST FROM C-S 1/16 CORNER, SECTION 28
34 S	6 W	WM	28	SE SW	SUMP 3 – 150 FEET SOUTH AND 800 FEET WEST FROM C-S 1/16 CORNER, SECTION 28
34 S	6 W	WM	28	SE SW	SUMP 4 – 660 FEET SOUTH AND 870 FEET WEST FROM C-S 1/16 CORNER, SECTION 28

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
34 S	6 W	WM	28	SE SW

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens and/or a fishway at the obstruction are not necessary at this time, the water user may be required in the future to install, maintain, and operate fish screening and/a fishway to prevent fish from entering the diversion, and to provide adequate upstream and downstream passage for fish.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plans.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the storage of the water for the above purpose is restricted to beneficial use on the place of use described.

This correcting assignment is to correct the name of the Joyce W. Gandy Trust that was previously spelled incorrectly.

This assignment by proof from Calvin D. Morris and Pamela M. Morris to Joyce W. Gandy Trust has been recorded in the records of the Water Resources Department.

The Departments records will now show Joyce Gandy Trust as the permit holder of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 119885 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Sincerely,

Jerry Sauter
Water Rights Program Analyst
Water Right Services Division

Subject: Extension of Time for filing Permit Extensions 6155 Tunnel Loop Rd Grants Pass, OR

Hello Gerry,

As we discussed today, I am requesting an extension of the due date for filing the Application for Extension of Time for Permit R-12020 and Permit G12777. Since multiple entities are involved in the property, namely Trustees for the Joyce W. Gandy Trust as well as your office, we are requesting an extension til May 31, 2016. I have filled out the needed paper work. I have been advised by the Medford Water Master and you to first file the Request for Assignment, then, once the Assignment has been recorded on both permits, file the paperwork for the permit extension.

Thank you for your assistance in this matter.

Warm regards,
Margaret

DATE MAILED: DEC 18 2015

NOTICE

Reference: Application R-70679 Permit R-12020

Enclosed is a proposed certificate of water right and map. The map and proposed certificate represent the extent water was used within the terms of the permit based upon Claims of Beneficial Use, prepared by a Certified Water Right Examiner, that either you or a previous permit holder submitted.

After further review from the Department, it was found that a secondary permit was not obtained for the appropriation of stored water from Reservoir #2 for Irrigation use. Therefore, Reservoir #2 was not included in the proposed certificate for Permit R-12020. New water right applications will be needed to store water in Reservoir #2 for the purpose of Irrigation Use.

The certificate is the final step in the water right process. The Department encourages you to review these proposals. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Jerry Sauter at 503-986-0817.

If you have any other questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French
Water Right Services Administrator

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CALVIN D MORRIS
PAMELA M MORRIS
6155 TUNNEL LOOP RD
GRANTS PASS OR 97526

confirms the right to store water perfected under the terms of Permit R-12020. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-70679

SOURCE OF WATER: A WELL AND TWO SUMPS, APPROPRIATED UNDER APPLICATION G-12241, PERMIT G-12777, AND AN UNNAMED STREAM, A TRIBUTARY OF BUMMER CREEK

STORAGE FACILITY: 5 UNNAMED RESERVOIRS

PURPOSE or USE: AESTHETICS AND WILDLIFE IN RESERVOIRS #1, 3, 4, 5, AND 6

MAXIMUM STORAGE VOLUME: 4.67 ACRE-FEET (AF) PER YEAR, BEING 0.90 AF IN RESERVOIR #1, 0.09 AF IN RESERVOIR #3, 1.98 AF IN RESERVOIR #4, 0.23 AF IN RESERVOIR #5 AND 1.47 AF IN RESERVOIR #6, EACH YEAR

PERIOD OF USE: DECEMBER 1 THROUGH MARCH 31 FROM THE UNNAMED STREAM AND TWO SUMPS;
YEAR ROUND FROM THE WELL

DATE OF PRIORITY: SEPTEMBER 24, 1990

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
34 S	6 W	WM	28	SE SW	WELL - 170 FEET SOUTH AND 360 FEET WEST FROM C-S 1/16 CORNER, SECTION 28
34 S	6 W	WM	28	SE SW	SUMP 3 - 150 FEET SOUTH AND 800 FEET WEST FROM C-S 1/16 CORNER, SECTION 28
34 S	6 W	WM	28	SE SW	SUMP 4 - 660 FEET SOUTH AND 870 FEET WEST FROM C-S 1/16 CORNER, SECTION 28

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
34 S	6 W	WM	28	SE SW

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens and/or a fishway at the obstruction are not necessary at this time, the water user may be required in the future to install, maintain, and operate fish screening and/a fishway to prevent fish from entering the diversion, and to provide adequate upstream and downstream passage for fish.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plans.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the storage of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued _____.

SEP 11 2015

Reference: Permit R-12020

Application R-70679

Enclosed is a proposed certificate of water right and a map. The map and proposed certificate represent the extent water was stored based upon a Claim of Beneficial Use, that either you or a previous permit holder submitted.

The certificate is the final step in the water right process. The Department encourages you to review this proposal. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Jerry Sauter at 503-986-0817.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French

Subject: Re: FW: Permits G-12777 and R-12020

Hi Gerry,

Thanks for the clarification. We found out today that the sale will possibly close around December 22nd, meaning we can then proceed to file for a change of ownership and extensions as well as other permits as necessary. Again, thanks for all your help.

Warm regards,

Margaret

On Fri, Nov 20, 2015 at 8:49 AM, CLARK Gerry E <gerald.e.clark@state.or.us> wrote:

Margaret,

Permit G-12777 authorizes the well as the sole source of water for irrigation on the property. The Claim of Beneficial Use report and map identify a total of 17.8 acres as developed under the permit for irrigation. The sumps are not a source of water for irrigation they are authorized to be used for filling the reservoirs only.

Permit R-12020 did provide for reservoir 2 to store water for the purpose of irrigation and indicated that in order to use the water stored in the reservoir for irrigation that the permit holder would need to a surface water permit to use the water stored in the reservoir. I find no evidence that a surface water permit to use the water stored in reservoir 2 was ever filed.

As we discussed yesterday, it may be possible to extend the period of time to fully develop both the groundwater permit and the reservoir permit. If an extension of time were granted for the reservoir permit, you could then apply for a permit to be able to use water from reservoir 2.

As the property sits right now, the only authorized source of water for irrigation use on this property is the well.

Gerry

Subject: Re: FW: Permits G-12777 and R-12020

Hello Gerry,

I haven't reviewed all that you've sent, but I would like to clarify what, if any, "use for irrigation rights" are permitted for this property and which sumps or reservoirs could be used for that purpose. According to our meeting with Shavaune sumps 3 and 4 are permitted (although not yet certified) for irrigation purposes, as well as the well during irrigation season of April through October. This is the crux of our decision of whether to buy this property or not. If there is no or inadequate irrigation permitted we'll look elsewhere for a property.

Thanks for all your time and effort. I enjoyed trying to parse this out with you. I find Western water rights to be quite fascinating, although I wouldn't like to be one of the decision makers.

Warm regards,

Margaret

Subject: Permits G-12777 and R-12020

Margaret,

As we discussed, I am providing you several links to documents and some attachments of documents related to Permits G-12777 and R-12020. I had indicated that the certificate for permit R-12020 is at a point where the Department could move the certificate any day. After further review, it actually looks like reservoir 2, the reservoir to be used for irrigation, should not have been included on the proposed certificate, because a permit for the use of water from the reservoir was never applied for. The Department will be mailing a new proposed certificate proposing to remove reservoir 2 from the certificate. The mailing of the revised proposed certificate will begin a new 60 day review period based on the date the revised proposal is mailed,

Based on our discussion, if you do end up purchasing the property, you will to perform the following steps in order to have the opportunity to develop additional acres of irrigation, additional storage in the reservoirs, and to use the water from reservoir #2.

1. Have permits G-12777 and R-12020 assigned into your name(s).
2. Request an extension of time for the two permits. If you choose to pursue the extensions of time, you will need to withdraw the Claims of Beneficial Use submitted by the previous permit holder. Assuming that an extension of time is granted, submit a new Claim of Beneficial Use for each permit that describes the extent of beneficial use made by the new complete application of water date.
3. File for a new permit for the use of water from Reservoir #2.

Surface Water Permit Application for use of water stored in the Reservoir 2:

http://www.oregon.gov/owrd/PUBS/docs/forms/final_draft_surface_water_app_2_1_2012_fillable.doc

I have attached a copy of letter requesting Pump Test along with all the attachments indicated in the letter.

In addition, attached is a copy of the proposed cert for permit R-12020 along with the Claim of Beneficial Use Report for the permit.

Please let me know if I have missed any items that we discussed or if you have any additional questions.

WRD Reviewer <u>Jessica Joye</u>	Date <u>6/23/15</u>	
WRD Peer Reviewer <u>J Skaug</u>	Date <u>7-28-15</u>	

Research

- ☒ Organize file in chronological order
- ☒ Pull CBU Report & Map(s), Application Map, relevant Permit, Certificate, or Transfer Order, most recent Assignments, - Calvin D Morris, Pamela M Morris ✓
Extension Orders, SWL Measurements, Fish Screen Certification Documents, Water Use Reports & Pump Tests
- ☒ Search for Water Right Location using Interactive Mapper. Identify Tax Lots & check for Area of Interest (AOI)
- ☒ Water Organization identified using AOI? ☒ No ☐ Yes
If "Yes" cc: _____ & Add to Mailing List
- ☒ Print Tax Lot Map from ormap.net for the original Place of Use, and confirm Current Ownership & Address with County Assessor
If there is a new owner, Add to Mailing List, including the owner(s) name & tax lot number
- ☒ Print Platcard & check for Place of Use Conflict? ☒ No ☐ Yes
If "Yes", provide copy of certificate & relevant map
- ☒ Print BLM Cadastral Survey
- ☒ Does Claim Map identify correct DLC, Gov't Lots, QQ's? ☐ No ☒ Yes ✓
If "No", either _____ WRD amend map OR _____ prepare Order of Certification

Reviewing Claim

Have conditions on relevant permit, certificate, or transfer order been complied with? Yes, No, OR N/A

- N/A Fish Conditions - see email 10/31/05 (Pink Flagged) ✓
- YES Meter/measuring device unknown date, see memo from G. Clark (3/3/08). ✓
- N/A Water Use Reporting
- N/A Pump Test (post December 19, 1988)
- N/A Other Conditions _____
- N/A SWL
- _____ C-Date unknown C-Date. Reservoirs are 25+ years old. ✓

N/A Run Capacity Calculator and Print Findings (for pump, sprinklers, pipes, ditches, as appropriate)

NOTES:

CBU REC'D - 12/31/00

cancellation order - 8/17/05

C-Date - 10/1/99

reinstatement - 9/31/05
120 days from 9/31/05 - YES, CBU REC'D

Gerry said
to go DRAFT
on R-file ✓

Extension NEEDED? - No. OK -
Spoke w/J.S. New owners were
unaware that this hadn't been
completed. Do not know C-Date,
no way to get a hold of previous

Determination

☐ I've determined that the permit/transfer was fully developed as authorized and that a **FINAL** Certificate should be issued.

☒ I've determined that the permit/transfer was not fully developed as authorized and that a **PROPOSED** Certificate should be issued. A proposed Certificate should be issued for the following reason(s):
Res. #2 has no ~~secondary~~ permit for IR. Res. #2 removed. Red. reservoir capacities

☐ I've determined that beneficial use was NOT made within the terms and conditions and that a **Proposed Order of Certification** (denial) should be issued. A proposed Order of Certification should be issued for the following reason(s):

k Per GC going out Draft w/ relate G-12241

Processing

☐ Stamp PROPOSED or Assign CERT# _____ or ORDER OF CERTIFICATION (circle one)

☐ Draft Certificates or Proposed Order of Certifications are available in the Application directory.

☐ Prepare Mailing List. Include Applicant(s); Receiving Landowner(s); Current Owner(s); Water Organizations; CWRE. Indicate records to be marked.

☐ Record marking:	App _____	Permit _____	Cert _____
	App _____	Permit _____	Cert _____
	App _____	Permit _____	Cert _____
	App _____	Permit _____	Cert _____

NOTES:

*11-23-15- After further review it was found that a Secondary permit was not obtained to use the water stored in Res. #2 for IR use. Res. #2 has been removed from the certificate. A new prop. cert w/ cover letter was created. *Wye**

STATE OF OREGON
COUNTY OF JOSEPHINE
PERMIT TO STORE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GEORGE N. AND MARILANE J. AUTRY *Calvin D. Morris*
6155 TUNNEL LOOP RD *Pamela M. Morris* (541) 471-1206
GRANTS PASS, OREGON 97544 ✓

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: R-70679

SOURCE OF WATER: ~~A WELL AND TWO SUMPS, APPROPRIATED UNDER APPLICATION G-12241, PERMIT G-12777, AND AN UNNAMED STREAM, A TRIBUTARY OF BUMMER CREEK~~

STORAGE FACILITY: ~~6 UNNAMED RESERVOIRS~~

PURPOSE OR USE OF THE STORED WATER: ~~AESTHETICS AND WILDLIFE IN RESERVOIRS #1, 3, 4, 5, AND 6, STORAGE FOR IRRIGATION IN RESERVOIR #2~~

X ~~This permit does not authorize the appropriation of stored water for irrigation from Reservoir #2. Prior to the diversion of any stored water, the water user must obtain a secondary permit, as described in ORS 537.400, from the Water Resources Department.~~

VOLUME OF ALLOWED USE: ~~14.84 ACRE-Feet (AF) PER YEAR, BEING 0.95 AF IN RESERVOIR #1, 7.15 AF IN RESERVOIR #2, 0.4 AF IN RESERVOIR #3, 3.4 AF IN RESERVOIR #4, 0.75 AF IN RESERVOIR #5, AND 2.19 AF IN RESERVOIR #6, EACH YEAR~~

PERIOD OF ALLOWED USE: WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD DECEMBER 1 THROUGH MARCH 31 FROM THE UNNAMED STREAM AND TWO SUMPS; YEAR ROUND FROM THE WELL

DATE OF PRIORITY: SEPTEMBER 24, 1990

The area submerged by Reservoir #1, when full, will be 0.26 acre and the maximum depth of water will be 6.5 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = 0.26(6.5)(.4) = 0.677AF$

The area submerged by Reservoir #2, when full, will be 0.7 acre and the maximum depth of water will be 13.7 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = (0.7)(13.7)(.4) = 3.85AF$

The area submerged by Reservoir #3, when full, will be 0.08 acre and the maximum depth of water will be 6.9 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = (0.08)(6.9)(.4) = 0.2208AF$

Application R-70679 Water Resources Department PERMIT R-12020

↑sumps*

The area submerged by Reservoir #4, when full, will be 0.39 acre and the maximum depth of water will be 9.0 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = (0.39)(9)(.4) = 1.404$

The area submerged by Reservoir #5, when full, will be 0.14 acre and the maximum depth of water will be 5.0 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = (0.14)(5)(.4) = 0.28$

The area submerged by Reservoir #6, when full, will be 0.29 acre and the maximum depth of water will be 8.8 feet. The maximum height of the dam shall not exceed 0.0 feet. $V = (0.29)(8.8)(.4) = 1.0272$

DAM LOCATIONS: SE 1/4 SW 1/4, SECTION 28, T34S, R6W, W.M.

THE AREA TO BE SUBMERGED BY THE RESERVOIRS IS LOCATED AS FOLLOWS:

SE 1/4 SW 1/4 ✓
SECTION 28
TOWNSHIP 34 SOUTH, RANGE 6 WEST, W.M.

Measurement, recording and reporting conditions:

- OK -
- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
See Memo from Gerny Clark - 3/3/08
 - B. The permittee shall allow the watermaster access to the meter or measuring device, provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

OK -

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

See email (10/31/05) from Rick Kilbane that a Fish SCREEN not required, no mention of fishway in email

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoirs shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

Issued September 30, 1996

Martha O. Pagel, Director
Water Resources Department

WORK COPY

If the current property owner is not the permittee or transfer holder of record, it is recommended that an assignment be filed with the Department. The COBU must be signed by the permit/transfer holder of record.

II. Points of Diversion/Appropriation and Place of Use

For each point of diversion or appropriation, provide the following information. If the claim is for more than one point of diversion/appropriation, copy and complete this section for each point of diversion or appropriation.

1. Provide a general narrative description of the distribution works. This description must trace the water system from the point of diversion or appropriation to and include the place of use:

Six reservoirs situated in SE¼ SW¼, Sec. 28. Size and location shown in reservoir data reservoirs 1,3,4,5 and 6 – Aesthetics, Reservoir 2 Irrigation Storage.

2. Point of diversion/appropriation name or number (correspond to map):

Point of diversion/appropriation name or number (correspond to map)	Well log ID # for all work performed on the well (if applicable)	Well tag # (if applicable)

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, and deepenings)

3. Point of diversion/appropriation source and, if from surface water, the tributary:

Source	Tributary to
Unnamed Stream	Bummer Ck.

4. Point of diversion/appropriation location:

(DLC, Government Lot, ¼ ¼, Section, Township, Range)	Reference to a recognized public land survey corner by distance and bearing or by coordinates
SE¼SW¼Section 28, T.34S.,R.6W.	See final proof map.

5. Actual use(s), period of use, and rate for each use: See No. 1 above.

Uses	If irrigation, list crop type	When water is used	Rate for use
Aesthetics/Wildlife	-	Dec. 1 to March 31	7.69
Storage	-	Year Round	7.15

Total Quantity of Water 14.84

6. Place of use for the point of diversion or appropriation: N/A

DLC	Gov lot	1/4 1/4	Section	Township	Range	Use	# of primary acres	# of supplemental acres

Total Acres Irrigated

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 1 (Refer to Final Proof. Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
5.0	3.0 ft	0.30	0.90

3. Provide reservoir volume calculations in the box below:

Surface area is 0.30, Average Depth is 3.0 ft

$$0.30 \times 3.0 = 0.90 \text{ Acre Ft.}$$

~~PERMIT STATES 0.0 feet of max. dam.~~

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
4.7	8-9 ft +/-	10.8	7.0 ft to water	-1.6 ft	2:1	2.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

RECEIVED

DEC 13 2006

WATER RESOURCES DEPT
SALEM, OREGON

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in easterly end of dam – Concrete spillway is 2.3 ft deep and 2.85 ft wide, 10 ft in length, slotted to accept check boards on upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Easterly End Res.	2.85	2.85	2.3

Spillway cross section at the spillway crest

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 2 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
14.7 ft	9.0 ft	0.63	5.67

3. Provide reservoir volume calculations in the box below:

Surface area is 0.63, maximum depth measured of 14.7 ft – Average Depth measured at 9.0 ft.

$$0.63 \times 9 = 5.67 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to water	Water level at inspection	Downstream slope	Upstream slope
43'	9.00 ft +/-	35	10 ft	-5.2 ft	1.8:1	3.5:1

* 0' in permit

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in westerly end of dam. Concrete structure is 3.6 ft deep, 5.7 ft wide, 14 ft in length, slotted to accept check boards on the upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Westerly End Dam	5.7 ft	5.7 ft	3.6 ft

Spillway cross section at the spillway crest

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 3 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
5-6 ft	3 ft	0.03	0.08

3. Provide reservoir volume calculations in the box below:

Surface area 20 ft wide and 60 ft long when full. Maximum depth is estimated at 5-6 ft, average depth is 3 ft.

$$20 \times 60 = 1200 \text{ sq. ft} \times 3 = 3600 \div 43460 = 0.08 \text{ acre ft}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
63	8 ft +/-	2.3	7.5	3 ft +/-	2:1 +/-	3:1 +/-

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

No outlet, earth drainage ditch on Southwest corner of dam, overgrown w/black berries.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
SW Corner of Reservoir	10 ft +/-	15 ft +/-	1.5 ft

Spillway cross section at the spillway crest

SALEM, OREGON

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 4 (Refer to Final Poof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:
N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
8 ft	6 ft +/-	0.33	2.00

3. Provide reservoir volume calculations in the box below:

Surface area is 0.33 acres, average depth is estimated to be 6 feet deep.

$$0.33 \times 6 = 2.0 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
12	8-9 ft +/-	13	18.5	4.7 ft	2.5:1	3.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

HORIZONTAL AND VERTICAL SCALE 1" = 20'

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A 12-inch diameter metal culvert pipe 12-15 feet in length is installed through dam with flow line of pipe Approximately 2.0 feet lower then top of dam – culvert is located in center of dam.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Center of dam	See Below		

Spillway cross section at the spillway crest

Spillway is 12 inch diameter pipe described in No.6.

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 5 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
6 ft	4.5 ft	0.05	0.23

3. Provide reservoir volume calculations in the box below:

Surface area is 0.05 acres, average depth is estimate at 4.5 feet.

$$0.05 \times 4.5 = 0.23 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
17	8-9 feet	26	21 - To Water	-4.5	6:1	4:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A 12 inch diameter metal culvert pipe 15-17 feet in length is installed through dam with flow line of pipe approximately 2.0 feet lower than top of dam. Pipe is located in center of dam.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Center of Dam	See Below		

Spillway cross section at the spillway crest
No. 6.

Spillway is 12 inch diameter pipe as described in No. 6.

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 6 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:
N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
9 ft	7	0.21	1.47

3. Provide reservoir volume calculations in the box below:

Surface area is 0.05 acres, average depth is estimated at 7 feet.

$$0.21 \times 7 = 1.47 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
57	9-10 ft	11	11 - To Water	-4.8 ft	1.7:1	2.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in the westerly end of the dam. Concrete spillway is 2.0 ft deep, 7.9 ft wide, 16 ft long, slotted to accept check boards on upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
West end of dam	7.9 ft	7.9 ft	2.0 ft

Spillway cross section at the spillway crest

III. CONDITIONS

NOTE: SEE IV, ATTACHMENTS, CONCLUSIONS, MAPS/SIGNATURES

Please pay special attention to this section. All conditions contained in the permit or transfer final order shall be addressed. Reports that do not address all performance related conditions will be returned.

NOTE – SEE IV, ATTACHMENTS, CONCLUSIONS, MAPS/SIGNATURES

1. Time Limits:

a. Permits or transfer Final Orders contain any or all of the following dates; the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use is to be completed by. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or transfer final order:

	Dates from permit or transfer final order	Date accomplished	Description of actions taken by water user to comply with the time limits
Begin construction	Sept.30,1996	SEE-NOTES	Dates of completion are unknown to current.
Complete construction	Oct. 1, 1999	UNKNOWN	Land owner and CWRE-Original Permit Holder did not disclose Water Permits to current owner.
Complete application of water	Oct.. 1, 1999	UNKNOWN	See Reinstatement Order Vol. 67,pg.36

2. Initial Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit an initial static water level measurement? YES NO NA

3. Annual Static Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit annual static water level measurements? YES NO NA

4. Measurement, recording, and reporting conditions:

a. Does the permit or transfer final order require the installation of a meter or approved measuring device? YES NO

If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

**If "NO", items b through g relating to this section can be deleted.

b. Has a meter been installed? **YES** NO

c. Provide the date the meter was installed: **UNKNOWN**

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? YES **NO**

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

Name	Title	Approximate date

f. Is the water user required to report the water use to the Department? YES **NO**

g. Have the reports been submitted? YES **NO**

If the reports have not been submitted, attach a copy of the reports if available.

5. Fish Screening and/or By-pass Devices

a. Are any points of diversion required to be screened and/or have a by-pass device to prevent fish from entering the point of diversion? **YES** NO NA

If fish screening and/or by-pass devices were required, the COBU map must indicate their location in relation to the point of diversion.

**If "NO", items b through i relating to this section can be deleted

b. Has the fish screening been installed? YES **NO** SEE IV. Below – Fish Screen requirement NOT required by ODFW

c. When was the fish screening installed?

Date	By whom

pg. 14 not filled out

d. Is the **total** diversion rate of all rights at the point of diversion less than 0.5 cfs? **YES**
NO

e. If the total diversion rate is less than 0.5 cfs, has the water user self certified the fish screen. YES **NO**

f. Has a self certification form been previously submitted to the Department? YES **NO**

g. If not, is the self certification form attached to this Claim? YES **NO**

Subject: Permits G-12777 and R-12020
Attachments: R-12020 Claim of Beneficial Use.pdf; G-12777 Information.pdf; R-12020 Proposed Certificate.pdf

Margaret,

As we discussed, I am providing you several links to documents and some attachments of documents related to Permits G-12777 and R-12020. I had indicated that the certificate for permit R-12020 is at a point where the Department could move the certificate any day. After further review, it actually looks like reservoir 2, the reservoir to be used for irrigation, should not have been included on the proposed certificate, because a permit for the use of water from the reservoir was never applied for. The Department will be mailing a new proposed certificate proposing to remove reservoir 2 from the certificate. The mailing of the revised proposed certificate will begin a new 60 day review period based on the date the revised proposal is mailed,

Based on our discussion, if you do end up purchasing the property, you will to perform the following steps in order to have the opportunity to develop additional acres of irrigation, additional storage in the reservoirs, and to use the water from reservoir #2.

1. Have permits G-12777 and R-12020 assigned into your name(s).
2. Request an extension of time for the two permits. If you choose to pursue the extensions of time, you will need to withdraw the Claims of Beneficial Use submitted by the previous permit holder. Assuming that an extension of time is granted, submit a new Claim of Beneficial Use for each permit that describes the extent of beneficial use made by the new complete application of water date.
3. File for a new permit for the use of water from Reservoir #2.

MEMORANDUM

TO: FILE R-70679 (MORRIS)
FROM: GERRY CLARK 
SUBJECT: MEASURING CONDITION COMPLIANCE FOR PURPOSE OF DETERMINING PROOF TO THE SATISFACTION
DATE: 3/3/2008

The purpose of this memo is to document the approval of an "other suitable measuring device" on the reservoirs involved on the permit. This is solely for the purpose of determining that the permit condition requiring a measuring device has been complied with.

The question has arisen concerning whether the water user has complied with the measuring condition required in the reservoir permit. Based on discussions between the Watermaster, Water User, and CWRE, the Water User and CWRE remember being told that whatever devices were in place on the reservoirs at the time of the purchase of the property, was acceptable. The application indicates that the structures were constructed between 1960 and 1965.

The Department is willing to accept their statement regarding the approval of the measuring devices for the purpose of compliance with the condition requiring a meter or other suitable measuring devices.

I have discussed the situation with the Watermaster who agrees with this conclusion.

In the future, the Watermaster still has the ability to require the water user to install some other type of device to measure the capacity of the reservoirs if necessary.

Gerry Clark

From: Gerry Clark
Sent: Tuesday, February 26, 2008 3:19 PM
To: Kathy Smith
Subject: RE: R12020 (application 70679)

Kathy,

Mr. Morris submitted a COBU in December 2006. The COBU provides a phone number of 541-471-1387.

Gerry

From: Kathy Smith

To: Gerald.E.CLARK@wrd.state.or.us
Subject: R12020 (application 70679)

Hi Gerry,

When you have a spare minute, would you please look in the file and see if there is a phone number for Calvin Morris, he submitted either the COBU or filed for the extension for this permit. Thanks.

Kathy

Katherine A. Smith
Watermaster, District 14
Oregon Water Resources Department
942 SW 6th Street, Suite E
Grants Pass, Oregon 97526
541-471-2886, ext.223
Fax 541.471.2876

**CLAIM OF BENEFICIAL USE
FOR
Calvin D. and Pamela M. Morris
6155 Tunnel Loop Road
Grants Pass, OR 97526**

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. Every numbered item must have a response. If any requested information does not apply to the Claim, insert "n/a." Do not delete any section of this form unless directed by the form. The Department may require the submittal of additional information from any water user or authorized agent. **A separate form shall be completed for each permit or transfer final order.**

I. General Information

1. File Information

Application Number (G, R, S or T)	Permit Number (if applicable)
R-70679	R-12020

2. Property owner (current owner information)

a. Individuals

Name	Calvin D. Morris	Pamela M. Morris
Mailing Address	6155 Tunnel Loop Rd.	6155 Tunnel Loop Rd.
City/State/Zip	Grants Pass, OR 97526	Grants Pass, OR 97526
Phone #	541-471-1387	541-471-1387
Fax #	541-471-1431	541-471-1431
e-mail address		

b. Businesses/Organizations N/A

II. Points of Diversion/Appropriation and Place of Use

For each point of diversion or appropriation, provide the following information. If the claim is for more than one point of diversion/appropriation, copy and complete this section for each point of diversion or appropriation.

1. Provide a general narrative description of the distribution works. This description must trace the water system from the point of diversion or appropriation to and include the place of use:

Six reservoirs situated in SE¼ SW¼, Sec. 28. Size and location shown in reservoir data reservoirs 1,3,4,5 and 6 – Aesthetics, Reservoir 2 Irrigation Storage.

2. Point of diversion/appropriation name or number (correspond to map):

Point of diversion/appropriation name or number (correspond to map)	Well log ID # for all work performed on the well (if applicable)	Well tag # (if applicable)

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, and deepenings)

3. Point of diversion/appropriation source and, if from surface water, the tributary:

Source	Tributary to
Unnamed Stream	Bummer Ck.

4. Point of diversion/appropriation location:

(DLC, Government Lot, ¼ ¼, Section, Township, Range)	Reference to a recognized public land survey corner by distance and bearing or by coordinates
SE¼SW¼Section 28, T.34S.,R.6W.	See final proof map.

5. Actual use(s), period of use, and rate for each use: See No. 1 above.

Uses	If irrigation, list crop type	When water is used	Rate for use
Aesthetics/Wildlife	-	Dec. 1 to March 31	7.69
Storage	-	Year Round	7.15

Total Quantity of Water 14.84

6. Place of use for the point of diversion or appropriation: N/A

DLC	Gov lot	1/4 1/4	Section	Township	Range	Use	# of primary acres	# of supplemental acres

Total Acres Irrigated

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 1 (Refer to Final Proof. Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
5.0	3.0 ft	0.30	0.90

3. Provide reservoir volume calculations in the box below:

Surface area is 0.30, Average Depth is 3.0 ft

$$0.30 \times 3.0 = 0.90 \text{ Acre Ft.}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
4.7	8-9 ft +/-	10.8	7.0 ft to water	-1.6 ft	2:1	2.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in easterly end of dam – Concrete spillway is 2.3 ft deep and 2.85 ft wide, 10 ft in length, slotted to accept check boards on upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Easterly End Res.	2.85	2.85	2.3

Spillway cross section at the spillway crest

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 2 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are *not* required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
14.7 ft	9.0 ft	0.63	5.67

3. Provide reservoir volume calculations in the box below:

Surface area is 0.63, maximum depth measured of 14.7 ft – Average Depth measured at 9.0 ft.
 $0.63 \times 9 = 5.67$ acre feet

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to water	Water level at inspection	Downstream slope	Upstream slope
43'	9.00 ft +/-	35	10 ft	-5.2 ft	1.8:1	3.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in westerly end of dam. Concrete structure is 3.6 ft deep, 5.7 ft wide, 14 ft in length, slotted to accept check boards on the upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Westerly End Dam	5.7 ft	5.7 ft	3.6 ft

Spillway cross section at the spillway crest

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 3 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
5-6 ft	3 ft	0.03	0.08

3. Provide reservoir volume calculations in the box below:

Surface area 20 ft wide and 60 ft long when full. Maximum depth is estimated at 5-6 ft, average depth is 3 ft.

$$20 \times 60 = 1200 \text{ sq. ft} \times 3 = 3600 \div 43460 = 0.08 \text{ acre ft}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
63	8 ft +/-	2.3	7.5	3 ft +/-	2:1 +/-	3:1 +/-

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

No outlet, earth drainage ditch on Southwest corner of dam, overgrown w/black berries.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
SW Corner of Reservoir	10 ft +/-	15 ft +/-	1.5 ft

Spillway cross section at the spillway crest

Reservoir Data

****If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. Reservoir No. 4 (Refer to Final Poof Map)**

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
8 ft	6 ft +/-	0.33	2.00

3. Provide reservoir volume calculations in the box below:

Surface area is 0.33 acres, average depth is estimated to be 6 feet deep.

$$0.33 \times 6 = 2.0 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
12	8-9 ft +/-	13	18.5	4.7 ft	2.5:1	3.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

HORIZONTAL AND VERTICAL SCALE 1" = 20'

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A 12-inch diameter metal culvert pipe 12-15 feet in length is installed through dam with flow line of pipe Approximately 2.0 feet lower then top of dam – culvert is located in center of dam.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Center of dam	See Below		

Spillway cross section at the spillway crest

Spillway is 12 inch diameter pipe described in No.6.

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 5 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
6 ft	4.5 ft	0.05	0.23

3. Provide reservoir volume calculations in the box below:

Surface area is 0.05 acres, average depth is estimate at 4.5 feet.

$$0.05 \times 4.5 = 0.23 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
17	8-9 feet	26	21 - To Water	-4.5	6:1	4:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A 12 inch diameter metal culvert pipe 15-17 feet in length is installed through dam with flow line of pipe approximately 2.0 feet lower than top of dam. Pipe is located in center of dam.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
Center of Dam	See Below		

Spillway cross section at the spillway crest
No. 6.

Spillway is 12 inch diameter pipe as described in No. 6.

Reservoir Data

If this claim is not for a reservoir, or the system does not involve a reservoir as part of the distribution system, this section, items 1-7, can be deleted. **Reservoir No. 6 (Refer to Final Proof Map)

1. If the reservoir required the submittal of as-built plans and specifications, complete the table below:

N/A

Have the documents been submitted? yes or no	When were the documents submitted	Have they been approved by the Department?

2. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table below.

Maximum depth	Average depth	Surface area (in acres)	Volume in acre feet
9 ft	7	0.21	1.47

3. Provide reservoir volume calculations in the box below:

Surface area is 0.05 acres, average depth is estimated at 7 feet.

$$0.21 \times 7 = 1.47 \text{ acre feet}$$

4. Provide the following information concerning the physical characteristics of the dam:

Crest width (W)	Dam height at centerline (H)	Distance from downstream top of dam to downstream toe (L)	Distance from upstream top of dam to upstream toe (U)	Water level at inspection	Downstream slope	Upstream slope
57	9-10 ft	11	11 - To Water	-4.8 ft	1.7:1	2.5:1

5. In the box below, provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

6. Describe the outlet works (size and type of the outlet conduit and location) in the box below:

A "U" shaped concrete spillway is situated in the westerly end of the dam. Concrete spillway is 2.0 ft deep, 7.9 ft wide, 16 ft long, slotted to accept check boards on upstream end.

7. Describe the emergency spillway (dimensions and location) in the box below:

Spillway location	Bottom width (W)	Top width (L)	Spillway depth (H)
West end of dam	7.9 ft	7.9 ft	2.0 ft

Spillway cross section at the spillway crest

III. CONDITIONS

NOTE: SEE IV, ATTACHMENTS, CONCLUSIONS, MAPS/SIGNATURES

Please pay special attention to this section. All conditions contained in the permit or transfer final order shall be addressed. Reports that do not address all performance related conditions will be returned.

NOTE – SEE IV, ATTACHMENTS, CONCLUSIONS, MAPS/SIGNATURES

1. Time Limits:

a. Permits or transfer Final Orders contain any or all of the following dates; the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use is to be completed by. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or transfer final order:

	Dates from permit or transfer final order	Date accomplished	Description of actions taken by water user to comply with the time limits
Begin construction	Sept.30,1996	SEE-NOTES	Dates of completion are unknown to current.
Complete construction	Oct. 1, 1999	UNKNOWN	Land owner and CWRE-Original Permit Holder did not disclose Water Permits to current owner.
Complete application of water	Oct.. 1, 1999	UNKNOWN	See Reinstatement Order Vol. 67,pg.36

2. Initial Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit an initial static water level measurement? YES NO NA

3. Annual Static Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit annual static water level measurements? YES NO NA

4. Measurement, recording, and reporting conditions:

a. Does the permit or transfer final order require the installation of a meter or approved measuring device? YES NO

If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

****If "NO", items b through g relating to this section can be deleted.**

b. Has a meter been installed? YES NO

c. Provide the date the meter was installed: UNKNOWN

--

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? YES NO

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

Name	Title	Approximate date

f. Is the water user required to report the water use to the Department? YES NO

g. Have the reports been submitted? YES NO

If the reports have not been submitted, attach a copy of the reports if available.

5. Fish Screening and/or By-pass Devices

a. Are any points of diversion required to be screened and/or have a by-pass device to prevent fish from entering the point of diversion? YES NO NA

If fish screening and/or by-pass devices were required, the COBU map must indicate their location in relation to the point of diversion.

****If "NO", items b through i relating to this section can be deleted**

b. Has the fish screening been installed? YES NO **SEE IV. Below – Fish Screen requirement NOT required by ODFW**

c. When was the fish screening installed?

Date	By whom

d. Is the **total** diversion rate of all rights at the point of diversion less than 0.5 cfs? YES
NO

e. If the total diversion rate is less than 0.5 cfs, has the water user self certified the fish screen. YES NO

f. Has a self certification form been previously submitted to the Department? YES NO

g. If not, is the self certification form attached to this Claim? YES NO

- h. If the total diversion rate is greater than 0.5 cfs, has ODFW approved the screening? YES **NO**
- i. Has the water user previously submitted a letter from ODFW approving the screening? YES NO
- j. If not, is the approval letter attached to the Claim? YES NO
- k. Has the by-pass device been installed? YES NO

l. Describe the by-pass device: **N/A**

When installed	By whom	Approved by ODFW	Description

7. Other Permit Conditions (examples: special well construct standards, water conservation plans, no obstructions to fish without a fishway, etc.; number as appropriate.)

IV. Variations, Attachments, Conclusions, Map and Signatures

Variations

Include a description of variations from the permit or transfer final order

Fish screening requirement inspected by ODFW and not required.

Attachments

If you are attaching any documents to this report, provide a list below:

Attachment name	Description
E-Mail	E-Mail to Rich Kilbane to Harold Center dated 10/31/05, Fish screen at pump intake not required.

Permit and Transfer Final Order Rates and System Rates Comparisons: N/A

POD or POA name or #	Maximum rate allowed by permit or transfer final order	Calculated theoretical rate of water based on system	Actual amount of water measured (if measured)	Developed use	# of acres allowed by permit or transfer final order	# of acres developed

Claim of Beneficial Use Map

The Claim of Beneficial Use Map must be submitted with this Claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320', 1" = 400', or the original full-size scale of the county assessor map for the location.

In the following box, provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Reservoir Locations and perimeters measured by Garmin Plus III GPS – CONUS-27 Datum.
Supplemented use of Josephine County aerial photographs and transfer application maps.

CWRE Statement, Seal and Signature

The facts contained in this Claim of Beneficial Use are true and correct to the best of my knowledge.

9/06/2006

August 29, 2005

Mr. Dwight French
Administrator, Water Rights and Adjudication Division
Oregon Water Resources Department
725 Summer Street N.E., Suite A
Salem, Oregon 97301-2403

Reference: Permits to use Ground Water, Application No. G12241; Permit No. G-12777 and
Permits to Construct Reservoirs and Store Water, Application R-70679;
Permit R-12020.

Dear Mr. French,

This letter is to serve as our Petition for reconsideration of the Cancellation Order for Permits
G-12777 and R-12020.

We purchased the property situated at 6155 Tunnel Loop Road, Grants Pass, Oregon from Mari
lane J. Autry on March 20, 1998 a copy of the deed is attached. Mr. and Mrs. Autry had divorced
and we had no contact with Mr. Autry. At the time of purchase we were assured the water rights
associated with the property were complete and recorded with the State of Oregon. This assurance
came both from the former landowner and the Real Estate Company representing the seller.

We did not understand and we were not informed of the need for the water right permits to be
assigned from the prior owner to us or that a need for Final Claim of Beneficial Use Report was
needed.

Sometime after our purchase we were contacted by a representative of your Grants Pass Office
(Mr. Norm Daft) who made a site visit and informed us of the need to complete a name change
request which we did and sent to your Salem Office, again we thought the water rights were not at
issue until we received the Cancellation Orders.

I have retained Harold L. Center, Certified Water Right Examiner to complete the required
documentation. Mr. Center has scheduled a site visit on September 20, 2005 and has agreed to
complete the mapping and report preparation as quickly as his schedule permits.

Mr. Dwight French
Administrator, Water Rights and Adjudication Division
Oregon Water Resources Department
725 Summer Street N.E., Suite A
Salem, Oregon 97301-2403
Page 2

Enclosed please find the Request for Assignment Form, related support documentation and our check in the amount of \$35.00 to transfer the permits from Mr. and Mrs. Autry to Calvin D. Morris and Pamela M. Morris.

Please contact me if you require any additional information.

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 1999.

In order to obtain a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use, to include a final proof survey map of the development. The map and claim of beneficial use was to have been submitted to our Department within one year of October 1, 1999. A list of certified water right examiners is enclosed for your use.

If you are not finished with the development of your permit, you need to file for an extension of time to complete your development. An extension form is also enclosed with this letter.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. A cancellation form is enclosed, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time within 60 days of the date of this letter (July 16, 2002) the Department will cancel your permit without further notice.

Please give me a call if you have questions. My phone number is 503-378-8455 extension 274.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

Permit Number: R-12020

File Number: R-70679

The date for the complete construction of the water use system and/or application of water to beneficial use under the above water right permit is **10/01/1999**. To date we have not received notice that the project has been completed. If the project will be completed, be sure to submit the notice of complete construction of the system and/or complete application of water prior to 10/01/1999. If you will not be able to complete the project by October 1, 1999, you may apply for an extension of the time limits.

Applying for an extension of time requires submittal of a completed application form and a \$100 fee. An application form and instructions for filling out the form are enclosed. Permit extension rules, adopted by the Water Resources Commission in October 1998, require proposed final orders for extensions to be noticed in the Department's weekly public notice document.

Diligence in developing the permit is an important, but not the only, factor considered in evaluating good cause. To the extent that permit holders can document a strong record of aggressively constructing the water use system and applying water to beneficial use per the limitations and conditions of the permit, the stronger the evidence that good cause exists to extend the time limits. Thus, the Department urges you to make every effort to substantially complete the project by the time limits established in the permit.

If you have or will complete development under your permit before 10/01/99 then you do not need to file for an extension of the time limits. However, you will need to submit a final proof survey completed by a Certified Water Rights Examiner (CWRE) within one year of completion or no later than 10/01/2000. (Some small reservoir permit holders do not need to hire a CWRE. For more information on this exception, see the back of this page.)

Municipalities: Please see the back of this page for additional information.

If you have any questions, please contact me at extension 272, at 503-378-3739, or toll-free from Oregon at 1-800-624-3199. You may also call the Water Rights Information Group using extension 499.

Sincerely,

Dallas Miller
Water Rights Specialist

Special Information for Municipal Use Permit Holders

The extension rules adopted by the Water Resources Commission in October of 1998 allowed for holders of municipal water use permits to not have to file for extensions of time until July 1, 2001. The specific rule language granting this exception is below. As the rule indicates, a work group is being convened to address the special needs that exist for holders of municipal water rights. If you are interested in following the developments of this group, please contact Dwight French at the Department using email: Dwight.W.French@state.or.us. If email is unavailable, please use extension 268.

690-320-0010 (4) A holder of a permit for municipal water use, as defined in OAR 690-300-0010, may apply for an extension under the rules in this Division. However, the Department will convene a work group to address issues relating to water rights for municipal water uses. The work group will be asked to make recommendations for rules and/or legislation to address issues specific to water rights for municipal water uses, including extensions of such water rights. Until July 1, 2001, holders of municipal water use permits are not required to apply for a permit extension. During this time, the Department will not require submission of proof of completion for, attempt to cancel, or compel an application for an extension for a water right permit for municipal water uses. This time period is offered to allow the work group to develop recommendations. The Department may shorten the time limit if the working group develops recommendations and new rules are adopted before July 1, 2001.

690-320-010 (29) "Municipal Water Use" means the delivery and use of water through the water service system of a municipal corporation for all water uses usual and ordinary to such systems. Examples of these water uses shall include but are not limited to domestic water use, irrigation of lawns and gardens, commercial water use, industrial water use, fire protection, irrigation and other water uses in park and recreation facilities, and street washing. Such uses shall not include generation of hydroelectric power.

Special Information for Certain Small Reservoir Permit Holders

You do not need to have a survey, report and map prepared by a Certified Water Right Examiner if you meet the following criteria:

1. Your reservoir permit stores less than 9.2 acre-feet, and,
2. You do not have a 'secondary' or surface water permit that is used in conjunction with the reservoir permit to maintain the water level or apply the stored water to some kind of out of reservoir use, and,
3. Your reservoir permit was the result of an application filed under the alternate permit application process for qualifying reservoirs described by ORS 537.409. (This process was not available until the summer of 1995. The application fees are always \$100 or less for applications filed under this process.)

If you are unsure as to whether your reservoir permit qualifies for this exception from the Department's normal final proof requirements, please contact the Department at 1 (800) 624-3199 extension 499. If you are outside of Oregon please dial (503) 378-8455.

APPLICATION FOR EXTENSION OF TIME TO THE WATER RESOURCES DIRECTOR OF OREGON

I, _____
NAME

ADDRESS CITY STATE ZIP PHONE

owner of record, or duly authorized agent, of Application No. _____, Permit No. _____, do hereby request that the time in which to:

☐ complete the construction of diversion/appropriation works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, _____, be extended to October 1, _____,

and/or the time in which to:

☐ accomplish beneficial use of water to the full extent under the terms of the permit, which time now expires on October 1, _____, be extended to October 1, _____.

NOTE: The extension of time requested should be long enough to finish the project. Should this request be approved, it will be the Department's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.

Attached is an instruction sheet to assist you in completing the information on the permit extensions application form. Oregon Water Law and Administrative Rules requires this information to be considered by the Water Resources Department when reviewing a permit extension. All items must be completed or the application will be returned. Please feel free to provide the Department with any additional information that would aid us in making our decision. Please use additional sheets of paper as needed to fully respond to the questions.

After reviewing the application form and the instruction sheet, if you have any questions, please contact the Department at 1-800-624-3199, or locally in the Salem vicinity at (503) 378-3739, and request assistance from the Water Rights Division, permit extensions personnel.

1-Did water system construction/well drilling begin within the time specified in the permit [yes/no]? _____

2-Has construction of diversion/appropriation works, distribution system, and use of water, if any, been accomplished consistent with the limitations and conditions of this permit [yes/no]? _____

A) Please describe how you have complied with each applicable permit condition (**NOTE: the instruction sheet for permit extension applications provides some direction as to what is an "applicable" condition at time of permit extension review**). _____

B) If you have not complied with all applicable conditions, please explain the reasons why and indicate a date certain, in the near future, by which time you will be in compliance with applicable conditions. _____

3-I have accomplished the following described works, purchases and installation of equipment necessary to the use of water under said permit:

A) Within the past year or, if a prior extension was authorized, during the last permit extension period:

B) Prior to the past year or, if a prior extension was authorized, prior to the last extension period:

C) I have accomplished beneficial use of water under the permit to the extent of (amount of water used or acres irrigated): _____

4-Cost of project to date _____. Estimated remaining cost to complete the project _____.

5-Please list the reasons why the project was not constructed, and/or water not beneficially used within permit time limits under the appropriate categories below. Please provide supporting information for each reason identified.

A) The project is of a size and scope that the original intent was to phase it in over a period longer than the timeframes allowed in the permit. _____

B) Financing and/or cash-flow needs to develop the project precluded completion of the project within authorized timeframes. _____

C) Good faith attempts to comply with permit conditions and/or to acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

D) Acts of God or other unforeseen events delayed full development of the water system and use of water. _____

6-Please identify the economic market or markets to which beneficial use of water under the permit is responding. _____

A) Has there been any change in this market since the permit was issued? _____

B) Have these changes, if any, affected the economic feasibility of your project? _____

7-Are there other present competing demands for water in your community? _____

A) Has there been any change in these demands for water since the permit was issued? _____

B) Are you aware of alternative sources of water that may be able to satisfy the competing demands?

C) Are you aware of any adverse affects on your source of water that may have been caused by recent changes in use of water in your community? _____

8-Will the income or use from the water development project authorized by this permit provide reasonable returns against the investment in the project? _____

9-If the extension request is denied, is the current level of water use economically feasible? _____

I am the permittee, or have authorization from the permittee, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for the Department to suspend processing of the request and/or reason to deny the extension.

INSTRUCTIONS FOR FILLING OUT PERMIT EXTENSION APPLICATION FORMS

The following instructions are numbered to correspond with the “APPLICATION FOR EXTENSION OF TIME” form. Each question is shown in italics, followed by guidance that may help you respond to the question. When reviewing these instructions, it will be helpful have a copy of your water right permit at hand.

1-Did water system construction/well drilling begin within the time specified in the permit [yes/no]?

Each water right permit contains specific dates by which permit holders are to have completed a certain level of development of the right. Generally, these dates appear toward the end of a permit. Among the dates that may be cited are the following:

- A. Actual construction work shall begin on or before [date certain];
- B. Construction shall be completed on or before [date certain];
- C. Complete application of the water shall be made on or before [date certain]

For convenience, these are often referred to as the A, B, and C-dates, respectively. Not all permits will include all three dates. Some may not include the “B-date.” All permits should include an “A-date” and “C-date”, however. By statute, a permit extension cannot be granted for the start of construction date (A-date) with a few exceptions (permits for municipal use or projects requiring federal hydropower licenses). Permit extensions may be granted for both the B-date and C-date.

The term “actual construction” means physical work performed towards completion of the water system. It does not include such things as planning a diversion system, formulating a business plan, securing financing, executing contracts, surveying or purchasing equipment. If actual construction has not commenced by the A-date, the permit is no longer valid. If a permit holder still wishes to pursue a water development project, the only option is to file a new water right permit application.

Thus, it is very important to have written confirmation in the Department’s official water right file that actual construction began on or before the A-date. In submitting such confirmation, please indicate all actual construction work completed prior to the A-date stipulated in the permit.

2-Has construction of diversion/appropriation works, distribution system, and use of water, if any, been accomplished consistent with the limitations and conditions of this permit [yes/no]?

A) Please describe how you have complied with each applicable permit condition.

Depending on the date the water right permit was issued by the Department, the location of the conditions on the permit may vary. Most, but not all, permits issued before 1990, did not include conditions. Generally, they would appear on the permit just above the State Engineer's or Water Resources Director's signature. In the early 1990's conditions became more common. Conditions associated with the point of diversion or point of appropriation might be listed immediately following the description of the point of diversion or appropriation. Conditions associated with the place of use, might be listed immediately following the description of the place of use. From the mid 1990s to present, conditions may be listed under separate subtitles in the permit such as "Measurement, Recording, and Reporting Conditions" or "Standard Conditions."

Applicability of conditions - At time of permit extension review, the Department is only concerned with time-sensitive conditions. "Time-sensitive" means: a) that the permit conditions stipulated a specific date by which the permit holder was to have accomplished a specific action and that date has passed or is imminent; and/or b) the trigger for the condition, while not a date certain, was the permit holder reaching a milestone in development of the project and use of water. Examples of the former would be conditions that stipulate that plans and specifications for a reservoir, a water management and conservation plan, a groundwater monitoring plan or some other document "...shall be submitted...within two years of permit issuance." Examples of the latter are conditions that stipulate a permittee "...shall install..." a water meter or other suitable measuring device approved by the Director "...before any use of water begins." Another common condition triggered by the use of water is that "...fish screens are to be installed according to Oregon Department of Fish and Wildlife specifications..." If the trigger for a condition is "...prior to issuance of a certificate," the Department does not consider it time-sensitive relative to a permit extension application.

In responding to question 2 A) on the application for extension, please list all time-sensitive permit conditions, explain how, and the dates by which, you have complied with them. You may want to hand number each condition on a copy of the permit, and cross-reference the appropriate condition by number in your response and submit that along with the application.

B) If you have not complied with all applicable conditions, please explain the reasons why and indicate a date certain, in the near future, by which time you will be in compliance with applicable conditions.

If a permit holder is not in compliance with time-sensitive conditions, the Department may take one of three actions:

1. Suspend processing of the application until the permit holder complies with them;
2. Establish time certain performance deadlines by which the conditions must be complied

with and include them as conditions on the extension order; or

3. Deny the permit extension.

If you are considering applying for a permit extension and you are not in compliance with time-sensitive conditions, you may want to hold off filing the extension application until you have complied with the conditions. If you are not in compliance, but wish to proceed with the extension application, you should explain how, and the dates by which, you will comply with the conditions in your response to question 2 B). If the extension is allowed, the Department will likely not grant much time (less than one year) for the permit holder to comply with time-sensitive conditions.

3-I have accomplished the following described works, purchases and installation of equipment necessary to the use of water under said permit.

A) Within the past year or, if a prior extension was authorized, during the last permit extension period:

Please list all materials and equipment purchases made within the applicable time period, the system components installed and components brought into use within the time period. It may also be useful to identify costs by each line item to assist in responding to question 4 on the application for extension.

B) Prior to the past year or, if a prior extension was authorized, prior to the last permit extension period:

Please list all materials and equipment purchases made within the applicable time period, the system components installed and components brought into use within the time period. It may also be useful to identify costs by each line item to assist in responding to question 4 on the application for extension.

C) I have accomplished beneficial use of water under the permit to the extent of (amount of water used or acres irrigated):

Indicate the amount of water you are beneficially using in cubic feet per second or gallons per minute for surface and groundwater permits. If you are using stored water, indicate the amount in acre-feet. And, if you are irrigating land, also indicate the acres being irrigated.

4-Cost of project to date _____. Estimated remaining cost to complete the project _____.

Please indicate the amount invested in developing the water use system to date, and your estimate

of the remaining investment necessary to fully construct the system and put water to beneficial use. Itemizing investments to date, as suggested in instructions for responding to questions 3 A) and 3 B), would be helpful.

5-Please list the reasons why the project was not constructed, and/or water not beneficially used within permit time limits under the appropriate categories below. Please provide supporting information for each reason identified.

NOTE: It may be appropriate to respond in more than one category. Respond in category D) if the reasons for delay do not fit in any other category.

A) The project is of a size and scope that the original intent was to phase it in over a period longer than the timeframes allowed in the permit.

For permits other than community water supplies, useful supporting information might include an excerpt from a business plan or a phasing schedule showing how the project is to be fully developed and water applied in increments. The supporting information can be simple and straightforward. This information would also be useful in evaluating the time needed to complete the project and beneficially use water.

For municipal, quasi-municipal, and group domestic permits, historic population and employment information, growth forecasts and/or build-out status, including total number of residential units and other uses built, the number remaining to be built and absorption rates should be identified.

B) Financing and/or cash-flow needs to develop the project precluded completion of the project within authorized timeframes.

If financing was critical to development of the project, indicate the contract number, financing entity, date when you originally applied for financing and date the financing agreement was executed. It is not necessary to submit a copy of the agreement nor to disclose the terms of the agreement. If cash flow is a constraint to developing the project, develop a phasing plan indicating the investments made annually to date and estimated annual investments anticipated until the project is completed and water applied.

C) Good faith attempts to comply with permit conditions and/or to acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

If it was necessary to obtain specific permits (land use approvals, wetland fill and removal permits, individual waste disposal system or other water quality permits, etc.) to proceed with work under the water right permit, indicate the permits, date permit applications were filed, and date permits were issued by the appropriate authorities. If delays were caused by a general need

to comply with government requirements, including specific conditions of the water right permit or other permits, provide a brief explanation of the requirements and, the good faith effort and general timeframes involved in complying with those requirements that delayed development of the water project under the permit.

D) Acts of God or other unforeseen events delayed full development of the water system and use of water.

Natural disasters, severe weather, grave illnesses or death suffered by permit holders, family members, and business partners may be among the legitimate reasons that permit holders have not fully developed water systems and made beneficial use of water within permit timeframes. Supporting documentation to submit may include a list of the specific system or site damage caused by natural disasters or severe weather and the amount of delay and financial impact resulting from necessary repairs. For family illnesses and the like, a simple statement should be made indicating whether or not illness/accidents may have resulted in death or hospitalization and if resulting legal or ongoing health care/rehabilitation programs have affected the ability to complete the project authorized by the permit.

If any other reasons are listed for delay, that are not “Acts of God” and don’t fit in categories A, B, and C, list them in this subsection and provide supporting information and estimates of the delay caused by the unforeseen events.

6-Please identify the economic market or markets to which beneficial use of water under the permit is responding.

The market for water and power must be considered for permit extensions by ORS 539.010(5). Please identify what the near and long term market will be for the end products from beneficial use of water (food and forage products for sale to local markets, food processing facilities, or for export; domestic water supply to enable home occupancy, etc.). The State Economic Development Department, centers for population and economic research at local universities, university extension offices, county and city planning departments, chambers of commerce and other institutions may have information to assist in responding to this consideration.

A) Has there been any change in this market since the permit was issued?

Please identify any changes in the market, or in your community that may affect water and power markets, since the permit was issued. Ask yourself or other individuals and organizations questions such as the following: Is the local economy in transition from predominantly agricultural or ranching base to a more diversified base that you might typically find in a suburban or urban community? Has population changed significantly? Have new major water using facilities located in the community, or committed to locating in the community. Have older mills and other facilities closed?

B) Have these changes, if any, affected the economic feasibility of your project?

If changes in markets have occurred since the permit was issued, or are now occurring, are they likely to affect your project by increasing or decreasing the demand for the end products beneficial use of water will provide by the time your project is operational?

7-Are there other present competing demands for water in your community?

Please list the competing demands for water in your community.

A) Has there been any change in these demands for water since the permit was issued?

Indicate whether or not demand is increasing for certain uses of water and/or decreasing for others.

B) Are you aware of alternative sources of water that may be able to satisfy the competing demands?

Please indicate if you are aware of any sources of water that might fulfill competing demands. This could range from new sources of water that people are investigating to reallocation of water from an historic use where demand is declining to a use where demand may be increasing.

C) Are you aware of any adverse affects on your source of water that may have been caused by recent changes in use of water in your community?

Please indicate if you have noticed any decreasing flow in surface water and springs, declines in groundwater levels or water delivery problems that may be affecting you, your neighbors or others in the community.

8-Will the income or use from the water development project authorized by this permit provide reasonable returns against the investment in the project?

Please indicate the anticipated return on investment in the water system. Is this return greater than the total construction cost of the water development project? For permits other than community water supplies, useful supporting information might include an excerpt from a business plan or an anticipated property appreciation schedule. For community water supply systems, a current schedule of rates should be submitted and a copy of the policy guiding rate-setting for improvements to the system. For certain uses, such as a pond to improve the aesthetics of a property, or fish and wildlife enhancement, the return on investment may not be strictly a financial return. In such instances please explain the primary benefits to be received from completion of the project and use of water.

9-If the extension request is denied, is the current level of water use economically feasible?

Please indicate if the permit for which you are requesting an extension is the sole water right permit for your property. If so, and you are making beneficial use of water currently, is the current use sufficient for your primary needs. Please list the needs that would not be filled if the permit were to be denied.

If you hold other water rights please list them, including the application file number, source, rate of diversion/appropriation authorized, and beneficial use of water authorized and their status (permit issued, certificate issued, or application filed). Would the other water rights be sufficient to continue an economic use of the property, if the permit for which you are requesting an extension was denied?

10/31/2005

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

MARION COUNTY

IN THE MATTER OF THE)
REINSTATEMENT OF A PERMIT)
BY THE PERMITTEE) ORDER

The following Permittee has requested reconsideration of the Month, Date, Year, order canceling their permit. The request for reconsideration was submitted within the timeline provided by the order.

PERMITS TO CONSTRUCT RESERVOIRS AND STORE WATER:

<u>NAME</u>	<u>BASIN #</u>	<u>WM #</u>	<u>FILE #</u>	<u>PERMIT #</u>
Calvin D. Morris and Pamela M. Morris	15	14	R-70679	R-12020

NOW, THEREFORE, it is hereby ORDERED that the permit is reinstated in accordance with the provisions of ORS 537.260

The Department will take no action to cancel this permit for 120 days, to allow the permittee to come into compliance with the terms and conditions of the permit.

Dated at Salem, Oregon this 13 day of September, 2005.

Dwight French, Administrator, Water Rights and Adjudications Division, for
Phillip C. Ward, Director

Special Order Volume 67 Page 36

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

MARION COUNTY

IN THE MATTER OF THE CANCELLATION)
OF CERTAIN PERMITS TO APPROPRIATE) ORDER
WATER UNDER THE PROVISIONS OF ORS)
537.260)

The time within which the appropriations under the following water right permit(s) should have been perfected has expired. The owners of such permit(s) have failed or refused within the period of three months thereafter to submit proof of the completion of such appropriations as required by ORS 537.260. Notices have been addressed to each of the owners of said permit(s) by certified mail in accordance with the provisions of ORS 537.260 and ORS 174.160. The owners of such permit(s) have failed or refused to submit proof of the completion of the appropriations under the terms and conditions of their respective permit(s), although the sixty-day time limits allowed in such notices has elapsed.

PERMITS TO CONSTRUCT RESERVOIRS AND STORE WATER:

<u>Name</u>	<u>Basin No.</u>	<u>WM Dist.</u>	<u>Application No.</u>	<u>Permit No</u>
George N. and Marilane J. Autry	15	14	R-70679	R-12020

Proof of appropriation of water under the terms and conditions of the permit(s) listed has not been made to the satisfaction of the WATER RESOURCES DIRECTOR as required under ORS 537.260. NOW, THEREFORE, it is hereby ORDERED that the permit(s) are canceled in accordance with the provisions of ORS 537.260

Dated at Salem, Oregon this 17 day of August, 2005.

Dwight French, Administrator, Water Rights and Adjudication Division, for
Phillip C. Ward, Director

Special Order Volume 66 Page **97**

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number R-70679

Final Order

Application History

On September 24, 1990, GEORGE N. AND MARILANE J. AUTRY submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on July 9, 1996. The protest period closed August 23, 1996, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to include a fish screening and passage requirement.

Order

Application R-70679 therefore is approved with the above modifications to the Proposed Final Order, and Permit Number R-12020 is issued as limited by the conditions set forth in the permit.

DATED September 30, 1996

Martha O. Page
Director

Hearing and Appeal Rights

Under the provisions of ORS 537.170, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the above modifications to the proposed final order may be addressed.

Under the provisions of ORS 183.484, the applicant or any person having standing may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

STATE OF OREGON

COUNTY OF JOSEPHINE

PERMIT TO STORE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GEORGE N. AND MARILANE J. AUTRY
6155 TUNNEL LOOP RD
GRANTS PASS, OREGON 97544

(541) 471-1206

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: R-70679

SOURCE OF WATER: A WELL AND TWO SUMPS, APPROPRIATED UNDER APPLICATION G-12241, PERMIT G-12777, AND AN UNNAMED STREAM, A TRIBUTARY OF BUMMER CREEK

STORAGE FACILITY: 6 UNNAMED RESERVOIRS

PURPOSE OR USE OF THE STORED WATER: AESTHETICS AND WILDLIFE IN RESERVOIRS #1, 3, 4, 5, AND 6; STORAGE FOR IRRIGATION IN RESERVOIR #2

This permit does not authorize the appropriation of stored water for irrigation from Reservoir #2. Prior to the diversion of any stored water, the water user must obtain a secondary permit, as described in ORS 537.400, from the Water Resources Department.

VOLUME OF ALLOWED USE: 14.84 ACRE-FEET (AF) PER YEAR, BEING 0.95 AF IN RESERVOIR #1, 7.15 AF IN RESERVOIR #2, 0.4 AF IN RESERVOIR #3, 3.4 AF IN RESERVOIR #4, 0.75 AF IN RESERVOIR #5, AND 2.19 AF IN RESERVOIR #6, EACH YEAR

PERIOD OF ALLOWED USE: WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD DECEMBER 1 THROUGH MARCH 31 FROM THE UNNAMED STREAM AND TWO SUMPS; YEAR ROUND FROM THE WELL

DATE OF PRIORITY: SEPTEMBER 24, 1990

The area submerged by Reservoir #1, when full, will be 0.26 acre and the maximum depth of water will be 6.5 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by Reservoir #2, when full, will be 0.7 acre and the maximum depth of water will be 13.7 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by Reservoir #3, when full, will be 0.08 acre and the maximum depth of water will be 6.9 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by Reservoir #4, when full, will be 0.39 acre and the maximum depth of water will be 9.0 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by Reservoir #5, when full, will be 0.14 acre and the maximum depth of water will be 5.0 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by Reservoir #6, when full, will be 0.29 acre and the maximum depth of water will be 8.8 feet. The maximum height of the dam shall not exceed 0.0 feet.

DAM LOCATIONS: SE 1/4 SW 1/4, SECTION 28, T34S, R6W, W.M.

THE AREA TO BE SUBMERGED BY THE RESERVOIRS IS LOCATED AS FOLLOWS:

SE 1/4 SW 1/4
SECTION 28
TOWNSHIP 34 SOUTH, RANGE 6 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoirs shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

Issued September 30, 1996

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 1999.

In order to obtain a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use, to include a final proof survey map of the development. The map and claim of beneficial use was to have been submitted to our Department within one year of October 1, 1999. A list of certified water right examiners is enclosed for your use.

If you are not finished with the development of your permit, you need to file for an extension of time to complete your development. An extension form is also enclosed with this letter.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. A cancellation form is enclosed, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time within 60 days of the date of this letter (July 16, 2002) the Department will cancel your permit without further notice.

Please give me a call if you have questions. My phone number is 503-378-8455 extension 274.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number R-70679

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft permit be issued with conditions.

Additional Information: A secondary application is needed to appropriate the stored surface water under this application for irrigation purposes.

Application History

On September 24, 1990, GEORGE N AUTRY AND MARILANE J AUTRY submitted an application to the Department for the following water use permit:

- Amount of Water: 14.84 acre-feet, being 0.95 acre-foot in Reservoir #1, 7.15 acre-feet in Reservoir #2, 0.4 acre-foot in Reservoir #3, 3.4 acre-feet in Reservoir #4, 0.75 acre-foot in Reservoir #5, and 2.19 acre-feet in Reservoir #6
- Use of Water: Irrigation, Aesthetics, and Wildlife
- Source of Water: A Well, Two Sumps, and An Unnamed Stream, tributary of Bummer Creek
- Area of Proposed Use: Josephine County within
SE 1/4 SW 1/4
SECTION 28
TOWNSHIP 34 SOUTH, RANGE 6 WEST, W.M.
- Water Delivery System: A well delivers water to Reservoir #1 and a sump delivers water to Reservoir #3. Reservoirs #1 and #3 both release water to Reservoir #2 which is in channel of an Unnamed Stream. A sump delivers water to Reservoir #4 which release water to Reservoir #5 which release water to Reservoir #6 which releases water to Unnamed Stream.

On AUGUST 31, 1995, the Department mailed the applicant notice of its Initial Review, determining that water may be diverted December 1 through March 31 for storage. The applicant did not notify the Department to stop processing the application within 14 days of that date.

On SEPTEMBER 19, 1995, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any comments received

Findings of Fact

The Rogue Basin Program allows the following uses: The diversion of water for storage for Irrigation, Wildlife, and Aesthetics is limited to November 1 through March 31, OAR 690-515-005 (1) (a) (F).

The use of two sumps under application G-12241 are only allowed for filling of reservoirs and not to maintain the reservoirs. These sources of water are using surface water, therefore rules and laws applying to surface water will affect this application.

Senior water rights exist on an Unnamed Stream, two sumps, and on downstream waters, however none exist on the well.

The Unnamed Stream, two sumps, and the well are above a State Scenic Waterway.

Water is available for further appropriation (at a 50 percent exceedance probability) for the period December 1 through May 31 from an Unnamed Stream and two sumps, and year round from a well.

The Department finds that no more than 14.84 acre-feet would be necessary for the proposed use. The amount of water requested, 14.84 acre-feet, being 0.95 acre-foot in Reservoir #1, 7.15 acre-feet in Reservoir #2, 0.4 acre-foot in Reservoir #3, 3.4 acre-feet in Reservoir #4, 0.75 acre-foot in Reservoir #5, and 2.19 acre-feet in Reservoir #6, is allowable.

The Oregon Department of Fish and Wildlife has advised that the subject diversion has a low probability for negative impact to fish or other aquatic life in the source stream and in its downstream reaches.

An interagency team reviewed this proposed use for potential adverse impacts on declining fish populations. This team consisted of representatives from the Oregon Departments of Water Resources (WRD), Environmental Quality, Fish and Wildlife (DFW), and Agriculture. WRD and DFW representatives included both technical and field staff. The interagency team recommended that additional limitations or conditions of use be imposed on this application as follows:

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

Conclusions of Law

Under the provisions of ORS 537.153, the Department must presume that a proposed use will not impair or be detrimental to the public interest if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Rogue Basin Plan.

No preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with rules of the Water Resources Commission.

The proposed use complies with the State Agency Agreement for land use.

For these reasons, the required presumption has been established.

Once the required presumption has been established, under the provisions of ORS 537.153(2) it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use will impair or be detrimental to the public interest as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
 - (A) The specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected; and
 - (B) Specifically how the identified public interest would be impaired or detrimentally affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use will impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount of water necessary for the proposed use; the proposed use will not result

in injury to existing water rights; and the proposed use will not impair or be detrimental to the public interest as provided in ORS 537.170.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED July 9, 1996

Steven P. Applegate
Administrator
Water Rights and Adjudications Division

Protest Rights

Under the provisions of ORS 537.153(6) or 537.621(7), you have the right to submit a protest against this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050.
- If you are the applicant, a statement of whether or not you are requesting that a contested case hearing be held. If you do not request a hearing, the Department will presume that you do not wish for a hearing to be held.

2

Your protest must be received in the Water Resources Department no later than **August 23, 1996**.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

COUNTY OF Josephine

DRAFT PERMIT TO STORE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

GEORGE N AUTRY
6155 TUNNEL LOOP RD
GRANTS PASS, OREGON 97544

(541) 471-1206

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: R-70679

SOURCE OF WATER: A WELL AND TWO SUMPS, APPROPRIATED UNDER APPLICATION G-12241, AND AN UNNAMED STREAM, A TRIBUTARY OF BUMMER CREEK

STORAGE FACILITY: 6 UNNAMED RESERVOIRS

PURPOSE OR USE OF THE STORED WATER: AESTHETICS AND WILDLIFE IN RESERVOIRS #1, 3, 4, 5, AND 6, RESERVOIR #2 IS TO BE APPROPRIATED UNDER A SECONDARY APPLICATION YET TO BE SUBMITTED FOR IRRIGATION

VOLUME OF USE: 14.84 ACRE-FEET, BEING 0.95 ACRE-FOOT IN RESERVOIR #1, 7.15 ACRE-FEET IN RESERVOIR #2, 0.4 ACRE-FOOT IN RESERVOIR #3, 3.4 ACRE-FEET IN RESERVOIR #4, 0.75 ACRE-FOOT IN RESERVOIR #5, AND 2.19 ACRE-FEET IN RESERVOIR #6, EACH YEAR

WATER MAY BE APPROPRIATED FOR
STORAGE DURING THE PERIOD: DECEMBER 1 THROUGH MARCH 31 FROM AN UNNAMED STREAM AND TWO SUMPS AND YEAR ROUND FROM A WELL

DATE OF PRIORITY: SEPTEMBER 24, 1990

The area submerged by the Reservoir #1, when full, will be 0.26 acre and the maximum depth of water will be 6.5 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by the Reservoir #2, when full, will be 0.7 acre and the maximum depth of water will be 13.7 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by the Reservoir #3, when full, will be 0.08 acre and the maximum depth of water will be 6.9 feet. The maximum height of the dam shall not exceed 0.0 feet.

Application R-70679 Water Resources Department

PERMIT DRAFT

The area submerged by the Reservoir #4, when full, will be 0.39 acre and the maximum depth of water will be 9.0 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by the Reservoir #5, when full, will be 0.14 acre and the maximum depth of water will be 5.0 feet. The maximum height of the dam shall not exceed 0.0 feet.

The area submerged by the Reservoir #6, when full, will be 0.29 acre and the maximum depth of water will be 8.8 feet. The maximum height of the dam shall not exceed 0.0 feet.

DAM LOCATIONS: SE 1/4 SW 1/4, SECTION 28, T34S, R6W, W.M.

THE AREA TO BE SUBMERGED BY THE RESERVOIRS IS LOCATED AS FOLLOWS:

SE 1/4 SW 1/4
SECTION 28
TOWNSHIP 34 SOUTH, RANGE 6 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

WATER RESOURCES DEPT.
SALEM, OREGON

State of Oregon

WATER RESOURCES DEPARTMENT

Application for a Permit to Construct a Reservoir

Applicant(s) George N. and Marilane J. Autry

(Please print or type - use dark ink)

Mailing Address: 6155 Tunnel Loop Road

Grants Pass,
City

Oregon
State

97544
Zip

(503) 471-1206
Daytime Phone No.

I (We) make application for a permit to construct 6 reservoirs (existing) reservoir and store the following described waters of the State of Oregon:

1. SOURCE OF WATER for the proposed use: Ground water from 1 well and 2 dug sumps,
a tributary of Reservoirs 1, 2 & 6 are on a dry gulch, a tributary of Bummer Ck.
If not in channel of a stream, state how it is to be filled: ground water

2. THE DAM: The maximum height of the structure will be 7 feet above stream bed or ground surface at the centerline. These are existing ponds, dug between 1960 & 1965
The dam will be (check one) ☒ earthfill, ☐ concrete, ☐ flashboard, ☐ other.
If "other" give description: _____

Give the location, description, and dimensions of the outlet conduit: _____

All reservoirs have outlets greater than 8" in diameter and sufficient
to pass the normal flow of the stream at any time.

NOTE: All dams across natural stream channels must be provided with an outlet conduit, minimum diameter of 8", or be of such capacity and location as to pass the normal flow of the stream at any time.

3. THE USE(s) of the impounded water will be: Pond 1 and sump 3 feed reservoir 2
which will be used for irrigation of 24 acres of farm land.
Reservoirs 4, 5 and 6 will be used for aesthetics and wildlife
enhancement only. No water will be drawn from them.

PC NCR
9/26
Jai

4. **THE AMOUNT OF WATER** to be stored is: 14.84 acre feet in 6 reservoirs acres feet.
The area submerged by the reservoir, when filled, will be 1.86 acres total _____ acres,
and the maximum depth of water will be 14 feet _____ feet.

5. **SPILLWAY DESCRIPTION** (location and dimensions). State whether over or around the dam. These are existing reservoirs 25+ years old

6. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin Completed

Proposed date construction work will be completed Completed

Proposed date water use will be completed 10/1/93

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

7. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

 Applicant CWRE X Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

 X Applicant CWRE Other (Identify in REMARKS section)

8. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

REMARKS: These reservoirs were constructed between 1960 and 1965.

Please see attached letter.

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Salem, OR 97310

RE: Water Right Application # R-70679, A well, tributary of Bummer Creek.

This reservoir has a low probability for negative impact to fish or other aquatic life in the subject stream and in downstream reaches.

Thank you for the opportunity to comment.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jerry Vogt".

by for domestic, livestock, Irrigation of
: Acre non commercial garden industrial
during the period 11/1 - 5/1, power
reclamation and instream except for
of stored water. Water stored between 11/1 - 3/31
any year may be used for any purpose.
cited in subsection (a)

fied only for
rden, industrial,
ent and instream
d water. Water
ed for any

Pending report from groundwater
committee stored water would be
allowed. Even if there is a correction
water stored as specified in (F)
11/1-3/31 may be used for the
10 major uses under 690-515-005-(1)(a)

INITIAL REVIEW CHECKLIST

APPLICATION # S-70679

exempts: domestic, livestock & waters
legally stored and waters legally
released from storage.

* Domestic does not include irrigation
of 1/2 acre lawn or garden.

(b) (A) To support aquatic life and minimize pollution in accordance with Section 3, Chapter 796, Oregon Laws 1983, no appropriations of water shall be made or granted by any state agency or public corporation of the state for the waters of Williams Creek and Thompson Creek and tributaries for flows below the specified levels in Table 3, Section B. This limitation shall not apply to:

(i) Domestic and livestock uses. Domestic use does not include irrigation of lawns and gardens.

(ii) Water legally stored or released from storage, subject to paragraph (1)(a)(C).

(B) Attainment of the specified flow levels during some portions of the year will require development of water storage or implementation of other measures to augment flows.

(4) Water Quality

Rights to use of water for industrial or mining purposes granted by any state agency shall be issued only on condition that any effluents or return flows from such uses shall not interfere with recreational, fish life, or other beneficial uses of water.

(5) Existing Rights

Water rights and permits issued prior to the effective date of this program shall not be affected.

Middle Rogue Basin

690-515-005

(1) Classifications

(a) The maximum economic development of this state, the attainment of the highest and best use of the waters of the Middle Rogue River Basin and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, municipal, irrigation, agricultural use, power development, industrial, mining, recreation, wildlife and fish life uses and the waters of the Middle Rogue River are hereby so classified with the following exceptions:

(A) The maximum economic development of this state, the attainment of the highest and best use of waters within the Rogue River Scenic Waterway from the confluence with the Applegate River near river mile 95 to Lobster Creek Bridge near river mile 11 and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, and irrigation of one-half acre noncommercial garden, and instream use for recreation, wildlife and fish life, and the aforementioned waters of the Rogue River Scenic Waterway are hereby so classified.

(B) Those waters on which further development is restricted by ORS 538.270 and 542.210.

(C) The waters of the following streams and tributaries are classified only for domestic use, livestock consumption and instream use for recreation, fish life and wildlife except for the use of stored water. Water stored between November 1 and March 31 of any year may be used for any purpose specified in subsection (a). Domestic use does not include irrigation of lawns and gardens.

- (i) Galls Creek
- (ii) Foots Creek
- (iii) Birdseye Creek
- (iv) Sardine Creek
- (v) Sams Creek
- (vi) Kane Creek
- (vii) Fruitdale Creek
- (viii) Ward Creek
- (ix) Gilbert Creek
- (x) Jones Creek
- (xi) Savage Creek

(D) The waters of the following streams and tributaries, are classified only for domestic, livestock and irrigation of one-half acre noncommercial garden and instream use for recreation, fish life and wildlife except for the use of stored water. Water stored between November 1 and March 31 of any year may be used for any purpose specified in subsection (a).

- (i) Pickett Creek
- (ii) Limpy Creek
- (iii) Snider Creek
- (iv) Shan Creek

(E) The waters of the following streams and tributaries, are classified only for domestic, livestock, irrigation of one-half acre noncommercial garden, mining during the period November 1 to May 1, power development and instream use for recreation, fish life and wildlife except for the use of stored water. Water stored between November 1 and March 31 of any year may be used for any purpose specified in subsection (a).

- (i) Grave Creek
- (ii) Evans Creek

(F) The waters of Jumpoff Joe Creek and tributaries are classified only for domestic, livestock, irrigation of one-half acre noncommercial garden, industrial, mining during the period November 1 to May 1, power development and instream use for recreation, fish life and wildlife except for the use of stored water. Water stored between November 1 and March 31 of any year may be used for any purpose specified in subsection (a).

(G) To protect, maintain and perpetuate anadromous fish habitat and propagation within the Middle Rogue Basin, the waters of the following stream reaches shall not be diverted, interrupted or appropriated for hydropower development purposes:

(i) Galice Creek from the intersection with the south line of Section 10, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(ii) North Fork Galice Creek from the intersection with the west line of Section 5, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(iii) Taylor Creek from the intersection with the east line of Section 34, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(iv) South Fork Taylor Creek from the intersection with the south line of Section 28, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(v) Lone Tree Creek from the intersection with the north line of Section 32, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(vi) Minnow Creek from the intersection with the south line of Section 34, Township 35 South, Range 8 West, Willamette Meridian, downstream to the mouth.

(b) Applications for the use of the waters of the Middle Rogue River Basin shall not be accepted by any state agency for any other purpose than those specified in section (a) and the granting of applications for such other purposes is declared to be prejudicial to the public interest and the granting of applications for such other uses would be contrary to the integrated, coordinated program for the use and control of the water resources of the state.

(c) Structures or works for the utilization of the waters in accordance with the aforementioned classifications, are also declared to be prejudicial to the public interest unless planned, constructed, and operated in conformity with applicable provisions of ORS 536.310 and any such structures or works are further declared to be prejudicial to the public interest which do not give proper cognizance to the multiple-purpose concept.

(2) Storage

(a) All applications for appropriation of water for storage in structures impounding more than 3,000,000 gallons of water shall be reviewed by the Water Policy Review Board prior to approval. During the review the Water Policy Review Board may establish additional minimum flows on the natural flow of the stream to support aquatic life or minimize pollution. Storage projects consistent with the purposes of minimum perennial streamflows shall be encouraged.

(b) Potential reservoir sites should be identified in the comprehensive land use planning process for possible future development or until alternative methods of meeting water needs have been developed. Immediate consideration should be given to the following sites:

(A) Grave Creek, SE 1/4, Section 6, Township 34 South, Range 4 West, Willamette Meridian.

(B) Jumpoff Joe Creek, NE 1/4, Section 36, Township 34 South, Range 6 West, Willamette Meridian.

(C) Evans Creek, SE 1/4, Section 19, Township 34 South, Range 2 West, Willamette Meridian.

(D) West Fork Evans Creek, SE 1/4, Section 32, Township 33 South, Range 3 West, Willamette Meridian.

(3) Minimum Perennial Streamflows

(a) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life and minimize pollution, no appropriations of water shall be made or granted by any state agency or public corporation of the state for the waters of the Rogue River or tributaries above Raygold for flows of the Rogue River below 1200 cubic feet per second, except that this limitation shall not apply to:

(A) Waters legally stored or legally released from storage.

(B) Domestic and livestock uses. Domestic use does not include irrigation of lawns and gardens.

(b) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life and minimize pollution, no appropriations of water shall be made or granted by any state agency or public corporation of the state for the waters of the Rogue River or tributaries above Savage Rapids Dam for flows of the Rogue River below 1,200 cubic feet per second, except that this limitation shall not apply to:

(A) Water legally stored or legally released from storage.

(B) Domestic and livestock uses. Domestic use does not include irrigation of lawns and gardens.

(c) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life and minimize pollution, no appropriations of water except for domestic or livestock use shall be made or granted by any state agency or public corporation of the state, except that this limitation shall not apply to water legally stored or legally released from storage, for the waters of the Rogue River tributaries listed in Table 4, Section B when flows are below the specified levels. Domestic use does not include irrigation of lawns and gardens.

(d) (A) To support aquatic life and minimize pollution in accordance with Section 3, Chapter 796, Oregon Laws 1983, no appropriations of water shall be made or granted by any state agency or public corporation of the state for the waters of the Rogue River tributaries listed in Table 4, Section C when flows are below the levels specified. This limitation shall not apply to:

(i) Domestic and livestock uses. Domestic use does not include the irrigation of lawns and gardens.

(ii) Water legally stored or released from storage subject to the provisions of subsection (2)(a).

(B) Attainment of the specified flow levels during some portions of the year will require development of water storage or implementation of other measures to augment flows.

(4) Water Quality

Rights to use of water for industrial, power development, or mining purposes granted by any state agency shall be issued only on condition that any effluents or return flows from such uses shall not significantly interfere with recreational, fish life or other beneficial uses of water.

(5) Existing Rights

This program does not modify, set aside or alter any existing right to use water or the priority of such use established under existing laws.

Illinois Basin

690-515-006

(1) Classifications

(a) The maximum economic development of this state and the attainment of the highest and best use of the waters of the Illinois River Basin and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, municipal, irrigation, agricultural use, power development, industrial, mining, recreation, wildlife and fish life uses including propagation and the waters of the Illinois River Basin are hereby so classified with the following exceptions:

WATER LAWS

requirements based upon biological criteria.

(2) Klaskanine River and its tributaries in Clatsop County except an unnamed tributary of the South Fork Klaskanine River in Clatsop County, on which there is located an existing fish culture project, for purposes of hydroelectric generation if the facility is less than 100 horsepower and the electricity generated is for use in conjunction with the existing fish culture project.

(3) Lewis and Clark River in Clatsop County.

(4) Sandy River and its tributaries in Multnomah and Clackamas Counties, except:

(a) Beaver Creek and its tributaries.

(b) Buck Creek and its tributaries.

(c) The tributary of the Sandy River in Multnomah County which empties into the Sandy River near the north quarter corner, section 10, township 1 south, range 4 east, Willamette Meridian, and its tributaries, and is locally known as Big Creek.

(d) All tributaries, but not the main channel, of the Sandy River are open for appropriation and storage from December 1 to June 1 of each year. Water stored during this period may be used at any time.

(e) Trout Creek in Multnomah County and its tributaries.

(5) Scappoose Creek in Columbia County.

(6) Tillasqua Creek in Clatsop County. [1953 c.222 §2; 1961 c.366 §1; 1971 c.139 §1; 1983 c.807 §4; 1987 c.392 §1]

538.260 Existing rights not affected; appropriation and use for certain purposes permitted. ORS 538.251 shall not affect any existing rights to appropriate or use water, or any renewals or extensions thereof, or prevent appropriation and use of such water for domestic, stock, municipal, fish culture, esthetic, recreational, or public park purposes. [Amended by 1971 c.139 §2]

538.270 Rogue River; withdrawal from appropriation; excepted water uses; tributaries. Subject to water rights existing on May 26, 1967, the waters flowing in the main channel of the Rogue River from its intersection with the south line of section 27, township 33 south, range 1 east of the Willamette Meridian in Jackson County, to its confluence with the Pacific Ocean, are withdrawn

from appropriation; except that this section shall not prevent the appropriation and use of such waters for domestic, stock, irrigation, municipal, fish, wildlife, recreation and road maintenance purposes, nor prevent the appropriation, diversion and use of the waters of any stream tributary to the river. [Amended by 1959 c.205 §1; 1967 c.310 §1; 1989 c.291 §1]

538.280 McNulty Creek; withdrawal from appropriation; exceptions. The waters of McNulty Creek, a tributary of Scappoose Bay, in Columbia County, are withdrawn from appropriation except for storage during the period beginning November 1 and ending on March 31 of each year in reservoirs not constructed in the channel of McNulty Creek below a line one mile west of the range line between ranges 1 and 2 west, Willamette Meridian. [Amended by 1955 c.82 §1]

538.290 McNulty Creek; existing rights not affected. ORS 538.280 shall not affect any existing rights to the waters of McNulty Creek that have been acquired or are in the process of being acquired under the water laws of this state. [Amended by 1955 c.82 §2]

538.300 Milton Creek and tributaries; withdrawal from appropriation; exception; existing rights. The unappropriated waters of Milton Creek and its tributaries, in Columbia County, are withdrawn from appropriation except for domestic use through the year and storage during the period beginning November 1 and ending April 30 of each year. Nothing contained in this section shall impair the existing rights of any person to the use of such waters.

MUNICIPAL WATER SUPPLY

538.410 Confirmation of water rights acquired prior to February 24, 1909, for municipal supply; rejection of applications injurious to municipal supply; statements of supply. All rights to the waters of the lakes, rivers and streams of this state acquired before February 24, 1909, for the purposes of municipal water supply are confirmed, and no rights acquired under the Water Rights Act (as defined in ORS 537.010) shall impair the rights of any municipal corporation to

(5) The Deschutes Scenic Waterway which includes the segments of the Deschutes River from Little Lava Lake downstream to Crane Prairie Reservoir, from the gaging station immediately below Wickiup Dam downstream to General Patch Bridge, from Harper Bridge downstream to the Central Oregon Irrigation District's diversion structure (near river mile 171), from Robert Sawyer Park downstream to Tumalo State Park, from Deschutes Market Road Bridge downstream to Lake Billy Chinook Reservoir (excluding the Cline Falls hydroelectric facility near river mile 145), and from immediately below the existing Pelton reregulating dam downstream to the confluence of the Deschutes River with the Columbia River, excluding the City of Maupin as its boundaries are constituted on October 4, 1977.

(6) The Santiam Scenic Waterway which includes the Little North Fork of the Santiam River from the confluence of Battle Ax Creek and Opal Creek downstream to the boundary of the Willamette National Forest, as constituted on September 20, 1985.

(7) The John Day Scenic Waterway which includes:

(a) The John Day River from its confluence with Parrish Creek downstream to Tumwater Falls;

(b) The North Fork John Day River from the boundary of the North Fork John Day Wilderness (near river mile 76), as constituted on December 8, 1988, downstream to the northern boundary of the south one-half of Section 20, Township 8 South, Range 28 East, Willamette Meridian;

(c) The Middle Fork John Day River from its confluence with Crawford Creek (near river mile 71) downstream to the confluence of the Middle Fork John Day River with the North Fork John Day River; and

(d) The South Fork John Day River from the Post-Paulina road crossing (near river mile 35) downstream to the northern boundary of the Murderer's Creek Wildlife Area, as constituted on December 8, 1988 (near river mile 6).

(8) The Illinois Scenic Waterway which includes the Illinois River from its confluence with Deer Creek downstream to its confluence with the Rogue River.

(9) The Rogue Scenic Waterway which includes the segments of the Rogue River from the boundary of Crater Lake National Park, as constituted on December 8, 1988, downstream to the boundary of the Rogue River National Forest, as constituted on December 8, 1988 (near river mile 173), and from the confluence of the Rogue River with the Applegate River downstream to Lobster Creek Bridge.

(10) The Umpqua Scenic Waterway which includes the segments of the North Umpqua River from the boundary of the Mt. Thielsen Wilderness, as constituted on December 8, 1988, downstream to Lemolo Reservoir, and from the Soda Springs Dam powerhouse downstream to its confluence with Rock Creek (near Idleyld Park).

(11) The Nestucca Scenic Waterway which includes:

(a) The Nestucca River from immediately below the McGuire Dam downstream to its confluence with East Creek (near Blaine); and

(b) Walker Creek from its source downstream to its confluence with the Nestucca River.

(12) The Wallowa-Grande Ronde Scenic Waterway which includes:

(a) The Grande Ronde River from its confluence with the Wallowa River downstream to the Oregon-Washington border; and

(b) The Wallowa River from its confluence with the Minam River downstream to the confluence of the Wallowa River with the Grande Ronde River.

(13) The Minam Scenic Waterway which includes the Minam River from Minam Lake downstream to its confluence with the Wallowa River.

(14) The Elk Scenic Waterway which includes:

(a) The Elk River from the confluence of the North Fork Elk River and South Fork Elk River downstream to the Elk River fish hatchery;

(b) The North Fork Elk River from its source downstream to its confluence with the South Fork Elk River; and

(c) The South Fork Elk River from its source downstream to its confluence with the North Fork Elk River.

(15) The Owyhee Scenic Waterway which includes:

(a) The South Fork Owyhee River from the Oregon-Idaho border downstream to Three Forks; and

(b) The Owyhee River from Crooked Creek (near river mile 118) downstream to the mouth of Birch Creek (near river mile 76).

(16) The North Fork of the Middle Fork Willamette Scenic Waterway which includes the North Fork of the Middle Fork Willamette River from Waldo Lake downstream to a point one mile upstream from the railroad bridge near the town of Westfir.

(17) The Waldo Lake Scenic Waterway which includes Waldo Lake in Lane County. [1989 c.2 §2 (enacted in lieu of 390.825)]

390.827 Effect of ORS 390.826 on rights of Indian tribes. Nothing in ORS 390.826 shall:

(1) Affect or modify any treaty or other rights of any Indian tribe; or

(2) Affect lands held in trust by the Secretary of the Interior for Indian tribes or individual members of Indian tribes or other lands acquired by the Army Corps of Engineers and administered by the Secretary of the Interior for the benefit of Indian tribes and individual members of Indian tribes. [1989 c.2 §3]

Note: 390.827 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 390 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

390.835 Highest and best use of waters within scenic waterways; authority of State Fish and Wildlife Commission, Water Resources Commission, Division of State Lands and State Land Board; water rights; conditions. (1) It is declared that the highest and best uses of the waters within scenic waterways are recreation, fish and wildlife uses. The free-flowing character of these waters shall be maintained in quantities necessary for recreation, fish and wildlife uses. No dam, or reservoir, or other water impoundment facility shall be constructed or placer mining permitted on waters within scenic waterways. No water diversion facility shall be constructed or used except by right previously established or as permitted by the Water

Resources Commission, upon a finding that such diversion is necessary to uses designated in ORS 536.310 (12), and in a manner consistent with the policies set forth under ORS 390.805 to 390.925. The Water Resources Commission shall administer and enforce the provisions of this subsection.

(2) Filling of the beds or removal of material from or other alteration of the beds or banks of scenic waterways shall be prohibited, except as permitted by the Director of the Division of State Lands upon a finding that such activity would be consistent with the policies set forth under ORS 390.805 to 390.925 for scenic waterways, and approved by the State Land Board and in a manner consistent with the policies set forth under ORS 196.800 to 196.825 and 196.840 to 196.870 for removal of material from the beds and banks and filling of any waters of this state. The Director of the Division of State Lands shall administer and enforce the provisions of this subsection.

(3)(a) Upon a finding of emergency circumstances, the Director of the Division of State Lands may issue a temporary permit for the removal, filling or alteration of the beds or banks within a scenic waterway prior to approval by the State Land Board under subsection (2) of this section. The temporary permit shall include conditions developed after consultation with the State Department of Fish and Wildlife and the State Parks and Recreation Department. A temporary permit approved by the Director of the Division of State Lands shall be reviewed by the State Land Board at its next regularly scheduled meeting following the emergency approval. Upon its review, the State Land Board may approve, modify or revoke the permit.

(b) As used in this subsection, "emergency circumstances" exist if the activity is necessary to make repairs or to prevent irreparable harm, injury or damage to persons or property.

(4) Nothing in ORS 390.805 to 390.925 affects the authority of the State Fish and Wildlife Commission to construct facilities or make improvements to facilitate the passage or propagation of fish or to exercise other responsibilities in managing fish and wildlife resources. Nothing in ORS 390.805 to 390.925 affects the authority of the Water Resources

Commission to construct and maintain stream gauge stations and other facilities related to the commission's duties in administration of the water laws.

(5) Upon a finding of necessity under subsection (1) of this section, the Water Resources Commission may issue a water right for human consumption not to exceed .005 cubic feet per second per household, or livestock consumption uses not to exceed one-tenth of one cubic foot per second per 1,000 head of livestock, as designated in ORS 536.310 (12) within or above a scenic waterway if the Water Resources Commission makes the following findings:

(a) That issuing the water right does not significantly impair the free-flowing character of these waters in quantities necessary for recreation, fish and wildlife.

(b) That issuing the water right is consistent with provisions pertaining to water appropriation and water rights under ORS chapters 536 and 537 and rules adopted thereunder.

(c) That construction, operation and maintenance of the diversion system will be carried out in a manner consistent with the purposes set forth in ORS 390.805 to 390.925.

(d) If the water right is for human consumption, an additional finding that:

(A) The applicant cannot reasonably obtain water from any other source;

(B) Denial of the water right would result in loss of reasonable expectations for use of the property; and

(C) The system installed to divert water shall include monitoring equipment to permit water use measurement and reporting.

(e) If the water right is for livestock consumption, an additional finding that:

(A) The right is necessary to prevent the livestock from watering in or along the stream bed;

(B) The applicant cannot reasonably obtain water from any other source; and

(C) The applicant has excluded livestock from the stream and its adjacent riparian zone.

(6) In making the findings required under subsection (5) of this section, the Water Resources

Commission shall consider the existing or potential cumulative impacts of issuing the water right.

(7) The Water Resources Commission may not allow human consumption and livestock uses authorized under subsection (5) of this section in excess of a combined cumulative total of one percent of the average daily flow or one cubic foot per second, whichever is less, unless:

(a) The Water Resources Commission, the State Parks and Recreation Department, the State Department of Fish and Wildlife, the Department of Environmental Quality and the Division of State Lands unanimously agree to exceed that amount; and

(b) Exceeding that amount will not significantly impair the free-flowing character of these waters in quantities necessary for recreation, fish and wildlife.

(8) The Water Resources Commission shall carry out its responsibilities under ORS 536.220 to 536.590 with respect to the waters within scenic waterways in conformity with the provisions of this section. [1971 c.1 §4; 1973 c.756 §1; 1977 c.671 §2; 1985 c.673 §177; 1989 c.320 §1; 1993 c.99 §1]

390.845 Functions of the department; use of adjacent lands. (1) Except as provided in ORS 390.835, scenic waterways shall be administered by the department, each in such manner as to protect and enhance the values which caused such scenic waterway to be included in the system. In such administration primary emphasis shall be given to protecting the esthetic, scenic, fish and wildlife, scientific and recreation features, based on the special attributes of each area.

(2) After consultation with the State Board of Forestry, the State Department of Agriculture and the affected counties and with the concurrence of the Water Resources Commission, the department shall adopt rules governing the management of related adjacent land. Such rules shall be adopted in accordance with ORS 183.310 to 183.550. Such rules shall reflect management principles, standards and plans applicable to scenic waterways, their shore lines and related adjacent land and, if necessary, establish varying intensities of protection or development based on special attributes of each area. Such management principles, standards and plans shall protect or enhance the esthetic and scenic

Reference: File R-70679

Dear Applicant:

This letter is to inform you of the potential limitations to your proposed use of water and to describe some of your options. Based on the information you have supplied, the Water Resources Department has reached the following conclusions:

Initial Review Determinations:

1. Your application is complete and not defective.
2. The proposed use is not prohibited by law or rule.
3. The storage of water in 6 reservoirs for the IRRIGATION OF 24.0 ACRES, AESTHETICS AND WILDLIFE HABITAT is allowed under OAR 515, the Rogue Basin Program.
4. The storage of an accumulative total of 14.84 ACRE-FEET (from 1 well, 2 dug sumps and a dry gulch which is a tributary to Bummer Creek) in 6 reservoirs for the IRRIGATION of 24.0 acres, AESTHETICS AND WILDLIFE HABITAT is not available from May 1 through November 30 of each year.
5. Water **cannot** be stored during the irrigation season, which is from April 1 through November 30 of each year.

Summary of Allowable Water Use

The storage of an accumulative total of 14.84 ACRE-FEET (from 1 well, 2 dug sumps and a dry gulch which is a tributary to Bummer Creek) in 6 reservoirs for the IRRIGATION of 24.0 acres, AESTHETICS and WILDLIFE HABITAT is allowed from December 1 through March 31 of each year.

File S-70679
August 31, 1995
Page two

Because of the Departments determination, your application can be moved to the next phase of the water rights application review process. However, due to #4 and 5 above your application will likely be limited as summarized above.

At this time, you must decide whether to proceed or to withdraw your application as described below.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **SEPTEMBER 14, 1995**. For your convenience you may use the enclosed "STOP PROCESSING" form.

To Proceed With Your Application:

If you choose to proceed with you application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. You may be required to measure the amount of water used and report that use annually.
2. You may be required to install fish screens at the diversion to meet Oregon Department of Fish and Wildlife specifications for adequate protection of aquatic life.

File S-70679

If you have any questions:

Feel free to call me at (503) 378-8455 ext. 267 or 1 (800) 624-3199 if you have any questions. Please have your application number available if you call.

Sincerely,

A handwritten signature in black ink, appearing to read "Lisa J. Jaul", is written over the typed name and title.

**WATER RESOURCES DEPT.
SALEM, OREGON**

NOTE TO LOCAL GOVERNMENTS

**WATER
RESOURCES
DEPARTMENT**

The person presenting the attached request for land use information is applying for a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure water rights do not result in land uses that would violate your comprehensive plan.

WRD will not accept applications which are not accompanied by this completed land use form or the signed, dated receipt stub detached from the bottom of the land use information form.

You will receive notice once the applicant formally submits his or her request to WRD. The notice will give more detailed information about WRD's water rights process and comment opportunities. If you give the applicant the receipt stub in lieu of completing the form, you will have 30 days from the date of the notice mentioned above to complete the form and return it to WRD. If no land use information is received from you within that 30 day period, WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

Your attention to this request for information is greatly appreciated by both the applicant and WRD. If you have questions concerning the form, please contact WRD at 378-3739.

Description of Water Use

Use to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Use to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

Land Use Information Form: Permits, Hydroelectric Licenses,
Water Uses in Addition to Classified Uses

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT FILL OUT THIS FORM IF water is to be diverted, conveyed, and/or used only on federal lands.

Applicant's Name: MARILANE J AND George N Autry
Address: 6155 TUNNEL LN RD
City: Grants Pass State: OR Zip: 97526 Day Phone: 503-474-5363

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

(CHECK ALL THAT APPLY)

TAX LOT LOCAL ID #	PLAN DESIGNATION/ZONING Rural Residential/RR-5)	(e.g.	WATER DIVERTED	WATER CONVEYED	WATER USE
34-6-28 1600	EXCLUSIVE Farm				

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used.

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed.

=====

For Local Government Use Only

Local planning officials are to complete the remainder of this form. If it cannot be completed while the applicant waits, sign and detach the receipt as instructed below. You will receive notice when the applicant's water right request is filed with the Water Resources Department (WRD). You will have 30 days from the notice date to return this completed land use form to WRD. If no land use information is received from you within that period, WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

a) Check the appropriate box below and provide requested information.

☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan.
Cite applicable ordinance section(s); 64.020A. Go to section b) on reverse side.

☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table on the reverse of this form. **Note:** Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

RE: Application # R-70679

Dear George,

The Water Resources Department is currently reviewing your application for water use. Preliminary review indicates the following items were not included with your application:

- ▶ Sign and return the enclosed oath.
- ▶ A Land Use Information Form signed by your local planning official (a form is enclosed).

In order to expedite the processing of your application, we request that you submit these items by August 14, 1995. We have enclosed a stamped envelope for your use.

Should you have any questions regarding your application or the required materials listed above, please call me personally at 1-800-624-3199 extension 256.

Sincerely,

Dick Bailey, Manager
Completeness Team

- ☒ 17. A satisfactory map of the proposed POD & POU.
- ☒ 18. A Land Use Information Form or receipt signed by appropriate planning official.

Water Resources Department

3850 PORTLAND ROAD NE, SALEM, OREGON 97310

PHONE 378-3739

October 5, 1990

George N. and Marilane J. Autry
6155 Tunnel Loop Road
Grants Pass, OR 97544

REFERENCE: Files R-70679 and G-12241

We received your applications on September 24, 1990. One describes the proposed use of 14.84 acre-feet of water from one well and two sumps and a dry gulch for irrigation, aesthetics and wildlife habitat. Supporting data and fees in the amount of \$300 were also received. Our Receipt 67290 is enclosed.

We also received an application describing the proposed use of 80.0 gallons per minute of water from one well and two sumps for irrigation of 24.0 acres, aesthetics and wildlife habitat. Supporting data and fees in the amount of \$328 were also received. Our Receipt 67299 is enclosed.

You are receiving this notice because you have water right applications pending with the Water Resources Department. Your proposed water development projects are located within or upstream from a state scenic waterway. A recent Oregon Supreme Court decision (Diack) requires the Water Resources Commission to make certain findings about applications in these locations.

The Commission has directed the Department to postpone further processing of applications in these locations until the streamflows necessary for recreation and fish and wildlife uses within the scenic waterway have been determined. We are working with State Parks Division, Departments of Fish & Wildlife, and Environmental Quality to make these determinations as quickly as possible.

We expect the scenic waterway flows will be determined December, 1991, for your area.

Even though your applications are within or above a scenic waterway, we will process your applications in the normal manner if it fits any one of the criteria listed below:

- A. You propose to use groundwater that is not hydraulically connected to the stream located within or tributary to the state scenic waterway. Usually this means that your well would need to be at least one mile away from the nearest stream.
- B. Your proposed use of water is non-consumptive. It would pass through your project and return in equal amounts at a location upstream from the scenic waterway.
- C. You propose to contract for stored water as either your primary or supplemental source of supply and the owner of the stored water is willing to give you a contract.

George N. and Marilane J. Autry
October 5, 1990
Page two

- D. You propose to transfer an existing water right certificate by moving either the point of diversion or the place of use. You believe that such move will not change the amount of water in the stream from your current practices.

If your project does not fit into one of the above categories (A-D), you may want to modify it so that it does. Submit those modifications to us. If you can not modify your application to fit one of the above categories, you may want to consider one of the options below:

1. Leave your current applications pending with us to hold your tentative priority date. After the flows are quantified, we will resume processing your applications. If it turns out that not enough water is available to meet the recreational demands for the scenic waterway, we may have to deny your requests. The examination fees will not be refunded, but any recording fees you submitted will be refunded.
2. Withdraw your applications. The examination fees are non-refundable, but any recording fees which were submitted will be refunded. If after flows needed for the scenic waterway are quantified you believe that there is enough water left for your proposed use, file a new application with the appropriate fees to establish a new priority date. Your new application will then be processed using more definite information regarding the availability of water for your proposed use.
3. Conduct sufficient flow studies of your own using methods approved by Parks Division and Fish & Wildlife. Then, submit information demonstrating that your proposed use of water will not impair the flows needed for the scenic waterway.

We advise you to avoid committing any resources toward your project on the assumption that your permit will be issued. Use of water cannot legally be made without the permit and the outcome of the scenic waterway study is not predictable at this time. Some streams are likely to have no water available except during high flow periods. It is possible that there will not be enough water left for your proposal after the studies are done.

If you want to wait for the results of the flow studies, you do not need to contact us. We will assume that you want to leave your applications pending (alternative #1, above).

If your choice is either alternative #2 or #3, please return this letter with your comments.

If you have any questions not answered by this letter, please contact the Applications and Permits Section at 378-3739.

Application No. R-70679
Permit No.

RE: Application to Appropriate Ground Water and to
"construct" reservoirs (these reservoirs are 25 + years
old), by George N. and Marilane J. Autry located in the SE
1/4, SW 1/4 of Section 28, T. 34 S. R. 6 W. W.M. Josephine
County, Oregon

To whom it may concern:

At the request of Applicants George N. and Marilane J. Autry
I walked and examined the subject property on May 16, 1990
and also interviewed former owner Don Pieren.

The applications requests permits to irrigate 24 acres from a
large pumping sump fed from two ground water sources; a
drilled well and a smaller sump created by former owner Don
Pieren. They also request permission to store water in a
series of existing reservoirs, that have been in existence
for 25+ years, although apparently without benefit of water
right. The Autrys are new owners who wish to clear up this
past oversight.

Part of the development (reservoirs 1, 2 and 6 on the
accompanying map) are on a small dry channel that runs
through the property and eventually into Bummer Creek. In
order to help determine the actual source of the water
requested in this application, I interviewed Don Pieren,
former property owner, who lived on this parcel from 1955
through 1989, and who constructed the existing system between
1960 and 1965.

Mr. Pieren stated to me that prior to the construction of the
sump system, winter storm water would run at times through
the existing channel. He stated to me that at no time in his
memory did water flow off the property after the end of May
and that in drier years the channel was dry by the beginning
of March and frequently dry during the summer months.

WATER AVAILABILITY REPORT-SURFACE WATER APPLICATION

Name of Applicant George N. & Marilane J. Autry Application Number R-70679

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights?

Yes ☒ No ☐

If yes, please explain. *BUMMER CR. HAS BEEN REGULATED BELOW THIS USE. THERE IS A CRONIC WATER SHORTAGE IN SUMMER. THE ENTIRE STREAM HAS BEEN SHUT OFF FOR RIGHTS ON JUMP-OFF-JOE CR.*

2. Has the stream or basin that is the source for this application ever been regulated for minimum streamflows?

Yes ☐ No ☒

If yes, please explain.

3. Do you observe this stream system during regular field work?

Yes ☒ No ☐

If yes, what are your observations for the stream.

AT TIMES BUMMER CR. HAS BEEN DRY IN SPOTS

4. Based on your observations, would there be water available in the quantity and at time needed to supply the development proposed by this application.

Yes ☐ No ☐ Don't Know ☒ SEE COMMENT #5

What would you recommend for conditions on a permit, that may be issued approving this application?

IF SECONDARY PERMIT IS ISSUED FOR IRRIGATION, TOTALIZING METERS SHOULD BE REQUIRED FOR EACH DIVERSION SO THAT WHEN TOTAL USABLE STORAGE IS WITHDRAWN FROM EACH POND, THEY WILL HAVE TO SHUT OFF. SECONDARY PERMIT FOR POND MAINTENANCE SHOULD NOT BE ISSUED.

5. Any other recommendations you would like to make? *IT WILL BE DIFFICULT TO PROVE JUST*

WHAT AFFECT THIS USE WILL HAVE ON DOWNSTREAM USERS, SINCE IN SUMMER, WATER WHICH MIGHT ENTER PONDS WILL BE FROM SUBSURFACE FLOW. PONDS MAY REFILL THIS WAY WHEN WATER IS WITHDRAWN FROM THEM.
