WATER DIVISION
SALEM, OREGON

Located SW1/4NW1/4, 3.0 Ac, Section 30, T27S, R4W,WM.

On May 19, 1993, I made a survey of the above listed property and viewed the water system installed and in use. I used an assessor map and an aerial photo during the course of preparing this final proof survey and site map.

SOURCE: Water is taken from the discharge point of an unnamed storage pond, tributary to Deer Creek, South Umpqua River, Umpqua River.

DIVERSION POINT: The diversion point is at the overflow point of an unnamed storage reservoir.

PIPE: The water distribution irrigation ditch is 24" wide and 12" deep, approximate grade is 2%. The orchard is irrigated by flooding from this irrigation ditch.

USE(S): Water is used for irrigation of an orchard.

HEAD: No elevation difference was measured as the water in distribution system is moved by gravity in the irrigation ditch.

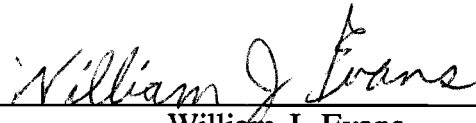

CALCULATIONS: Orchard
3.0 ac @ 1/80 cfs/ac 0.038 cfs 16.8 GPM

POINT OF BEGINNING: Assessor's maps and aerial photos were used to draw the accompanying map.

REMARKS: None.

The final proof survey and inspection of the use as found to be completed under terms and conditions of File# SWR-559 was completed by me on May 19, 1993, and the facts contained in this report and accompanying vested water right map are correct to the best of my knowledge.

I, William J. Evans, agree to the findings of the CWRE and do submit this site report and map as my Registration Statement Claim of Beneficial Use of the water provided under the terms and conditions of my File# SWR-559.

RE: File# SWR-559

DEAR MAURICE E. FARR,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for William J. or Darthie A. Evans. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."

diversion point size OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

You must show the required information for the claim of beneficial use of water for stockwater.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer

Dear WILLIAM OR DARTHIE EVANS,

This will acknowledge that your Surface Water Registration Statement in the name of WILLIAM J OR DARTHIE A EVANS has been received by our office. The fees in the amount of \$230.00 have been received and our receipt #96033 is enclosed. Your registration statement has been numbered SWR-559.

You failed to submit a map prepared by a Certified Water Right Examiner (CWRE). ORS 539.240 (2) (d) requires the map be prepared by a CWRE. There is a note that arrived with your claim that indicates that Maurice Farr will be preparing the required map. We will contact Mr. Farr to arrange a map submittal deadline.

We will not be able to process you claim until we have received your map. If you have any questions regarding this process, please do not hesitate to give me a call.

Please feel free to contact this office if you have any questions.

Sincerely,

Dwight French
