Re: Water Rights SWR 573-580

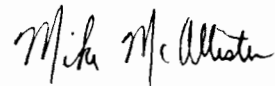

Mr. Knauer,

Enclosed are copies of the final draft of the application maps for the above noted water rights. Please review and comment. We will then send the final mylar maps to the Oregon Water Resources Department with the other required information for filing.

Please note that I found it advantageous to use the hatch to show area outside of the ownership boundary, which is not the usual method. I hope this is acceptable, as it makes the maps more legible. Also, I could not use the brackets to show the limit of the area creeks within the quarters of quarters. It seemed better to discontinue the creeks where they would not be utilized or were not eligible for use.

If you have any other ideas that should be added please let me know. I realize you were not expecting all of the maps for this review, but it seemed convenient.

Respectfully,

Mike McAllister
