

REGISTRATION STATEMENT CLAIM OF BENEFICIAL USE WATER RIGHTS FOR THE COUNTY OF SALEM, OREGON

Sheet 1 of 3

File# SWR-560

INFORMATION: Darrell G. Payne
Rt 1, Box 383A
Yoncalla, OR 97499
Ph (503) 849-2179

Located Lot 2, 0.1 Ac, within Applegate DLC No. 38, SW1/4NW1/4, 3.6 Ac, SE1/4NW1/4, 2.7 Ac, NE1/4NW1/4, 0.2 Ac, NW1/4NW1/4, 0.1 Ac, Section 28, T22S, R5W, WM.

On May 5, 1993, I made a survey of the above listed property and viewed the water system installed and in use. I used an assessor map and an aerial photo during the course of preparing this final proof survey and site map.

SOURCE: Water is taken from an Unnamed Stream, tributary to Yoncalla Creek, Elk Creek, and the Umpqua River.

DIVERSION POINT: Point of Diversion 1 is a 48" diameter concrete 48" long standing vertical filled with drain rock. A 1 1/4" diameter pipe collects water. Point of Diversion 2 is a small dam made up of 3x12 wood boards. A 1 1/4" diameter pipe transports the water from the creek.

Point of Diversion 4 is a small concrete dam approximately 8" w x 48" h x 10' long. This is probably the Point of Diversion for irrigation of grass hay pasture Pre-1909. Water was transported by pipe from the point of diversion to the place of irrigation. Darrell Payne has found old pipe in many places when plowing and excavating.

Points of Diversion 1, 2, and 4 are all located in an unnamed stream, tributary to Yoncalla Creek, Elk Creek, and the Umpqua River.

Point of Diversion 3 is a concrete spring box approximately 6'x6'x4'. This was used Pre-1909 to supply domestic water to the ranch. This source is no longer used to provide water.

MOTOR: POD Dam provides source for two pumps. Pump No. 1 is a centrifugal pump connected to a 1 hp motor, 230 Volts. The pump has a discharge capacity of 148 GPM.

Pump No 2 is a portable pump with a 4" diameter suction line and a 3" diameter discharge line. It is powered from the power take off mounted on a 100 hp gasoline tractor, operating at 1,000 RPM. The pump has a discharge capacity of 425 GPM.

PIPE: Darrell Payne for irrigation has 1,200 feet of 2" diameter aluminum pipe, 900 feet of 4" diameter aluminum pipe, and 600 feet of 4" diameter aluminum pipe. There is approximately 5,000 feet of 1 1/4" and 1" diameter PVC pipe from POD 1 and POD 2 to the residence for domestic use.

HEADS: Sprinkler heads include 6 Rainbird Model 30 sprinklers with two orifices, one 3/8" diameter and one 11/64" diameter. These sprinklers are capable of discharging 23 GPM @ 25 psi. These are used with the 1 hp electric motor driven pump. In addition, 25 Buckner sprinklers with two orifices, one 1/4" diameter and one 7/32" diameter. These are capable of discharging 17 GPM @ 30 psi. These are used with the 4x3 pump driven by the power take off on the tractor.

USE(S): Water is used for domestic, stockwater and irrigation.

LIFT: Domestic water is carried by gravity. Elevation difference between the point of diversion and the residence was estimated to be forty five feet. Water is taken from the reservoir and pumped to a point lower than the surface of the reservoir for irrigation of grass hay pasture.

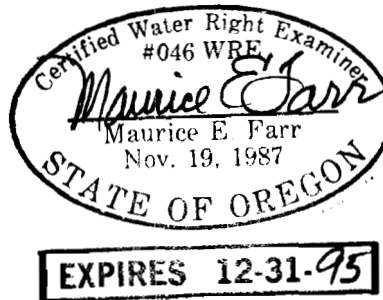

CALCULATIONS:	Domestic, one residence	0.005 cfs	2.2 GPM
	Irrigation		
	6.7 ac @ 1/80 cfs/ac	0.084 cfs	37.6 GPM
	Stock water		
	100 head @ 10 GPD	0.002 cfs	0.7 GPM
	1 hp electric motor, pump		
		0.330 cfs	148.0 GPM
	6 heads @ 23 GPM/hd	0.310 cfs	138.0 GPM
	4X3 Pump on PTO	0.947 cfs	425.0 GPM
	25 heads @ 17 GPM/hd	0.947 cfs	425.0 GPM

POINT OF BEGINNING: Assessor's maps and aerial photos were used to draw the accompanying map.

REMARKS: POD 3 and POD 4 are shown for historical purposes. These were in use prior to 1909. Neither is used today. However, the concrete structures are still in existence. Stock drink from the reservoir and from the stream which discharge from the reservoir.

Insystem storage reservoir for POD 1 is a 1,500 gallon steel tank. Insystem storage reservoir for POD 2 is a 4'x4'x12' steel tank, 1,440 gallon storage capacity. The dam at POD 4 is still visible, however, much of it is covered with silt and debris.

The final proof survey and inspection of the use as found to be completed under terms and conditions of File# SWR-560 was completed by me on May 5, 1993, and the facts contained in this report and accompanying vested water right map are correct to the best of my knowledge.

I, Darrel G. Payne, agree to the findings of the CWRE and do submit this site report and map as my Registration Statement Claim of Beneficial Use of the water provided under the terms and conditions of my File# SWR-560.

RE: SWR-560

Dear Mr Farr,

This will acknowledge the receipt of map to support the pre-1909 vested water right claim in the name of DARRELL PAYNE you returned with corrections and completions. I have added the map to the file. Thank you for your attention to this matter. If you have any questions, please give me a call.

Sincerely,

INTEROFFICE MEMO

May 11, 1994

TO: WATER RIGHT EXAMINERS

FROM: DON KNAUER

SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a deterrent to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

re: SWR-560

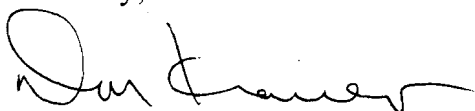

Dear Mr Farr,

I am returning the map you prepared in support of the pre-1909 vested water right claim in the name of DARRELL G PAYNE. Mr Payne's claim is for domestic, stockwater and irrigation. I am sending a copy of his claim form.

You have indicated "POD 3" is "PRE-1909 POD", I'll assume the other's you have shown are not for pre-1909 use. I am unable to determine the beneficial use under the pre-1909 claim from your map. I ask that you review your map with one of our checklists and clarify the uses.

Thank you for your attention to this matter. If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

Sincerely,

Don Knauer

R-50806
Application No. 50807

Application for Extension of Time

To the State Engineer of Oregon.

I, Samuel G. Payne, of Yonville (Douglas Co.),
state of Oregon, am the owner and holder of Permit No. R-6031
37139, to appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or before October 1, 19 75, and complete application of water is required to be made on or before October 1, 19 76.

I have heretofore done the following work described under said permit during the past year:
dig out the bottom of the dam and building the dike

and did the following work prior to last year: Core trench and concrete work

costing \$2090.00 + diesel, and I estimate the cost of completion to be \$500.00 more

I have heretofore used water under said permit to the following extent: irrigated
10 acres

I am unable to { complete construction work / make complete application of water } within the required time, for the following reasons, to wit: illness and became more involved because of blue clay & too much water to contain last fall.

(If additional space is required, attach separate sheet)

(A fee of \$5.00 for each permit involved must accompany this application.)

Dear MR PAYNE,

This will acknowledge that your Surface Water Registration Statement in the name of DARRELL G PAYNE has been received by our office. The fees in the amount of \$340.00 have been received and our receipt #96034 is enclosed. Your registration statement has been numbered SWR-560.

You failed to submit a map prepared by a Certified Water Right Examiner (CWRE). ORS 539.240 (2) (d) requires the map be prepared by a CWRE. There is a note that arrived with your claim that indicates that Maurice Farr will be paraping the required map. We will contact Mr. Farr to arrange a map submittal deadline.

We will not be able to process you claim until we have received your map. If you have any questions regarding this process, please do not hesitate to give me a call.

Please feel free to contact this office if you have any questions.

Sincerely,

Dwight French

RE: Surface Water Registration Map

Dear MR FARR,

Darrell G. Payne of Yoncalla, has indicated to the Oregon Water Resources Department (WRD) that you have been hired to prepare the claim of beneficial use map for their Surface Water Registration Statement. Would you please inform me of your anticipated schedule of map preparation and submission to the WRD.

Please mark all correspondence related to this claim with the file number SWR-560.

Sincerely,

Dwight French
