SUBJECT: SWR'S IN TROUT CREEK , HARNEY COUNTY

On April 23, 1993 Dwight French and I met with Reed Marbut and discussed this subject. He decided to file the claims and treat them the same as any other filing. We will do the processing and in the future figure how to complete the determination. That is, how to go to court, etc.

March 8, 1993

TO: REED MARBUT
FROM: DON KNAUER
SUBJECT: SURFACE WATER REGISTRATIONS

On Dec 29, 1992 we received a SWR in the name of Perry Still. The claim is for irrigation of 905 acres with a 1902 priority date. This claim is in the Tumtum Lake area which is located within the TROUT CREEK basin in Harney County which was adjudication by Harney County Circuit Court. The property under this claim was not listed in the water rights decreed by the court. The State Engineer did not issue certificates following the decree of 1909, 1916, or 1917. The WRD has processed transfers and issued certificates on those transfers in this area. My understanding is that our office considers this an adjudicated area. The lack of involvement by the State Engineer in the actual adjudication and not issuing certificates causes me to wonder exactly what our position should be.

- 1) Should our position be that Trout Creek in Harney County has been adjudicated and therefore we will reject the SWR?
- 2) Should we file the SWR, ask the claimant for more information about the lack of participation in the "adjudication" and then present it to Harney County Circuit Court, if appropriate, as an undetermined vested water right?
- 3) Should we reject the SWR based on the "adjudication" and recommend to the claimant to go to Harney County Circuit Court with his claim?

Note: The Circuit Courts' decree of Feb. 23, 1916 is a complete record of water rights from Trout Creek and its tributaries, except as to the right of Melvin Doan. Mr. Doan was granted a right for an additional 79.55 acres in the Decree of the Court dated March 30, 1917. The two Decrees of Mar. 4, 1909, and March 9, 1909 are bound in this volume for reference only, as the provisions of these decrees were incorporated in the main Decree of February 23, 1916.

— — — — —

Note: The numbering machine numbers appearing on the right hand margin or lower right hand corner of the various decrees herein, indicate the corresponding page numbers as they appear in the recorded volumes.

0

Note: There is no provision in our water laws for the issuance of water right certificates in proceedings before the circuit court wherein water rights are adjudicated. Hence no certificates have been issued.

— 0 —

Rights for irrigation with priorities of 1909 or earlier were allowed for 4,524.64 acres. This figure is incorrect, however, as the court allowed numerous duplications. The court was cognizant of this fact as it makes definite reference to such duplications in paragraph 33, page 88p of the decree and again at the end of the tabulation in the name of Thomas and Walter, at page 96.

The 11th Circuit Court of Appeals in 1992, may appeal
to the Supreme Court (8201.202). Supreme
Court affirms the Court of the Circuit Court.
