Answers on mylars do not agree with 1955 survey.
Myron Bish tied to E $\frac{1}{4}$ corner; also note legal description highlighted. It seems to me E $\frac{1}{4}$ cor as shown on mylars is to far north.

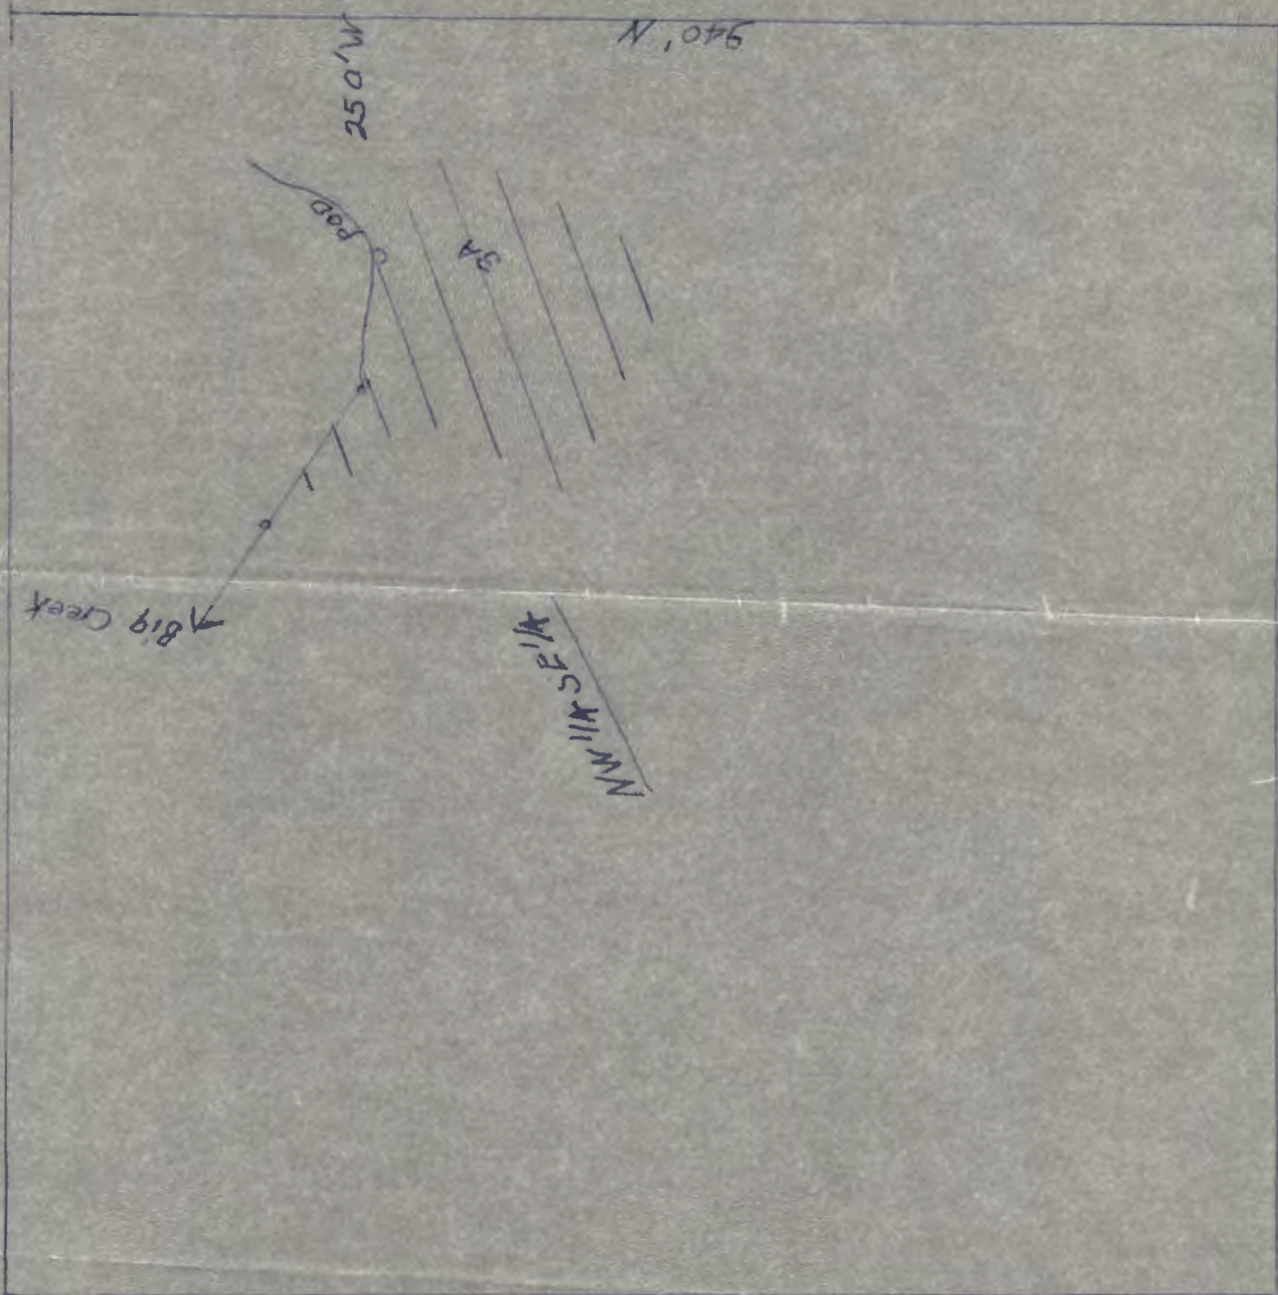

Look over photo GOB-1HH-126 & check scale.
Maybe section layed out incorrectly on photo. If all else fails, return photo & other stuff to me.

81-125-1379 Enclosed 4 mylars & field forms, 1 Inven. & L.P.

Dear Sir:

Your application for a permit to appropriate 0.04 cubic foot of water per second from Middle Fork Coquille River for the irrigation of 3 acres was received along with a map prepared on tracing paper, legal description, and fees of \$25.00.

Your application is in satisfactory form for approval by the issuance of a permit.

Applications will be accepted and permits issued for water from Coquille River and its tributaries with the understanding that there may be no water available for appropriation during the latter part of the irrigation season.

Very truly yours,

WAYNE J. OVERCASH
Assistant
