re: SWR-582

Dear Mr Nichols,

I have tried to explain the reasons past mapping for water right applications and permits would not be acceptable for the mapping to support your pre-1909 vested water right claim. I am sending a copy of the Oregon Revised Statutes covering pre-1909 vested water right claims. I have highlighted the section which requires a map prepared by a certified water right examiner.

Your file cannot be processed without the required map. If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

Sincerely,

re: SWR-582

Dear Mr Nichols,

This will acknowledge the receipt of your letter dated February 8, 1994. I will explain the research and copies of documents I am sending.

You referred to the map which you submitted as a part of your claim to a pre-1909 vested water right. The map is in the name of Kenneth R Clark and was surveyed by a representative of the Water Resources Department (WRD), R. S. Mucken. This map was prepared following an inspection and survey of the Clark property on 7-14-72. The map locates a diversion point from an unnamed stream and the three houses which use the water for domestic purposes. This use is under water right application # 40573, permit # 30231 and certificate # 40179. The application and permit covered more use of water than was allowed in the certificate. The certificate limits the use based on the inspection and survey of Mr Mucken. I am sending copies of the permit, certificate, map and report. Again, the only use of water from the unnamed stream allowed is for domestic purposes.

Your claim to a pre-1909 vested water right covers irrigation of 5.7 acres by water from the Middle Fork of the Coquille River. It appears that Mr Clark described his **non-use** of water from the Middle Fork to Mr Mucken on 7-14-72.

The permitted right from the unnamed stream is completely different from your claimed right. Even if that were not the case, the statutes require a map prepared by a Water Right Examiner (WRE). I am sending copies of the map requirements and a list of WREs.

If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

Dear Nichols,

I am sending a copy of the letter sent to you on May 3, 1993. I have not heard anything from you in regards to the required map to support your pre-1909 vested water right claim. I am in the process of reviewing the maps and will pass your file by at this time. I cannot complete my review without the required map. You must send me a map submission date.

Dear MR NICHOLS,

This will acknowledge that your Surface Water Registration Statement in the name of GARY L NICHOLS has been received by our office. The fees in the amount of \$30.00 have been received and our receipt #95950 is enclosed. Your registration statement has been numbered SWR-582.

The map you submitted with your claim is not acceptable. ORS 539.240 (2) (d) requires the map be prepared by a Certified Water Right Examiner (CWRE). Within 60 days of this letter you must send a letter to this address indicating you have contracted with a CWRE to prepare your map. You should send your letter to my attention. In your letter you must identify the name of the CWRE who will prepare your registration statement map. We will contact the CWRE to arrange a map submittal deadline.

We will not be able to process your claim until we have received your map. If you have any questions regarding this process, please do not hesitate to give me a call.

Please feel free to contact this office if you have any questions.

Sincerely,

SUBJECT: CWRE maps for SWR's

Don, with reference to our conversation of 07-27-93, regarding CWRE maps, I have put together the following list of the SWR's for our district that do not have a CWRE map, therefore as the maps come in Dwight or yourself can forward a copy to our office.

The maps for SWR #113 and #114 were the only ones that I could find that were too large for the copier. If you could send me the mylar copies it would be greatly appreciated.

Attention: Mr. Don Knauer

Subject: SWR-582, response to your letter of February
16, 1994.

Dear Don,

Thank you for your thoroughness in reviewing the subject file of Mr. Clark, as you have provided items of controversy from the original Clark application.

If you recall, the reason that I submitted the Clark map was that it was prepared for the purpose of securing water from both the river and the un-named stream.

If you go further back in the history of this case, a Mr. Weathers had applied for the rights to the Middle Fork of the Coquille. Mr. Clark continued this pursuit after he purchased the property from Weathers.

A letter from your department dated 0/05/73 confirms that Mr. Clark had submitted to finalize the assignment of water rights from Weathers.

Again on 9/26/73 a letter from your department confirmed that the assignment had been duly accepted by the WR department via permit number 36477.

In the state's review of Mr. Clark's request, the field engineer contradicted himself in his own field notes. If you read all of the documents in chronological order, especially the field notes, I think you will ascertain that it was his original intent to acknowledge Mr. Clark's request for the river water rights, however the notes contradiction was typed in error (secretarial) and only the un-named stream rights were given a certificate.

When I informed the Clarks that they had misled me regarding the water rights to the river, they were awe struck when I pointed out to them what the certificate said. They claim that they had not thoroughly looked at the certificate, only assumed that it was for what they had applied.

MAR - 7 1994

WATER RESOURCES DEPT.
SALEM, OREGON

Back to the field engineer's notes:

The engineer states that Weathers had irrigated the whole place from the Middle Fork of the Coquille. Clark stated that he was using the Middle Fork river water for the campground and around the house as the un-named stream dries up in the summer.

Clark's error was in not reading the certificate that your department sent him, as he believed that he had water rights to the river, as he continued to irrigate the acreage through an underground piped system. Keep in mind that his belief was strong enough that it's use was open and notorious for 20 years. Clark also states that the water master used to work with him by telling him when could or could not irrigate and is prepared to sign an affidavit to that effect.

Back to my letter stating that the map that I submitted was in fact relevant to the adjudication process request, as the map that Clark submitted was valid as nothing had changed regarding the maps as originally submitted. If the maps of record are not valid, please state why and utilize the map that Mr. Weathers had submitted. In any case, between the Weathers and the Clarks, enough maps have been submitted regarding the request for river water rights that another map will not change anything.

Again, please process my adjudication claim as previously requested or review the previous submittals from Clark and Weather and issue a certificate based on a clerical error that occurred back in the seventies. It is obvious that there is a map of record that will satisfy the state's need for that item.

Sincerely,

Gary L. Nichols

Attention: Mr. Don Knauer

Subject: SWR-582, request for map

Dear Don,

Thank you for your letter dated January 26, 1994.

The adjudication process requiring us to provide another map subsequent to the original map submitted by Mr. Ken Clark in the early seventies, we feel is not necessary, as there has been no changes in the property location or request since then.

Following this logic, your request puts a burden of an additional cost to us in an approximate amount exceeding \$1000.00. The new map you are requesting would provide no information that the 20+ year old map presently establishes. In essence, you are negating the validity of the original map.

Please keep in mind that the validity of that map has stood for over two decades.

I appreciate your efforts in being thorough. Please revisit your position regarding my request to utilize the map as originally submitted by Mr. Clark. Do not hesitate to state any law of record that would prevent the continued use of the original map as submitted for purposes of satisfying the requirements of the adjudication process.

Sincerely,

Gary L. Nichols
