Dale,

I am generally fine with what you are proposing.

I would approve a waiver to provide the general overview map on 11" X 17" paper. This would make some of the text easier to see.

Let me know what you think.

Subject: RE: COBU Maps for T-14212

Good morning Gerry,

I am working on a COBU for T-14212. The source is the Columbia River. The transfer involves an additional POD (East Improvement District River Station). The land (POU) involved in the transfer is 16+ miles from the Columbia River Pumping Station POD. I plan on submitting three map sheets with the COBU. Two map sheets will show the details of the place of use and would be at the standard 1320' to the inch scale. The third map sheet would show the overall system layout and the piping from the POD to the POU. Since the POU is 16+ miles from the POD, I would like to provide this map sheet at a smaller scale. If the overall map sheet is printed at a scale of 10,000' to the inch it will fit on an 8.5 x 11 sheet. I would like to have you consider allowing a variance for the overall system layout map sheet.

I have attached draft copies of the map sheets for your reference.

Thank you for your consideration.

Dale
