RE: File# SWR-589

DEAR TORLEIV FLATEBO,

The Water Resources Department (WRD) received a little over 600 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Glen L. Wagner. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

place of use ($\frac{1}{4}$ $\frac{1}{4}$)

ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." You must show the location of the 1/16th lines.

scale

OAR 690-14-170-1 "The map scale shall be 1" = 1320', 1" = 400', or the scale of the county assessor map..." The scale of your map appears to be 1"=1000' rather than 1"=100'. In the future you must use the required scales.

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,
