Director Martha O. Pagel,

We would like to file a petition for a late surface water registration.

We have enclosed deeds and mortgage contracts to show the ownership. These are all we can find in the Lincoln County records. We also enclosed a copy of the 1905 tax assesment, showing a \$200.00 improvement. Our Grandmother has given us a verbal history of the land, claiming the first house was built in 1866.

The reason we never filed before is because we always thought we had water rights on our property. We have recently discovered our spring was/is public water. We started to make application for water until we found out that we fall into this earlier provision in the water laws.

The spring originates on our property and flows down our canyon into our field, where it eventually leaches into the Yaquina River. The county road crossed our property in the 1930's and they installed culverts and ditched the water to the river.

We want to use the spring for our house and a small garden. We do not irrigate or use the water as a power source.

We've enclosed pictures to help you visulize the spring, the size of it and the Yaquina River. We hope we have enclosed enough information to validate our claim.

Thank you,

Catherine L. Cadwallader
