

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

## NOTICE

Enclosed is a proposed certificate and a map which illustrates the right. The map and proposed certificate show the extent water was used within the permit based upon a survey and inspection by a representative of this department.

If you do not agree with the proposed certificate or the map, Oregon Administrative Rule 690-11-110 allows the permittee or landowner 60 days from the mailing date of this notice to petition the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate and map no response to this notice is required. Shortly after the 60 day period, the recorded certificate of water right will be mailed to you.

Our field examiner found a total of 85.20 acres claimed irrigated in connection with Permit No. 49591 which exceeds the limit of 78.20 acres under the permit. If you intend to establish a legal water right for the additional 7.0 acres, you will need to determine the permitting requirements for your area.

The 7.0 acres overacreage is displayed on the map copy as an unhatched area. If this area is not located where you prefer it to be, please notify us as it may be possible to locate the area elsewhere on your lands.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Dear Mr. Coughlin:

REFERENCE: File 68584

The Application 68584 you submitted for Darrell L. Bigelow describing the proposed use of 2.21 cubic feet of water per second from Long Branch Creek for the primary irrigation of 9.0 acres and supplemental irrigation of 79.5 acres, together with the map and legal description of the property, has been reviewed.

We will need additional fees before the application can be considered for approval. The application requires an examination fee of \$200 and permit recording fees of \$258 for a total of \$458. To date, \$360 has been credited to the file. Therefore, an additional \$98 is needed.

Upon receipt of the additional fees, the application will be placed with the group to be considered for approval. I am enclosing our Receipt 47701 which was inadvertently omitted from our earlier letter sent to Darrell L. Bigelow.

Sincerely,
