RE: SWR-629,630 & 631

Mr. Don Knauer,

In response to your letters dated April 12, 1994. This one letter will address the questions you have on all three of the SWR's noted above. I will also enclose two copies of this letter for your records on the other two SWR's.

The pipe size from the diversion point to the end of the delivery system is a 6" diameter plastic pipe. The diversion point system is a valve at the toe of the slope of the Eugene Water and Electric Board (EWEB), canal. When the canal was built Cogswell creek was the source of water for those properties these water rights are addressing. The canal construction diverted Cogswell creek into the canal. EWEB installed a valve system to divert water from the canal to the properties formerly using Cogswell creek for their supply of water. The Valve size is a 10" diameter valve and pipe from the canal leading into said 6" diameter pipe leading to said properties.

If you have any questions feel free to inquire.

Respectfully,

H. Timothy Fassbender, PLS, CWRE

RE: Alvie & Beverly Yarbrough Claim # SWR-629
Don Carnes & Paula Madaglia SWR-630
Wayne & Doris Hansen SWR-631

Dear Mr. Knauer,

The enclosures are the final papers needed to complete the application for Water Rights for the three families on a common line. You already are in possession of our original forms and documentation.

The remaining papers needed were the map prepared by a Certified Water Examiner and the depositions showing water use pre-1909.

Sincerely submitted,

W. Wayne Hansen

Ide D. Ward, being first duly sworn on oath, says that she is and has been practically all of her life a resident of Leaburg, Lane County, State of Oregon, with the exception of a short period of time subsequent to the year 1909, that she is familiar with lands located in the Southwest Quarter of Section 1, Township 17 South, Range 1 East, W. M., that she is familiar with the lands formerly owned by J. W. and Rachel Alice Elston, husband and wife, part of which lands are now owned by C. L. and Nellie L. Kelly, husband and wife, and also lands now being purchased by Otis J. and Alice Fisher, husband and wife, and Trueman R. and Juliet Fisher, husband and wife, that she is and has been practically all of her life familiar with the flow of water in Cogswell Creek, and that lands now owned by C. L. and Nellie L. Kelly, husband and wife, and also lands now being purchased by Otis J. and Alice Fisher, husband and wife, and Trueman R. and Juliet Fisher, husband and wife, on land contract were irrigated by water from the aforesaid Cogswell Creek and that said water was used for irrigation purposes on said lands prior to the year A. D. 1909.

Ide D. Ward

*These affidavits are very
very important. You can not
obtain new ones as the old
people have passed away.*

Annie Craft, first being duly sworn on oath says that she is a resident of Leaburg, Lane County, State of Oregon, and has been a resident of said county and state since the year 1908, that she is familiar with land located in the S. W. 1/4 of Section 1, Township 17 South, Range 1 East, W. M., and particularly with that portion of said quarter section formerly owned by J. W. and Rachel Alice Elston, Husband and wife, which lies in a generally Southern position from the Eugene Water Board canal.

The Affiant further says that she has during all of this period of time resided in the neighborhood above described and is familiar with the flow of water in Cogswell Creek, and that a portion of the water from said Cogswell Creek was used for irrigation purposes prior to the year A. D. 1909, and that a part of the land above referred to and formerly owned by J. W. and Rachel Alice Elston, husband and wife, a part of which is now owned by C. L. and Nellie L. Kelly, husband and wife, and also lands now being purchased under land contract by Otis J. and Alice Fisher, husband and wife, and Irueman R. and Juliet Fisher, husband and wife, are included in and a part of the lands irrigated by the waters of Cogswell Creek prior to the year A. D. 1909.

March 4, 1994

The below information was taken from a 1 hour 45 minute afternoon visit with George and Eva Easton at their home in Leaburg, on Feb. 28, 1994.

George has an incredible mind and great wit. He has kept a daily diary since 1915 to 1992 which was shown to us.

Signed,

Louis M. Hansen

I, George Easton of Leaburg, having been born in 1897 in the Walterville area and living my entire life in the surrounding area. I remember the John Cogswells farm starting at Greenwood Cemetery going east to the Curry Stagecoach Stop. Cogswell Creek ran thru the property with an open gravity-flow ditch to divert the water for irrigation. This would have been during years 1905-1908

Mr. Cogswell later sold that property to J.W. Elston.

Signed,

George M. Easton

Dir Sir;

This petition req ORS 539.240 (4) For Good cause,
Pre-1909 vested water right

The under sign is petitioning the Director of ODWR
for pre 1909 - 1928 vest water right, (Cogswell creek)

We Alvie E. & Beverly A Yarbrough now own the property
purchased in July 1989. we claim vested water
right under the Adjudication proceeding for the
following reasons:

1. Purchased property after senate Bill 130. Had
passed (and no one made us aware of Bill 130)
and we had no knowledge of the senate Bill
2. we and several property owner have a agreement
with the city of Eugene (Eweb) (Eugene water and
Electric Board) sign in 1928. Before the Leaburg
canal was constructed (copy in closed) to supply
water to the property after the canal was con-
structed, Please note, Before this time several
property had Cogswell creek flowing across the
property. (The creek bed is still there)
3. The agreement with Eweb states we are to supply

water either from the creek or the canal (Cogswell creek)

4 We now and have been getting water thru (8") Eight inch valve and (8") lines from the canal. Please understand

the water from the canal come from the McKenzie River,

5 To my knowledge no other owner of this property has sited for water right to this property. maybe like me thinking the agreement with Eweb was all we needed.

6. My vested right is for cogswell creek water. ~~with~~
which is now being used by the State of Oregon
for the Leaburg Salmon Hatchery

7. The reason for asking for right to cogswell creek water is because that is the water that flow across the property at time of the 1928 agreement with Eweb, and if they stop using the canal for any reason we will lose our water.

8. The way we are getting water now is ok but how long will Eweb be using the canal is in question now. and also we are having lots of line leaks that Eweb will not repair.

A G R E E M E N T

THIS AGREEMENT, made and entered into this 17th day of March, A. D., 1928, by and between MARION ELSTON AND MARY ELSTON, of Leaburg, Oregon, parties of the first part, and the City of Eugene, Lane County, Oregon, a municipal corporation, party of the second part.

WITNESSETH: That for and in consideration of the sum of ONE THOUSAND TWO HUNDRED (\$1,200.00) DOLLARS, to them in hand paid by the said City of Eugene, the above first mentioned parties have made and executed a warranty deed to the said City of Eugene, conveying to the said City, the following described property, to-wit:

"A tract of land 185 feet in width, being all of that land lying in the Easterly 200.0 feet of the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 1, T. 17, S., R. 1, E., W.M., and within 50 feet on the Northerly side and 125 feet on the Southerly side of a certain reference line, the said reference line being more specifically described as follows:

"Commencing at a point on the East line of the said SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 1, T. 17, S., R. 1, E., W. M., 248.0 feet South of the NE corner thereof, and running thence S. 59° 00' W., 297.1 feet; thence running on a 10° 00' curve to the left (radius 573.0 feet), 120.7 feet; thence running South 46° 56' W., 863.0 feet, more or less, to a point 990 feet West and 1054.0 feet South of the said NE corner of the SE $\frac{1}{4}$ NW $\frac{1}{4}$; the said above described tract containing 5.50 acres, more or less.

"It is intended to convey the entire width of tract above described completely across the land of the grantor, and the described reference line is

continuous with, and a part of the general reference line across other and adjacent lands."

THAT in consideration of the above conveyance, and of certain covenants named herein, which shall run with the land and be binding upon the grantee and its successors and which are not to be held or considered as merged in said deed, the parties hereto have agreed between themselves and do hereby agree and covenant each for himself, as follows, to-wit;

That should the said City of Eugene construct a waterway over and through the above described property, the said City agrees as soon as practicable thereafter to construct, at the point designated by the first parties, a five ton capacity farm bridge, sixteen feet in width, with suitable railings and approaches for safe passing of farm animals across its waterway, for the use of the parties first above mentioned, and to grant to the said parties a right of way for farm purposes over its property, to and over the said bridge.

The City agrees to maintain the said bridge, with its approaches and railings, in a reasonable state of repair for farm purposes, but the parties hereto agree that the City shall not be liable to the said first above named parties for damages or repairs to the said bridge, caused by overloading or other abuse of the said structure.

In the event of the construction of a waterway across the within described property, the City agrees to construct a stock tight fence along such part of boundary of the said property as the above first mentioned parties shall designate.

In the event that the City's operations on the within described property interfere with the location and use of any existing domestic water supply line, as at present located and constructed, the City agrees to protect or recon-

struct the said line across its property at the present capacity thereof. The first parties shall have the right to install across the City's waterway, such additional pipes or conduits as they may from time to time desire.

Inasmuch as the parties of the first part, together with other and adjacent property owners, have diverted the waters of Cogswell Creek, for the purpose of irrigation and have constructed a system of ditches for the distribution of the said water; and the construction of a waterway by the City will intercept the flow of water in the said Cogswell Creek, the City agrees, in the event of the construction of the said waterway, that it will pass the water of Cogswell Creek, to the extent of the mean summer flow thereof, by flume, pipe or other conduit, across the City's property and into the channel of the said Cogswell Creek below its waterway, or, in lieu thereof, will deliver an equivalent amount of water from its waterway to the channel of Cogswell Creek. In the event of the diversion of any or all of the waters of the said Cogswell Creek northerly of the City's waterway, by the said first parties, the City will pass the said diverted water across its waterway or will deliver an equivalent quantity of water from its waterway to their irrigation ditches, for the use of the said first parties.

The City further agrees that if water is to be delivered from its waterway, the said City will install in its waterway 8" irrigation gates, as may be required, the said gates to be located at such points as will permit water to be taken therefrom and into the irrigation ditches now supplied by water from the said Cogswell Creek and will permit the said first parties to divert water through said gate or gates when and as they may elect.

It is hereby understood and agreed between the parties hereto, that the amount of water to be delivered by the said City, through the said gates to replace waters formerly diverted from the said Cogswell Creek, by the said first parties and by other and adjoining property owners, together with the water returned through the channel of Cogswell Creek, will not, in the aggregate, exceed the mean summer flow of the said Cogswell Creek, and it is further understood and

See Vol. 1
for giving
5 c.f.s. to
Hatchery

agreed by the parties hereto that neither of the said parties shall either acquire or relinquish any titles to the waters of Cogswell Creek, by reason of the exchange of water herein mentioned.

This agreement shall be binding upon the successors, heirs or assigns of the parties hereto.

In Witness Whereof, the parties hereto have herunto set their hands and seals, the day and date first above written.

DEAR H. TIMOTHY FASSBENDER,

I am not returning the map you prepared for ALVIE E YARBROUGH. You can address the request in the form of a letter or report. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..." The pipe size is the necessary information.
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

You must submit the information before the claim can be processed. If you cannot have it to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer

RE: SWR-629

Dear Alvie Yarbrough,

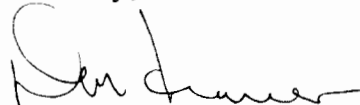

I am sending a copy of the order accepting your surface water registration claiming a pre-1909 vested water right. It has been filed in the records of the Water Resources Department (WRD). Your claim has been numbered SWR-629 and you should refer to that number in any correspondence.

Your claim form shows the priority date of March 12, 1928. I want to remind you that this program is to put on record water use begun prior to February 24, 1909. You should continue to think along that line. Did my water use begin before 1909 and what can I use to show that?

You have the requirement of a map prepared by a Water Right Examiner. I am sending a list of those certified by the State to do this kind of mapping. You must contract with one of the Water Right Examiners and let me know who that is as soon as possible. Nothing more can be done with your file until the required map is received by the WRD.

If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

RE: Late Surface Water Registration Statement

Dear Alvie Yarbrough,

I have reviewed your letter and have a few questions. If you send in a completed Surface Water Registration (SWR) Statement before December 31, 1993 that indicates that this is a use of water that would be subject to registration under ORS Chapter 539, we will issue the required special order that allows us to officially accept the late filing. We will send you a copy of the order if one is signed by the Director.

A blank SWR claim form is enclosed. Be sure to have the completed claim form notarized. Please be advised that if we will accept your claim, we will not initiate processing until we have received a map of your claimed use(s) prepared by a Certified Water Right Examiner.

Please call me if you have any questions about how to proceed. You may call toll free from within Oregon: 1 (800) 624-3199.
