Dear Mr. Cook:

Enclosed are documents for my filing for a small pond we have on our property.

In response to question J., the water which is diverted for the pond is returned to the stream in overflow and seepage through the pond walls. The only exception to this would be the unlikely (hopefully) event of a fire.

I hope everything else is correct and we will be granted the permission to enjoy this small area which is home for our rainbow trout, a couple of families of Wood Ducks, and occasional wild animals looking for a cool drink.

Sincerely,

Dr. Gordon E. Myrah
