Dear Sir:

In reply to your letter of Dec. 5,
I wish to state , the head of water will be used
to wash the gravel thru sluice boxes placed on
bed rock, these boxes to be moved ahead as the
mining progresses.

I have made note of same on the
application blank, under remarks.

Yours truly,

Mr. Glenn M. Young,

Dear Sir:

This acknowledges receipt of your application for permit to appropriate 2.0 second-feet of water from Steve Oster Creek for placer mining, together with your remittance in the sum of \$11.00. Receipt No. 19471 is enclosed. The application has been filed and given No. 16164.

It would appear from the application that the water will probably be used for placer operations by means of small portable sluice boxes which will be moved along the stream bed as the mining progresses. However, the application does not indicate clearly the means by which you intend to apply the water to placer mining purposes, and I am therefore returning it for a more complete explanation of the means to be employed. The application has been endorsed so that in order to retain its priority it must be returned within thirty days or on or before January 4, 1936.

According to our records there are no filings on Steve Oster Creek in good standing.

Very truly yours,

CHAS. E. STRICKLIN,
