Dear Mr. Fischer:

Enclosed is the final proof in connection with the  
incomplete water right represented by your permit No. <sup>G-1459.</sup>

The data contained in the proof, which is based on  
an inspection and survey of your project made by a representa-  
tive of this department, defines the extent to which your water  
right has been completed within the terms of your permit. The  
proof should be dated and signed by you and returned to this  
office.

Upon receipt of the proof, properly executed and  
accompanied by the statutory recording fee of \$1, a certificate  
of water right will be issued confirming the right thereunder  
and, after being recorded in the county records, will be for-  
warded to you.

Very truly yours,

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-4159.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER

Dear Mr. Fischer:

According to the terms of your permit No. G-1459, which is for the appropriation of 0.38 second-foot of water from a well for the irrigation of 30 acres,

complete application of water was to have been made by October 1, 1964.

Complete application of water means the application of water to beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 21, 1964.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancelation of the permit.\*\*\*\*\*"

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If for any reason you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Very truly yours,

Dear Mr. Vogels:

This will acknowledge your application for an extension of time in which to make complete application of water under the terms of permit No. G-1459, and remittance in the amount of \$2 for which our receipt No. 35502 was handed to you.

The State Engineer is authorized to allow an extension of time limits only upon a showing by the holder of the permit that reasonable diligence has been exercised toward completion of the project within the time limits, as allowed.

On examination of the information given in your application it is questionable whether sufficient diligence has been shown to justify the requested extension. However, you are being given the benefit of the doubt and the time limit is being extended to October 1, 1963.
