Dear Sir:

Mr. Christian Jocher, who holds Permit No. 2393, Application No. 4175 has either lost or never had the sheet containing the three coupons that come with permits for reporting to the Water Board the progress of the completion of his right.

He has completed his ditch and applied the water and is so ready to report, and if you will mail to him or to me this missing sheet he will fill the same out and send it in at once, as he is very anxious to fulfill the requirements of the permit. He is a German and does not understand our ways very well and a letter explaining the requirements of the coupons would help him some.

He is agin the Kaiser and his address is Hollland, Oregon.

Yours very truly,

M. L. O.

Dear Sir:

I am in receipt of your letter of the 6th instant with reference to the appropriation of water from No. 7 Gulch. I find that a permit was issued to T. P. Colvin for the appropriation of the waters of No. 7 Gulch for mining purposes subsequent to your permit, and attention was called to your prior rights at the time the permit was issued. I would suggest that you call Mr. Colvin's attention to the note on the indorsement of his permit notifying him of your prior right. I believe this would eliminate any trouble in regard to the matter.

Very respectfully,

Mr. Christian Jocher,

Dear Sir:

In reply to your inquiry of the 18th instant you are advised that Mr. T. P. Colvin filed an application in this office for permit to appropriate water prior to the time your application was filed. On April 24th the application was returned to him for completion, maps, etc., and he was allowed 30 days to meet the requirements of this office. The application has not as yet been received and unless it reaches this office on or before May 24th, it will lapse and your permit will take precedence over it.

Mr. Colvin may, of course, have a right to the use of this water under the provisions of the old law and would have such a right if the same was initiated prior to February 24, 1909, and has not since been lost by abandonment. Our records are complete only since February 24, 1909, at which time the water code became effective.
