Extended to

A tract of land in Section 1, Township 40 South, Range 14 West, Willamette Meridian, Curry County, Oregon, being that portion of the South One-Half of Said Section 1, described as follows:

Beginning at the East Quarter corner of said Section 1;
thence North 89°58'30" West 3624.5 feet along the East-West Centerline of said Section 1 to a 5/8 inch by 30 inch iron rod;
thence leaving said line North 660.0 feet to a 5/8 inch by 30 inch iron rod;
thence West 630 feet, more or less, to the Easterly line of Carpenterville Road;
thence Northerly 190 feet, more or less, along said Easterly line to a point which lies West of a 5/8 inch by 30 inch iron rod driven in the ground at Point "A", a point which is North 839.41 feet and West 3908.69 feet from the East Quarter corner of said Section 1;
thence East 283 feet, more or less, to Point "A";
thence East 795.19 feet to a 5/8 inch iron rod;
thence North 42°47'43" West 695.16 feet, more or less, to the North line of the South One-Half of the North One-Half of said Section 1;
thence along said North line Easterly to the East line of said Section 1;
thence along said East line Southerly to the point of beginning;

Said parcel comprising approximately 96 acres.

Reserving therefrom in perpetuity as a non-exclusive easement for road and utility purposes a strip of land 50 feet wide lying South and West of, and abutting, the following described line:

Beginning at said Point "A";
thence South 36°28'46" East 50.0 feet;
thence South 01°10'50" West 139.2 feet.

Reserving therefrom as a non-exclusive easement in perpetuity for road purposes those portions of the parcel of land described in the attached Exhibit "A" lying within the boundaries of the hereinbefore described tract, and together with those portions of said parcel of land described in the attached Exhibit "A", lying outside the boundaries of said tract as a non-exclusive road easement in perpetuity.

Reserving therefrom the right to take water for domestic purposes and an easement for the development, operation, maintenance, repair and replacement of a water system over the following described parcels of land, such being for one domestic water supply use only:

PARCEL ONE

Beginning at point "B" which is North 532.35 feet and West 1693.00 feet from the East One-Quarter corner of said Section 1;

thence North 15 feet, East 30 feet, South 30 feet, West 30 feet, North 15 feet to point "B".

PARCEL TWO

A strip of land 15 feet wide centered on the following described line:

Beginning at said Point "B";
thence South 67°18'38" West 119.38 feet;
thence South 53°56'05" West 153.01 feet;
thence South 72°57'47" West 349.62 feet;
thence South 45°20'11" West 392.55 feet;
thence West 1200 feet more or less to the East line of the West One-Half of the Southwest Quarter of the Southeast Quarter of the Northwest Quarter of said Section 1.

Exhibit "A" - 1

RECEIVED

NOV 16 1982

WATER RESOURCES DEPT.
SALEM, OREGON

Application No. 64538
Permit No. 47766

PARCEL THREE

Beginning at a point which is North 243.98 feet and West 2311.51 feet from the East One-Quarter corner of said Section 1;
thence South 9°18'48" East 53.08 feet to point "D";
thence South 89°24'49" East 40.38 feet;
thence North 20°22'29" West 65.40 feet;
thence South 72°00'22" West 27.55 feet to the P.O.B.

PARCEL FOUR

A strip of land 15 feet wide centered on the following described line:

Beginning at the said Point "D";
thence North 89°24'49" West 59.96 feet;
thence South 45°20'11" West 249.46 feet;
thence West 1200 feet more or less to the East line of the West One-Half of the Southwest Quarter of the Southeast Quarter of the Northwest Quarter of said Section 1.

EXCEPTING ONLY, however, that the easements and rights appurtenant thereto described in Parcels One and Two above shall lapse, expire and terminate on October 1, 1983 if the owner of the westerly adjacent property, being MARK A. COLEGROVE, or his successors and assigns in interest, do not make use of said easement and water rights on or before said October 1, 1983; the property for whose benefit the above-described easements are intended being more particularly described as follows:

A parcel of land in Section 1, Township 40 South, Range 14 West, Curry County, Oregon, said parcel being more particularly described as follows:

Beginning at a 3/4 inch iron pipe in the East-West center-line of said Section 1 at a point described as being North 89°58'30" West 3954.5 feet from the East 1/4 corner of said Section;
thence South 89°58'30" East 330.0 feet to a 5/8 inch by 30 inch iron rod;
thence North 660.0 feet to a 5/8 inch by 30 inch iron rod;
thence West 630 feet, more or less, to the Easterly line of Carpenterville road;
thence Southerly along said road 680 feet, more or less to a 1/2 inch iron pipe;
thence South 89°58'30" East 384.7 feet to the point of beginning.

Said parcel comprising 10 acres.

Together with a non-exclusive easement in perpetuity for road and utility purposes over a parcel of land described as follows:

Beginning at a 5/8 inch by 30 inch iron rod driven in the ground at a point described as being North 839.41 feet and West 3908.69 feet from the East One-Quarter corner of said Section 1;
thence South 36°28'48" East 50.0 feet;
thence South 01°10'50" West 139.2 feet to the North line of the hereinbefore described parcel;
thence along said line West 50.0 feet;
thence North 01°10'50" West 122.15 feet;
thence North 36°28'48" West 300 feet more or less to the Easterly line of Carpenterville Road;
thence along said line Northerly to a point which bears North 36°28'48" West from the point of beginning;
thence South 36°28'48" East 350 feet more or less to the point of beginning.

Application No. 64538
Permit No. 47766

ALSO RESERVING THEREFROM a nonexclusive easement in perpetuity for road purposes, being:

A parcel of land 50 feet wide along a existing road in Section 1, Township 40 South, Range 14 West, Willamette Meridian, Section 36, Township 39 South, Range 14 West, Willamette Meridian and Section 6, Township 40 South, Range 13 West, Willamette Meridian, all lying and being in Curry County, Oregon, and the centerline of said road being more particularly described as follows:

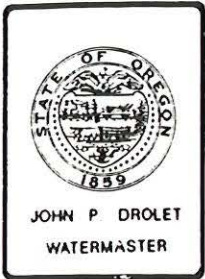

Beginning at the intersection of said road and Carpenterville Road (old U.S. 101) at a point described as being South 490.33 feet and West 3633.75 feet from the Northeast corner of said Section 1;

thence South 45°52'51" East 75.25 feet; thence South 33°49'57" West 140.46 feet; thence South 04°31'57" West 104.84 feet; thence South 36°36'03" East 256.46 feet; thence South 78°01'09" East 136.96 feet; thence South 56°49'30" East 126.48 feet; thence South 85°06'18" East 149.77 feet; thence South 47°40'18" East 136.01 feet; thence South 62°16'03" East 106.09 feet; thence South 33°15'03" East 198.09 feet; thence North 45°34'27" East 122.93 feet; thence North 86°45'39" East 200.13 feet; thence North 45°42'24" East 184.19 feet; thence North 26°14'24" East 251.29 feet; thence North 72°17'42" East 132.94 feet; thence North 44°32'42" East 188.56 feet; thence North 57°22'36" East 289.90 feet; thence North 43°06'51" East 148.43 feet; thence North 07°48'51" West 130.54 feet; thence North 37°22'27" West 245.63 feet; thence North 57°00'27" West 150.47 feet; thence North 00°54'45" West 278.54 feet; thence South 56°46'21" West 212.92 feet; thence North 80°38'39" West 59.03 feet; thence North 12°26'24" West 334.09 feet; thence North 06°41'24" West 152.23 feet; thence North 47°53'36" East 120.83 feet; thence North 78°12'12" East 215.80 feet; thence South 60°33'18" East 132.29 feet; thence South 38°01'51" East 134.13 feet; thence South 73°35'09" East 256.41 feet; thence North 72°00'45" East 83.04 feet; thence North 40°57'21" East 165.22 feet; thence North 26°46'36" East 279.48 feet; thence North 30°29'48" East 182.22 feet; thence North 65°56'09" East 211.91 feet; thence South 31°35'51" East 309.13 feet; thence South 43°03'51" East 354.90 feet; thence North 87°10'24" East 178.04 feet; thence North 56°06'24" East 157.70 feet; thence South 73°31'24" East 176.42 feet; thence South 27°49'57" East 144.39 feet; thence South 00°13'27" East 363.21 feet; thence South 09°44'45" East 268.99 feet; thence North 86°41'33" East 158.01 feet; thence South 65°29'51" East 112.75 feet; thence South 86°45'51" East 211.46 feet; thence North 68°06'09" East 95.01 feet; thence South 77°03'51" East 205.04 feet; thence South 43°01'36" East 233.22 feet; thence South 03°27'36" East 190.25 feet; thence South 45°17'42" West 178.68 feet; thence South 03°54'39" East 151.25 feet; thence South 74°09'51" East 309.41 feet; thence South 89°30'21" East 120.63 feet; thence South 01°53'36" East 180.00 feet; thence South 26°08'15" East 186.49 feet; thence South 01°25'33" West 208.96 feet; thence South 49°15'15" East 67.65 feet; thence North 77°09'45" East 276.34 feet; thence South 37°34'09" East 172.33 feet; thence South 84°26'21" East 172.18 feet; thence South 67°30'51" East 356.99 feet; thence South 22°27'39" East 235.53 feet; thence South 55°14'33" East 110.34 feet; thence South 67°04'33" East 209.83 feet; thence South 49°48'51" East 150.00 feet; thence South 83°59'09" East 200.51 feet; thence South 51°29'12" East 150.00 feet; thence South 74°49'12" East 182.50 feet; thence South 14°34'27" East 250.00 feet; thence South 34°56'24" West 172.60 feet to the Northerly line of that tract of land described in Book 66 at page 659, Official Records of Curry County;

ALSO RESERVING THEREFROM any and all water rights and appurtenances or hereditaments thereto and thereof which are not physically upon the premises, specifically, but not limited to, that certain water right and source on the adjacent northerly parcel of real property owned as of July 15, 1980 by Gene and Judith Colegrove.

ALSO RESERVING THEREFROM, all easements, reservations and right of ways of record.

Dear Mr. Nordstrum:

Thank you for the opportunity to comment on the comp plan and zone change being proposed by Wolflow Wellness Center & Retreat on the above referenced forestry grazing parcel. My understanding is that the zone change being proposed is to rural resort commercial use.

A perusal of water right records for the parcel reveals that there is an unperfected water right in the form of a 1983 permit for the irrigation of 80 acres. The permit is valid to the extent that water has been beneficially used under the terms of the permit and, in whole, or in part, has been exercised without a five successive year lapse in use.

Also appurtenant is another surface water permit for domestic use to include up to 1/2 acre each for three families and a third permit for the storage of 0.8 acre feet of water from an unnamed stream tributary to Coon Creek.

A water well was drilled on the property in 1987 that yielded 12-14 gallons per minute.

Should the proposed zone change be approved, likely water sources for the Center might be surface water or groundwater.

Either new applications for surface water for the proposed use or a transfer in the nature of use once the existing permits are perfected would be two option.

A third option, commercial use from a groundwater source for the center, would be exempt from permitting requirements providing that the volume of water used would be less than 5,000 gallons per day.

Being as I likely will not be able to attend your pre-application meeting scheduled for 28 October 1998, I hope that the above information might be helpful. Should you have questions, please get in touch.

Sincerely,

John P. Drolet
Watermaster, District 19

Dear Mr. Hahn:

REFERENCE: Files 64538 and 64539

This is to acknowledge the amended Application 64538 and the print of the map along with the affidavit to provide for clearing our records of the existing right you submitted for Richard L. Blandau.

Pursuant to your transmittal and our recent telephone discussion, I am enclosing a reservoir application form, a surface water application form, and the two related booklets. As mentioned in our telephone discussion, if the reservoir application is submitted, the Application 64539 may be amended or a superseding application will need to be submitted to include information relative to the use of the stored water and/or use of water to maintain the reservoir.

The Application 64538 now describing the proposed use of 0.03 cubic foot per second of water from the unnamed stream for domestic supplies for three families including the irrigation of a lawn or noncommercial garden not to exceed one-half acre in area per family, is in satisfactory form and will be placed with the group to be considered for approval.

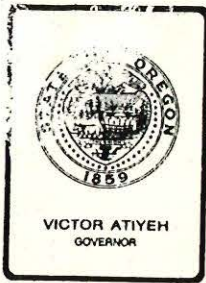

Action on the Application 64539 will be held for a reasonable length of time pending receipt of the reservoir application or your reply.

Sincerely,

WAYNE J. OVERCASH
Senior Water Rights Examiner

Mike Hahn
B and D Surveys
411 Mill Beach Road
Brookings, OR 97415

Dear Mr. Hahn:

REFERENCE: Files 64538, 64539 and 47504

This is to acknowledge return of the original Applications 64538 and 64539 along with two maps you resubmitted for Richard L. Blandau. The superseding applications were also received along with eight prints of the supporting map.

The Application 64538 now describes the proposed use of 0.03 cubic foot per second of water from the unnamed stream for domestic supplies for three families. The Application 64539 still describes the proposed use of the 1.0 cfs from the unnamed stream for the irrigation of 80.0 acres. Both applications have been reinstated and given a new date of priority of March 25, 1983, being the date the original and superseding applications were received. Our records do not show any applications being filed since the applications were originally received in November of 1982. Therefore, the loss of the original filing date as the priority should not make any appreciable difference.

Pursuant to our telephone discussion on April 20, 1983, I am enclosing a statement which when properly completed by Dr. Richard L. and Mary Blandau before a notary public and returned to this office will provide for clearing our records of the existing right involved.

Also, as mentioned in our telephone discussion, if it is intended to utilize water from the unnamed stream described in Application 64538 for domestic supplies including the irrigation of lawns and gardens, Item 5 on the application will need to be further completed by specifically listing the use as: "domestic including the irrigation of a lawn or noncommercial garden not to exceed one-half acre in area per family." Worded as such, the irrigation system must be an integral part of the domestic water system and domestic use of water must continue in order to retain the right to irrigate the lawns or gardens.

Mike Hahn
April 27, 1983
page two

The maps submitted show a pond site. Permits approving the applications as they are presently prepared would not include the right for the storage of water in the pond. Where storage water for future use is contemplated, a reservoir application should be filed regardless of the size of the reservoir or height of the dam. However, if a small sump is to be formed only to facilitate pumping or to act as an insystem storage during periods of use, a reservoir application may not be considered necessary. If you will furnish a more complete description of the pond, method of construction, and purpose for its construction, we will advise further as to the requirements for filing.

I am enclosing a print of one of the maps you submitted. Please show the location of the streams and direction of their flows in the vicinity of the project.

So that you may review Application 64538, I am returning it to you for completion. The application is endorsed so that in order to retain its priority date it must be received in this office on or before June 27, 1983.

January 19, 1983

Richard L. Blandau
585 5th Street
Brookings, OR 97415

Dear Mr. Blandau:

REFERENCE: Files 64538 and 64539

Your Application 64538 describing the proposed use of 0.218 cubic foot per second of water from an unnamed stream, being 0.03 cfs for three homes and gardens and 0.188 cfs for 15 acres of pasture has been reviewed.

Also, your Application 64539 describing the proposed use of 1.0 cfs from an unnamed stream for the irrigation of 80.0 acres, together with the four maps and legal description has been reviewed.

Before your application can be considered for approval, it will be necessary to supply additional information, clarify the location of the projects, and properly complete the maps to support each application. Additional fees may also be needed.

According to the location of the point of diversion as given in the first part of Item 2 on Application 64538, the point of diversion would be located within Section 36, Township 39 South, instead of Section 1, Township 40 South presently indicated in the latter part of Item 2. Whichever is in error will need to be corrected so that they are in agreement.

If you intend to use the water for household purposes at the three homes, it would be best to complete Item 5 on Application 64538 by listing the use as domestic supplies instead of three homes presently noted. Also, since the use of water for the gardens and pasture would be considered irrigation use, the use should be listed as irrigation instead of gardens and 15.0 acres of pasture in Item 5. Item 5 should then be further completed by stating the amount of water you wish to appropriate for domestic supplies and the amount of water you wish to appropriate for irrigation instead of the manner you have presently expressed the amounts of water in Item 4.

Richard L. Blandau
January 19, 1983
page two

It will be necessary for you to explain the manner you intend to use the water from the unnamed stream identified as the source of water on your Application 64539 in relationship to the use of water from the unnamed stream identified as the source of water on your Application 64538.

There is an existing water right of record in the area involved in your applications. This existing right is evidenced by Certificate 49502 and describes a right of record providing for the use of 0.05 cfs from an unnamed stream and 0.05 cfs from a spring for the irrigation of 7.8 acres with a date of priority of September 8, 1970. A print of the related final proof survey map is enclosed. This map shows the location of the sources of water and lands allowed the right. It will be necessary for you to advise us of your intentions in regards to this existing right. If this existing right has been intentionally abandoned or forfeited through nonuse for five successive years, it will be necessary for you to provide for clearing it from our records before your new Application 64539 can be considered for approval.

If you wish to submit prints of a map to support each application, it will be necessary to submit four prints of the map to support each application. Each map will need to be further completed to illustrate the location of each house site or mobil home site and illustrate the location of the acreage to be irrigated from each source to be in agreement with the information to be supplied in Item 3 of the applications. The number of acres to be irrigated in each quarter-quarter section must be noted on the maps and in Item 3 by quarter-quarter section to be in agreement.

Your applications should be prepared on the original forms furnished by this office instead of the copies you submitted. Therefore, instead of amending the applications you submitted, it may be best to complete the enclosed blank application forms and submit them as superseding applications. If the superseding applications are submitted, it will be necessary for you to also return your original applications in order to retain the date of priority you have established.

Richard L. Blandau
January 19, 1983
page three

I am returning your applications and maps for correction and completion. If you should have any questions, you may call on the above toll-free message line, leave your name, file numbers, telephone number and request that I return your call.

Your Applications are endorsed so that in order to retain their priority dates they must be received in this office on or before March 21, 1983.

Sincerely,

WAYNE J. OVERCASH
Senior Water Rights Examiner

Brookings, OR 97415

Dear Mr. Blandau:

REFERENCE: Files 64538 and 64539.

We have received your applications for use of water for home, garden and irrigation along with the supporting data and fees. Our Receipts 33751 and 33752 are enclosed. Your applications have been filed and assigned numbers 64538 and 64539.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will be considered for approval shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your applications are approved, the projects described in the applications will be subject to the Water Policy Review Board's Basin Program statements, existing minimum flows and demands of prior rights during periods of low water.

Sincerely,

RALPH H. JACKSON, Supervisor
Application/Permit Section
