SUBJECT: Specific to General Industrial Notification – Certificates 64321 and 47568

Dear Hampton Lumber Mills Inc,

We have received your letter of March 19, 2026, notifying the Department that Hampton Lumber Mills Inc. is changing from the specific industrial uses of Surface water under Certificates 64321 and 47568 to general industrial uses.

Any general use (new use) of water will continue to occur within the property of the original water right, and the quantity of water used for general industrial purposes will not be greater than the rates and volumes allowed under the original water rights.

The requirements for making the change are established under ORS 540.520(9) and OAR 690-380-2340. Your letter appears to include all of the information required under the statutes and rules. We will file your notifications in our water right records.

Current statutes and rules do not include a process for Department review and approval of notifications of specific to general industrial changes. Any issues associated with eligibility and compliance will be addressed by the Watermaster during normal distribution and regulation activities.

Please do not hesitate to contact me at 503-986-0892 or [Joan.M.Smith@water.oregon.gov](mailto:Joan.M.Smith@water.oregon.gov) if I may be of assistance.

Sincerely,

*Joan M. Smith*

Estate of W. C. Tremblay  
Willamina, Oregon

Dear Madam:

If you will sign and date the enclosed final proof on its second sheet and return the proof to this office, together with the statutory certificate recording fee of \$1.00, a certificate confirming the right under your Permit No. 13481, covering a use of 1.0 second-foot of water from Willamina Creek for a log pond, fire protection and saws, will be issued.

These figures indicate the extent and limit of your water right as provided by law, and mark the completed right.

In the interest of economy and due to the fact that your completed project was examined by a representative of this office, it is not considered necessary that your signature be made before a notary public, nor that the signatures of witnesses be affixed to the proof.

Very truly yours,

Miss Edna Johnson  
Willamina, Oregon

Dear Miss Johnson:

If construction was commenced under Permits No. R-725 and No. 13481 in the name of W. C. Tremblay, on or before April 7, 1940, and if construction was completed on or before October 1, 1941, the permits can be placed in good standing by reporting beginning and completion of construction by filling out the enclosed forms and mailing them to this office, as explained in our letters of January 30 and March 2.

If construction was not commenced on or before April 7, 1940, the permits are subject to cancellation as provided by law, and it will be appreciated if you will advise us in this connection and authorize cancellation of the permits if construction was not commenced within the statutory period.

The permits in question cover the construction of a log pond and use of water for boiler, fire protection and saws.
