NARRATIVE

This drawing represents a compilation of several county surveys along with the field measured length of the north line of the NE 1/4 of section 23. Surveys used are Galloway 14-B#9, CS 6529 - Lemke, and CS 7446 by myself. The partition lines were field located tying existing fences and the E of the creek. Tracts (A), (B), and (C) were surveyed in CS 6529. I used the record distances from that survey, rotated bearings to mine, then forced a mathematical closure on one course. No attempt was made to analyze differences between surveys. This is not a boundary survey of the property shown.
