

**Application for
Extension of Time
for a Water Right Permit
(NON-Municipal/ NON-Quasi-
Municipal/ NON-Domestic)**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266

www.oregon.gov/OWRD

Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to **(1) complete construction**, and/or to **(2) apply water to beneficial use**. (The request cannot be approved for more than two years from the date of the extension.)

In order to approve a permit extension request the Department must be able to find:

1) Construction has begun:

A. For Groundwater Permits

Construction of the well(s), *authorized by the permit*, began within 5 years of the date the permit was issued.

B. For Surface Water or Reservoir Permits

Construction of the water system began within 5 years of the date the permit was issued.

The Department will also confirm that:

- 2) If required, a fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water**. An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

Before submitting your Application for Extension of Time, make sure the following items are included:

- This completed Application for Extension of Time.
- Statutory fee of \$1,170
- Signature page (Second page of this Application for Extension of Time).
- Letter granting an agent authority to act on behalf of the permit holder (*if applicable*)
- All supporting documentation and/or evidence referenced in the Application for Extension of Time. (ODFW Fish screen approval or waiver, contract for stored water, etc)

MAIL COMPLETED APPLICATION

along with the Supporting documents and/ or evidence and correct fee to:

**Water Resources Department
Attn: Water Right Permit Extensions

Salem, OR**

GENERAL TIPS:

- Permit holders of **municipal, quasi-municipal, or domestic water use permits DO NOT use this form**. The correct form is APPLICATION FOR EXTENSION OF TIME FOR MUNICIPAL AND QUASI-MUNICIPAL WATER USE PERMITS.
- Request the amount of time necessary, not to exceed two years, to complete construction of the water project and/or to use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be the final extension of time authorized. ORS 537.230 & 630 [Section 27, Chapter 282, Oregon Laws 2025]
- A separate APPLICATION FOR EXTENSION OF TIME must be submitted for each permit. OAR 690-315-0020(2).
- Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at the State of Oregon, Secretary of State Website. To be granted an extension of time, the Department must make four specific findings; 1) the application is complete, 2) construction of the water system began within the time specified in the permit and applicable statute, 3) there is good cause, and 4) the project can be completed within the time being requested. If the Department cannot make all four findings, the extension of time cannot be approved.
- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 690-315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights Services Division.

- An Application for an Extension of Time will be reviewed for completeness. A response is required for each item contained in the application. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

Reference Materials Needed to Complete this Application:

- **The water right permit.** If needed, a copy of the water right permit can be downloaded from the Department’s Website, or, a copy of the permit may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- **Previous Applications and Orders.** Copies of previous applications and orders that may inform the completion of the Application for Extension of Time, if available, may be downloaded from the Department’s Website. **NOTE: If the document requested is not available on the Department’s website, you may submit a Public Record Request to obtain any additional information available in the file.**
- **Documentation which demonstrates compliance with permit conditions** (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

2a. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2nd column are contained within it. Using the extra row labeled "other" to specify any other additional conditions included in the permit, or specified in a final order approving a permit amendment or prior extension of time. In the 1st column check the box for each condition (row) identified as relevant. In the 3rd column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4th column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

Applying the water to beneficial use with the static water level measurements started and the meter in place.

13. Justify the time requested to complete the project and/or apply the water to full beneficial use. (Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.)

The time requested is to ensure irrigation of the entire area following the installation of the required meter, as some planting areas are rotated.

[OAR 690-315--0020(3)(l)]

14a. Will a denial of the extension result in undue hardship? (Describe the hardship and the effects.)

Yes. The property has been irrigated ever since the permit was issued.

Crops grown for family use: corn, beans, peas, onions, peppers, lettuce varieties, carrots, beets, tomatoes, pumpkins, watermelon, squash, radishes, broccoli, cabbage, potatoes, strawberries, raspberries, kiwi, citrus tree in the greenhouse, fruit trees in west field - apple, pear, plum, cherry and peach. Other crops that have been grown include blueberries and arborvitae nursery stock.

14b. Are there any other reasonable alternatives that exist for meeting your water use needs? (Explain in detail, consider other potential sources of water, and describe their feasibility)

Groundwater is the only source of water at this site.

15. Was the delay in the timely completion of this water development project and/or timely application of water to full beneficial use caused by any additional government requirements, other than the conditions contained within the permit, which significantly delayed the completion and perfection of this right? (Explain in detail, including how much time did this delay the project; list dates.)

Not that I am aware of.

[OAR 690-315-0020(3)(h)]

16. Describe any unforeseen events which contributed to the delay of completion of this project that you had no control over. (Explain in detail what the unforeseen events were (i.e. health issues, natural disaster) and how much time was spent addressing the unforeseen events. Delays caused by business decisions are not considered unforeseen events)

This water right was acquired by my parents, who are both now deceased. I was not involved in the process and was unaware, until notice came from OWRD in December of 2023, that there was anything that needed to be done. My consultation with a CWRE in 2024 provided the information about the meter and the static water levels measurements. I acquired the PGE electrical billings, but those did not indicate that there was a dedicated meter that just served the well pump.

[OAR 690-315-0020(3)(h)]

17. Describe any additional reasons why the construction was not completed, and/or water was not beneficially used within permit time limits. (Provide supporting information for the reason(s) that best fits your circumstances.)

I do not know why my father did not complete the permit requirements for the meter or the static water measurements. The OWRD website shows that static water levels were taken but, evidently, no one noticed that the measurements were needed in April – not February (2), March (6), or May (2) – and there were no seven consecutive measurements.

18. Provide any other information you wish OWRD to consider while evaluating your Application for Extension of Time.

I have worked to understand and meet the permit conditions, and was finally able to get a meter installed this February to be in compliance with the last permit condition. Applying irrigation this year and next on all of the acreage, and with all of the permit requirements met is all that is left to do.

As far as I know, all of the system - pump, piping, sprinklers, etc. – was constructed/installed 20-30 years ago and I have no information about what the cost of those components were and can only provide estimates. I am not requesting any additional time to make additions to the existing system.

19. Will the income or use of the water project provide a fair and reasonable return on your investment? (Explain in detail)

Yes. The farm produces most of the vegetables and fruits for multiple local family members.

The property has a training institute on site. Irrigation of the landscaping around those facilities and meeting areas is a valuable element for the institute.

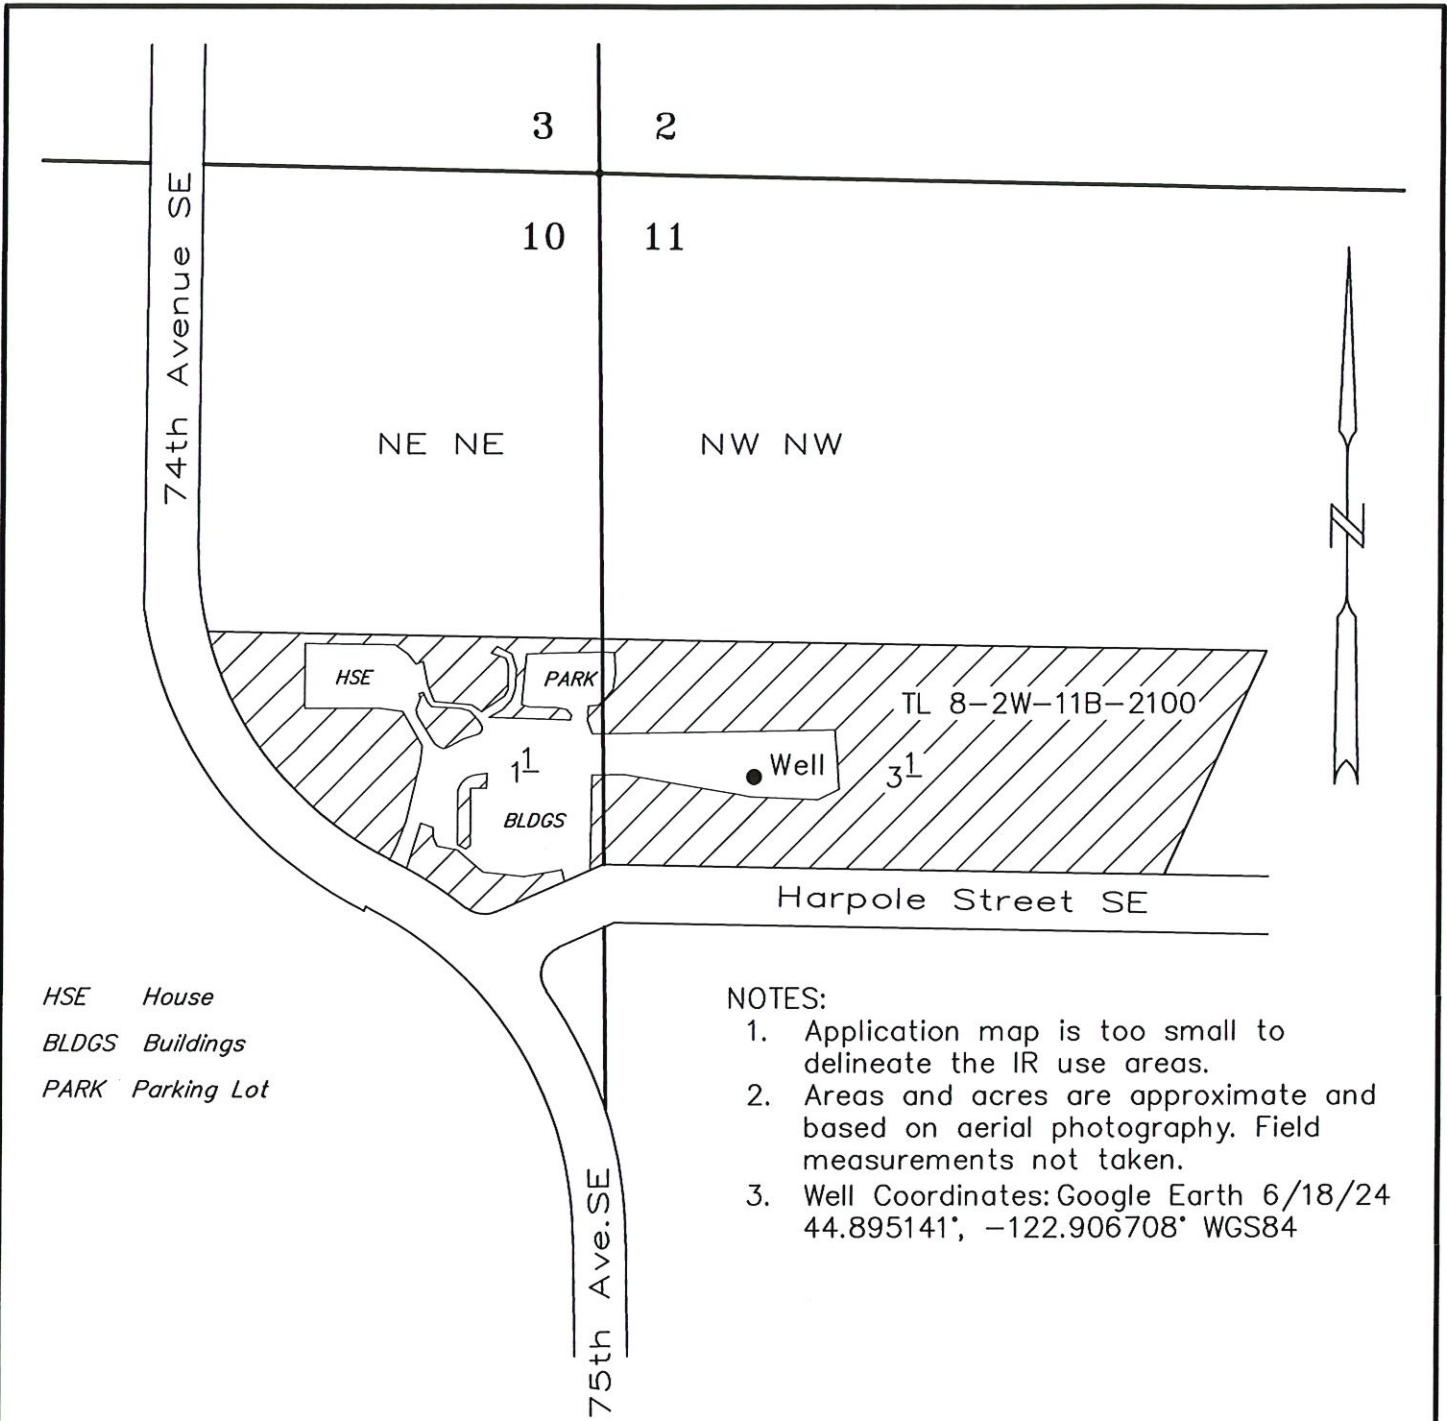

[OAR 690-315-0040(4)(d)]

20. Describe in detail if there are other economic interest, beyond those of the permit holder, which are dependent upon the completion of this project. *(Who will be affected and how?)*
