I (We) make application for a Limited License to use the following described surface waters or groundwater – not otherwise exempt, or to use stored water for a use of a short-term or fixed-duration:

1. **SOURCE(S) OF WATER:** TRAIL BRIDGE RESERVOIR a tributary of MCKENZIE RIVER
2. **AMOUNT OF WATER** to be diverted;
   Maximum and instantaneous rate (cubic feet or gallons per minute): 100 GPM
   Total volume annually (gallons or acre-feet): 4,000 GAL/DAY. If water is to be used from more than one source, give the quantity from each:
3. **INTENDED USE(S) OF WATER:** (check all that apply)
   - [X] Road construction or maintenance
   - [X] General construction
   - [ ] Forestland and rangeland management; or
   - [X] Other: FIRE PROTECTION / DUST MITIGATION.
4. **IF THE INTENDED USE OF WATER IS FOR IRRIGATION, ONE OF THE FOLLOWING MUST APPLY:** (check one of the following)

   N/A

   - [ ] Irrigation if the sole purpose of the use is to provide water necessary **to establish a crop** for which no further irrigation will be required after the crop is established. ORS 537.143 (6)(a).
   - [ ] Irrigation if the use of water under the limited license is for the **use of stored water** consistent with the purposes for which the stored water is authorized and the use of water is authorized by a contract between the user and a local, state or federal government. ORS 537.143 (9).
5. **DESCRIPTION OF PROPOSED PROJECT:** Include a description of the place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines: ATTACHED
6. **PROJECT SCHEDULE:** (List day, month, and year)
   Date water use will begin: 6/22/26
   Date water use will be completed: 10/1/26
   Months of the year water would be diverted and used: JUNE 2026 – OCTOBER 2026

Received by OWRD
JUN 15 2026
Salem, OR

If for other than irrigation from stored water, how and where will water be discharged after use:
WATER TRUCK TO SPRAY ROADS & SURFACES UNDER CONSTRUCTION

Date

PLEASE READ CAREFULLY

NOTE: A completed water availability statement from the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-340-030 must accompany this request. The fee for this request is **$280** for the first point of diversion plus **$30** for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

Failure to provide any of the required information will result in return of your application. The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tired to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

Mapping Requirements (OAR 690-340-0030):

(1) A request for a limited license shall be submitted on a form provided by the Water Resources Department, and shall be accompanied by the following:

a. A site map of reproducible quality, drawn to a standard, even scale of not less than 2 inches = 1 mile, showing:

i. The locations of all proposed points of diversion referenced by coordinates or by bearing and distance to the nearest established or projected public land survey corner;

ii. The general course of the source for the proposed use, if applicable;

iii. Other topographical features such as roads, streams, railroads, etc., which may be helpful in locating the diversion points in the field.

Salem, OR

LL-2031

This page to be completed by the local Watermaster.

WATER AVAILABILITY STATEMENT

Name of Applicant: Wildish Construction Co. Limited License Number: LL-2031

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights?

☐ Yes ☒ No

If yes, please explain:

2. Based on your observations, would there be water available in the quantity and at the times needed to supply the use proposed by this application?

☐ Yes ☒ No

Based on Water Availability, water is not available July, September, or October.

3. Do you observe this stream system during regular fieldwork?

☐ Yes ☒ No

If yes, what are your observations for the stream?

4. If the source is a well and if WRD were to determine that there is the potential for substantial interference with nearby surface water sources, would there still be ground water and surface water available during the time requested and in the amount requested without injury to existing water rights?

☐ Yes ☐ No ☒ N/A

What would you recommend for conditions on a limited license that may be issued approving this application?

5. Any other recommendations you would like to make?

In the months that water is not available, water must come from an alternative legal source such as a municipal bulk water source or groundwater, up to 5000 gallons per day, under the commercial groundwater exemption ORS 537.545(1)(f). If bulk water is used receipts must be retained and provided to the Watermaster. If groundwater is used, the water user shall inform the Watermaster and provide the Well Log and lat./long prior to water use begining.

Land Use Information Form

OREGON WATER RESOURCES DEPARTMENT
Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

Received by OWRD
JUN 15 2026
Salem, OR

NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the "Receipt Acknowledging Request for Land Use Information" to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD's acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

This form is NOT required if:

1) Water is to be diverted, conveyed, and used on federal lands only; **OR** ← Water is being conveyed and/or used on Federal Lands.

2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
   - **a.** The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
   - **b.** The application involves a change in place of use only;
   - **c.** The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
   - **d.** The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the "Receipt Acknowledging Request for Land Use Information" and return it to the applicant.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD_DL_customerservice@water.oregon.gov.

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:	Proposed Land Use:
						☐ Diverted ☐ Conveyed ☐ Used	
						☐ Diverted ☐ Conveyed ☐ Used	
						☐ Diverted ☐ Conveyed ☐ Used	
						☐ Diverted ☐ Conveyed ☐ Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

NOTE: A separate Land Use Information Form must be completed and submitted for each county and city, as applicable.

B. Description of Proposed Use

Type of application to be filed with the Oregon Water Resources Department:

☐ Permit to Use or Store Water ☐ Water Right Transfer ☐ Permit Amendment or Ground Water Registration Modification
☒ Limited Water Use License ☐ Exchange of Water ☐ Allocation of Conserved Water

Source of water: ☐ Reservoir/Pond ☐ Ground Water ☐ Surface Water (name) _____

Estimated quantity of water needed: 4,000 GAL/DAY ☐ cubic feet per second ☐ gallons per minute ☐ acre-feet

Intended use of water: ☐ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for _____ household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☒ Other CONSTRUCTION

Briefly describe:

TRAIL BRIDGE DEBRIS BOOM & BOAT RAMP - WATER WILL BE USED FOR FIRE PROTECTION, DUST MITIGATION & ROAD CONSTRUCTION.

Note to applicant: For new water right applications only, if the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt on the bottom of page 4 and include it with the application filed with the Oregon Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

☐ Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____

☐ Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.

SECTION 01 11 00
SUMMARY OF WORK FOR THE TRAIL BRIDGE DEBRIS BOOM AND BOAT RAMP

Received by OWRD
JUN 15 2026
Salem, OR

PART 1 GENERAL

1.01 SUMMARY

A. General:

1. The Work covered under this Contract will be performed at the Carmen-Smith Fish Passage Project, at the following locations within the Project:
   a. Trail Bridge Reservoir.
   b. Areas defined on Civil Drawings for construction staging, utilities, and parking.
   c. All associated work to complete construction of the items listed below.

Wildish Construction Work

B. Summary of Project:

1. Trail Bridge Debris Boom:
   a. Contractor's work will include installation of Owner furnished debris boom, lead line, fuse links, lead buoy, clump weight, and connections to the concrete anchor blocks. Construction of the concrete anchor blocks are part of the Contractor's work.
   b. Debris boom that extends into Trail Bridge Reservoir to protect the Trail Bridge Service Spillway from debris.
   c. Debris boom lead line that extends from the upstream end of the boom to the lead anchor.
   d. Debris boom anchors consisting of a left concrete anchor that is supported on rock anchors, a right concrete anchor that requires a built-up earth and rock foundation under the anchor, and a lead anchor that will be supported by rock anchors and located adjacent to Highway 126.
   e. Debris boom boat access gate to allow an EWEB boat to access both sides of the boom.
2. Trail Bridge Boat Ramp: This is an existing boat ramp to the right of the Trail Bridge Dam. The boat ramp is being regraded and resurfaced as part of this project and will be used to remove debris from this end of the debris boom. The immediate approach road to the boat ramp is also being resurfaced as part of this project.

RE: Limited Water Use License
Contract #002-2011-PW
Construction Task Order #31 – Trail Bridge Debris Boom and Boat Ramp

Dear Mr. Pargeter:

Eugene Water & Electric Board (EWEB) has contracted Wildish Building Co. for work at the location identified in the Application for Limited Water Use submitted by Wildish Construction Company. EWEB is aware of Wildish's request to withdraw water from the Trail Bridge Reservoir pool at an estimated rate of 100 gpm with a total volume of 275,000 gallons for filling a water truck with a ~2-3 hp water pump with fish screen. The purpose of the requested water is for construction of three concrete anchor block, boat ramp, dust control, and fire suppression as needed. The project schedule in the application is between June 2026 through November 2026.

Eugene Water & Electric Board supports and is in agreement with Wildish's withdrawal of water from Trail Bridge Reservoir for these purposes and within the limits described above

If there are any questions, please contact EWEB's Contract Administrator/ Project Manager, Dan Olmstead at dan.olmstead@eweb.org or (541) 359-5746

Sincerely,
Dan Olmstead
