

**Application for
Extension of Time
for a Water Right Permit
(NON-Municipal/ NON-Quasi-
Municipal/ NON-Domestic)**

Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to (1) complete construction, and/or to (2) apply water to beneficial use. (The request cannot be approved for more than two years from the date of the extension.)

In order to approve a permit extension request the Department must be able to find:

1) Construction has begun:

A. For Groundwater Permits

Construction of the well(s), *authorized by the permit*, began within 5 years of the date the permit was issued.

B. For Surface Water or Reservoir Permits

Construction of the water system began within 5 years of the date the permit was issued.

The Department will also confirm that:

- 2) If required, a fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water. An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

the permit holder of: Application Number G-18164

Permit Number G-17661
 [OAR 690-315-0020(3)(b)]

do hereby request that the date by which the water development will be completed and water put to full beneficial use, which time now expires on Month: 10 Day: 13 Year: 2021, be extended to Month: 10 Day: 1 Year: 2029, **extension of time may be approved for no more than two years from the date the final order is issued** [Section 27, Chapter 282, Oregon Laws 2025]

I am the permit holder, and may apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension.

 Permit Holder Initials

Before submitting your Application for Extension of Time, make sure the following items are included:

- This completed Application for Extension of Time.
- Statutory fee of \$1,170
- Signature page (Second page of this Application for Extension of Time).
- Letter granting an agent authority to act on behalf of the permit holder (*if applicable*)
- All supporting documentation and/or evidence referenced in the Application for Extension of Time. (ODFW Fish screen approval or waiver, contract for stored water, etc)

MAIL COMPLETED APPLICATION

along with the Supporting documents and/ or evidence and correct fee to:

**Water Resources Department
Attn: Water Right Permit Extensions
725 Summer Street NE, Suite A
Salem, Oregon 97301**

GENERAL TIPS:

- Permit holders of **municipal, quasi-municipal, or domestic water use permits DO NOT use this form.** The correct form is APPLICATION FOR EXTENSION OF TIME FOR MUNICIPAL AND QUASI-MUNICIPAL WATER USE PERMITS.
- Request the amount of time necessary, not to exceed two years, to complete construction of the water project and/or to use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be the final extension of time authorized. ORS 537.230 & 630 [Section 27, Chapter 282, Oregon Laws 2025]
- A separate APPLICATION FOR EXTENSION OF TIME must be submitted for each permit. OAR 690-315-0020(2).
- Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at the State of Oregon, Secretary of State Website. To be granted an extension of time, the Department must make four specific findings; 1) the application is complete, 2) construction of the water system began within the time specified in the permit and applicable statute, 3) there is good cause, and 4) the project can be completed within the time being requested. If the Department cannot make all four findings, the extension of time cannot be approved.
- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 690-315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights Services Division.
- An Application for an Extension of Time will be reviewed for completeness. A response is required for each item contained in the application. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

Reference Materials Needed to Complete this Application:

Received
JUN 15 2026
OWRD

- **The water right permit.** If needed, a copy of the water right permit can be downloaded from the Department's Website, or, a copy of the permit may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- **Previous Applications and Orders.** Copies of previous applications and orders that may inform the completion of the Application for Extension of Time, if available, may be downloaded from the Department's Website. **NOTE: If the document requested is not available on the Department's website, you may submit a Public Record Request to obtain any additional information available in the file.**
- **Documentation which demonstrates compliance with permit conditions** (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

Questions to complete this application for an Extension of Time

Please see the instruction sheet to help you answer these items.

1. Beginning Construction within required deadlines. OAR 690-315-0020(3)(d)

For Groundwater Permits

Has construction of the point of appropriation (well) authorized under this permit begun?

☒ Yes ☐ No

Date construction began Month: 10 Day: 27 Year: 1963

Details of construction and attach documentation: Began construction of a water well on the property (LINN 7035).

For Surface/Reservoir Permit

Has construction of the water system begun? ☐ Yes ☐ No

Date construction began Month: _____ Day: _____ Year: _____

Details of construction and attach documentation: _____

Received
JUN 15 2026
OWRD

2a. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2nd column are contained within it. Using the extra row labeled "other" to specify any other additional conditions included in the permit, or specified in a final order approving a permit amendment or prior extension of time. In the 1st column check the box for each condition (row) identified as relevant. In the 3rd column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4th column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

CHART-A

Permit Conditions in this Permit		Have Completed or Met?	Date satisfied/ or will be satisfied
Checkbox	Ground water Check those included on this permit		
☒	Installation of a meter/totalizing flow meter	☐ Yes ☒ No	2027
☒	Submittal of annual water usage report	☒ Yes ☐ No	
☒	Submittal of static water level measurements in the month required	☐ Yes ☒ No	March 2027, or when well is deepened to produce from the target aquifer
☐	Special well construction standards	☐ Yes ☐ No	
☐	Submittal of a monitoring plan	☐ Yes ☐ No	
☒	Well ID tag assigned and installed:	☐ Yes ☒ No	March 2027, or when well is completed.
☐	Other (Specify):	☐ Yes ☐ No	
☐	Other (Specify):	☐ Yes ☐ No	
Surface Water or Reservoir

2b. If you have identified that you have NOT complied with Permit conditions, explain the reasons why and indicate a date certain, when you will be in compliance.

The permit holder intended to modify (deepen) the existing well on the property, LINN 7035, to target the marine sedimentary aquifer (depth of approximately 200 feet); however, due to unforeseen events (refer to Item #16), this work was not completed. Following an approved time extension, the permit holder will deepen and/or drill new/additional well(s) (2027 est.). Following drilling of the well(s), the permit holder will ensure that a well ID tag is assigned (2027 est.), a flow meter is installed at each well (2027 est.), an initial static water level is made (March 2027), and an annual static water level is made (March 2028).

[OAR 690-315-0020(3)(e)]

3. Provide evidence of physical work made toward completion of the water system, and of progress made toward making beneficial use of water within the permitted time period (CHART-B); and if applicable, within the time period of the most recent extension granted (CHART-C). CHART-B (below) must be completed for all Application for Extension of Time requests. *Use chronological order.* Itemize each work item, and do not combine multiple work actions in one area. (Planning, formulating a business plan, securing financing, letting contracts, purchasing but not installing equipment, surveying, clearing land, or planting crops *is not considered work in the development of the water system. Work accomplished under other water rights may not be considered work under this permit.*)

CHART-B

DATE	WORK ACCOMPLISHED BEFORE PERMIT WAS ISSUED <i>List any work done before the permit was issued – e.g. well drilled.</i>	COST*
10/28/1963	Initial well construction work for the water system, including drilling of LINN 7035.	\$30,000 ^A
DATE	WORK ACCOMPLISHED AFTER PERMIT WAS ISSUED and PRIOR TO DATE SPECIFIED IN PERMIT FOR COMPLETE APPLICATION OF WATER <i>List work/actions done during the permitted time period.</i>	COST*
10/13/2016	Date the permit was signed - find date above signature on last page of permit.	
2015-2016	Tiling of the place of use and associated groundwork in preparation for planting of hazelnut orchard.	\$375,081 ^A
2016-2022	Completed water use reporting for the permit as required by the permit	\$500
10/13/2021	Date the permit specified complete application of water to the use shall be made- all permits contain this date.	
DATE	WORK ACCOMPLISHED AFTER the date the permit specified complete application of water and prior to any previous extension order <i>COMPLETE ONLY IF THIS IS YOUR 1st APPLICATION FOR AN EXTENSION OF TIME: List work done after the date specified in the permit for complete application of water up to the date of this Application for Extension of Time.</i>	COST*
2026	Prepared and submitted and extension of time application	\$4,000
Total Cost for Chart-B		\$409,581

* If exact cost is not known, you must provide your best estimate.

4. If this is not your 1st Application for Extension of Time request, fill out CHART-C below in addition to CHART-B above. *Use chronological order.*

N/A – this is the first extension of time application for the permit.

CHART-C

DATE	WORK ACCOMPLISHED DURING THE LAST EXTENSION PERIOD <i>List all work done during the last authorized extension period.</i>	COST*
	"Extended From" date for complete application of water used in the most recent Final Order on Extension of Time.	
	"Extended To" date for complete application of water resulting from the most recent Final Order on Extension of Time.	
DATE	WORK ACCOMPLISHED AFTER THE LAST EXTENSION PERIOD EXPIRED <i>List all work done after the last authorized date for complete application of water up to the date of this Application for Extension of Time.</i>	COST*
Total Cost of Chart-C		

* If exact cost is not known, you must provide your best estimate. [OAR 690-315-0020(3)(f)]

5. Cost of project to date: \$409,851

(The total combined cost from CHART-B and CHART-C) [OAR 690-315-0020(f)]

[OAR 690-315-0020(3)(e)(B)]

Provide evidence of the maximum rate (or duty, if applicable) of water diverted for beneficial use under this permit made to date.

TIP: Report the rate used to date. Unless full beneficial use has been made, this rate will be less than the rate authorized on the permit.

6. For Surface Water Permit Extensions (e.g. S-XXXX or R-XXXX): **N/A**

TIP: Report the rate in the same units of measurement as specified in the permit.

Maximum rate used to date = _____ cfs (cubic feet per second) or,

Maximum rate used to date = _____ gpm (gallons per minute) or,

Maximum volume of stored water used to date = _____ AF or,

Maximum volume stored annually to date = _____ AF

10. In the chart below provide a summary of your future plans and schedule to complete the construction of the water system, and/or apply water to full beneficial use under the terms and conditions of the permit.

CHART-E

APPROXIMATE DATE RANGE (projected)	WORK OR ACTION TO BE ACCOMPLISHED (projected)	ESTIMATED COST (projected) ^A
2027	File permit amendment to adjust the location for Well 1 to make the actual location.	\$7,000
2027	Deepen Well 1 to produce groundwater from the target aquifer (marine sedimentary aquifer at a depth of approximately 200 feet) ^B	\$30,000
2027-2028	Purchase and install a well pump system for Well 1, and begin installation of the irrigation system for the place of use.	\$130,000
March 2028	Static water level measurement from Well 1	\$500
2028	Drill and construct Well 2, and purchase and install a well pump system.	\$40,000
2028	Complete construction of the irrigation system for the place of use	\$120,000
December 2028	Annual reporting of monthly water use	\$300
March 2029	Static water level measurement for Well 1 and Well 2	\$500
2029	Prepare and submit claim of beneficial use report and map	\$5,000
Year: 2029	Date intend to apply water to full beneficial use under the terms and conditions of this permit.	
Total Cost		\$333,300

Notes

^A Presented costs are in 2026 dollars

^B As specified in Application G-18164

[OAR 690-315-0020(3)(g)]

11. Estimated remaining cost to complete the project: \$333,300

(The total cost from CHART-E)

[OAR 690-315-0020(3)(j)]

12. Provide a summary of your plan to complete construction, meeting all permit conditions and apply the water to beneficial use: (List all tasks or steps needed to complete the project, the date when each task will be completed, and the cost associated with each task; attach additional pages if necessary.)

The plan for development of the planned irrigation project during the request extension period includes the following elements:

- File a permit amendment to adjust the location for Well 1 (and Well 2 if needed) (2027)
- Deepen Well 1 so that it produces groundwater from the target aquifer, being the marine sedimentary aquifer at a depth of approximately 200 feet (2027)
- Purchase and install a well pump system for Well 1 (2027-2028)
- Begin installation of the irrigation system for the place of use (2027-2028)
- Drill and construct Well 2, and purchase and install a well pump system (2028)
- Complete installation of the irrigation system for the place of use (2028)
- Prepare and submit a claim of beneficial use report and map to document the extent of development under the permit (2029).

Received
JUN 15 2026
OWRD

[OAR 690-315-0020(3)(k)]

13. Justify the time requested to complete the project and/or apply the water to full beneficial use. *(Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.)*
The plan for development as described in Item #12 and Chart-E involves a step-wise approach to be implemented during the requested extension period. This plan provides sufficient time to develop the planned irrigation project given the constraints of the time that will be allowed by the permit time extension process.

[OAR 690-315--0020(3)(l)]

14a. Will a denial of the extension result in undue hardship? *(Describe the hardship and the effects.)*
A denial of the extension would result in undue hardship because there is no other viable source of water for the planned irrigation project (see Item 14b). The inability to develop the planned irrigation project would reduce the value of the associated property and the expected return on investment (income) from the completed project.

14b. Are there any other reasonable alternatives that exist for meeting your water use needs? *(Explain in detail, consider other potential sources of water, and describe their feasibility)*
This area is not served by an irrigation district or other water supplier, and hauling water would be impracticable and cost prohibitive. Due to the location of the property, the only practical source of water is groundwater. Filing of an application for a new groundwater permit would require more investment of time and financial resources than would be required by seeking an extension of this existing permit.

[OAR 690-315-0020(3)(h)]

15. Was the delay in the timely completion of this water development project and/or timely application of water to full beneficial use caused by any additional government requirements, other than the conditions contained within the permit, which significantly delayed the completion and perfection of this right? *(Explain in detail, including how much time did this delay the project; list dates.)*
No.

[OAR 690-315-0020(3)(h)]

16. Describe any unforeseen events which contributed to the delay of completion of this project that you had no control over. *(Explain in detail what the unforeseen events were (i.e. health issues, natural disaster) and how much time was spent addressing the unforeseen events. Delays caused by business decisions are not considered unforeseen events)*
Planning and initial work for the irrigation project began in 2015, including filing of the groundwater permit application in November 2015 and tiling of the place of use and associated groundwork in preparation for planting of hazelnut orchard. In 2017, a family member was diagnosed with terminal cancer, which halted financial investment in the irrigation project as available funding, time, and resources were reallocated to supporting the family member from 2017-2018. Work on the irrigation project was scheduled to resume in 2019; however, the COVID-19 pandemic and ensuing deteriorating economic and market conditions resulted in further unforeseen delays in the project from 2019 - 2021. The applicant was not aware of the opportunity to apply for an extension of the permit until recently,

Received
JUN 15 2026

OWRD

so unfortunately, no action was taken on the permit once the original permit development deadline (10/13/2021) passed.

[OAR 690-315-0020(3)(h)]

17. Describe an additional reasons why the construction was not completed, and/or water was not beneficially used within permit time limits. *(Provide supporting information for the reason(s) that best fits your circumstances.)*

N/A

[OAR 690-315-0020(3)(m)(n)]

18. Provide any other information you wish OWRD to consider while evaluating your Application for Extension of Time.

N/A

[OAR 690-315-0040(2)(f)]

19. Will the income or use of the water project provide a fair and reasonable return on your investment? *(Explain in detail)*

This project is a business venture, and as such, the financial investment made in the project is intended to provide a fair and reasonable return of income for continued operation of the business.

[OAR 690-315-0040(4)(d)]

20. Describe in detail if there are other economic interest, beyond those of the permit holder, which are dependent upon the completion of this project. *(Who will be affected and how?)*

The project will provide benefits to the local economy by utilizing local manufacturers and suppliers of irrigation equipment and supplies, as well as local contractors and laborers in the development of the project and in the ongoing operations of the irrigation project.
