Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Dear Mr. & Mrs. Schultz,

Your application for an extension of the time limits in which to complete construction and make complete application of water under the terms of your permit number 39807 has been received. We also have your check in the amount of \$10.00.

The Water Resources Director is authorized to allow an extension of the time limits only upon a showing by the holder of the permit that reasonable diligence has been exercised toward completion of the project within the time limits allowed.

From the information given in your application, it is questionable whether sufficient diligence has been shown to justify the requested extension. However, you are being given the benefit of the doubt and the time limits to complete construction and make complete application of water are being extended to October 1, 1979, to allow you the opportunity to complete the appropriation.

You should make every attempt to complete your project on or before that date because it is doubtful if any further extensions can be granted.

Sincerely,

Bruce A. Estes, Supervisor
