I (We) make application for a Limited License to use the following described surface waters or groundwater – not otherwise exempt, or to use stored water for a use of a short-term or fixed-duration:

1. SOURCE(S) OF WATER: Proposed Well a tributary of Trout Creek
2. AMOUNT OF WATER to be diverted; (well)
Maximum and instantaneous rate (cubic feet or gallons per minute): 100 gal/min
Total volume annually (gallons or acre-feet): 10.3 ac/ft. If water is to be used from more than one source, give the quantity from each: _____
3. INTENDED USE(S) OF WATER: (check all that apply)
☐ Road construction or maintenance
☐ General construction
☒ Forestland and rangeland management; or
☒ Other: temporary irrigation to establish native vegetation
4. IF THE INTENDED USE OF WATER IS FOR IRRIGATION, ONE OF THE FOLLOWING MUST APPLY: (check one of the following)
☒ Irrigation if the sole purpose of the use is to provide water necessary to establish a crop for which no further irrigation will be required after the crop is established. ORS 537.143 (6)(a).
☐ Irrigation if the use of water under the limited license is for the use of stored water consistent with the purposes for which the stored water is authorized and the use of water is authorized by a contract between the user and a local, state or federal government. ORS 537.143 (9).
5. DESCRIPTION OF PROPOSED PROJECT: Include a description of the place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines:
6. PROJECT SCHEDULE: (List day, month, and year)
Date water use will begin: September 1, 2026
Date water use will be completed: October 31, 2031
Months of the year water would be diverted and used: moving forward - April through Oct

I (We) make application for a Limited License to use the following described surface waters or groundwater – not otherwise exempt, or to use stored water for a use of a short-term or fixed-duration:

- SOURCE(S) OF WATER:** Trout Creek a tributary of Deschutes River
- AMOUNT OF WATER** to be diverted; (well)
Maximum and instantaneous rate (cubic feet or gallons per minute): 100 gal/min
Total volume annually (gallons or acre-feet): 10.3 ac/ft. If water is to be used from more than one source, give the quantity from each: _____
- INTENDED USE(S) OF WATER:** (check all that apply)
 - ☐ Road construction or maintenance
 - ☐ General construction
 - ☒ Forestland and rangeland management; or
 - ☒ Other: temporary irrigation to establish native vegetation
- IF THE INTENDED USE OF WATER IS FOR IRRIGATION, ONE OF THE FOLLOWING MUST APPLY:** (check one of the following)
 - ☒ Irrigation if the sole purpose of the use is to provide water necessary to establish a crop for which no further irrigation will be required after the crop is established. ORS 537.143 (6)(a).
 - ☐ Irrigation if the use of water under the limited license is for the use of stored water consistent with the purposes for which the stored water is authorized and the use of water is authorized by a contract between the user and a local, state or federal government. ORS 537.143 (9).
- DESCRIPTION OF PROPOSED PROJECT:** Include a description of the place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines:
- PROJECT SCHEDULE:** (List day, month, and year)
Date water use will begin: September 1, 2026
Date water use will be completed: October 31, 2031
Months of the year water would be diverted and used: moving forward - April through Oct

Description of Proposed Project:

Trout Creek Ranch is a 3000-ac former working ranch that is co-owned by PGE and the CTWS for the purpose of upland restoration, wildlife habitat, and protection of important Steelhead spawning habitat in Trout Creek. The ranch is adjacent to Trout Creek, a short distance above the confluence with the Deschutes River. When purchased, the existing water right that was attached to the ranch was put back in stream.

We are planning to drill a new well near the barn (marked on the map) and use that well to convey water, via irrigation, for the purpose of re-establishing native vegetation in the former cattle pastures. Based on information we have about the old well (which is not functional), we are anticipating 100 GPM of water, or more, from the new well. The method of conveyance will be K-Line irrigation, attached to a minimal amount of straight line. No ditches will be used. We anticipate a few hundred feet of above ground, temporary, movable piping with K-Line connecting to that. Pipe diameter will be 4-6". A 5 HP pump will be used to pump water from the well.

NOTE: A Water Availability Statement Form completed by the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-305-0010 must accompany this request. The fee for this request is \$280 for the first point of diversion plus \$30 for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

Failure to provide any of the required information will result in return of your application. The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tied to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

Mapping Requirements (OAR 690-305-0010):

A request for a limited license shall be submitted on a form provided by the Water Resources Department, and shall be accompanied by the following:

A map of reproducible quality, drawn to a standard, even-numbered scale and one-inch shall not exceed 1320 feet, showing:

- Township, range, section, quarter-quarter, and tax lot(s), donation land claims, or government lots where water will be diverted, conveyed, and used.
- Location of each point of diversion referenced by distance and bearing or by coordinates (distance north or south and distance east or west from a recognized public land survey corner). In addition, latitude and longitude coordinates expressed as degrees-decimal with five or more digits after the decimal (e.g., 42.53764°). The datum used to establish the coordinates shall be indicated on the map. Examples of datums include NAD 83, NAD 27 and WGS84.
- Location of the proposed place of use by township, range, section, and quarter-quarter.
- Mapping scale.
- North directional symbol.
- Legend.

Please refer to [OAR 690-305-0010](#) for a complete listing of the mapping requirements.

WATER AVAILABILITY STATEMENT

Name of Applicant: PGE Limited License Number: 44-2033

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights?

☐ Yes ☒ No

If yes, please explain:

Source is Groundwater. We have not regulated for GW in the 10 miles around this well location. (Outside Deschutes GW Study area)

2. Based on your observations, would there be water available in the quantity and at the times needed to supply the use proposed by this application?

☒ Yes ☐ No

3. Do you observe this stream system during regular fieldwork?

☒ Yes ☐ No

If yes, what are your observations for the stream?

Refer to GW review for Analysis of GW.

4. If the source is a well and if WRD were to determine that there is the potential for substantial interference with nearby surface water sources, would there still be ground water and surface water available during the time requested and in the amount requested without injury to existing water rights?

☐ Yes ☒ No ☐ N/A

What would you recommend for conditions on a limited license that may be issued approving this application?

This use could injure the PGE Instream water right.
(ISWR Held in OWRD trust)

5. Any other recommendations you would like to make? IF Approval Flowmeter required and Usage documented.

Signature [Signature] WM District #: 11 Date: 6-25-26

Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the "Receipt Acknowledging Request for Land Use Information" to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD's acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

This form is **NOT** required if:

- 1) Water is to be diverted, conveyed, and used on federal lands only; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a. The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b. The application involves a change in place of use only;
 - c. The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d. The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the "Receipt Acknowledging Request for Land Use Information" and return it to the applicant.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD_DL_customerservice@water.oregon.gov.

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:			Proposed Land Use:
9	14E	10	SENE	1001	Range	☐ Diverted	☒ Conveyed	☒ Used	wildlife habitat
9	14E	11	NWSW	1001	Range	☒ Diverted	☒ Conveyed	☒ Used	↓
9	14E	11	SWNW	1001	Range	☐ Diverted	☒ Conveyed	☒ Used	↓
						☐ Diverted	☐ Conveyed	☐ Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Jefferson County - Gateway

NOTE: A separate Land Use Information Form must be completed and submitted for each county and city, as applicable.

B. Description of Proposed Use

Type of application to be filed with the Oregon Water Resources Department:

- ☐ Permit to Use or Store Water ☐ Water Right Transfer ☐ Permit Amendment or Ground Water Registration Modification
☒ Limited Water Use License ☐ Exchange of Water ☐ Allocation of Conserved Water

Source of water: ☐ Reservoir/Pond ☒ Ground Water ☐ Surface Water (name) _____

Estimated quantity of water needed: 10.3 ☐ cubic feet per second ☐ gallons per minute ☒ acre-feet

Intended use of water: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for _____ household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☐ Other _____

Briefly describe:

We would like to drill 2 new well for the purpose of re-establishing native vegetation in the old cattle pastures

Note to applicant: For new water right applications only, if the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt on the bottom of page 4 and include it with the application filed with the Oregon Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): UC 20 17.10B
- ☐ Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.
