Robert Rosinski
1024 S. Saint Vrain Ave
Estes Park, CO 80517

Reference: Application G-14677, Permit G-13513

The assignment by proof from Kenneth Dale Knott to Robert Rosinski has been recorded in the records of the Water Resources Department.

The Departments records will now show Robert Rosinski as the permit holder of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 144712 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Sincerely,

Mary F. Bjork
Water Rights Program Analyst
Water Right Services Division

Enclosure: Original Request and Receipt #144712

GENERAL EXCEPTIONS

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records; proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the Land or by making inquiry of persons in possession thereof.
3. Easements, or claims of easement, not shown by the public records; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to water.
4. Any encroachment (of existing improvements located on the subject Land onto adjoining Land or of existing improvements located on adjoining Land onto the subject Land), encumbrance, violation, variation, or adverse circumstance affecting the title that would be disclosed by an accurate and complete land survey of the subject Land.
5. Any lien, or right to a lien, for services, labor, material, equipment rental or workers compensation heretofore or hereafter furnished, imposed by law and not shown by the public records.

SPECIAL EXCEPTIONS

6. Taxes for 2023-24: Total Amount \$3,100.95, Total Unpaid Balance \$2,067.30 plus interest as of the date herein – YET UNPAID.
(Account No. 03S4015BB-200; Code 1507; Ref. No. 18595)

Taxes for 2024-25: \$3,057.42 Total; (minus 3% discount if paid by 11/15/2024), discounted amount due \$2,965.70 - YET UNPAID.
(Account No. 03S4015BB-200; Code 1504; Ref. No. 18595)
7. Taxes for 2023-24: Total Amount \$2,185.72, Total Unpaid Balance \$1,602.86 plus interest as of the date herein – YET UNPAID.
(Account No. 03S4015BB-200Z; Code 1507; Ref. No. 18709)

Taxes for 2024-25: \$2,032.70 Total; (minus 3% discount if paid by 11/15/2024), discounted amount due \$1,971.72 - YET UNPAID.
(Account No. 03S4015BB-200Z; Code 1507; Ref. No. 18709)
8. Rights of the public in and to that portion of the Land lying within the right-of-way of Highway 237.
9. Right-of-Way Easement, including the terms and conditions thereof, granted to Oregon Trail Electric Consumers Cooperative, Inc., a cooperative corporation, dated May 28, 1998, recorded June 2, 1998, as Microfilm Document No. 982684, records of Union County, Oregon, for the right to construct, operate and maintain an electric transmission and/or distribution line across this Land, 15 feet in width.

Received by

FEB 18

Salem, OR

10. Terms and conditions of an apparent appurtenant easement, granted by Partition Plat 2010-0012, dated August 11, 2010, recorded August 23, 2010, as Microfilm Document No. 20102933, Records of Union County, Oregon, for ingress and egress from this Land, 30 foot by 60 foot.

Eastern Oregon Title, Inc. makes no claim as to the insurability of this easement.

11. Terms and conditions of an apparent appurtenant easement, granted on Partition Plat 2010-0012, dated August 11, 2010, recorded August 23, 2010, as Microfilm Document No. 20102933, Records of Union County, Oregon, for ingress and egress from this Land, 10 feet in width.

Eastern Oregon Title, Inc. makes no claim as to the insurability of this easement.

12. Before issuing its policy of title insurance, Eastern Oregon Title, Inc. will require satisfactory evidence that Wallowa Water Corporation

- a. Is validly formed on the date when documents in this transaction are to be signed; And
- b. Is in good standing and authorized to do business in the state or country where the entity was formed.

13. Subject to receiving a copy of the corporate resolution to borrow against this Land by Wallowa Water Corporation.

14. This report does not include a search for financing statements filed in the office of the Secretary of State, and no liability is assumed if a financing statement is filed in the office of the County Clerk covering fixtures wherein the Land is described other than by metes and bounds, the rectangular survey system, or by recorded lot and block.

15. Any unrecorded leases and/or tenancies.

16. Prior to our writing an ALTA Extended Coverage Mortgage's Policy, we must be furnished with the following:

A statement as to parties in possession, and as to any construction, alterations or repairs to the Land within the last six (6) months. Form of affidavit will need to be signed in closing, and exceptions may be taken as to matters shown thereby.

Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose. Eastern Oregon Title, Inc. may do an inspection of the Land, and if there appears to be a problem with encroachments and size of the lot, the lender and the purchaser will be notified and an ALTA inspection by a surveyor will be required.

17. Minerals of whatsoever kind, subsurface and surface substances, including but not limited to coal, lignite, oil, gas, uranium, clay, rock, sand and gravel in, on, under and that may be produced from the Land, together with all rights, privileges, and immunities relating thereto, whether or not appearing in the Public Records or listed in Schedule B. The Company makes no representation as to the present ownership of any such interests. There may be leases, grants, exceptions or reservations of interests that are not listed.

18. Reservations in United States Patents, or in Acts authorizing the issuance thereof.

19. Water rights, claims to water or title to water, whether or not such rights are a matter of public record.

-END OF EXCEPTIONS-

Lisa Felk, Union County Clerk

STATUTORY WARRANTY DEED

(ORS 93.850)

Wallowa Water Corporation Nevada Corporation, with an address of 69753 Highway 237 Cove, Or 97824 ("Grantor"), conveys and warrants to Robert Rosinski whose address is 69753 Highway 237 Cove, Or 97824, ("Grantee"), the following described real property free of encumbrances, except as specifically set forth herein:

Land in UNION County, Oregon, described more particularly in Exhibit A, attached hereto.

SUBJECT TO: the encumbrances described in Exhibit B, attached hereto.

The true consideration for this conveyance is \$100,000.

BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON TRANSFERRING FEE TITLE SHOULD INQUIRE ABOUT THE PERSON'S RIGHTS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010. THIS INSTRUMENT DOES NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY THAT THE UNIT OF LAND BEING TRANSFERRED IS A LAWFULLY ESTABLISHED LOT OR PARCEL, AS DEFINED IN ORS 92.010 OR 215.010, TO VERIFY THE APPROVED USES OF THE LOT OR PARCEL, TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES, AS DEFINED IN ORS 30.930, AND TO INQUIRE ABOUT THE RIGHTS OF NEIGHBORING PROPERTY OWNERS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, AND SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010.

Kenneth Dale Knott

March 24, 1938 - July 30, 2023

Kenneth Dale Knott, of Cove, Oregon, passed into heaven on July 30, 2023, at his home in Boulder City, Nevada.

Ken was born March 24, 1938, in Fullerton, California, to Russell and Mildred Knott. He was educated in California, attended college in Arizona, then graduated with his degree from California State Fullerton.

Growing up, Ken spent a lot of time on the family's ranch in 29 Palms, California. He loved riding horses and working on the ranch. He spent all of his young years outdoors, and that is what he loved.

After college, Ken began his career at the family business, Knott's Berry Farm in Buena Park, California. He married and had three sons: Brian, Michael and Mark Knott.

When Ken became general manager, partner and director of food administration of Knott's Berry Farm, he met and married the love of his life, Jeanette. Jeanette had four children: Lonny Meredith, Terrie Meredith, Julie Meredith and Tina Hurst.

Ken served many years on the board of directors for the Restaurant Association as well as the Boys Club of America. He and Jeanette traveled to many countries representing Knott's Berry Farm during their years running Knott's. They truly enjoyed all their adventures together.

Ken's love of everything outdoors brought him and Jeanette to Cove, Oregon.

Friends who worked for Ken at Knott's Berry Farm lived in Cove and showed them the property where they built their ranch and started the next chapter of their lives.

According to Ken, the next 44 years were the best of his life.

Ken and Jeanette built their home in Cove and started buying cattle. They both loved the cattle business and soon became involved in many cattle and community associations. Ken was treasurer for the Cattlemen's Association and was named Cattleman of the Year in 1995.

Ken was president of the Eastern Oregon Livestock Show for many years.

He was on the stock show board for more than 20 years, volunteered countless hours taking care of the stock show grounds, and donated funding to build the 4-H building on its grounds. Ken always said, "The kids are why we do this show. Keeping them involved is what is important." Ken supported so many organizations throughout his life. He lived his life in service to others. He recognized early in his life that no matter what you do for a living, actively helping others creates the change you want to see in the world.

Altruism, in its many forms, gave him fulfillment.

Ken loved his children and grandchildren. Spending time with them brought him great joy. He passed his hardworking nature to his children. Ken and his daughter Tina Hurst started Artesian Blue, a bottled water company, in Cove in 1999. Hard work and long hours made it a success. They sold it 22 years later.

Ken truly was a humble, hardworking, selfless and God-fearing man. His is an exemplary example of a life well lived.

Ken is survived by his wife, Jeanette Knott; sons, Brian (Kathleen) Knott, Michael Knott, Mark Knott and Lonny Meredith; daughters, Tina Hurst, Terrie Meredith and Julie Meredith; grandchildren, Russell Hurst, Charlie Crump, Evan Buzzell, Nathan Buzzell, Tyler Pryor, Derek Knott, Kirk Knott, Jake Knott, Genna Knott, Baily Knott and Michela Knott; brother, Steve (Susan) Knott; and many great-grandchildren, great-great grandchildren, nieces, nephews and cousins.

Ken was preceded in death by his parents, Russell and Mildred Knott, and grandparents, Walter and Cordilla Knott.

Ken was full of love and laughter. He will truly be missed by all who knew him.

Ken's kind and compassionate spirit will live on in the memories of his family and friends.

A service and celebration of his life will be announced at a later date.

Thank you for your submission. Oregon Water Resources Department (Department) staff will review your submittal as soon as possible.

If your submission is determined to be complete, you will receive a receipt for the fees paid and an acknowledgement letter stating your submittal is complete.

If determined to be incomplete, your submission and the accompanying fees will be returned with an explanation of deficiencies that must be addressed in order for the submittal to be accepted.

If you have any questions, please feel free to contact the Department's Customer Service staff at 503-986-0801 or 503-986-0810.

Sincerely,
OWRD Customer Service Staff

Submission received by: Nick Reece
(Name of OWRD staff)

Instructions for OWRD staff:

- Complete this Submission Receipt and make two (2) copies. Place one copy with the check/cash; and place the other copy with the submission (i.e., the application or other document).
- Date-stamp all pages. (NOTE: Do not stamp check.)
- Give this original Submission Receipt to the applicant.
- Record Submission Receipt Information on the "RECEIVED OVER THE COUNTER" log sheet.
- Fold and put one copy of the Submission Receipt with check/cash into the Safe slot. Place the other copy of the Submission Receipt with submission (application/other document) in the top drawer of filing cabinet.

OWRD Over-the-Counter Submission Receipt

Applicant Name(s) & Address: Robert Rosinski

1024 S. Saint Vrain Ave

Transaction Type: Assignment

Fees Received: \$ 170⁰⁰

☐ Cash, ☒ Check; Check No. 230975

Name(s) on Check: Robert Rosinski

Thank you for your submission. Oregon Water Resources Department (Department) staff will review your submittal as soon as possible.

If your submission is determined to be complete, you will receive a receipt for the fees paid and an acknowledgement letter stating your submittal is complete.

If determined to be incomplete, your submission and the accompanying fees will be returned with an explanation of deficiencies that must be addressed in order for the submittal to be accepted.

If you have any questions, please feel free to contact the Department's Customer Service staff at 503-986-0801 or 503-986-0810.

Sincerely,

OWRD Customer Service Staff

Submission received by: Nick Reece
(Name of OWRD staff)

Instructions for OWRD staff:

- Complete this Submission Receipt and make two (2) copies. Place one copy with the check/cash; and place the other copy with the submission (i.e., the application or other document).
- Date-stamp all pages. (NOTE: Do not stamp check.)
- Give this original Submission Receipt to the applicant.
- Record Submission Receipt information on the "RECEIVED OVER THE COUNTER" log sheet.
- Fold and put one copy of the Submission Receipt with check/cash into the Safe slot. Place the other copy of

On August 25, 2014 the Water Resources Department received the Claim of Beneficial Use (COBU) for the following file(s):

Application G-14677 Permit G-13513

The COBU included a report and map. In the future the Department will review your submittal. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at: http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml

Customer Service phone: (503) 986-0801

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

Your receipt is enclosed.

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

RECEIVED BY OWRD

AUG 25 2014

A fee of \$175 must accompany this form for permits with priority dates after July 8, 1987.

A fee of \$175 must accompany this form for any Transfer final orders including a water right with a priority date of July 9, 1987, or later.

Example – A transfer involves 5 rights and one of the rights has a priority date of July 9, 1987, or later, the fee is required.

A separate form shall be completed for each permit.

In cases where a permit has been amended through the permit amendment process, a separate claim for the permit amendment is not required. Incorporate the permit amendment into the claim for the permit.

This form is subject to revision. **Begin each new claim** by checking for a new version of this form at:
http://www.oregon.gov/owrd/pages/wr/cwre_info.aspx

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. **Every item must have a response.** If any requested information does not apply to the claim, insert "NA." **Do not delete or alter any section of this form unless directed by the form.** The Department may require the submittal of additional information from any water user or authorized agent.

"Section 8" of this form is intended to aid in the completion of this form and should not be submitted.

If you have questions regarding the completion of this form, please call 503-986-0900 and ask for the Certificate Section.

The Department has a program that allows it to enter into a voluntary agreement with an applicant for expedited services. Under such an agreement, the applicant pays the cost to hire additional staff that would not otherwise be available. This program means a certificate may be issued in about a month. For more information on this program see

http://www.oregon.gov/owrd/pages/mgmt_reimbursement_authority.aspx

Permit or Transfer Holder's of Record Signature or Acknowledgement

Each permit or transfer holder of record must sign this form in the space provided below.

The facts contained in this Claim of Beneficial Use are true and correct to the best of my knowledge. I request that the Department issue a water right certificate.

SIGNATURE	PRINT OR TYPE NAME	TITLE	DATE
	Kenneth Dale Knott	Owner	Aug 26, 2014

SECTION 3

CLAIM DESCRIPTION

1. Point of diversion/appropriation name or number:

POINT OF DIVERSION/APPROPRIATION (POD/POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
Existing Well	Unio 50133	L 07836

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of diversion/appropriation source and, if from surface water, the tributary:

POD/POA NAME OR NUMBER	SOURCE	TRIBUTARY
NA		

3. Developed use(s), period of use, and rate for each use:

POD/POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	ACTUAL RATE OR VOLUME USED (CFS, GPM, OR AF)
Existing Well	Water Bottling Plant	NA	Year Round	Taken from 2001/2002 Annual water use form dated 3/10/03, used 2,723,380 gal. = 8.3577 AF of water.
Total Quantity of Water Used				8.3577 AF

4. Provide a general narrative description of the distribution works. This description must trace the water system from **each** point of diversion or appropriation to the place of use:

The well has artesian flow of 32psi and flows at 114 gpm. There is a 25 hp Grundfos submersible pump that feeds 4- 2" PVC water lines that take water into the bottling plant and individually feeds the two 10,000 gal distilled water tanks, and another line feeds a 400 gpm filler. The other two lines supply 3 smaller bottlers rated at 100 gal per minute. Each bottler has its own meter, which are all GF Signot meters. The total capacity for the four bottlers would be 700 gallons per minute. The bottlers are actually run at a rate of 600 gpm. The bottles are filled and sent by truck to their destinations.

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

5. Variations:

Was the use developed differently from what was authorized by the permit, permit amendment final order, or extension final order? If yes, describe below.

NO

(e.g. "The permit allowed three points of diversion. The water user only developed one of the points." or "The permit allowed 40.0 acres of irrigation. The water user only developed 10.0 acres.")

6. Claim Summary:

AUG 25 2014

SALEM, OR

SECTION 4

SYSTEM DESCRIPTION

Are there multiple PODs or POAs?

NO

If "YES" you will need to copy and complete Sections 4B through 4G for each POD/POA.

POD/POA Name or Number this section describes (only needed if there is more than one):

RECEIVED BY OWRD

A. Place of Use

AUG 25 2014

1. Is the right for municipal use?

SALEM, OR

NO

If "YES" the table below may be deleted.

TWP	RNG	MER	SEC	QQ	GLot	DLC	USE	IF IRRIGATION, # PRIMARY ACRES	IF IRRIGATION, # SUPPLEMENTAL ACRES
Total Acres Irrigated									

Reminder: The map associated with this claim must identify Donation Land Claims (DLC), Government Lots (GLot), Quarter Quarters (QQ), and if for irrigation, the number of acres irrigated within each projected DLC, GLot, and QQ.

B. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport and apply the water from the point of diversion/appropriation to the place of use.

1. Is a pump used?

YES

If "NO" items 2 through item 6 may be deleted.

2. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Grundfos	Not visible	Not visible	Submersible	8"	6"

3. Motor Information

MANUFACTURER	HORSEPOWER
Grundfos	25 hp

4. Theoretical Pump Capacity

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *If a well, the water level during pumping	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
25 hp	30 psi	30 ft	10'	1.51 cfs

5. Provide pump calculations:

$$\frac{25 \times 7.04}{76.2 + 116.2} = 1.51 \text{ cfs} = 678.0 \text{ gpm}$$

RECEIVED BY OWRD

AUG 25 2014

SALEM, OR

6. Measured Pump Capacity (using meter if meter was present and system was operating)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
No run on the day of inspection	See filed water reports		

Reminder: For pump calculations use the reference information at the end of this document.

7. Is the distribution system piped?

YES If

"NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
2" (4 individual 2" lines)	200'	PVC	Buried from pump to building, and above the floor inside the building

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
NA			

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
NA					

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
NA				

12. Additional notes or comments related to the system:

This is a bottling plant. The machinery consists of 4 bottlers and one distilled machine with 2- 10,000 tanks. Three bottlers are rated at 100 gpm, and the largest is rated at 400 gpm. All four bottling machines are of the FOGG manufacture and all four have their own individual GF Signet Meter, which is where the reporting information is gathered from. Many of these questions do not fit the application.

C. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)?

YES

If "NO", items 2 through 8 relating to this section may be deleted.

2. Describe the access port (type and location) or other means to measure the water level in the well:

No port observed. This is an artesian well, perhaps none was required.

3. If well logs are not available, provide as much of the following information as possible:

CASING DIAMETER	CASING DEPTH	TOTAL DEPTH	COMPLETION DATE OF ORIGINAL WELL	COMPLETION DATES OF ALTERATIONS	WHO THE WELL WAS DRILLED FOR	WELL DRILLED BY
See well log attached						

4. In addition to the information requested in item "3" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

5. Is the appropriation from a dug well (sump)?

NO

If "NO", items 6 through 8 relating to this section may be deleted.

Reminder: Construction standards for sumps can be found in OAR 690-210-0400.

6. If the appropriation involves a **SUMP**, provide the following information for each **SUMP**:

LENGTH	WIDTH	AVERAGE DIAMETER	MAXIMUM DEPTH	SURFACE AREA (IN ACRES)	VOLUME IN CUBIC FEET OR ACRE FEET

7. If the sump is curbed constructed with watertight surface curbing, describe the curbing:

CURBING MATERIAL (CONCRETE, CONCRETE TILES, OR STEEL)	IF CONCRETE, PROVIDE THE THICKNESS OF THE WALL

8. Provide sump volume calculations:

RECEIVED BY OWRD

AUG 25 2014

SALEM, OR

D. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)

YES

If "NO", item 2 and 3 relating to this section may be deleted.

If "YES" is it a: Storage Tank
Bulge in System / Reservoir

YES

NO

Complete appropriate table(s), unused table may be deleted.

2. Storage Tank:

MATERIAL (CONCRETE, FIBERGLASS, METAL, ETC.)	CAPACITY (IN GALLONS)	ABOVE GROUND OR BURIED
2 Metal storage tanks	2 10,000 tanks each	Located in bottling plant

3. Bulge in System / Reservoir:

RESERVOIR NAME OR NUMBER (CORRESPOND TO MAP)	APPROXIMATE DAM HEIGHT	APPROXIMATE CAPACITY (IN ACRE FEET)
NA		

E. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

2. Complete the table:

PIPE SIZE	PIPE TYPE	"C" FACTOR	AMOUNT OF FALL	LENGTH OF PIPE	SLOPE	COMPUTED RATE OF WATER FLOW (IN CFS)

3. Provide calculations:

RECEIVED BY OWRD

AUG 25 2014

SALEM, OR

4. If an actual measurement was taken, provide the following:

DATE OF MEASUREMENT	WHO MADE THE MEASUREMENT	MEASUREMENT METHOD	MEASURED QUANTITY OF WATER (IN CFS)

Attach measurement notes.

F. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

2. Complete the table:

CANAL OR DITCH TYPE (MATERIAL)	TOP WIDTH OF CANAL OR DITCH	BOTTOM WIDTH OF CANAL OR DITCH	DEPTH	"N" FACTOR	AMOUNT OF FALL	LENGTH OF CANAL / DITCH	SLOPE	COMPUTED RATE (IN CFS)

3. Provide calculations:

--

4. If an actual measurement was taken, provide the following:

DATE OF MEASUREMENT	WHO MADE THE MEASUREMENT	MEASUREMENT METHOD	MEASURED QUANTITY OF WATER (IN CFS)

Attach measurement notes.

G. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

Reminder: Complete this section if the reservoir right has been modified through the transfer process. If the claim is for a permitted reservoir use the Claim of Beneficial Use form for reservoirs.

If "NO", items 2 through 9 relating to this section may be deleted.

2. Does the reservoir require the submittal of as-built plans and specifications?

YES NO

If "YES", answer items 3; items 4 through 9 relating to this section may be deleted.

If "NO", skip items 3; answer items 4 through 9.

3. Complete the table:

HAVE THE DOCUMENTS BEEN SUBMITTED? YES OR NO	WHEN WERE THE DOCUMENTS SUBMITTED?	HAVE THEY BEEN APPROVED BY THE DEPARTMENT?	NUMBER OF ACRE FEET STORED

4. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and as-built plans and specifications are not required, complete the table and items 5 through 9.

MAXIMUM DEPTH	AVERAGE DEPTH	SURFACE AREA (IN ACRES)	VOLUME (IN ACRE FEET)

RECEIVED BY OWRD

5. Provide reservoir volume calculations:

AUG 25 2014

SALEM, OR

6. Provide the following information concerning the physical characteristics of the dam:

CREST WIDTH (W)	DAM HEIGHT AT CENTERLINE (H)	DISTANCE FROM DOWNSTREAM TOP OF DAM TO DOWNSTREAM TOE (L)	DISTANCE FROM UPSTREAM TOP OF DAM TO UPSTREAM TOE (U)	WATER LEVEL AT INSPECTION	DOWN-STREAM SLOPE	UP-STREAM SLOPE

Example Dam Profile *This box may be deleted from the form*

7. Provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

8. Describe the outlet works (size and type of the outlet conduit and location):

9. Describe the emergency spillway (dimensions and location):

BOTTOM WIDTH (W)	TOP WIDTH (L)	SPILLWAY DEPTH (H)

SALEM, OR

SECTION 5

CONDITIONS

All conditions contained in the permit, permit amendment, transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits, transfer final orders, and any extension final orders contain any or all of the following dates: the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit, extension or transfer final order:

	DATE FROM PERMIT OR TRANSFER	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	Oct. 28, 1998		
BEGIN CONSTRUCTION (A)	February 1998	Began construction of Bottling plant, running water lines, and bottling equipment	Work was continuous until complete.
COMPLETE CONSTRUCTION (B)	September 1998	Building and bottling equipment in place and testing began	
COMPLETE APPLICATION OF WATER (C)	October 1, 2002	January 1999, work was complete and first bottled water was shipped.	Bottling has been continuous since 1999, reports have been filed, well test was approved with the COBU submitted for permit G-13329, with Certificate # 85865 was issued on 11/13/2009. Well test was approved by Water Resources.

* MUST BE WITHIN PERIOD BETWEEN PERMIT, TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETELY APPLY WATER

2. Is there an extension final order(s)?

NO

If "NO", you may delete item 3 in this section.

3. If for a transfer extension order, provide the following information:

VOLUME	PAGE	DATE EXTENDED TO

4. Initial Water Level Measurements:

a. Was the water user required to submit an initial static water level measurement?

YES

If "NO", items 4b through 4d relating to this section may be deleted.

b. What month was the initial measurement to be taken in?

Within 1 year of the date on
Permit

c. Was the measurement submitted to the Department?

RECEIVED BY OWRD

YES

AUG 25 2014

SALEM, OR

d. If the initial measurement was not submitted, provide that measurement now, if available:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT
October 7, 1999	Tina Hurst	Unknown, see report dated 10/7/1999	142,488 cubic ft. on Mtr. See attached report

5. Annual Static Water Level Measurements:

a. Was the water user required to submit annual static water level measurements? YES

If "NO", items 5b through 5e relating to this section may be deleted.

b. Provide the month, or months, the static water level measurement(s) were to be made:

Permit states "Periodically Measure"

c. Were the static water level measurements taken in the month(s) required? YES

d. If "YES", were those measurements submitted to the Department? YES

e. If the annual measurements were not submitted, provide the measurements now:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT

6. Pump Test (Required for most ground water permits prior to issuance of a certificate)

a. Did the permit require the submittal of a pump test? YES

If "NO", items 6b through 6e relating to this section may be deleted.

b. Has the pump test been previously submitted to the Department? RECEIVED BY OWRD YES

c. Is the pump test attached to this claim? NO

d. Has the pump test been approved by the Department? AUG 25 2014 YES

e. Has a pump test exemption been approved by the Department? SALEM, OR NO

** Claims will not be reviewed until a pump test or exemption has been approved by the Department

7. Measurement Conditions:

a. Does the permit, permit amendment, transfer final order, or any extension final order require the installation of a meter or approved measuring device? YES

If "NO", items 7b through 7f relating to this section may be deleted.

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

b. Has a meter been installed? YES

c. Meter Information

POD/POA NAME OR #	MANUFACTURER	SERIAL #	CONDITION (WORKING OR NOT)	CURRENT METER READING	DATE INSTALLED
Existing well	GF Signet	None observed	Working	See report to Water resources	September 1998

If a meter has been installed, items 7d through 7f relating to this section may be deleted.

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department?

YES NO

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

NAME	TITLE	APPROXIMATE DATE

f. Measurement Device Description

DEVICE DESCRIPTION	CONDITION (WORKING OR NOT)	DATE INSTALLED
4 GF Signet Meters attached to each bottler	All are working	September 1998

8. Recording and reporting conditions

a. Is the water user required to report the water use to the Department?

YES

If "NO", item 8b relating to this section may be deleted.

b. Have the reports been submitted?

YES

METHOD OF SUBMITTING REPORT (PAPER OR ELECTRONIC)	WATER USER REPORTING ID
Paper	18373

If the reports have not been submitted, attach a copy of the reports if available.

9. Fish Screening

a. Are any points of diversion required to be screened to prevent fish from entering the point of diversion?

NO

If "NO", items 9b through 9e relating to this section may be deleted.

Reminder: If fish screening devices were required, the COBU map must indicate their location in relation to the point of diversion.

b. Has the fish screening been installed?

RECEIVED BY OWRD

YES NO

c. When was the fish screening installed?

AUG 25 2014

DATE	BY WHOM

SALEM, OR

Reminder: If the permit or transfer final order was issued on or after February 1, 2011, the fish screen is required to be approved by the Oregon Department of Fish and Wildlife regardless of the rate of diversion.

d. If the diversion involves a pump and the total diversion rate of all rights at the point of diversion is less than 225 gpm (0.5 cfs) and the permit was issued prior to February 1, 2011:

- Has the self-certification form previously been submitted to the Department? NA YES NO
 - If not, go to <http://www.oregon.gov/owrd/Pages/pubs/forms.aspx>, complete and attach a copy of the self-certification form to this claim, and send a copy of it to the Oregon Department of Fish and Wildlife (ODFW).

Reminder: Failure to submit evidence of a timely installed fish screen may result in an unfavorable determination. The ODFW self certification form needs to have been previously submitted or be attached to this form.

e. If the diversion does **not involve a pump** *or* the **total** diversion rate of all rights at the point of diversion is 225 gpm (0.5 cfs) or greater:

- Has the ODFW approval been previously submitted?
- If not, contact and work with ODFW to ensure compliance. To demonstrate compliance, provide signed documentation from ODFW. A form is available at: <http://www.oregon.gov/owrd/Pages/pubs/forms.aspx>

NA YES NO

Reminder: Failure to submit evidence of a timely installed fish screen may result in an unfavorable determination. In order to receive a favorable approval, the ODFW/WRD "Fish Screen Inspection" form needs to have been previously submitted or be attached to this form.

10. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?

NO

If "NO", items 10b and 10c relating to this section may be deleted.

Reminder: If by-pass devices were required, the COBU map must indicate their location in relation to the point of diversion.

b. Have by-pass devices been installed?

YES NO

c. Describe the diversion works as related to whether a by-pass device is installed or unnecessary:

(Provide a letter from ODFW indicating the device is approved or is unnecessary. If there is no letter from ODFW, explain whether or not a by-pass device is necessary.)

DESCRIPTION (E.G. "ODFW HAS APPROVED THE BY-PASS DEVICE" OR "NO BY-PASS DEVICE IS NECESSARY BECAUSE THERE IS A DIRECT DIVERSION FROM THE STREAM VIA A PUMP ON RIVER LEFT STREAM BANK WITH FOOT VALVE DESCENDING DIRECTLY INTO NATURAL POOL.") IN ADDITION, YOU MAY ATTACH PHOTOS TO THIS CLAIM.	IF INSTALLED (DATE)	IF INSTALLED, BY WHOM RECEIVED BY OWRD
		AUG 25 2014 SALEM, OR

11. Other conditions required by permit, permit amendment final order, extension final order, or transfer final order:

a. Were there special well construction standards?

NO

b. Was submittal of a ground water monitoring plan required?

YES

c. Was the water user required to restore the riparian area if it was disturbed?

NO

d. Was a fishway required?

NO

e. Was submittal of a letter from an engineer required prior to storage of water?

NO

f. Was submittal of a water management and conservation plan required?

NO

g. Other conditions?

NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

The permit required "at a minimum the plan shall periodically measure static water levels within the required wells". The owner has submitted multiple static water readings to WRD, and in my opinion they have submitted a more than adequate number of reports.
The permit required a well test. A well test was submitted with the COBU for Certificate # 85865, which is the identical well, (L-07836) and was approved and the certificate was issued. We assume that the well test is sufficient for this permit.

SECTION 6

ATTACHMENTS

Provide a list of any additional documents you are attaching to this report:

ATTACHMENT NAME	DESCRIPTION
Well Log	Unio 50133 log by Carl Pitcher
Deed of Plant Property	Union County Deed #
Water Level reports and Impact plan reports by year	Enclosed reports show compliance prior to Permit completion date of Oct. 1, 2002. Reports include 1999 through 2002. Other reports are with WRD.

SECTION 7

CLAIM OF BENEFICIAL USE MAP

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Location of the well was tied to the NW corner of Section 15, TWP 3 S R 40E with a Leica TCA 1100 total station. A short traverse was run from the Monumented corner at said Section 15 to the well site. The well sets inside a wood house that is locked.

Map Checklist

AUG 25 2014

Please be sure that the map you submit includes ALL the items listed below.

(Reminder: Incomplete maps and/or claims may be returned.)

SALEM, OR

- x Map on polyester film
- x Appropriate scale (1" = 400 feet, 1" = 1320 feet, or the original full-size scale of the county assessor map)
- x Township, Range, Section, Donation Land Claims, and Government Lots
- NA If irrigation, number of acres irrigated within each projected Donation Land Claims, Government Lots, Quarter-Quarters
- NA Locations of fish screens and/or fish by-pass devices in relationship to point of diversion
- x Locations of meters and/or measuring devices in relationship to point of diversion or appropriation
- x Conveyance structures illustrated (pumps, reservoirs, pipelines, ditches, etc.)
- x Point(s) of diversion or appropriation (illustrated and coordinates)
- x Tax lot boundaries and numbers
- x Source illustrated if surface water
- x Disclaimer ("This map is not intended to provide legal dimensions or locations of property ownership lines")
- x Application and permit number or transfer number

- x North arrow
- x Legend
- x CWRE stamp and signature

Boulder City, NV 89005-1293**

On August 25, 2014 the Water Resources Department received the Claim of Beneficial Use (COBU) for the following file(s):

Application G-14677 Permit G-13513

The COBU included a report and map. In the future the Department will review your submittal. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at: http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml

Customer Service phone: (503) 986-0801

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

Your receipt is enclosed.

Consult your water-use impact plan to determine when measurements should be made, when reports are due, and who is allowed to make the measurements. Keep a copy of all measurement reports for your records. All wells that have been constructed must be measured regardless of whether they are being used. Please contact the Department if you are no longer the holder of this right or no longer have an interest in it.

WATER-LEVEL MEASUREMENT REPORT
(Complete one form for each well listed in your plan)

Identification of measured well (Provide as much information as possible.)

Water Resources Well Log ID: UN10 S0133 Owner's well name: KEN KNOTT
Well ID (Well Tag) on Well: L- 57739
Well ID (Well Tag) on Well Log: L- 07836 Well drilled by: PITCHER DRILLING
Start Card # on Well Log: 91713 Total depth: 1150' Casing diameter (inches): 10" 8" 6"
Date drilled: 5-5-97 Owner on well log: KEN KNOTT

Show all water rights with water-level measurement conditions that list this well:

Water Use Recording and Reporting Form

2009

Consult the water right (permit, certificate, order) to determine applicable reporting conditions; the measurement, recording, and reporting conditions identified in a permitted or certified water right typically follow the place of use description. Use the columns below to document measurements for each authorized point of diversion/appropriation or reservoir. We ask that zeros be reported for any given month when water is not being used. Keep a copy of all measurement reports for your records. We encourage you to submit your water use data via our online utility when available, and to use the Monthly Water Use Forms for record keeping purposes. To lookup water rights, access the water use reporting webpage/online utility, or to obtain additional forms visit our web site: <http://www.wrd.state.or.us>

JK 7/22/14

Thank you Jerry. I am going to be gone the Month of March, and will do the inspection as soon as the Irrigation season is going. So I would believe that May or June would be the approximate time. I do believe that the work was done on time. I will get the records. Greg Blackman, CWRE

Hello Greg,
Just back in the office today. There is no need for an extension if Mr. Knott had everything completed by the "C" date. He just needs to submit a COBU. I have no problem granting you the additional time. Let me know what you think might be a timeline.
Thanks,
JK

Happy Friday Jerry. I just received a call from Ken Knott in the last 10 minutes stating that he had received a letter from you stating that his water right permit P-13513 needed to have a COBU completed. I told him that being so late that there would need to file an extension and then do a COBU. Anyway he told me to complete the process for him, however I will not be able to accommodate the extension until April, and the COBU when I can observe the system when the extension is approved. Can you extend the response period, as the letter indicated that he had 60 days to respond. I will pursue the project as soon as I clean up some of my other projects. My Computer went down last October, and I lost some data and it has thrown me behind by several months. Thanks for your help in this matter. Greg Blackman, CWRE

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2002.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2002. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (April 4, 2014) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, you may contact me at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter

Reference: Application G-14677, Permit G-13513

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2002.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2002. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (October 11, 2013) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, you may contact me at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

OREGON WATER RESOURCES DEPARTMENT SUMMARY OF WATER RIGHTS FOR WATER USE REPORT

Dear Water User: Water year 2004 has ended! All water use reports for October 2003 to September 2004 are requested to be submitted. During the past year we transferred our data to a new computer system, and have developed a website from which you may submit your data, if you so choose. In some cases the references numbers for points of diversion may have been changed. If this creates a problem for you, please contact me. If you would like to use the new site go to the web address listed below. You will not need to mail in this completed form. This information is important for water management in Oregon. Please, complete the form on the reverse side for the water rights listed below by December 31, 2004. If you have questions, or need more time please, contact me at 503-986-0833. Thank you for your attention to this matter. Mary Grainey

Re: Permit G-13513; Application G-14677

Dear Ken:

Thank you for your letter of December 15, 1998, in which you included a proposed water-level measurement plan. The proposed plan has been reviewed and approved. I have placed a copy of the plan and this letter in your application file.

I look forward to receiving your water-level data beginning in 1999.

Sincerely,

Michael J. Zwart
Hydrogeologist

WATER RESOURCES DEPT.
SALEM, OREGON

Proposed Plan Permit G-13513

1. Water level measurement will be taken during the month of March and October each year and recorded in a log book.
2. Reference water level will be in March 1999
3. 100 PSI pressure gauge will be used for obtaining measurement
4. A calibrated pressure gauge
5. Well will be shut in for not less than 8 hours during the month of March and October each year.
6. Plant manager will take all water measurements
7. April 15th each year, a written report will be sent to the Groundwater and Hydrology section of the Oregon Water Resources Department.

Dear Mike

I have enclosed a copy of my permit to appropriate public waters from my well for industrial use or (Bottled Water). In "B" section you asked for a Plan to measure static water level. On a separate sheet, I will suggest a plan. Please get back to me, so that I can resolve this issue for both of us.

Thanks

Proposed Plan and Facts

RECEIVED

DEC 09 1998
WATER RESOURCES DEPT.
SALEM, OREGON

FACTS

- ① Our well Artesians 113 gals min
- ② Well head pressure 31 lbs

PLAN

- 1 ① Will take a water level measurement June 1st and Dec 1st and log it in a log book.
- 2 ② Any changes in head pressure would be recorded in a log book
- 3 ③ 100 psi pressure gauge for obtaining the measurement
- 4 ④ A calibrated pressure gauge
- 6 ⑤ Our Plant Manager will take all water measurements
- 5 ⑥ Item not applicable being a Artesian Well
- 7 ⑦ Jan 1st of each year a written report will be sent to the Groundwater and Hydrology section of the Water Resources Dept.

STATE OF OREGON

COUNTY OF UNION

PERMIT TO APPROPRIATE THE PUBLIC WATERS

RECEIVED

DEC 09 1998

WATER RESOURCES DEPT.
SALEM, OREGON

THIS PERMIT IS HEREBY ISSUED TO

KENNETH DALE KNOTT
59926 COMSTOCK RD.
COVE, OREGON 97824

PHONE: (541) 568-4730

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14677

SOURCE OF WATER: A WELL IN WARM CREEK BASIN

PURPOSE OR USE: INDUSTRIAL USE (BOTTLED WATER)

MAXIMUM RATE: 2.23 CUBIC FEET PER SECOND, (1000 GPM)

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: FEBRUARY 2, 1998

POINT OF DIVERSION LOCATION: NW 1/4 NW 1/4, SECTION 15, T3S, R40E, W.M.;
664 FEET SOUTH & 76 FEET EAST FROM NW CORNER, SECTION 15

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NW 1/4
SECTION 15
TOWNSHIP 3 SOUTH, RANGE 40 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall develop a plan to monitor and report the impact of water use under this permit on water levels within the aquifer that provides water to the permitted well(s). The plan shall be submitted to the Department within one year of the date the permit is issued and shall be subject to the approval of the Department. At a minimum, the plan shall include a program to periodically measure static water levels within the permitted well(s) or an adequate substitute such as water levels in nearby wells. The plan shall also stipulate a reference water level against which any water-level declines will be compared. If a well listed on this permit (or replacement well) displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s). Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin by October 28, 1999. Complete application of the water to the use shall be made on or before October 1, 2002. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued October 28, 1998

Water Resources Department
Martha Pagel, Director

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number G-14677

Final Order

Application History

On February 2, 1998, KENNETH DALE KNOTT submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on July 21, 1998. The protest period closed September 4, 1998, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to correctly describe the location of the well and to add the following condition:

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

Order

Application G-14677 therefore is approved with the above modifications to the Proposed Final Order, and Permit Number G-13513 is issued as limited by the conditions set forth therein.

DATED October 29, 1998

Martha O. Pagel, Director

OCT 28

Hearing and Appeal Rights

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the above modifications to the proposed final order may be addressed.

This document was prepared by Laura Snedaker. If you have any questions about any of the statements contained in this document she is most likely the best person to answer your questions. You can reach her toll free within Oregon at 1-800-624-3199 extension 331. Outside of Oregon you can dial 1-503-378-8455.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Adam Sussman. His extension number is 262.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 499.

RE: Application File # G-14677

Dear Mr. Knott:

The Department is currently preparing a Final Order for the above application. However, based upon continued evaluation, the Department has determined that additional information is necessary to complete your application for water use. The following information must be received:

- ▶ A revised application map. The original application map submitted to the Department was completed in pencil. The original map must be drawn in ink so as to be of permanent quality and easily reproduces. Please prepare a revised application map, that meets all of the Department's map requirements, in ink.

A complete list of the Department's map requirements and a copy of your application map are enclosed for your reference.

Please submit this information by **October 1, 1998**. If we do not receive the information requested above by this date, we **may** reject your application consistent with ORS 537.153. If your application is rejected, any fees submitted in excess of the examination fee will be refunded; however, the examination fee is non-refundable and will not be returned. In addition, the priority date associated with your application will be lost.

Also, before a permit may be issued under this application, permit recording fees in the amount of **\$175.00** must be submitted to the Department.

*Copy
of
Your Letter*

Should you have any questions regarding your application or the required materials listed above, or if you need to request an extension of time, please call me at (503) 378-8455, extension 331, or toll free within Oregon at 1-800-624-3199.

Sincerely,

Laura K. Snedaker

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft permit be issued with conditions.

Application History

On February 2, 1998, KENNETH DALE KNOTT submitted an application to the Department for the following water use permit:

- Amount of Water: 1000.0 GALLONS PER MINUTE
- Use of Water: INDUSTRIAL USE (BOTTLED WATER)
- Source of Water: A WELL IN WARM CREEK BASIN
- Area of Proposed Use: UNION County within
NW 1/4 NW 1/4
SECTION 15
TOWNSHIP 3 SOUTH, RANGE 40 EAST, W.M.

On 4/3/98, the Department mailed the applicant notice of its Initial Review, determining that THE USE OF 2.23 CUBIC FEET PER SECOND (1000 GALLONS PER MINUTE) FROM A WELL IN WARM CREEK BASIN FOR INDUSTRIAL USE (BOTTLED WATER) IS ALLOWABLE YEAR-ROUND. The applicant did not notify the Department to stop processing the application within 14 days of that date.

On 4/17/98, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record

- designations of any critical groundwater areas
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any general basin-wide standard for flow rate and duty of water allowed
- the need for a flow rate and duty higher than the general standard
- any comments received

Findings of Fact

The Grande Ronde Basin Program allows the following uses: INDUSTRIAL USE (BOTTLED WATER)

Senior water rights exist on A WELL IN WARM CREEK BASIN or on downstream waters.

A WELL IN WARM CREEK BASIN is above a State Scenic Waterway.

An assessment of available data finds that groundwater for the proposed use will, if properly conditioned, avoid injury to existing rights, or to the groundwater resource.

The Department finds that no more than 2.23 CFS would be necessary for the proposed use. The amount of water requested, 1000.0 GALLONS PER MINUTE, is allowable.

Described groundwater is NOT within a designated critical ground water area.

The Department determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.

The Groundwater Section finds that there is NOT a preponderance of evidence that the proposed use of groundwater will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

Conclusions of Law

Under the provisions of ORS 537.621, the Department must presume that a proposed use will ensure the preservation of the public welfare, safety and health if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Grande Ronde Basin Plan.

No preference for this use is granted under the provisions of ORS

536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with other rules of the Water Resources Commission not otherwise described above.

The proposed use complies with the State Agency Agreement for land use.

No proposed flow rate and duty of water higher than the general basin-wide standard is needed.

For these reasons, the required presumption has been established.

Under the provisions of ORS 537.621, once the presumption has been established, it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use would not ensure the preservation of the public welfare, safety and health as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
 - (A) The specific aspect of the public welfare, safety and health under ORS 537.525 that would be impaired or detrimentally affected; and
 - (B) Specifically how the identified aspect of the public welfare, safety and health under ORS 537.525 would be impaired or be adversely affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use would impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use would ensure the preservation of the public welfare, safety and health as described in ORS 537.525.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED July 21, 1998

Dwight French
Water Rights Section Manager

*If you have any questions,
please check the information
box on the last page for the
appropriate names and
phone numbers.*

Protest Rights and Standing

Under the provisions of 537.621(7), you have the right to protest this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing. If you do not request a hearing, the Department will presume that you do not wish to contest the findings of the proposed final order.
- If you do not protest this Proposed Final Order and if no substantive changes are made in the final order, you will not have an opportunity for judicial review, protest or appeal of the final order when it is issued.

Requests for Standing

Under the provisions of 537.621(6), persons other than the applicant who support a proposed final order may request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order. A request for standing shall be in writing, include a statement that the requester supports the proposed final order, and a statement of how the requester would be harmed if the proposed final order is modified. The fee required at the time of submitting this request is \$50.00. If a hearing is scheduled, an

additional fee of \$150.00 must be submitted along with a request for intervention. Forms to request standing are available from the Department.

Your protest or request for standing must be received in the Water Resources Department no later than **September 4, 1998**.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

This document was prepared by Dallas Miller. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me toll free within Oregon at 1-800-624-3199 extension 272. Outside of Oregon you can dial 1-503-378-8455.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Adam Sussman. His extension number is 262.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 499.

DRAFT

This is not a permit!!!
STATE OF OREGON

DRAFT

COUNTY OF UNION

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

KENNETH DALE KNOTT
59926 COMSTOCK RD
COVE, OREGON 97824

(541)568-4730

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14677

SOURCE OF WATER: A WELL IN WARM CREEK BASIN

PURPOSE OR USE: INDUSTRIAL USE (BOTTLED WATER)

MAXIMUM RATE: 2.23 CUBIC FEET PER SECOND, (1000 GPM)

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: February 2, 1998

POINT OF DIVERSION LOCATION: NW 1/4 NW 1/4, SECTION 15, T 3S, R40E,
W.M.; 955 FEET SOUTH & 115 FEET EAST FROM NW CORNER, SECTION 15

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NW 1/4
SECTION 15
TOWNSHIP 3 SOUTH, RANGE 40 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall develop a plan to monitor and report the impact of water use under this permit on water levels within the aquifer that provides water to the permitted well(s). The plan shall be submitted to the Department within one year of the date the permit is issued and shall be subject to the approval of the Department. At a minimum, the plan shall include a program to periodically measure static water levels within the permitted well(s) or an adequate substitute such as water levels in nearby wells. The plan shall also stipulate a reference water level against which any water-level declines will be compared. If a well listed on this permit (or replacement well) displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s). Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or

pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from issuance of the final order approving the use. Complete application of the water to the use shall be made on or before October 1, 2002. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Oregon Water Resources Department
Land Use Information Form

RECEIVED

FEB - 2 1998

WATER RESOURCES DEPT.
SALEM, OREGON

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. ApplicantName: Kenneth and Jeanette Knott Tina Christ AgentAddress: 5924 Cemstock RoadCity: Cove State: OR Zip: 97824 Day Phone: 541 568 4730**B. Land and Location**

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
1000	Rural	☒ Diverted	☒ Conveyed	☒ Used
		☐ Diverted	☐ Conveyed	☐ Used
		☐ Diverted	☐ Conveyed	☐ Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Union County

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): Bottled For ConsumptionBriefly describe: Bottle Commercial water from the existing well.**D. Source**

Indicate the source for the proposed water use:

☐ Reservoir/Pond ☒ Ground Water ☐ Surface Water _____ (source)

E. Quantity

Indicate the estimated quantity of water the use will require:

1,000 ☐ CFS ☒ GPM ☐ Acre-Feet

Signature: Scott Hartell

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: _____

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.

Reference: File G-14677

Dear Applicant:

THIS IS NOT A PERMIT AND IS SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.

This letter is to inform you of the favorable preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The proposed use is not prohibited by law or rule.
2. The use of water from A WELL IN WARM CREEK BASIN for INDUSTRIAL USE (BOTTLED WATER) is **allowable** under OAR 690-508-020(1)(a), the Grande Ronde Basin Program.
3. The Department has determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.
4. The Department has also determined, based upon available data, that the use of groundwater in the amount of 2.23 CUBIC FEET PER SECOND (1000.0 GALLONS PER MINUTE) for INDUSTRIAL USE (BOTTLED WATER) if properly conditioned, will not injure existing rights or the groundwater resource.

Summary of Initial Determinations

The use of 2.23 CUBIC FEET PER SECOND (1000.0 GALLONS PER MINUTE) from A WELL IN WARM CREEK BASIN for INDUSTRIAL USE (BOTTLED WATER) is allowable year-round.

Because of these favorable determinations, the Department can now move your application to the next phase of the water rights application review process. This phase is where public interest factors will be evaluated.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Friday, April 17, 1998**. For your convenience you may use the enclosed "STOP PROCESSING" form.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
2. You will be required to comply with state and federal water quality standards.

3. The water user shall develop a plan to monitor and report the impact of water use under this permit on water levels within the aquifer that provides water to the permitted well(s). The plan shall be submitted to the Department within one year of the date the permit is issued and shall be subject to the approval of the Department. At a minimum, the plan shall include a program to periodically measure static water levels within the permitted well(s) or an adequate substitute such as water levels in nearby wells. The plan shall also stipulate a reference water level against which any water-level declines will be compared. If a well listed on this permit (or replacement well) displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s). Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit.
4. If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.
5. Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.
6. The priority date for this application is February 2, 1998.

The Department of Agriculture has special requirements for bottled water producers. You should contact the Food Safety Division at (503) 986-4720 about licensing requirements that may pertain to your proposed use.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our Water Right Information Group at (800) 624-3199 or (503) 378-8455 extension 499. Feel free to call me at (800) 624-3199 or (503) 378-8455 extension 229

if you have any questions regarding the contents of this letter. Please have your application number available if you call.

Sincerely,

A handwritten signature in black ink, appearing to read 'Anita M. McLoud', written in a cursive style.

Water Right Conditions Tracking Slip

Groundwater/Hydrology Section

FILE ## G-14677

ROUTED TO: Water Rights

TOWNSHIP/

RANGE-SECTION: 35/40 E-15 66

CONDITIONS ATTACHED? ☒ yes ☐ no

REMARKS OR FURTHER INSTRUCTIONS:

Reviewer: Michael Zwart

TO: Water Rights Section

February 17, 1998

FROM: Groundwater/Hydrology Section Michael Zwart
Reviewer's Name

SUBJECT: Application G-14677

GROUNDWATER/SURFACE WATER CONSIDERATIONS

1. PER THE _____ Basin rules, one or more of the proposed POA's is/is not within _____ feet/mile of a surface water source (_____) and taps a groundwater source hydraulically connected to the surface water.
2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed groundwater use
 - a. _____ will, or _____ have the potential for substantial interference with the nearest
 - b. _____ will not _____ surface water source, namely _____; or
 - c. ☒ will if properly conditioned, adequately protect the surface water from interference:
 - i. ☒ The permit should contain condition #(s) 7A, 7B;
 - ii. _____ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. _____ The permit should be conditioned as indicated in item 4 below; or
 - d. _____ will, with well reconstruction, adequately protect the surface from substantial interference.

GROUNDWATER AVAILABILITY CONSIDERATIONS

3. BASED UPON available data, I have determined that groundwater for the proposed use
 - a. _____ will, or _____ likely be available in the amounts requested without injury to prior rights
 - b. _____ will not _____ and/or within the capacity of the resource; or
 - c. ☒ will if properly conditioned, avoid injury to existing rights or to the groundwater resource:
 - i. ☒ The permit should contain condition #(s) 7A, 7B;
 - ii. _____ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. _____ The permit should be conditioned as indicated in item 4 below; or
4.
 - a. _____ THE PERMIT should allow groundwater production from no deeper than _____ ft. below land surface;
 - b. _____ The permit should allow groundwater production from no shallower than _____ ft. below land surface;
 - c. _____ The permit should allow groundwater production only from the _____ groundwater reservoir between approximately _____ ft. and _____ ft. below land surface;
 - d. _____ Well reconstruction is necessary to accomplish one or more of the above conditions.
 - e. _____ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS: See earlier review of G-14523. I am recommending
condition 7A here because of the year-round use proposed &
possible additional stress to the resource.

INTEROFFICE MEMO

To: FILE

Date: February 17, 1998

From: MICHAEL ZWART

Subject: APPLICATION G-14677, KENNETH DALE KNOTT

(UN10 50133)

This application proposes to use 1000 gpm of groundwater from one well for commercial use. The well depth is 1150 feet, and is flowing artesian with a shut-in pressure of 32 psi. This equates to about 74 feet above land surface. The well penetrates a confined aquifer developed in basalt of the Columbia River Basalt Group. The well is about 800 feet from Duncan Creek and about 300 feet from Murphy Creek. The aquifer is not in hydraulic connection with the nearby reaches of the creeks. There is no potential for substantial interference with the creeks, based on the nature of the aquifer penetrated. See file G-14523 for earlier review.

Permit conditions 7A, 7B and 7J are recommended.

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. THE WELL which is the point of appropriation for this application does not meet current well construction standards based upon:
- a. ☐ review of the well log;
 - b. ☐ field inspection by _____;
 - c. ☐ report of CWRE _____;
 - d. ☐ other: (specify) _____
6. THE WELL construction deficiency:
- a. ☐ constitutes a health threat under Division 200 rules;
 - b. ☐ commingles water from more than one groundwater reservoir;
 - c. ☐ permits the loss of artesian head;
 - d. ☐ permits the de-watering of one or more groundwater reservoirs;
 - e. ☐ other: (specify) _____
7. THE WELL construction deficiency is described as follows: _____
8. THE WELL
- a. ☐ was, or constructed according to the standards in effect at the time of
 - b. ☐ was not original construction or most recent modification.
 - c. ☐ I don't know if it met standards at the time of construction.

RECOMMENDATION:

- A. ☐ I recommend including the following condition in the permit:
"No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. ☐ I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. ☐ REFER this review to Enforcement Section for concurrence.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit

_____, 199____.
(Signature)

I do not concur in G/H's recommendation A or B above relating to conditioning or withholding the permit for the following reasons: _____

KENNETH D. KNOTT and JEANETTE S. KNOTT, husband and wife, Grantors, convey to KENNETH D. KNOTT and JEANETTE S. KNOTT, as Trustee(s) of the KJK Trust U/D/T dated June 30, 1994, Grantees, the following-described real property situated in Union County, Oregon:

Refer to Exhibit "A".

Grantors covenant that Grantors are seized of an indefeasible estate in the real property described above in fee simple, that Grantors have good right to convey the property, that the property is free from encumbrances except as specifically set forth herein, and that Grantors warrants and will defend the title to the property against all persons who may lawfully claim the same by, through, or under Grantors, provided that the foregoing covenants are limited to the extent of coverage available to Grantors under any applicable standard or extended policies of title insurance, it being the intention of the Grantors to preserve any existing title insurance coverage.

The true consideration for this conveyance is \$0.

THIS INSTRUMENT WILL NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY APPROVED USES AND TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES AS DEFINED IN ORS 30.930.

DATED the 15th day of August, 1994.

Kenneth D. Knott

Jeanette S. Knott

Registration No. 614677
Serial No.

FORM Q
FOR COMMERCIAL, INDUSTRIAL,
AND QUASI-MUNICIPAL WATER USES

RECEIVED
FEB - 2 1998
WATER RESOURCES DEPT.
SALEM, OREGON

1. Describe the goods and services you plan to provide:

Bottled water from an existing commercial
well.

2. What is the maximum amount of water that will be used on any given day:

1000 ☐ cfs ☒ gpm

3. Are there periods of the day, week, month, or year that the water will not be used?
(e.g. weekends the plant is closed)

☐ No ☒ Yes If so, when? weekends (plant is closed)

4. Is there a particular time or period of day, week, month, or year when the use of water is
absolutely essential for the project to continue? (e.g. vegetable processing, Oct. 15-Nov. 15)

☐ No ☒ Yes If so, when? year round (M-F)

5. Are there periods of the day week, month, or year where the amount of water used will be
less than at peak times?

☒ No ☐ Yes If so, when? _____

App. No. 614677
Report No.

Oregon Water Resources Department

Application for a Permit to Use Ground Water

RECEIVED

FEB - 2 1998

WATER RESOURCES DEPT.
SALEM, OREGON

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply to your application, insert "n/a." Please read and refer to the instruction booklet when completing your application. Thank you.

1. Applicant Information

A. Individuals

(If more than one person is applying, please attach a sheet providing the information below for each person applying.)

Name: Knott Kenneth Dale
Last First MI

Mailing address: 59926 Comstock Road
Cove Oregon 97824
City State Zip

Phone: 541-5684730 541-5684730
Home Work Other

*Fax: 541-5684730 *E-Mail address: _____

B. Organizations

(Corporations, associations, firms, partnerships, joint stock companies, cooperatives, public and municipal corporations)

Name of organization: _____

Name and title of person applying: _____

Mailing address of organization: _____

City State Zip

Phone: _____
Day Evening

*Fax: _____ *E-Mail address: _____

*Optional information

For Department Use

App. No. G-14677 Permit No. _____ Date 2/2/98

2. Location and Source

The Department cannot process your application without accurate information showing the source of water and location of water use. You must attach a map to this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See page 3 in the instruction booklet for detailed map specifications. In addition, please provide the following information:

A. County

In what county is the use proposed? Union

In what county is the appropriation point proposed? Union

B. River Basin

(See instruction booklet pg.3 for list):

Grand Ronde

C. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

☒ Yes (Skip to section 3 "Groundwater Development.")

☐ No Please check the appropriate box below, and on a separate sheet of paper list the names and addresses of all affected landowners.**

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

**If more than 25 landowners are involved, a list is not required. See page 4 in the instruction booklet for more details.

3. Groundwater Development

A. Number of wells: 1 B. Name of nearest surface water body Warm Creek and Springs

C. Distance from well(s) to nearest stream or lake: 1) 300 ft

2) _____ 3) _____ 4) _____

D. If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) 3 to 5 ft

2) _____ 3) _____ 4) _____

E. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to question F in this section of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

1. Wells will be constructed by: Pitcher Pump and Drilling Company

Address: 608 N. Ave, La Grande, Oregon 97850

Completion date: This Well is Completed

2. Please provide a description of your well development. (Attach additional sheets if needed.)

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Estimated depth to water	Est. depth to water-bearing stratum	Type of access port or measuring device	Total well depth
1	8"	Steel 4" x 8"	902	—	90'00 900 at bottom	32.95 ft 1110	1050 to	Pressure Gauge	1150

F. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

8" Flange on Top w/ 4" coupling on side w/ gate Valve
and pressure gauge - Flows 112 gals per min.

4. Water Use

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

(see list of beneficial uses in the instruction booklet):

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach Form I
- If your proposed use is **mining**, attach Form R
- If your proposed use is **municipal**, attach Form M
- If your proposed use is **commercial/industrial** or **quasi-municipal**, attach Form Q

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, and for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or Aquifer	Type of Use	Total Annual Amount	Production Rate of the Well in gpm
1	Basalt Fractured	Commercial	5,475,000	1000

C. Season of Use

Indicate the time of year you propose to use the water (for seasonal uses like irrigation give dates when water use would begin and end):

Year Round

D. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used:

5. Water Management

A. Diversion

What equipment will you use to pump water from your well(s)?

- ☒ Pump (give horsepower and pump type) 50 HP Submersible
- ☐ Other means (describe) _____

B. Transport

How will you transport water to your place of use?

- ☐ Ditch, canal (give average width and depth):
Width _____ Depth _____
Is the ditch or canal to be lined? ☐ Yes ☐ No
- ☒ Pipe (give diameter and total length)
Diameter(s) 6 in Length 300 ft to a Building
- ☐ Other (describe) _____

C. Application/Distribution Method

What equipment will you use to apply water to your place of use?

Irrigation or land application method (check all that apply):

- | | | |
|--|--|---|
| ☐ Flood | ☐ High-pressure sprinkler | ☐ Low pressure sprinkler |
| ☐ Drip | ☐ Water cannons | ☐ Center pivot system |
| ☐ Hand lines | ☐ Wheel lines | |
| ☐ Siphon tubes or gated pipe with furrows | | |
| ☐ Other, describe _____ | | |

Distribution method

- ☐ In-line storage (tank or pond) ☐ Direct pipe from source ☐ Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

There will be no loss of water
as it will go directly into bottles.

6. Project Schedule

Proposed date construction will begin _____

Proposed date construction will be completed Completed

Proposed date beneficial water use will begin April 1998

7. Remarks

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

Our Water Rights Application No is G-14523 for
Irrigation. This will be a new venture to
boffe commercial water from this existing
well.

Signature

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use is compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all statements made and information provided in this application are true and correct to the best of my knowledge:

Signature of Applicant

Dec 12, 1997
Date

Signature of Co-applicant

Date

Before submitting this application, have you:

- Answered every question?
- Included a Land Use Information Form or receipt stub signed by a local official?
- Attached a legible map that meets all the necessary criteria?
- Included a check made out to WRD for at least the amount of the application fee?
