APPROVED

SP*70900-119

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. 612434

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Robert Roth, the holder of Permit No. 611434

appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 15th day of Sep., 1994

Remarks:

IN WITNESS WHEREOF, I have hereunto set my hand this 20th day of Oct., 1994.

Robert Roth

REFERENCE: Transfer Application T-14059

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Dante Luongo by telephone at (971) 304-5006 or by e-mail at Dante.j.luongo@water.oregon.gov.

Sincerely,

Elyse D. Richman
Water Rights Services Support
Transfers and Conservation Section

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER APPROVING A CHANGE IN
T-14059, Marion County	)	POINTS OF APPROPRIATION AND A
	)	CHANGE IN PLACES OF USE

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

CRAIG AND JUANITA SCHÜRTER
6540 TORVEND RD NE
SILVERTON, OR 97381

Findings of Fact

1. On August 1, 2022, Craig and Juanita Schurter filed an application to change the points of appropriation and change the places of use under Certificates 88739 and 93894. The Department assigned the application number T-14059.
2. Notice of the application for transfer was published on August 9, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On June 13, 2023, the Department notified the applicant's agent that the application did not meet the requirements for the exceptions under OAR 690-380-3220. The multiple certificates proposed for transfer require separate applications, or the applicant would need to add a place of use change to the application to meet the exception requirements under OAR 690-380-3220.
4. On July 19, 2023, the applicant's agent submitted superseding application pages and superseding maps, adding a place of use change under Certificates 88739 and 93894.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. On November 3, 2023, the Department determined one proposed point of appropriation (POA) under Certificate 88739 (Alluvial Well 2) will cause additional drawdown/interference in well MARI 3594. The drawdown by the pumping of proposed Alluvial Well 2 would likely result in other existing groundwater rights not receiving the water to which they are legally entitled.
6. On November 13, 2023, the Department notified the applicant's agent via email that the transfer application did not include supporting documentation for the Evidence of Use Affidavit.
7. On November 13, 2023, the applicant's agent submitted the supporting documentation for the Evidence of Use Affidavit.
8. On December 12, 2023, the applicant's agent submitted a revised Table 1 indicating a change in location of the injurious proposed point of appropriation (Alluvial Well 2).
9. On January 18, 2024, The Department completed a review of the revised location proposed for Alluvial Well 2 and determined that the new proposed location would not likely result in another existing groundwater right not receiving the water to which it is legally entitled.
10. On March 6, 2024, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-14059 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of April 5, 2024, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.
11. On March 11, 2024, the agent for the applicant requested additional time to complete beneficial use of the water to October 1, 2027. Pursuant to OAR 690-380-5140(3), the applicant requested additional time to compensate for well driller's schedules, constructing power lines to said well, laying piping for the well to get to the place of use, and using profits from the installed first well to install the second well.
12. On July 12, 2024, the Department issued a Preliminary Determination proposing to approve Transfer Application T-14059 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on July 16, 2024, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
13. The portion of the first right to be transferred is as follows:
Certificate: 88739 in the name of ROBERT E. ROTH (perfected under Permit G-11434)
Use: IRRIGATION OF 66.3 ACRES
Priority Date: MARCH 4, 1991

Rate: 151 GALLONS PER MINUTE

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and OAR 690-380-2110(2)]

19. Confirming rights have been issued and water has been used within the last five years prior to the submittal of Transfer Application T-14059 according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
20. A water delivery system sufficient to use the full amount of water allowed under the existing rights was present within the five-year period prior to submittal of Transfer Application T-14059.
21. The water rights are subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
22. The proposed points of appropriation develop groundwater from the same aquifer as the authorized points of appropriation, as required by OAR 690-380-2110(2).
23. The proposed changes, as conditioned, would not result in enlargement of the rights.
24. The proposed changes, as conditioned, would not result in injury of other rights.
25. All other application requirements are met.

Conclusions of Law

The change in points of appropriation and change in places of use proposed in Transfer Application T-14059 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in points of appropriation and change in places of use proposed in Transfer Application T-14059 are approved.
2. The right to the use of the water is restricted to beneficial use at the places of use described and is subject to all other conditions and limitations contained in Certificates 88739, 93894 and any related decree.
3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation or the new places of use.
4. Water right Certificates 88739 and 93894 are cancelled. New certificates will be issued describing those portions of the rights not affected by this transfer.

5. Under Certificate 88739, the quantity of water diverted at the new points of appropriation (Alluvial Well 1 and Alluvial Well 2) shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Under Certificate 93894, the quantity of water diverted at the new points of appropriation (Basalt Well 1 and Basalt Well 2) shall not exceed the quantity of water lawfully available at the original points of appropriation (Well 1 and Well 2).
7. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
8. The former place of use of the transferred rights shall no longer receive water under the rights.
9. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
10. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
11. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Dated in Salem, Oregon on **SEP 06 2024**

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROBERT E. ROTH
12513 HOBART RD
SILVERTON, OR 97381

confirms the right to use the waters of A WELL in the ABIQUA CREEK BASIN for IRRIGATION of 91.7 ACRES.

This right was perfected under Permit G-11434. The date of priority is MARCH 4, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 209 GALLONS PER MINUTE or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
6 S	1 W	WM	28	SE NE	1975 FEET SOUTH AND 25 FEET WEST FROM THE NE CORNER OF SECTION 28

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	27	NW SW	44	0.3
6 S	1 W	WM	28	SW NE	44	0.2
6 S	1 W	WM	28	SE NE	44	1.2
6 S	1 W	WM	28	NE SE	44	31.0
6 S	1 W	WM	28	NW SE	44	3.2
6 S	1 W	WM	28	NW SE	43	6.9
6 S	1 W	WM	28	SW SE	44	2.4
6 S	1 W	WM	28	SW SE	43	16.8
6 S	1 W	WM	28	SE SE	44	29.7
TOTAL						91.7

The water user shall report a March static water level in the well to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made

and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board, or the appropriator.

Use of water from the well shall not be allowed if the well displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the well is 39' 8" below ground surface. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times. When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

This certificate describes that portion of water right Certificate 88739, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered **SEP 06 2024**, approving Transfer Application T-14059.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

WITNESS the signature of the Water Resources Director, affixed SEP 06 2024.

A handwritten signature in black ink, appearing to read "Lisa J. Jaramillo", is written over a horizontal line.

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
IVAN GALL, DIRECTOR
Oregon Water Resources Department

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROTH FAMILY LLC
12513 HOBART RD
SILVERTON, OR 97381

confirms the right to use the waters under Permit G-17076. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed the amount specified, or its equivalent in case of rotation, measured at the point of diversion from the source. The specific limits and conditions are listed below.

SOURCE OF WATER: WELL 1 AND WELL 2, BOTH IN THE WILLAMETTE RIVER BASIN

PURPOSE OR USE: IRRIGATION, TO MAKE UP A DEFICIENCY IN RATE FOR PERMIT G-11434, of 91.7 ACRES

MAXIMUM RATE: A MAXIMUM CUMULATIVE TOTAL OF 0.685 CUBIC FOOT PER SECOND (CFS), FURTHER LIMITED TO .43 CFS FROM WELL 1 AND .34 CFS FROM WELL 2

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: DECEMBER 20, 1996

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
6 S	1 W	WM	27	SW NW	WELL 1 - 2013 FEET SOUTH AND 26 FEET EAST FROM THE NE CORNER OF SECTION 28
6 S	1 W	WM	28	NW SE	WELL 2 - 1500 FEET SOUTH AND 70 FEET WEST FROM THE NW CORNER OF DLC 44

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	27	NW SW	44	0.3
6 S	1 W	WM	28	SW NE	44	0.2
6 S	1 W	WM	28	SE NE	44	1.2

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	28	NE SE	44	31.0
6 S	1 W	WM	28	NW SE	43	6.9
6 S	1 W	WM	28	NW SE	44	3.2
6 S	1 W	WM	28	SW SE	44	2.4
6 S	1 W	WM	28	SW SE	43	16.8
6 S	1 W	WM	28	SE SE	44	29.7
TOTAL						91.7

The quantity of water diverted at the new point of appropriation (Well 1) shall not exceed the quantity of water lawfully available at the original point of appropriation (Old Well 1).

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

- (1) Use of water from the well, as allowed herein, shall be controlled or shut off if the well displays:
 - (a) An average water level decline of three or more feet per year for five consecutive years; or
 - (b) A total water level decline of fifteen or more feet; or
 - (c) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
- (2) The water user shall install a meter or other measuring device suitable to the Director, and shall submit an annual report of water used to the Department by December 1 of each year.
- (3) The water user shall be responsible for complying with each of the following requirements for

measuring water levels in the well.

- (a) Use of water from a new well shall not begin until an initial static water level in the well has been measured and submitted to the Department.
- (b) In addition to the measurement required in subsection (a) of this section, a water level measurement shall be made each year during the period March 1 through March 31.
- (c) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the water user.
- (d) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
- (e) The water user shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

Ground water for use under this right shall be produced from the basalt aquifer between approximately 350 and 700 feet below land surface. Neither well may be perforated above the basalt aquifer.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

This certificate describes that portion of water right Certificate 93894, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered SEP 06 2024, approving Transfer Application T-14059.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed SEP 06 2024.

Date Mailed: December 20, 2013

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROBERT E. ROTH
12513 HOBART RD
SILVERTON OR 97381

confirms the right to use the waters of A WELL in the ABIQUA CREEK BASIN for IRRIGATION of 158.0 ACRES.

This right was perfected under Permit G-11434. The date of priority is MARCH 4, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 360 GALLONS PER MINUTE or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Measured Distances
6 S	1 W	WM	28	SE NE			1975 FEET SOUTH & 25 FEET WEST FROM NE CORNER, SECTION 28

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Acres
6 S	1 W	WM	27	SW NW		44	12.5
6 S	1 W	WM	27	NW SW		44	27.8
6 S	1 W	WM	27	SW SW		44	26.3
6 S	1 W	WM	28	SW NE		44	0.2
6 S	1 W	WM	28	SE NE		44	1.2
6 S	1 W	WM	28	NE SE		44	31.0
6 S	1 W	WM	28	NW SE		44	3.2
6 S	1 W	WM	28	NW SE		43	6.9
6 S	1 W	WM	28	SW SE		43	16.8
6 S	1 W	WM	28	SW SE		44	2.4
6 S	1 W	WM	28	SE SE		44	29.7

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The water user shall report a March static water level in the well to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board, or the appropriator.

Use of water from the well shall not be allowed if the well displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the well is 39' 8" below ground surface. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times. When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued DEC 20 2013.

NOTICE

Reference: Application G-12434 Permit G-11434

Enclosed is a proposed certificate of water right and map. The map and proposed certificate represent the extent water was used within the terms of the permit based upon Claims of Beneficial Use, prepared by a Certified Water Right Examiner, that either you or a previous permit holder submitted.

The certificate is the final step in the water right process. The Department encourages you to review these proposals. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Jerry Sauter at 503-986-0817.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French

MEMO

TO: FILE G-12434

FROM: Gerry Clark

DATE: April, 2013

RE: DETERMINATION OF PROOF

I've determined that a ☒ PROPOSED ☐ FINAL certificate should be prepared and mailed to the permit holder consistent with:

☒ Permit ☐ Transfer

☐ FPS ☒ COBU

- Limit to 360 gpm per CBU
Use March 1994 SWL for reference
level = 39'8" bgs

As described in the permit/transfer but as clarified by the ☐ FPS ☒ COBU

As described in the PERMIT/TRANSFER and FPS or COBU but as further specified below:

Limit Q to 360 gpm

☒ Conflict? ☒ No ☐ Yes:

☒ stamped PROPOSED or assign Cert #

☒ Draft certificate(s) are available in the transfer directory.

☒ Water Organization identified using area of interest tool? ☒ No ☐ Yes, cc:

☒ Check ownership; and if there is a new owner, add them to the mailing list.

☒ Prepare a mailing list.

☐ Record marking: App ☐ Cert ☐

STATE OF OREGON

COUNTY OF MARION

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

ROBERT E. ROTH
12513 HOBART ROAD
SILVERTON, OREGON 97381

503-873-4862

to use the waters of A WELL in the ABIQUA CREEK BASIN for IRRIGATION OF 158.0 ACRES.

This permit is issued approving Application G-12434. The date of priority is MARCH 4, 1991. The use is limited to not more than 400 GALLONS PER MINUTE, or its equivalent in case of rotation, measured at the well.

The well is located as follows:

SE 1/4 NE 1/4, SECTION 28, T 6 S, R 1 W, W.M.; 1975 FEET SOUTH AND 25 FEET WEST FROM NE CORNER, SECTION 28.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

SW 1/4 NW 1/4 12.5 ACRES
NW 1/4 SW 1/4 27.5 ACRES
SW 1/4 SW 1/4 26.5 ACRES

SECTION 27

SW 1/4 NE 1/4 0.2 ACRE
SE 1/4 NE 1/4 1.2 ACRES
NE 1/4 SE 1/4 30.0 ACRES
NW 1/4 SE 1/4 9.0 ACRES
SW 1/4 SE 1/4 22.8 ACRES
SE 1/4 SE 1/4 28.8 ACRES

SECTION 28

TOWNSHIP 6 SOUTH, RANGE 1 WEST, W.M.

The water user shall report a March static water level in the well(s) to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer or the permittee/appropriator.

Use of water from the well(s) shall not be allowed if the well(s) displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the well(s) are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

Application G-12434

Water Resources Department

PERMIT G-11434

March 1994
39'8"

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before February 24, 1993, and shall be completed on or before October 1, 1994. Complete application of the water shall be made on or before October 1, 1995.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued this date, FEBRUARY 24, 1992.

William H. Young
Water Resources Department
William H. Young
Director

DRAFT

G-12434 (app)

The Story for Permit G-13335 *(and G-11434?)*

April 4, 2013

Story

The Use for Permit G-13335 is “Supplemental Irrigation, to make up a Deficiency in Rate for Permit G-11434, of 158.0 acres.” Two wells, Well #1 and Well #2, were authorized as POA’s.

Well #1 was constructed (MARI-3467) on 2-22-1974 then deepened (MARI-3466) on 10/6/1978 (also know as “a well” in Appl. G-12434). Well #1 became an exempt well on 5/13/2010 pursuant to Start Card 201579, I.D. # L-101907, well log MARI-63096. By this time, K. Wozniak of WRD’s Geology/Hydrogeology Section, had noted that the POA location of Well #1 in Permit G-13335 was incorrect and should have been referenced to the “...NE Cor Sec 28 rather than the NE ¼ Cor...” *(These measurements are currently being checked out by Borden.)*

In any case, new Well #1 (MARI-63097) was completed on 6/3/2010 approximately 64 feet southeasterly of Old Well #1.

Well #2 (MARI-51875) was constructed on 5/25/1997, connected to the existing water distribution system, and irrigation commenced.

A Time Extension Final Order for G-13335 *(Permit G-11434 was not included)* was issued by WRD on January 6, 2012, with a completion date of 10/1/2013.

Based upon recommendations from several WRD staff and discussions with the Permit holder during April 2013, Mr. Tim Roth is herewith applying for a Permit Amendment. We hope that such action will cause new Well #1 (i.e. MARI-63097) to be added to Permit G-13335 *(and Permit G-11434?)* to replace the “old” Well #1.

Old Well #1 was also previously the well serving Permit G-11434 for which a Claim of Beneficial Use (COBU) has been previously filed *(Was a COBU filed? Was it withdrawn? Was a Certificate issued? None of this is verified by WRIS)*. As such, WRD may wish to amend its records for that Permit *(Certificate?) (see memo from Cory Engel dated April 18, 1997 and memo from Shawn Turner dated March 26, 2013)*. **NOTE:** Tim, can you help me with this matter?

Once the Permit Amendment is obtained from WRD, Mr. Roth intends to file a COBU and map for Permit G-13335 *(and for G-11434??)*.

DRAFT

Oregon Water Resources Department
PERMIT CONDITION WATER-LEVEL REPORTING FORM

Your water right requires periodic static water-level measurements in your wells. Consult your permit or certificate to determine when measurements should be made, when reports are due, and who is allowed to make the measurements. Keep a copy of all measurement reports for your records. All wells that have been constructed must be measured regardless of whether they are being used. Please contact the Department if you are no longer the holder of this right or no longer have an interest in it.

Well History (if available):

Logid	Startcard	Type Work	Date	Depth
MARI 3467		NEW WELL	02/02/1974	446
MARI 3466		DEEPENING	10/06/1978	614

Our records indicate that you are the holder of a groundwater permit that requires that you periodically measure and report static water levels in your well(s). If you are no longer the holder of this permit or no longer have an interest in it, please contact our department. **Consult your permit to determine the required times for measuring and reporting, as well as any requirements regarding who may make the measurements.** We recommend that you keep a copy of all measurement reports for your records. All measurements should be made to at least the nearest tenth of a foot or the nearest inch (e.g. 10.2 feet or 10 feet 3 inches). **All wells that have been constructed must be measured regardless of whether they are being used, in accordance with your permit.**

MEASUREMENT REPORT (Complete one form for each well.)

Well Identification (Please correct any errors. Provide as much information as possible for wells without an OWRD Well Log ID.)

OWRD Well Log ID: **MARI 3467**

OWRD Site Name: **ROTH**

Owners Site Name: (Indicate "Not yet drilled" if proposed)

Well Tag on Well: **L-** Date drilled: **2/2/1974**

Well Tag on Well Log: **L-** Total well depth (ft): **614**

Well drilled by: Casing diameter (in): **10**

Owner on well log: **ROBERT ROTH**

When did water use begin under this permit from this well? Date: Month/Yr

Measuring point (MP) is **.85** feet above below (circle one) land surface.

Description of measuring point (e.g. 1/-inch access port in sub seal): **3/4" NPT port top of well seal on west side**

Water Level Measurement:

Well Log ID	Date Measured (mm/dd/yyyy)	Depth to Water Below Meas Point	Depth to Water Below Land Surface	Measurement Status*	Measurement Method**
MARI 3467	03-31-08	32.95'	32.10' ✓	static ☒ pumping ☐ rising ☐ flowing ☐	e-tape ☒ airline ☐ other ☐

For airline measurements only: Airline pressure _____ psi Airline length _____ ft

For flowing artesian wells only: Shut-in pressure _____ psi

Length of time well was idle prior to water-level measurement: **all winter**

Comments:

I hereby certify that, to the best of my ability, the information on this report is accurate and, at the time of measurement, representative of the static water level in the aquifer.

CLAIM OF BENEFICIAL USE AND SITE REPORT

Robert E. Roth
12513 Hobart Rd.
Silverton, OR 97381
Ph: 873-4862

Application #: G-12434

Permit #: G-11434

Source and Diversion Point: Ground water source with 610 ft. deep well cased with size 10 inch pipe to 300 feet. The well was drilled by Stadel Drilling Co. in 1974, and usually has a static water level of 38 feet.

Pump and Motor: The well is served by a 40 HP Berkeley submersible pump.

Irrigation Equipment: Size 5 inch aluminum mainline with 50 foot valve spacing extends from the pump in various layouts to suit the seasonal cropping. Three WadeRain Wheelines and three 1300 foot long size 3 inch portable laterals are used in various combinations.

Irrigation System
Makes Use Of: Approximately sixty Rainbird/Nelson sprinklers using 11/64" nozzles. At typical operating pressures of 50 psi the sprinklers distribute about 360 gallons per minute during the operating cycle.

Use:

The system irrigates 158 acres over a typical three year crop rotation. In 1995 the crops consisted of bush beans, peas and vegetable seed.

re: file G-12434 in the name of Robert E. Roth

Dear Mr. Grimm,

The supporting map you revised was received by the Department on January 23, 1995. Our review finds:

The location of the point of diversion has been added to the map using an adhesive tape. This is unacceptable. OAR 690-14-170-(1) requires the map to be "...drawn in ink on permanent quality linen or 0.003 inch mylar.."

I am returning the map completion or correction. You have 60 days from the date of this letter to remedy the issue.

Without this information, a certificate cannot be processed for this file. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Program Representative

4. a. _____ **THE PERMIT** should allow groundwater production from no deeper than _____ ft. below land surface;
b. _____ The permit should allow groundwater production from no shallower than _____ ft. below land surface;
c. _____ The permit should allow groundwater production only from the _____ groundwater reservoir between approximately _____ ft. and _____ ft. below land surface;
d. _____ Well reconstruction is necessary to accomplish one or more of the above conditions.
e. _____ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS: _____

See file
6-6877 which
also lists this well.

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. **THE WELL** which is the point of appropriation for this application does not meet current well construction standards based upon:
- a. ☐ review of the well log;
 - b. ☐ field inspection by _____;
 - c. ☐ report of CWRE _____;
 - d. ☐ other: (specify) _____
6. **THE WELL** construction deficiency:
- a. ☐ constitutes a health threat under Division 200 rules;
 - b. ☐ commingles water from more than one groundwater reservoir;
 - c. ☐ permits the loss of artesian head;
 - d. ☐ permits the de-watering of one or more groundwater reservoirs;
 - e. ☐ other: (specify) _____
7. **THE WELL** construction deficiency is described as follows: _____
8. **THE WELL**
- a. ☐ was, or
 - b. ☐ was not
 - c. ☐ I don't know if it met standards at the time of construction.
- constructed according to the standards in effect at the time of original construction or most recent modification.

RECOMMENDATION:

- A. ☐ I recommend including the following condition in the permit:
"No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. ☐ I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. ☐ **REFER** this review to Enforcement Section for concurrence.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit.

_____, 1991.

(Signature)

I do not concur in G/H's recommendation A or B above relating to conditioning or withholding the permit for the following reasons: _____

INTEROFFICE MEMO

To: FILE

Date: September 24, 1991

From: MICHAEL ZWART ^{MJZ}

Subject: APPLICATION G-12434, ROBERT ROTH

The subject well penetrates a deep basalt aquifer, and is not in hydraulic connection with Abiqua Creek.

The well is located relatively close to the Mount Angel proposed groundwater management area. Water-level declines may be possible or ongoing in the basalt aquifer in this area. On this basis, resource protection condition 4E is recommended.

STATE OF OREGON WATER RESOURCES
COUNTY OF MARION

FEB 18 1992

DRAFT

WATER RESOURCES
DEPT.
OF AGRICULTURE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

ROBERT E. ROTH
12513 HOBART ROAD
SILVERTON, OREGON 97381

503-873-4862

to use the waters of A WELL in the ABIQUA CREEK BASIN for IRRIGATION OF 158.0 ACRES.

This permit is issued approving Application G-12434. The date of priority is MARCH 4, 1991. The use is limited to not more than 400 GALLONS PER MINUTE, or its equivalent in case of rotation, measured at the well.

The well is located as follows:

SE 1/4 NE 1/4, SECTION 28, T 6 S, R 1 W, W.M.; 1975 FEET SOUTH AND 25 FEET WEST FROM NE CORNER, SECTION 28.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

SW 1/4 NW 1/4	12.0 ACRES
NW 1/4 SW 1/4	27.5 ACRES
SW 1/4 SW 1/4	26.5 ACRES
SECTION 27	
SW 1/4 NE 1/4	0.2 ACRE
SE 1/4 NE 1/4	1.2 ACRES
NE 1/4 SE 1/4	30.0 ACRES
NW 1/4 SE 1/4	9.0 ACRES
SW 1/4 SE 1/4	22.8 ACRES
SE 1/4 SE 1/4	28.8 ACRES

SECTION 28

TOWNSHIP 6 SOUTH, RANGE 1 WEST, W.M.

The water user shall report a March static water level in the well(s) to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, or professional engineer.

Use of water from the well(s) shall not be allowed if the well(s)

for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the well(s) are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

re: file G-12434 in the name of Robert E. Roth

Dear Mr. Grimm,

The supporting map you revised was received by the Department on January 23, 1995. Our review finds:

The location of the point of diversion has been added to the map using an adhesive tape. This is unacceptable. OAR 690-14-170-(1) requires the map to be "...drawn in ink on permanent quality linen or 0.003 inch mylar.."

I am returning the map completion or correction. You have 60 days from the date of this letter to remedy the issue.

Without this information, a certificate cannot be processed for this file. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Program Representative

re: G-12434

Dear Mr. Grimm,

The claim of beneficial use and supporting map were received by the Department on September 11, 1995. Our review finds:

The map must establish the location of the point of diversion as required by OAR 690-11-070-(5).

You must show the location of each diversion point, well, or dam, by reference to a recognized public land survey corner, as required by OAR 690-11-070-4-(a).

I am returning the map for completion. You have 60 days from the date of this letter to remedy the issue.

If you have any questions, please give me a call.

Sincerely,

To

re: file G-12434

Dear Mr. Roth,

I am working on finalizing your water right. The Pump Test Section indicates you have not submitted a pump test report on your well as required by your water right permit. I cannot issue a water right certificate until you have met the pump test requirements.

It is possible you recently submitted the pump test results and the data base has not yet been updated. If you have submitted the pump test results, it would help for you to send me a copy and I can expedite the data base update and continue processing your file.

If you need information about pump testing please contact the Pump Test Section at the Water Resources Department. Until there is a copy of the Water Resources Department Pump Test Section letter acknowledging and accepting your pump test, there will be no further action on your file.

Sincerely,

Don Knauer
Program Representative

This letter is in regard to your water use Permit G-11434. As we pointed out to you in our letter of October 25, 1994, your claim of beneficial use must be received in this office by October 21, 1995.

Oregon Administrative Rule 690-14-190 states: "The claim of beneficial use shall be submitted to the Department within one year after the use was reported..as being complete...Failure to comply with this section shall cause the Director to initiate permit cancellation proceedings as provided by ORS 537.260."

The "claim" consists of a site report and map of the developed use prepared by a Certified Water Rights Examiner, which accompany a request from the permittee for issuance of a certificate of water right.

You are hereby notified that unless your claim is received on or before October 21, 1995, your permit will be canceled without further notice.

If you have any questions, please contact the Water Rights Section.

Your application for a permit to use the public waters has been reviewed.

A "draft" permit is enclosed for your consideration. In the preparation of this draft permit, our staff has considered any public or agency comments received, as well as all pertinent Oregon laws, administrative rules and Commission policies.

We are now ready to recommend the issuance of a permit approving your request to use water. The draft permit enclosed contains all of the conditions and limitations that would appear on your permit, if issued.

Please review the draft permit carefully. If you are satisfied that the draft adequately describes your proposed use of water, and the terms are acceptable to you, please sign the draft copy in the spaces(s) provided and return it to us within 30 days. When we receive your signed draft, we will issue your permit as quickly as possible.

If you do not agree with, or cannot accept one or more of the terms or conditions as stated in the enclosed draft, you should advise us immediately. In this event, we will then advise you of any options which may be available to you.

If you have any questions, please contact the Water Rights Section at 378-3066.

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

ROBERT E. ROTH
12513 HOBART ROAD
SILVERTON, OREGON 97381

503-873-4862

to use the waters of A WELL in the ABIQUA CREEK BASIN for IRRIGATION OF 158.0 ACRES.

This permit is issued approving Application G-12434. The date of priority is MARCH 4, 1991. The use is limited to not more than 400 GALLONS PER MINUTE, or its equivalent in case of rotation, measured at the well.

The well is located as follows:

SE 1/4 NE 1/4, SECTION 28, T 6 S, R 1 W, W.M.; 1975 FEET SOUTH AND 25 FEET WEST FROM NE CORNER, SECTION 28.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

SW 1/4 NW 1/4	12.0 ACRES
NW 1/4 SW 1/4	27.5 ACRES
SW 1/4 SW 1/4	26.5 ACRES
SECTION 27	
SW 1/4 NE 1/4	0.2 ACRE
SE 1/4 NE 1/4	1.2 ACRES
NE 1/4 SE 1/4	30.0 ACRES
NW 1/4 SE 1/4	9.0 ACRES
SW 1/4 SE 1/4	22.8 ACRES
SE 1/4 SE 1/4	28.8 ACRES

SECTION 28

TOWNSHIP 6 SOUTH, RANGE 1 WEST, W.M.

The water user shall report a March static water level in the well(s) to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, or professional engineer.

Use of water from the well(s) shall not be allowed if the well(s) displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the well(s) are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before , and shall be completed on or before October 1, 1994. Complete application of the water shall be made on or before October 1, 1995.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued this date, .

Water Resources Department
William H. Young
Director

I, _____, hereby understand and agree that this draft permit describes the full extent of water use that will be allowed approving Application G-12434. By signature below, I agree to the proposed terms and conditions for this draft permit.

The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before , and shall be completed on or before October 1, 1994. Complete application of the water shall be made on or before October 1, 1995.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued this date, .

Water Resources Department
William H. Young
Director

I, Robert Roth, hereby understand and agree that this draft permit describes the full extent of water use that will be allowed approving Application G-12434. By signature below, I agree to the proposed terms and conditions for this draft permit.

Land Use Information Form: Permits, Hydroelectric Licenses, Water Uses in
Addition to Classified Uses

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. **DO NOT FILL OUT THIS FORM IF water is to be diverted, conveyed, and/or used only on federal lands.**

RECEIVED**MAR 04 1991**

Applicant's Name: Robert Roth WATER RESOURCES DEPT
Address: 12513 Hobart Rd. SALEM, OREGON
City: Silverton State: OR Zip: 97381 Day Phone: 873-4862

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot or Local I.D.#	Plan Designation/Zoning (e.g. Rural Residential/RR-5)	Check All That Apply		
		Water Diverted	Water Conveyed	Water Use
	<u>PRIMARY AGRICULTURE / ECU</u>			

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used.

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within city limits. In this case, only the city planning agency must complete this form. Please request extra forms as needed.

For Local Government Use Only

Local government planning officials are to complete the remainder of this form. If this form can not be completed while the applicant waits, please sign and detach the receipt as instructed below. Please mail the completed form directly to the Water Resources Department (3850 Portland Rd. NE, Salem, OR, 97310) within 60 days of the date of receipt as shown below. If the form is not completed within 60 days, the Department may take action to approve the water use.

a) Check the appropriate box below and provide requested information.

☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 136.020. Go to section b) on reverse side.

☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. **Note:** Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus any accompanying findings is sufficient.)

Type of Land Use Approvals Needed (e.g.: plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Please check the box that applies:		
		Already Obtained	Already Denied	Being Pursued Satisfactorily

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet. For additional information call Roberta Jortner or Rick Bastasch at 378-3671.

Additional Comments: •

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Description of Water Use

Note to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Note to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

the following described premises to-wit:

RECEIVED

MAR 04 1991

Beginning at a point which is West 21.71 chains and South 16.30 chains from a point 43.29 chains South of the Northeast corner of the Southeast quarter of the Southeast quarter of Section 21, Township 6 South, Range 1 West of the Willamette Meridian, Marion County, Oregon; thence South 22.07 chains; thence South 85° 15' East 19.46 chains; thence North 1° 30' East 23.35 chains; thence West 19.85 chains to the place of beginning, containing 42.75 acres of land, more or less, all situated in Section 28, Township 6 South, Range 1 West of the Willamette Meridian in Marion County, Oregon.

Also: Beginning at an iron pipe on the East line and 32.116 chains South from the Northeast corner of the Donation Land Claim of Elias Cox and wife in Township 6 South, Range 1 West of the Willamette Meridian in Marion County, Oregon; thence South 26.53 chains along the East line of the Elias Cox Donation Land Claim to a stone; thence North 86° 34' West 9.52 chains; thence North 26.12 chains parallel to the East line of the said Elias Cox Donation Land Claim; thence South 89° East 9.50 chains, to the place of beginning and containing 25 acres of land, more or less.

Also: Beginning at a point in the center of the County Road leading from Silverton to Salem which said point is North 30.00 feet and South 87° 24' East 33.00 feet from the Northeast corner of a 48.56 acre tract of land deeded by Al Coolidge and Company to Gideon D. Bowen and Amanda Bowen by deed recorded January 3, 1901 in Vol. 76, Page 134, Deed Records for Marion County, Oregon, said point being also North 25.954 chains and South 87° 24' East 33.00 feet from the Southeast Corner of the Donation Land Claim of Elias Cox and wife in Township 6 South, Range 1 West of the Willamette Meridian Marion County, Oregon; thence North along the East line of a 33.00 foot road 25.79 chains to a point in the North boundary of lands owned by the grantors; thence South 85° 15' East along said North boundary 5.86 chains; thence South 25.69 chains to the center of the aforesaid road; thence North 87° 24' West along the center of said road 5.85 chains to the place of beginning, containing 15.00 acres and being a part of the Donation Land Claim of Peter Cox and wife in Township 6 South, Range 1 West of the Willamette Meridian, Marion County, Oregon.

together with the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining. To have and to hold the same, with the appurtenances, unto the said Carl E. Jorgenson and/or Bertha Jorgenson, their heirs and assigns forever. And the said Mortgagor does hereby covenant to and with the said mortgagee that they are the owner^s in fee-simple of said premises; that same are free from all incumbrances, save that created by this Indenture.

and that they will warrant and defend the title thereto against all other lawful claims whatsoever.

THIS CONVEYANCE is intended as a MORTGAGE to secure to the said Carl E. Jorgenson and/or Bertha Jorgenson, their heirs and assigns, the payment of Nine Thousand Four Hundred and no/100 DOLLARS,
in accordance with the tenor of a certain instrument of writing executed by Harvey E. Mikkelson and Myrtle Mikkelson, payable to the order of Carl E. Jorgenson and/or Bertha Jorgenson, as follows:

Amount

Date

Payable

\$9400.00

with interest thereon as in said notes provided.

Each of the said promissory notes contain provisions therein for a reasonable attorney's fee in case suit or action be instituted thereon; also, that upon default in the payment of principal or interest, or any installment of principal or interest the holder thereof shall have the option to declare the whole amount of the note immediately due and payable.

It is agreed that the mortgagors shall pay all taxes and special assessments, as same become payable, which may be assessed to or become a lien on said premises; that all buildings on said premises shall be insured by the mortgagor in some responsible insurance company to be designated by the mortgagee, in a sum not less than \$2700.00, loss, if any, payable to mortgagee.

Now, if the sums of money due upon said instrument shall be paid according to the agreement therein expressed, this conveyance shall be void; but in case default shall be made in payment of the principal or interest, or taxes or insurance premiums, as above provided, then the said Carl E. Jorgenson and/or Bertha Jorgenson and their legal representatives may sell the premises above described, with all and every of the appurtenances, or any part thereof, in the manner prescribed by law, and out of the money arising from such sale, retain the said principal and interest together with the costs and charges of making such sale, and the overplus, if any there be, pay over to the said Harvey E. Mikkelsen and

Myrtle Mikkelsen, their

heirs and assigns

Application for a Permit to Appropriate Ground Water

Applicant(s) ROBERT E. ROTH
(Please print or type - use dark ink)
Mailing Address: 12513 HOBART ROAD
SILVERTON OREG 97381 873-4862
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. THE DEVELOPMENT (number of wells, tile lines, infiltration galleries, etc.):
ONE WELL

Submitted log
for MARI
Loc corresponds
to POA on Appl.
6-6877, PG-
which is MARI
3467/3466
KLV

If development is less than one mile from a natural stream, give the following:

Distance from development to stream: _____

Elevation difference between streambed and development: _____

NOTE: Wells must be constructed according to standards set by the department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well driller's log with this application, and skip to Section 2 below.

(WELL LOG ATTACHED)

Diameter of well: 10" Depth in feet: 575'

Type and size of well casing: _____ No. of feet: _____

Estimated depth to water: _____

Type of access port or measuring device: _____

Wells to be drilled by: _____

Address: _____

If the water well is flowing artesian, describe your water control and conservation works: _____

2. TOTAL AMOUNT OF WATER to be applied to beneficial use: _____ cubic feet per second, OR 400 gallons per minute. If water is to be used from more than one ground water source, give the quantity of water from each: _____

200' e van
396' ready fees

3. **INTENDED USE(s) OF WATER:** FARM IRRIGATION

If for more than one use, give the quantity of water from each source for each use; _____

If for **DOMESTIC** use, state the number of households to be supplied; _____

If for **MUNICIPAL OR QUASI-MUNICIPAL** use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.)

If for **MINING** use, state the nature (gold, silver, etc.) of the mines to be served; _____

If for **IRRIGATION**, or other land area use, state the **TOTAL** number of acres to be developed under each use;

Irrigation 158

Other (describe) _____

4. **DESCRIPTION OF WATER DELIVERY SYSTEM:** Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

5" ALUMINUM MAINLINE

40 HP WORTHINGTON VERTICAL TURBINE PUMP
WHEEL LINE

PORTABLE ALUM SPRINKLER LATERAL

5. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin DONE 1981

Proposed date construction work will be completed _____

Proposed date water use will be completed JUNE 1991

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

 Applicant X CWRE Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

 X Applicant CWRE Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? . If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

NOTE: Prior to receiving a certificate of water right, the permit holder must submit to the Water Resources Department the results of a pump test meeting the department's standards. The Director will require water level or pump test results every ten years thereafter.

REMARKS: IRRIGATION / CROPS TO BE

 ROTATED OVER PORTION OF

 ACREAGE EACH YEAR

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
