MEMO – 2014-2015 Certificate Project Proof to Satisfaction (Aug 7, 2014)

Application # <u>S 72386</u>	Permit # <u>S 53322</u>	Transfer #
WRD Reviewer <u>Corey Courchane</u>	Date <u>10-21-14</u>	
WRD Peer Reviewer <u>Kerry</u>	Date <u>12-18-14</u>	

Research

- ☒ Organize file in chronological order
- ☒ Pull CBU Report & Map(s), Application Map, relevant Permit, Certificate, or Transfer Order, most recent Assignments, Extension Orders, SWL Measurements, Fish Screen Certification Documents, Water Use Reports & Pump Tests
- ☒ Search for Water Right Location using Interactive Mapper. Identify Tax Lots & check for Area of Interest (AOI)
- ☒ Water Organization identified using AOI? ☒ No ☐ Yes
If "Yes" cc: _____ & Add to Mailing List
- N/A Print Tax Lot Map from ormap.net for the original Place of Use, and confirm Current Ownership & Address with County Assessor
If there is a new owner, Add to Mailing List, including the owner(s) name & tax lot number
- N/A Print Platcard & check for Place of Use Conflict? ☐ No ☐ Yes
If "Yes", provide copy of certificate & relevant map
- ☒ Print BLM Cadastral Survey
- ☒ Does Claim Map identify correct DLC, Gov't Lots, QQ's? ☐ No ☒ Yes
If "No", either _____ WRD amend map OR _____ prepare Order of Certification

Reviewing Claim

Have conditions on relevant permit, certificate, or transfer order been complied with? Yes, No, OR N/A

- yes Fish Conditions
- yes Meter/measuring device
- N/A Water Use Reporting
- N/A Pump Test (post December 19, 1988)
- yes Other Conditions Water Service contract
- N/A SWL
- yes C-Date App Says May 1, 1992
- N/A Run Capacity Calculator and Print Findings (for pump, sprinklers, pipes, ditches, as appropriate)

NOTES:

- A 1-30-99 - States none required on app.
- C 10-1-02 - States May 1, 1992 on app.

Determination

CCPve determined that the permit/transfer was fully developed as authorized and that a **FINAL** Certificate should be issued. User has fully developed, made proof of beneficial use, and complied w/ conditions

___ I've determined that the permit/transfer was not fully developed as authorized and that a **PROPOSED** Certificate should be issued. A proposed Certificate should be issued for the following reason(s):

____ I've determined that beneficial use was NOT made within the terms and conditions and that a **Proposed Order of Certification** (denial) should be issued. A proposed Order of Certification should be issued for the following reason(s):

Processing

C Stamp PROPOSED or Assign CERT# 89580 or ORDER OF CERTIFICATION (circle one)

cc Draft Certificates or Proposed Order of Certifications are available in the Application directory.

cc Prepare Mailing List. Include Applicant(s); Receiving Landowner(s); Current Owner(s); Water Organizations; CWRE. Indicate records to be marked.

___ Record marking: App _____ Permit _____ Cert _____
 App _____ Permit _____ Cert _____
 App _____ Permit _____ Cert _____
 App _____ Permit _____ Cert _____

NOTES:

Mailing List for Certificate

FAX 503-986-0904

Date Mailed: January 23, 2015

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

STATE OF OREGON
COUNTIES OF JACKSON AND JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

U.S. BUREAU OF LAND MANAGEMENT
3040 BIDDLE RD
MEDFORD, OR 97504

confirms the right to use the waters of LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMIT R-8142, AND THE ROGUE RIVER, A TRIBUTARY OF PACIFIC OCEAN for INDUSTRIAL USE.

This right was perfected under Permit S-53322. The date of priority is MAY 4, 1992. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.95 CUBIC FOOT PER SECOND TOTAL FROM LIVE FLOW OF THE ROGUE RIVER, AND NOT MORE THAN 17.0 ACRE-FEET TOTAL PER YEAR FROM LOST CREEK RESERVOIR STORED WATER ONLY, OR AS FURTHER LIMITED BY THE WATER SERVICE CONTRACT, SAID STORED WATER TOTAL TO BE DIVIDED BETWEEN PERMITS S-53321 AND S-53322; BEING FURTHER LIMITED TO 615,000 GALLONS PER DAY MAXIMUM FROM TEN SEPARATE POINTS OF DIVERSION AS FOLLOWS: 93,000 GALLONS PER DAY MAXIMUM FOR PRESCRIBED FIRE PREVENTION AND CONTROL, AND 522,000 GALLONS PER DAY MAXIMUM FOR ROAD OPERATIONS or its equivalent in case of rotation, measured at the point of diversion.

The period of allowed use is LIVE FLOW FROM JANUARY 1 THROUGH APRIL 30 AND STORED WATER YEAR ROUND, OR AS FURTHER LIMITED BY THE TERMS AND CONDITIONS OF THE WATER SERVICE CONTRACT

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
33 S	1 E	WM	31	NE NW	1054 FEET SOUTH & 1455 FEET EAST FROM NW CORNER, SECTION 31

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

*For maps of the place of use, see application maps.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of the memorandum of understanding dated October 7, 1997, or a satisfactory replacement, between the US Army Corps of Engineers and the water user, a copy of which is on file in the records of the Water Resources Department.

The water user shall maintain and operate fish screening and fishway as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the diversion.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued JAN 23 2015

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

Oregon Water Resources Department
158 12 St. North East
Salem, Oregon 97310-0210

Dear Mr. French:

Enclosed please find a copy of the Memorandum of Understanding (MOU) between the BLM and the Corps of Engineers for the use of water from Lost Creek Reservoir on the Rogue River. This MOU serves as the executed water service contract requested by the Water Resources Department in the final orders for water right application numbers S-69132 and S-72386.

Please finalize these two applications and issue the approved permits.

Sincerely,

Laurie Lindell

District Hydrologist

MEMORANDUM OF UNDERSTANDING BETWEEN
US DEPARTMENT OF INTERIOR, BUREAU OF LAND MANAGEMENT,
MEDFORD DISTRICT AND
US ARMY CORPS OF ENGINEERS, PORTLAND DISTRICT
FOR WATER IN THE ROGUE BASIN

AUTHORITIES

Whereas the Portland District, US Army Corps of Engineers (hereafter "District") is authorized by the Flood Control Act of 1962, P.L. 87-874, 76 Stat. 1173 ff., Oct 23, 1962, including incorporated reference H. Doc. 566 of the 87th Congress, 2nd Session, Sep 21, 1962, to construct, operate and maintain Lost Creek Dam and Project on the Rogue River for multiple purpose operations including flood control, irrigation, water supply, fish and wildlife enhancement, hydroelectric power and recreation;

Whereas the Bureau of Land Management (hereafter "BLM") is authorized to manage designated lands in the Rogue River Basin;

Whereas the District and the BLM are authorized to enter into Economy Act Agreements with other Federal agencies pursuant to 31 USC 1535;

Whereas the Economy Act is independent authority for Federal agencies to provide goods and services to each other;

Whereas under the Water Supply Act of 1958, as amended (43 U.S.C. 390b-f), the District is authorized to supply water for municipal and industrial use;

Whereas the BLM is desirous of and needs up to 17 acre-feet annually of water stored by the Lost Creek Project on the Rogue River to use for safety and management during prescribed burn operations and for road construction and maintenance activities;

Whereas the District has up to 17 acre-feet of water annually to provide to the BLM; and

The parties hereby agree as follows:

OBLIGATIONS OF THE PARTIES

1. OBLIGATIONS OF THE DISTRICT

a. The District shall provide the BLM up to 17 acre-feet of water annually from available storage in the Lost Creek Reservoir, subject to the rights of other users and to the paramount right of the District to manage its projects as directed by Congress, including the right to change the operation of the project and alter the use of stored water as necessary to meet authorized purposes and emergencies.

b. The District makes no representation and assumes no responsibility with respect to the quality of water released from Lost Creek Reservoir.

2. OBLIGATIONS OF THE BLM

a. The BLM shall be responsible for the diversion, wheeling and/or use of up to 17 acre-feet of water to be provided annually by the District, in accordance with applicable Federal and state laws.

b. The BLM shall be responsible for obtaining all necessary water rights and permissions to divert, wheel, and/or otherwise use and consume the water to be provided by the District. Refer to Oregon Water Rights Applications S-69132 and S-72386.

c. The quality of water returned to the navigable waters of the United States shall meet all applicable Federal and state standards.

d. The BLM shall inform the District of the actual annual volume of water diverted, wheeled and/or used.

e. Although the withdrawal is de minimis, BLM is responsible for any Federal costs associated with the withdrawal and use of the water so withdrawn and agrees to reimburse the District for any such Federal costs if requested to do so by the District. Such reimbursable District costs are estimated at \$0.00 for this action.

GENERAL PROVISIONS

1. FUNDS AVAILABILITY. To the extent that Federal funds are obligated by this Agreement, such funds and obligations are in all cases conditioned upon the availability of appropriated funds from Congress.

2. LEGAL COMPLIANCE. This Agreement is subject to all applicable Federal and state laws and regulations.

3. DURATION OF AGREEMENT. The Agreement is for a maximum term of 25 years and is renewable thereafter for 25-year periods at the option of the parties. Any party may terminate its participation in this Agreement upon 60 days written notice to the other party. Upon the default or breach of any party to this Agreement, the other party may immediately terminate all or part of this Agreement by written notice to the other party.

4. OFFICIALS NOT TO BENEFIT. No member of or delegate to the Congress, nor any resident commissioner, shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom.

THIS AGREEMENT IS ENTERED INTO THIS 7 DAY OF OCTOBER, 1997

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of

water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of the memorandum of understanding dated October 7, 1997, or a satisfactory replacement, between the US Army Corps of Engineers and the applicant, a copy of which is on file in the records of the Water Resources Department.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance. Complete application of water to the use shall be made on or before October 1, 2002.

Issued January 30, 1998

Martha O. Pagel, Director
Water Resources Department

Application S-72386 Water Resources Department
Basin 15 Volume VARIOUS
MGMT. CODE 1BF, 1BW

PERMIT 53322
District 14

Application No. 72386

State of Oregon
WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Surface Water

Applicant(s) U. S. Department of the Interior, Bureau of Land Management
(Please print or type - use dark ink)

Mailing Address: 3040 Biddle Road
Medford Or. 97504 770-2254
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described waters of the State of Oregon:

1. SOURCE OF WATER for the proposed use: Rogue River,*
a tributary of _____ *(refer to Attachment 1, Sheets 1 & 2, for list of Diversion
points.)
2. TOTAL AMOUNT OF WATER to be applied to beneficial use: 0.95 * cubic feet per
second, OR _____ gallons per minute. If water is to be used from more than one source,
give the quantity of water from each: _____
- * please see attachment No. 2

3. INTENDED USE(S) OF WATER: Industrial Use

If for more than one use, give the quantity of water from each source for each use; N/A

If for **DOMESTIC** use, state the number of households to be supplied; N/A

If for MUNICIPAL OR QUASI-MUNICIPAL use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.)

N/A

If for MINING use, state the nature (gold, silver, etc.) of the mines to be served; N/A

If for IRRIGATION, or other land area use, state the TOTAL number of acres to be developed under each use:

Irrigation	N/A
------------	-----

Other (describe)

4. **DESCRIPTION OF WATER DELIVERY SYSTEM:** Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

Water will be pumped from the Rogue River using either portable pumps or units mounted on trucks into tanker trucks. The water will then be transported via public highways and BLM/USFS roads to the place of use. Diversion sites are situated at existing boat launching sites with each having public access. (refer to Attachment 1, Sheets 1 & 2 and Maps 1 to 10, for description of Diversion Points.)

5. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin None Required

Proposed date construction work will be completed N/A

Proposed date water use will be completed May 1, 1992

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

☒ Applicant ☒ CWRE ☐ Other (Identify in REMARKS section)

- b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

☒ Applicant ☒ CWRE ☐ Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? No. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development. Legal owners for diversion points shown on attached sheet.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Applications and Permits
3850 Portland Road NE
Salem, Oregon 97310

Dear Sir:

Enclosed please find a surface water application for a permit to appropriate water from the Rogue River for industrial use. The following information is included as part of the application.

1. Purchase order for \$300.00.
2. Application for a Permit to Appropriate Surface Water.
3. Maps showing diversion points (map numbers 1 through 10).
4. Legal descriptions of diversion points (attachment 1).
5. Type of use and quantity of water intended to be used for each diversion point (attachment 2).
6. Legal descriptions of place of use (attachment 3).
7. Maps showing place of use (map numbers A-1 through A-55).

The application and maps have been prepared by Mr. Harold L. Center, PLS, CWRE. Mr. Center is an employee of the Rogue River National Forest working under an Interagency Agreement for the Bureau of Land Management to provide services of a Certified Water Right Examiner.

Questions regarding this application should be directed to either Laurie Lindell, District Hydrologist, Bureau of Land Management (503) 770-2254 or Harold L. Center, Land Surveyor, (503) 776-4253.

Sincerely,

A handwritten signature in dark ink, appearing to read "David A. Jones". The signature is fluid and cursive, with the first name "David" being the most prominent.

David A. Jones

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number S-72386

Final Order

Application History

On May 4, 1992, THE BUREAU OF LAND MANAGEMENT submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on December 19, 1995. The protest period closed February 2, 1996, and no protest was filed.

An interagency team reviewed this proposed use for potential adverse impacts on declining fish populations. This team consisted of representatives from the Oregon Departments of Water Resources (WRD), Environmental Quality, Fish and Wildlife (DFW), and Agriculture. WRD and DFW representatives included both technical and field staff. The interagency team recommended that additional limitations or conditions of use be imposed on this application as follows:

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

The period of use has been limited to January 1 through April 30.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to include the condition(s) described above.

Order

Upon receipt of an executed water service contract, Application S-72386 shall be approved as modified above and as conditioned in the attached draft permit.

DATED June 19, 1996

for 
Martha O. Pagel
Director

Hearing and Appeal Rights

Under the provisions of ORS 537.170, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 527.153(6) to the Department within 14 days after this order is issued. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the above modifications to the proposed final order may be addressed.

Under the provisions of ORS 183.484, the applicant or any person having standing may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

STATE OF OREGON

COUNTY OF JACKSON

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

U.S. BUREAU OF LAND MANAGEMENT
3040 BIDDLE RD
MEDFORD, OREGON 97504

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: S-72386

SOURCE OF WATER: LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMIT R-8142, VIA THE ROGUE RIVER, A TRIBUTARY OF PACIFIC OCEAN

PURPOSE OR USE: INDUSTRIAL USE

RATE/VOLUME: - 0.95 CFS TOTAL OF LIVE FLOW FROM THE ROGUE RIVER
- 300.0 ACRE-FEET OF STORED WATER FROM LOST CREEK RESERVOIR
- BEING 615,000 GALLONS PER DAY MAXIMUM FROM TEN SEPARATE POINTS OF DIVERSION
- 93,000 GALLONS PER DAY MAXIMUM FOR PRESCRIBED FIRE PREVENTION AND CONTROL
- 522,000 GALLONS PER DAY MAXIMUM FOR ROAD OPERATIONS

PERIOD OF USE: - LIVE FLOW FROM JANUARY 1 THROUGH APRIL 30
- STORED WATER AS DESCRIBED IN PENDING WATER SERVICE CONTRACT

DATE OF PRIORITY: MAY 4, 1992

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of Water Service Contract No. X-XX-XX-XXXXX or a satisfactory replacement, between the US Army Corps of Engineers and the applicant. The contract is not yet completed. A copy of the completed contract must be on file with the Water Resources Department prior to the issuance of a permit.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

PERMIT DRAFT
District 14

STATE OF OREGON
WATER RESOURCES DEPARTMENT
WATER RIGHTS DIVISION

Before the Director Water Resources Department

In the matter of	)	PROPOSED
Surface Water Application	)	FINAL
S-72386 submitted by	)	ORDER
U.S. BUREAU OF LAND MANAGEMENT		

FINDINGS OF FACT

Water Use Request

1. U.S. BUREAU OF LAND MANAGEMENT REQUESTED USE OF 0.95 CUBIC FOOT PER SECOND (CFS) OF WATER FROM EITHER THE ROGUE RIVER, A TRIBUTARY OF PACIFIC OCEAN, OR LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMIT R-8142, A TRIBUTARY OF THE ROGUE RIVER, A TRIBUTARY OF THE PACIFIC OCEAN, FOR INDUSTRIAL USE WITHIN THE ROGUE BASIN. A stored water will be purchased via a Bureau of Reclamation contract prior to the issuance of a permit.
2. The area of proposed use is in Jackson County within SEVERAL SECTIONS WITHIN A RECTANGULAR AREA WHOSE CORNERS CONSIST OF:
NE CORNER OF T 32S - R 2E
SE CORNER OF T 37S - R 2E
SW CORNER OF T 37S - R 7W
SW CORNER OF T 32S - R 7W
3. The water delivery system is described by the applicant as follows. Water will be pumped from the Rogue River using either portable pumps or units mounted on trucks into tanker trucks. The water will then be transported via public highways and BLM/USFS roads to the place of use. Diversion sites are situated at existing boat launching sites with each having public access.
4. The request was made in Application S-72386 which was received by the Water Resources Department on May 4, 1992.

Affected Waters

1. ROGUE RIVER AND LOST CREEK RESERVOIR, TRIBUTARIES OF PACIFIC OCEAN, are within a State Scenic Waterway.
2. ODFW has advised that one or more species of game fish are present at the described point of diversion.
3. There are senior water rights on ROGUE RIVER AND LOST CREEK RESERVOIR, TRIBUTARIES OF PACIFIC OCEAN, and on downstream waters.

Department Actions

1. The application was determined to be complete and not defective.
2. An unsatisfactory technical review of the application was completed

and a report of the results of that review was mailed to the applicant on August 24, 1994.

3. The unsatisfactory technical review determined:
 - a. INDUSTRIAL USE is allowed under the Rogue Basin Program;
 - b. The use is not prohibited by Statute;
 - c. Water is not available for further appropriation at a 50 percent exceedance probability;
 - d. The use would not injure existing water rights.
4. The report of unsatisfactory technical review indicated that the applicant could present evidence that the findings and/or conclusions set out in the technical review were/are defective or otherwise incorrect.

Assessment

1. In proceeding with evaluation of Application S-72386, the following criteria were found to be relevant by the Department.
 - a. The Rogue Basin Program (OAR Chapter 690, Division 515)
 - b. The Jackson County Comprehensive Plan and Zoning Ordinance
 - c. The amount of water available in ROGUE RIVER AND LOST CREEK RESERVOIR, TRIBUTARIES OF PACIFIC OCEAN
 - d. The established rate and duty for the proposed use
 - e. Pending, senior applications and existing water rights of record
 - f. Pending contract with Bureau of Reclamation for stored water
 - g. Comments received

CONCLUSIONS OF LAW

1. Based upon continued evaluation, the Department finds the determinations of the unsatisfactory technical review require modification. A review of water availability and the ongoing stored water contract proceedings between the applicant and the Bureau of Reclamation result in changing the Technical Review from an Unsatisfactory to a Satisfactory with period of use and source limitations as described in the attached draft permit.
2. The period of allowed use is December 1 through May 31 for live flow and as set by the contract with the Bureau of Reclamation for stored water. Before a permit may be issued, the applicant must submit a valid contract from the Bureau of Reclamation to this Department.
3. The Department finds that no more than 0.95 CFS and 300.0 ACRE-FEET PER YEAR of stored water, would be necessary for the proposed use. The amount of water requested, 0.95 CUBIC FOOT PER SECOND, is allowable, not to exceed 300.0 ACRE-FEET PER YEAR.
4. Jackson County Planning Department staff completed the Department's Land Use Information Form and indicated thereon that the land use associated with the proposed use is compatible with the Jackson County Comprehensive Land Use Plan.

5. Pursuant to ORS 390.835, the proposed use, as conditioned, will not reduce streamflows needed to maintain the free-flowing character of the ROGUE River Scenic Waterway in quantities necessary for recreation, fish and wildlife uses.
6. The proposed use would not conflict with existing water rights, and, if exercised in accordance with law, rule, and the proposed conditions would not result in injury to existing water users.
7. The proposed use complies with all other rules of the Commission.
8. The permit for this application will not be issued until after the applicant has supplied this Department with a copy of the U. S. Army Corps of Engineers stored water purchase contract.
9. Pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly, and given the findings listed above, a rebuttable presumption has been established that the use will not impair or be detrimental to the public interest if exercised in the manner described in the attached draft permit.
10. Therefore, the proposed use, as conditioned, and described in the attached draft permit, would not impair or be detrimental to the public interest.

PROPOSED ORDER

IT IS PROPOSED that Application S-72386 in the name of U.S. BUREAU OF LAND MANAGEMENT be approved for INDUSTRIAL USE as provided in the attached draft permit.

DATED December 19, 1995

Steven P. Applegate
Administrator
Water Rights and Adjudications Division

NOTICE:

This Proposed Final Order is issued by the Department pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly.

To seek changes in this proposed final order, you must file a formal protest.

Formal protests to this proposed final order must be made in proper form and accompanied by the statutory fee in the amount of \$200. Note: The applicant is not subject to this fee.

For other than the applicant, if you agree with the findings in this proposed order, but wish to maintain your right to participate in

any contested case proceeding or judicial review, you must file a written request for standing. Requests for standing in proceedings relating to this application must be made in the proper form and accompanied by the statutory fee in the amount of \$50.

Protests or requests for standing, along with the appropriate fees must be received by the Water Resources Department in Salem, Oregon by 5:00 pm on February 2, 1996.

Only the applicant and any persons who timely file a protest or request for standing may participate in further proceedings before the Department or the Commission which deal with this Application.

DRAFT
STATE OF OREGON

COUNTY OF JACKSON

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

U.S. BUREAU OF LAND MANAGEMENT
3040 BIDDLE RD
MEDFORD, OREGON 97504

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: S-72386

SOURCE OF WATER: LIVE FLOW FROM THE ROGUE RIVER AND A BUREAU OF RECLAMATION CONTRACT FOR STORED WATER FROM LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMIT R-8142, VIA THE ROGUE RIVER, A TRIBUTARY OF PACIFIC OCEAN

PURPOSE OR USE: INDUSTRIAL USE

RATE/VOLUME: - 0.95 CFS TOTAL OF LIVE FLOW FROM THE ROGUE RIVER
- 300.0 ACRE-FEET OF STORED WATER FROM THE BUREAU OF RECLAMATION CONTRACT FROM LOST CREEK RESERVOIR
- BEING 615,000 GALLONS PER DAY MAXIMUM FROM TEN SEPARATE POINTS OF DIVERSION
- 93,000 GALLONS PER DAY MAXIMUM FOR PRESCRIBED FIRE PREVENTION AND CONTROL
- 522,000 GALLONS PER DAY MAXIMUM FOR ROAD OPERATIONS

PERIOD OF USE: - LIVE FLOW FROM DECEMBER 1 THROUGH MAY 31
- STORED WATER AS DESCRIBED IN PENDING BUREAU OF RECLAMATION CONTRACT

DATE OF PRIORITY: May 4, 1992

POINT OF DIVERSION LOCATION: ^{R1E}
NE 1/4 NW 1/4, SECTION 31, T33S, R1W, W.M.; 1054 FEET SOUTH & 1455 FEET EAST FROM NW CORNER, SECTION 31

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SEVERAL SECTIONS WITHIN SEVERAL TOWNSHIPS WITHIN A RECTANGULAR AREA WHOSE CORNERS CONSIST OF:

NE CORNER OF T 32S - R 2E
SE CORNER OF T 37S - R 2E
SW CORNER OF T 37S - R 7W
SW CORNER OF T 32S - R 7W

- TOTAL ACRES WITHIN THE RECTANGLE ARE 1,180,160 ACRES
- APPROXIMATE TOTAL ACREAGE DESIGNATED AS "PLACE OF USE" 357,700 ACRES

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of Water Service Contract No. X-XX-XX-XXXXX or a satisfactory replacement, between the **Bureau of Reclamation** and the applicant. The contract is not yet completed. A copy of the completed contract must be on file with the Water Resources Department prior to the issuance of a permit.

US ARMY CORPS OF ENGINEERS

The permittee shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. The required screen is to be in place and functional prior to diversion of any water.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1997. Complete application of the water to the use shall be made on or before October 1, 1998.

FO CHECKLIST

TRIAGE FILES

FILE # 572386

REVIEW DATE: 05 / 15 / 1996

WEEK # 36

INITIALS: LLS

In preparing the FO, you should check the following:

1. ☒ Y / N Were comments or protests received in response to the PFO?
2. ☒ List names and addresses of ALL commentors (regardless of comment date) on the PFO CC list. *applicant per DWF Memo of 1/10/96*
3. ☒ Verify payment of recording fees (circle the appropriate option)
(1) ☒ Issue FO w/permit if fees are paid
(a) Prepare refund request for any excess fees
(2) Issue FO w/o permit if fees are lacking *200
100
300*
4. ☒ Y / N Has the applicant signed an oath of accuracy for the application? *OK per Dwight*
5. ☒ Y / N Is water use restricted for one or more months of the normal use period?

6. ☐ Assign permit numbers to files with oath, fees, and no protests or other unresolved issues

Route to: (circle one)

DENIAL FO w/o PERMIT FO & PERMIT
LARRY CORY JEREMY JERRY

COMMENTS
DOUG

List Sections & Acreages in POU description. ORIGINAL DRAFT Permit may be helpful for POD/POU Info. See file with DRAFT SW 723/72386. MAKE changes noted in Dwight's Memo

INITIALS: jk

7. ☒ Y / N If #5 = "Y", Have you completed the Triage Report Card sheet?

Modify FO as needed to:

8. ☒ Respond to significant comments, issues, or disputes related to the proposed use of water
9. ☒ Include or exclude permit conditions and management codes
10. ☒ Notify applicant of additional information or fees required prior to permit issuance (Use standard wording from M:\T\FO\TOOLS if possible)
11. ☒ Correct PFO errors (such as POD or POU location (verify from map), Permit format)
12. ☒ Y / N Is further processing possible? If not state reason: _____

Once FO document is completed:

13. ☒ Save WordPerfect document in M:\T\FO\WEEK 36 & delete duplicates
14. ☒ Print final draft of document and submit to team leader for review
15. ☒ Y / N Team leader review completed

Fish District: Upper Rogue

WAB # 010121712

Application # S-92386

Applicant Name BLM

Date: March 13, 1996

AREA

☒ Source Watershed☐ Senior instream water right application to junior out-of-stream application☐ No water availability information

INFORMATION/CONDITIONS

1. Are there water quality concerns related to salmon/steelhead/trout? ☒ Y ☐ NShould the application be denied? Y ☒ NShould the application be restricted? ☒ Y ☐ N

Jan	Feb	Mar	Apr	May	Jun 1-15	June 16-30	Jul	Aug	Sep 1-15	Sep 16-30	Oct	Nov	Dec
						X			X				

2. Are there adequate flows to protect salmon/steelhead/trout? Y ☒ NShould the application be denied? Y ☒ NShould the application be restricted? ☒ Y ☐ N ☒ Based on water availability

Jan	Feb	Mar	Apr	May	Jun 1-15	June 16-30	Jul	Aug	Sep 1-15	Sep 16-30	Oct	Nov	Dec
				X									X

3. Domestic

Should domestic use be conditioned to human consumption? Y ☐ N ☐ Based on water availability

4. Fish Screening and Passage

- ☒ A. Requires fish screening and passage, with ODFW certification (applications > 0.5 cfs).
☒ B. Requires fish screening and passage, without ODFW certification (applications < 0.5 cfs).
☐ C. No dam or obstruction without a fishway.

5. Miscellaneous

- ☐ A. Reservoir Filling _____
☐ B. Water Quality Permits _____
☐ C. Return Flow _____
☐ D. Time Limited Water Right _____
☐ E. Other _____

6. Measurement and Reporting

- ☐ A. Small diversions (<0.1 cfs or <9.2 ac/ft. may/may)
☐ B. Medium diversions (0.1 cfs or >9.2 and <1.5 cfs or <100 ac/ft. shall/may)
☐ C. Large diversions (1.5 cfs or >100 ac/ft. shall/shall)

FINDINGS

☐ Permit is proposed for denial prior to interagency team review for fishery concerns.☐ Deny permit due to fishery concerns, except for

- ☐ A. Domestic (which may be limited to human consumption, see above)
☐ B. Livestock
☐ C. Unless water is from storage

☐ Do not condition further due to fishery concerns.☒ Condition permit due to fishery concerns listed above.

WATER
RESOURCES
DEPARTMENT

U.S. BUREAU OF LAND MANAGEMENT
3040 BIDDLE RD
MEDFORD, OR 97504

Reference: File s 72386

This letter informs you of the current status of your application for a water right and accompanies the Unsatisfactory Report of Technical Review For Water Use Permit(s). We apologize for the delay in transmitting this information and Report to you and for any inconvenience the wait may have caused you.

The enclosed Report of Technical Review is the Department's summary of a specialized analysis of various legal and scientific aspects of the application and proposed water use. We are required by the state of Oregon's administrative rules (in OAR 690-11-160) to conduct this official technical review of each application submitted to the Oregon Water Resources Department for a water use permit. This process was designed to insure that your application receives a fair evaluation and to secure protection of existing water rights and of the public at large.

AS THE RESULT OF OUR TECHNICAL EVALUATION, WE HAVE DETERMINED THAT YOUR APPLICATION DOES NOT SATISFY THE REQUIREMENTS OF THE TECHNICAL REVIEW AND THEREFORE, THE DIRECTOR OF THE WATER RESOURCES DEPARTMENT PROPOSES THAT YOUR APPLICATION FOR A WATER USE PERMIT BE REJECTED.

If you disagree with any of the analyses contained in the Report, you may object to them. You must submit your objections to the Water Resources Department in writing within 60 days of the date of mailing of this Report or by the date specified below. Your objections must allege that the technical review is defective. You may also submit evidence that your proposed water use will not impair or be detrimental to the public interest.

Copies of the Report of Technical Review will be distributed to all persons who have filed comments or otherwise expressed an interest in the water use proposed in your application. Interested parties must also submit their objections within the prescribed objection period. Those objections must allege that the technical review is defective and/or that the proposed water use may impair or be detrimental to the public interest.

Commerce Building
158 12th Street NE
Salem, OR 97310-0210
(503) 378-3739
FAX (503) 378-8130

If an objection contains allegations that the technical review is defective, it must be accompanied by facts which support such allegations. If an objection contains allegations that the proposed water use may impair or be detrimental to the public interest, the objection must specify the particular public interest standards which apply as set out in Oregon Revised Statutes (ORS 537.170(5)) and Oregon Administrative Rules (OAR 690-11-195) and state facts showing how such standards would be violated.

All evidence and objections must be received by our Salem office no later than 5:00 p.m. on or before NOVEMBER 7, 1994 or the Department may presume there is no opposition to the analyses set out in the technical review report. Evidence and objections must be addressed and delivered to: Oregon Water Resources Department, Water Rights Section, 158 12th Street Northeast, Salem, Oregon 97310.

If objections and evidence are submitted no later than the above time and date, the Director will evaluate each issue raised in the objections and will either accept or deny them. Objectors are encouraged to indicate whether they would be interested in resolving their concerns through alternative dispute resolution.

If your objections are accepted and the technical issues are resolved in satisfaction of the technical review requirements, the Department will move your application to the next phase of processing. This phase will include a full public interest assessment of your proposed water use. No final action may be taken on your application until the public interest review is completed.

If any of the objections are denied, the objector will be allowed thirty days to submit a protest to the denial. The protest must meet the standards set forth in OAR 690-02-030 through 080.

If you have any questions about any of the requirements described above or about any of the findings contained in the Report of Technical Review, please feel free to telephone me or any the Department's Water Rights Section staff. My telephone number is 378-3739, in Salem, or you may call toll free from within the state to 1-800-624-3199.

Sincerely,

A handwritten signature in dark ink, appearing to read 'T. Shook', enclosed within a circular scribble.

Thomas E. Shook

SURFACE WATER AVAILABILITY

Water is not likely available in excess of needs for all existing rights and scenic waterway needs 50% of the time during each monthly period proposed by the technical review.

Water availability tables are available in the application file and may be reviewed in the office of the Water Resources Department in Salem.

The proposed use of water is within or above a state scenic waterway and use of water is limited to recreation, fish and wildlife uses. Upon a finding of necessity, the Department may issue a water right for human or livestock consumption.

WATER AVAILABILITY

Surface water streamflows have been evaluated against all surface water rights including consumptive out-of-stream uses, non-consumptive out-of-stream rights and instream water rights. As a result of this evaluation the Department has determined that water is not available for additional appropriation. The water availability tables are on file and available for review at the Water Resources Department.

THEREFORE, THE DIRECTOR FINDS THAT WATER IS NOT AVAILABLE IN SUFFICIENT AMOUNT DURING THOSE PERIODS OF TIME WHICH WOULD REASONABLY SUPPORT THE PROPOSED USE.

Based on findings set out above, the Director will recommend rejection of the application.

The applicant can overcome a proposed rejection by demonstrating that an alternative source of water is available during the period water is not available from the proposed source.

In the alternative, the applicant may submit evidence that the proposed use is of high public interest.

In determining whether the public interest in the proposed use is high and whether the application should be granted an exception under OAR 690-410-070(2)(a), the Commission and/or Director will weigh the relative value of the proposed use in accordance with the public interest standards set out in ORS 537.170 (5) and OAR 690-11-195.

If the Commission and/or Director find that the proposed use should be granted such an exception, a finding will be prepared stating that water is available for the proposed use if the permit can be conditioned to protect instream uses.

THE APPLICANT MAY PRESENT EVIDENCE THAT THE FINDINGS AND/OR CONCLUSIONS SET OUT IN THE TECHNICAL REVIEW ARE DEFECTIVE OR OTHERWISE INCORRECT.

RECEIVED

OCT 31 1994

WATER
SALEM, OREGON

Dear Mr. Shook:

We received the Unsatisfactory Report of Technical Review for file S-72386. This letter is to inform you that we are pursuing a water service contract with the U.S. Army Corps of Engineers for industrial use from Los Creek Reservoir.

Would the water use permit for application number S-72386 be approved if we had a water service contract with the U.S. Army Corps of Engineers? Please advise us on how we should proceed with water right application S-72386.

Sincerely,

Laurie Lindell
District Hydrologist
