Application No. 5945.

Mr. J. E. Wilson,
Waldo, Oregon.

Dear Sir:

I am in receipt of your letter of recent date transmitting your application No. 5945 for permit to appropriate water together with map. The application and map are again returned for correction.

You will note that the application under question No. 4 gives the point of diversion as within the NE SW Sec. 26, while the map would indicate that the point of diversion was within the NW SW Sec. 26. It will also be necessary under question No. 9 to set forth the number of acres to be irrigated within each forty acre tract, and this information should also be given on the map. The fees on this application are a \$3.00 examination fee, and recording fees at the rate of 15¢ for each acre to be irrigated which amount to \$8.10. There remains due, therefore, the sum of \$3.00 on this application.

I note your statement in your letter that you hold receipt for \$3.00 examination fee. We have no record of having received any money from you aside from that indicated in our receipt No. 5823, dated January 17, 1918. If we have made an error in crediting fees to the wrong application we will be glad to make the correction and trust you will advise us fully in order that we may do so.

In order to retain its original date of priority this application completed and accompanied by the required maps and fees should be returned to this office on or before February 24, 1918.

Very respectfully,

John H. Lewis,

January 17, 1918.

Mr. J. E. Wilson,
Waldo, Oregon.

Dear Sir:

Enclosed please find my official receipt No. 5828 for \$8.10, which amount was transmitted with your application for permit to appropriate water. I am also in receipt of one map. This application has been numbered 5945 and is returned herewith for completion.

Under question No. 2 should be given the amount of water you desire to appropriate. The point of diversion should be definitely located within some forty acre tract under question No. 4. Under question No. 9 should be listed the number of acres you desire to irrigate in each forty acre tract. Questions No. 12, 13, 14 and 15 should be answered and the application should be signed and should bear the signatures of witnesses. I am enclosing a thin township plat and believe you will be able to make a map showing the location of the source of water supply, the location of the point of diversion from the same, the location of the ditch lines, and the number of acres to be irrigated in each forty acre tract.

In order to retain its original date of priority, this application completed and accompanied by the required map should be returned to this office on or before February 17, 1918.

Very respectfully,

Percy A. Copper,

Assistant State Engineer.
