Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Application No. 6-8222

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, RAY HEIMBIGNER, the holder of Permit No. 6-7621, to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 9th day of SEPTEMBER, 1979.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of NOVEMBER, 1979.

PROOF OF APPROPRIATION OF WATER

KING FARMS

of PO Box 321, Ione
has applied beneficially the waters of
Well 5

, State of Oregon 97843 ,

a tributary of Willow Creek
irrigation of 245.7 acres

for the purpose of

under Permit No. G-7621 and that the use of said waters has been completed under the terms of said
permit; that the priority of the right dates from
June 16, 1977

that the amount of water for the purposes aforesaid, has been actually beneficially used in the amount of

3.07 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is
located in the SE 1/4 SW 1/4, Section 13, T1S, R22E, WM:
100 feet North and 1450 feet East from SW Corner, Section 13.

The amount of water used for irrigation, together with the amount secured under any other right
existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be
further limited to a diversion of not to exceed 3.0 acre-feet per acre for
each acre irrigated during the irrigation season of each year.

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

PO Box 321
Ione, OR 97843

Gentlemen:

REFERENCE: Files G-8222, G-9479 and G-4414

We have completed our usual field inspection for your Water Permits G-7621 and G-8904. In attempting to complete the processing for issuance of the certificates, some problems have surfaced that need to be resolved, as we discussed by phone on June 11, 1985.

According to the report by our field examiner, Well #3 is no longer used to irrigate the lands in Sections 13 and 24, as described under Certificate 52524. He further reports that Well #5 is the only source of water being used for the irrigation of these lands. If this information is correct, you should request a transfer for a change in point of appropriation from Well #3 to Well #5 under Permit G-4160 (Certificate 52524), and thus maintain the May 29, 1968 priority date for those lands. We could then allow supplemental use from Well #5 on these lands to for the additional water being used under Permit G-7621.

It also appears that approximately 70.0 acres of the land described in Certificate 52524 have not been irrigated for some time, and the water right to those acres should be cancelled. Your authorization to cancel this portion of the water right could be included in the transfer request.

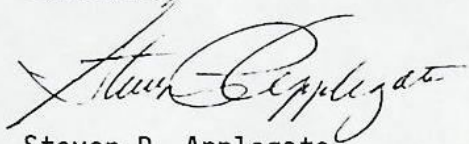

The enclosed, partially completed transfer application form, along with the map of our preliminary findings, should be of help to you. The form must be completed in ink or typewritten and signed by an authorized representative of King Farms, notarized and returned along with the required fees and the map. The fees for the transfer request will amount to \$85.00 plus advance publishing costs of \$120.00 for a total of \$205.00. In any change in point of diversion or point of appropriation of over $\frac{1}{4}$ mile, the Director must publish notice of the requested change over a three week period in a newspaper of your choice with general local circulation. Any unused

King Farms
June 12, 1985
Page two

fees would be returned to you. Please complete items 9 - 12 on the application.

If the transfer request is approved by the Director, we will proceed with the processing of Permits G-7621 and G-8904. If you have any questions on this matter, please contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steven P. Applegate".

Dear Mr. Heimbigner:

REFERENCE: File number G-4408, G-4414, G-8222 and G-9479

We have received three requests to assign your permits along with a check in the amount of \$6.

Certificates of water right recorded at pages 46973 and 47894, State Record of Water Right Certificates have been issued confirming the use of water under permits G-4160 and G-4154 respectively. Perfected rights as evidenced by certificates are appurtenant to the land described in the certificates and the rights travel with the land at time of sale. An assignment is not necessary.

We have your request to assign permit G-8904 to Melvin E. King, Mark W. King and David King of Silverton, Oregon. Along with that request, is another assignment for the same permit as well as permit G-7621, but this request is to King Farms. I am returning the latter documents for clarification. If it is your intent to assign permits G-7621 and G-8904 to King Farms, only the one form should be submitted.

I am also returning the request to assign permits G-4154 and G-4160 since it is not required. Further action will be withheld on your files for a reasonable length of time pending your reply.

Sincerely,

THOMAS E. SHOOK
Water Rights Engineer

Ladies and Gentlemen,

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit number G-7621.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Sincerely,

Bruce A. Estes, Supervisor

Dear Mr. Heimbigner,

You requested an extension of the time limit in which to complete construction under your permit number G-7621.

This permit, in its present form, allows you until October 1, 1979 to complete the construction work on your project. It also allows you until October 1, 1980 to use the water. You would not need to apply for an extension of the time limits until October 1, 1979. It appears that you have a large portion of the construction work completed and you may make it by October 1, 1979. If, you need an extension we will furnish you the necessary forms at that time.

Thank you very much.

SALEM, OREGON

May 30, 1978

Jone Ore

Dept Water Resources.

Dear Sir:

I am requesting a one year extension of time to complete our irrigation project under permit # G 7621.

Larry Bursd of penleton started drilling a 16" hole on Feb. 22, 1978.

He drilled to 760' and we hit a substantial fls amount of water. It was tested by Lorye pumps of Pasco & produced 4250 gpm at 287' pumping level.

We have installed a 400 hpp motor & 14" ^(4000 gpm) pump with 12" column.

We are using a pond which is built & ^{will be} distributing ^{from the pond} the water with a 125 hpp ^{pump} (3) 50 hpp pumps & (1) 40 hpp pump.

We have installed (2) circles Valley 1270' with buried main thereto.

RECEIVED

JUL 2 1978

WATER RESOURCES DEPT.
Salem, Oregon

We have made ^{modest} ~~modest~~ ^{connections} to our existing lines.

We need the extension of time to complete the line of circle to the SE $\frac{1}{4}$ of Sec 24 & the NE $\frac{1}{4}$ of 25.

We do intend to tow a circle over to the SE $\frac{1}{4}$ of Sec 24 & use portable line to irrigate a circle of beans this summer.

Sincerely

Ray Heimbigner
Circle (E) Ranch
Lane, Ore.

We have spent approximately \$200,000. to date on this project.

Re: Application #G-8222

Dear Ves:

Pursuant to our telephone conversation of today I am authorizing you to amend application #G-8222. Under item number 2, would describe well #6 as being located in the center of the Southeast quarter of Section 13, Township 1 South, Range 22, E.W.M. That is the correct description for the well location #6. The map attached with the application should be amended to show the well located in the center of the Southeast quarter of Section 13, rather than the North-east quarter of Section 13 as shown on the map.

Thank you for your consideration in this matter.

Very truly yours,
WINTER & SWEENEY

Re: Application #G-8222, Heimbigners

Dear Vester:

Enclosed please find the Heimbigner application as per our telephone conversation of September 8th and your letter of October 3, 1977. Please note the indication of well #5 and well #6 under item two of the application and item #6 in which we have indicated any deficiency in well #5 is to be taken from well #6.

I believe that this completes the application. If you could notify me as soon as the application is approved I will immediately notify my clients as they are desirous of starting construction shortly.

Thank you for your consideration and help in this matter.

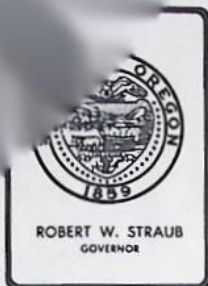

Very truly yours,
WINTER & SWEENEY

3 October 1977

Michael J. Sweeney
P.O. Box 582
Heppner, Oregon 97836

Dear Mike:

On August 10, 1977, we did receive the maps, fees of \$291.00 and amended application No. G-8222 regarding the use of water from two wells in the Heimbigner property.

The amended application when first received on August 10 was mistaken for a new application and was assigned a new file number. This error has been corrected and all data assembled in the original file. I apologize for this delay.

I have received your September 9, 1977 letter, original application No. G-8222 and attachment "A".

As discussed with you by telephone on September 8, please indicate which is well No. 5 and which is well No. 6 under Item No. 2 of the application.

It is my understanding that well No. 5 will be constructed and if the yield is sufficient, well No. 6 will not be constructed. Therefore, Item No. 6 should be amended to complete the sentence by indicating the use to be from well No. 5 with any deficiency in the available supply from well No. 5 to be taken from well No. 6.

Since the application is in the name of Ray, Ruth and Tom Heimbigner, as well as Linda Heimbigner Vincent, the application must be signed by each of the respective parties.

I am returning the amended application for the additional information and signatures. Upon completion, please return the amended application to this office.

Sincerely,

Vestal R. Garner
Water Rights Engineer

RE: Application #G-8222

Dear Ves:

Enclosed please find the original application for permit to appropriate ground water. Also enclosed please find attached Exhibit "A" which is to be attached to the amended application. Also the Heimbigners filed for two wells. They are filing for 4,000 gallons per minute on well five with any deficiency to come from well six.

Also we would request special handling as Mr. Heimbigner is ready to drill and is in the process of obtaining Federal drought relief funds.

Your attention and consideration in this matter is deeply appreciated.

Very truly yours,
WINTER & SWEENEY

OCT 24 1978

WATER RESOURCES DEPT.
SALEM, OREGON

Jone Ore

Oct 12, 1978

Water Resources Dept, Ore.

Dear Sir:

We have been unable to complete our project on permit # 21 7621 for Ray Ruth Lind & Tom Humbigner & request a one year extension. File # 5222

Our crops were adversely affected by the extended cool & rainy days during the harvest season & we simply ran out of both time & time to finance. We need next years crop in order to complete.

We have drilled a 16" hole 760' deep - tested 4200 gpm - built a pond - installed booster pumps - installed 2 new elect circles & main to them - installed water pump - established a pumping level of 290' at 4000 gpm - have elect at site & started applying water.

I have spent about \$192,000 on
this project. More on lease ^{purchase} program.
The 192,000 would be cash cost.

We feel we have made
substantial progress, but we
do need at least one more year to
complete this very large project.

Sincerely, I thank you.

Permit No. G-.....

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Ray Heimburger, Ruth Heimburger, Tom Heimburger & Linda Heimburger Vincent
(Name of applicant)

of P.O. Box 82, Ione, county of Morrow,
(Postoffice Address)

state of Oregon

97843, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated seven (7) miles North of Rock Creek
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 4,000 gallons per minute.

3. The use to which the water is to be applied is cropland irrigation

4. The well or other source is located 50 ft. North and 1,440 ft. East from the
(N. or S.) (E. or W.)
corner of SE corner of Section 14, Township 1 South, Range 22 E,
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE quarter of SW quarter of Sec. 13, Twp. 1 S., R. 22 E.,
W. M., in the county of Gilliam

5. The pipeline to be 1/2 miles
(Canal or pipe line)
in length, terminating in the SW quarter of Sec. 13, Twp. 1 S.,
(Smallest legal subdivision)
R. 22 E., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Circle "E" #5

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of two wells having a
(Give number of wells, tunnels, etc.)
diameter of 14 inches and an estimated depth of 500 feet. It is estimated that
feet of the well will require steel casing. Depth to water table is estimated 260
(Kind) (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19____.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 125,000.00
15. Construction work will begin on or before September 1977
16. Construction work will be completed on or before September 1978
17. The water will be completely applied to the proposed use on or before September 1978

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. *Linda Rae Heimburger Vincent*

Don Robert Heimburger Ruth Heimburger Ray Heimburger

(Signature of applicant)

Remarks: The applicant desires to irrigate in the Spring of 1978
if the work is complete but no later than the fall of 1978. The
applicant plans on installing two pivotal circles which will be
connected to the existing mainline. Will install a ten inch pipeline
to the first pivot and a eight inch pipeline to the second pivot. The
ten inch pipeline to the first pivot will connect with an existing main-
line. See attached map.

Second well to be located in center of SE 1/4 of Section 13, Township 1 South,
Range 22 E.W.M., and may be used to furnish water to the two pivot circles.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before September 13, 1977.

WITNESS my hand this 15th day of July, 1977.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from

The use to which this water is to be applied is

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

WITNESS my hand this day of, 19.....
