Reference: Application No. 84298, Permit No. 53723 - Carol Hinman

Dear Mr. Flavin:

The Department received a Claim of Beneficial Use and Site Report (Report) describing the use of water under the order approving the transfer on September 20, 2004.

The Report was not provided using a form or format provided by the Department as required by our Administrative Rules effective July 1, 2004.

The map appears to illustrate the location of the subject property approximately five chains south of the property description as appears on the legal description submitted with the application. In addition, 1) "Government Lot No. 1", should appear within the NW 1/4 NW 1/4 on your map; 2) the word "proposed" should be removed from your disclaimer; and 3) tax lot number "tax lot number 500" should be shown.

Enclosed is a form for your use in the preparation of a claim. Your Report and map are being returned for correction and completion. The corrected and completed form and map should be returned to the Department within 90 days or within such additional time as may be approved by request, in writing, to this office.

Please feel free to contact me if you have any questions and I will be happy to address any concerns you may have. My telephone number is 503.986.0809.

Sincerely,

Steve Brown

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

STATE OF OREGON

COUNTY OF CURRY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CAROL HINMAN
27835 THIMBLEBERRY RD
GOLD BEACH OR 97444

confirms the right to use the waters of A SPRING, a tributary of PACIFIC OCEAN for DOMESTIC USE INCLUDING THE IRRIGATION OF LAWN OR NON-COMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE IN AREA.

This right was perfected under Permit S-53723. The date of priority is NOVEMBER 8, 1999. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.005 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion.

The period of use is year round.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
37 S	14 W	WM	19	NW NW	1	1236 FEET SOUTH AND 965 FEET EAST FROM NW CORNER, SECTION 19

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot
37 S	14 W	WM	19	NW NW	1

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.
- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The use of water allowed herein may be made only at times when waters from the spring would not, under natural conditions, contribute flow to downstream waters, or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

NOTES:

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be from a notebook or a set of legal pads. There is no handwriting or other markings on the page.

Pump Capacity Calculation Sheet

using Department designed formula:

$(\text{hp})(\text{efficiency}) / (\text{lift} + \text{psi head}) = \text{capacity in cfs}$

Efficiency:

Centrifugal = 6.61

Turbine = 7.04

Data Entry (fill in underlined blanks)

HP = 0.5
Efficiency = 7.04
Lift = 0
PSI = 50

OK

Results Calculated

$(\text{hp})(\text{efficiency}) = 3.52$
Head based on psi = 127.0
Total dynamic head = 127.0
(head + lift)

Pump Capacity = 0.03 feet per second

FINAL PROOF SURVEY
CAROL HINMAN
27835 THIMBLEBERRY ROAD
GOLD BEACH, OREGON 97444
RE: APPLICATION #S-84298
PERMIT #53723

The above referenced system was examined by me on September 15, 2004. The system is completed and fully operative. The point of diversion is a 3 foot diameter concrete tile set in a small spring. There is a 1/2 HP, 230 volt submersible pump installed within the concrete tile. A 1" poly pipe goes from the point of diversion to a 2200 gallon plastic tank. 1" poly pipe leads from the tank to the garage where a 50 gallon pressure tank is located. From the pressure tank to the house, the service line is 1" PVC. A static pressure reading taken at the pressure tank read 50 PSI at the time of the test.

The point of diversion shown on the final proof map was physically located by field survey to accurately represent its position. It was found to be 1236 feet south and 965 feet east of the northwest corner of section 19, Township 37 South, Range 14 West, W. M., Curry County.

The facts contained in this report and the location of the point of diversion as shown on the final proof map, are correct as of the date of the final inspection and the date of this report.

Bryan M. Flavin - CWRE #366

I, Carol Hinman, agree to the findings of the Certified Water Rights Examiner and hereby submit this site report to the Water Resources Department as to my claim of the Beneficial Use of the water as provided under the terms and conditions of the permit #53723.

Carol Hinman

STATE OF OREGON

COUNTY OF CURRY

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

CAROL HINMAN
27835 THIMBLEBERRY RD
GOLD BEACH, OR 97444

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-84298

SOURCE OF WATER: A SPRING, A TRIBUTARY OF PACIFIC OCEAN

PURPOSE OR USE: DOMESTIC USE INCLUDING THE IRRIGATION OF LAWN OR
NONCOMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE IN AREA

MAXIMUM RATE ALLOWED: 0.005 CUBIC FOOT PER SECOND

PERIOD OF USE. YEAR ROUND

DATE OF PRIORITY: NOVEMBER 8, 1999

POINT OF DIVERSION LOCATION: NW 1/4 NW 1/4, SECTION 19, T37S, R14W,
W.M.; 1236 FEET SOUTH & 965 FEET EAST FROM NW CORNER, SECTION 19

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NW 1/4
SECTION 19
TOWNSHIP 37 SOUTH, RANGE 14 WEST, W.M.

Measurement, recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the

permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water allowed herein may be made only at times when waters from the spring would not, under natural conditions, contribute flow to downstream waters, or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2004. Within one year after complete application of

water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued March 22 , 2001

Paul R. Cleary, Director
Water Resources Department

NOTE: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

March 6, 2015 Carol Hinman called me and stated that she had a CWRE file a claim back in 2004. Our Record shows that the CWRE had deficiencies on the map and used the wrong form. We sent a letter to her and the CWRE stating the deficiencies and the CWRE sent a letter back, December 2005 asking for more time. We have not received the updated claim on the correct form or map. I suggested that she contact the CWRE to make the correction.

Carol will need some time to get the corrections in. Her phone number is 541-247-6267 and email is chinman81@gmail.com

Dear Mr. Brown:

I respectfully request an extension of the deadline for addressing the deficiencies pointed out in your letter of September 2004. Some serious health issues with my wife have taken me out of town for her treatments. I will complete the form and the mapping deficiencies no later than the end of January 2005.

Thanking you in advance.

Sincerely;

Bryan M. Flavin

Reference: Application S-84298 Permit S-53723

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2004.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a Certified Water Right Examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2004. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (May 1, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, please contact Machel Bamberger by telephone at 503-986-0802, or myself at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number S-84298

Final Order

Application History

On November 1, 1999, CAROL HINMAN submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on August 29, 2000. The protest period closed October 13, 2000, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to correctly describe specific permit conditions.

Order

Upon payment of outstanding permit recording fees, Application S-84298 shall be approved as modified above and as conditioned in the attached draft permit.

Permit recording fees are required in the amount of \$175.00. Said fees are due and payable no later than 60 days from the date of this Final Order. Failure to pay the required permit recording fees within 60 days from the date of this Final Order may result in the proposed rejection of Application S-84298.

If you need to request additional time to submit the required fees, the written request should be received in the Salem office of the Department by the deadline above. The Department will evaluate the request and determine whether or not the request may be granted.

DATED February 28, 2001

Paul R. Cleary, Director

Hearing and Appeal Rights

Under the provisions of ORS 527.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 527.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issued based on the above modifications to the proposed final order may be addressed.

SB 804 allows for additional appeal rights for other than contested case. This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of this order must be filed within the 60 day time period specified by ORS 183.484(2).

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the final order is not subject to judicial review.

This document was prepared by Anita Huffman. If you have any questions about any of the statements contained in this document I am the most likely the best person to answer your questions. You can reach me toll free within Oregon at 1-800-624-3199 extension 229. Outside of Oregon you can dial 1-503-378-8455.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun. Her extension number is 239.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 201. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 158 12th ST. NE Salem, OR 97301-4172, Fax: (503)378-2496

Oregon Water Resources Department
Water Rights Division

Water Rights Application
Number S-84298

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft permit be issued with conditions.

Application History

On November 1, 1999, CAROL HINMAN submitted an application to the Department for the following water use permit:

- Amount of Water: 0.005 CUBIC FOOT PER SECOND
- Use of Water: DOMESTIC USE INCLUDING THE IRRIGATION OF LAWN OR NONCOMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE IN AREA
- Source of Water: A SPRING, A TRIBUTARY OF PACIFIC OCEAN
- Area of Proposed Use: CURRY County within SECTION 19, TOWNSHIP 37 SOUTH, RANGE 14 WEST, W.M.

On 6/27/00, the Department mailed the applicant notice of its Initial Review, determining that *"The use of 0.005 CFS from an Unnamed Spring, tributary to the Pacific Ocean, for Domestic Use for one household including Irrigation of Lawn and Non-commercial Garden not to exceed ½ acre in area is allowable year-round."* The applicant did not notify the Department to stop processing the application within 14 days of that date.

On 7/11/00, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any comments received

Findings of Fact

The South Coast Basin Program allows the following uses: domestic use including the irrigation of lawn or noncommercial garden not to exceed one-half acre in area.

Senior water rights exist on a spring, a tributary of Pacific Ocean or on downstream waters.

A spring, a tributary of Pacific Ocean is not within or above a State Scenic Waterway.

An assessment of water availability has been completed. A copy of this assessment is in the file. This assessment determined that water is available for further appropriation.

The Department finds that the amount of water requested, 0.005 cfs, is an acceptable rate.

In accordance with OAR 690-33-330, an interagency team reviewed this proposed use for potential adverse impacts on sensitive, threatened and endangered fish populations. This team consisted of representatives from the Oregon Departments of Water Resources (WRD), Environmental Quality, Fish and Wildlife (DFW), and Agriculture. WRD and DFW representatives included both technical and field staff. The interagency team did not recommend that any additional conditions of use be imposed on this application.

Conclusions of Law

Under the provisions of ORS 537.153, the Department must presume that a proposed use will not impair or be detrimental to the public interest if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Mid Coast Basin Plan.

No preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with other rules of the Water Resources Commission not otherwise described above.

The proposed use complies with the State Agency Agreement for land use.

For these reasons, the required presumption has been established.

Once the required presumption has been established, under the provisions of ORS 537.153(2) it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use will impair or be detrimental to the public interest as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
 - (A) The specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected; and
 - (B) Specifically how the identified public interest would be impaired or detrimentally affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use will impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use will not impair or be detrimental to the public interest as provided in ORS 537.170.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED August 29, 2000

Dwight French
Water Rights Section Manager

*If you have any questions,
please check the information
box on the last page for the
appropriate names and
phone numbers.*

Protest Rights and Standing

Under the provisions of 537.621(7), you have the right to protest this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing. If you do not request a hearing, the Department will presume that you do not wish to contest the findings of the proposed final order.
- If you do not protest this Proposed Final Order and if no substantive changes are made in the final order, you will not have an opportunity for judicial review, protest or appeal of the final order when it is issued.

Requests for Standing

Under the provisions of 537.153(5), persons other than the applicant who support a proposed final order may request standing for purposes of

participating in any contested case proceeding on the proposed final order or for judicial review of a final order. A request for standing shall be in writing, include a statement that the requester supports the proposed final order, and a statement of how the requester would be harmed if the proposed final order is modified. The fee required at the time of submitting this request is \$50.00. If a hearing is scheduled, an additional fee of \$150.00 must be submitted along with a request for intervention. Forms to request standing are available from the Department.

Your protest or request for standing must be received in the Water Resources Department no later than **October 13, 2000**.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

This document was prepared by Russell W. Klassen. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me toll free within Oregon at 1-800-624-3199 extension 266. Outside of Oregon you can dial 1-503-378-8455.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun. Her extension number is 239.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 201. Address all other correspondence to:

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-84298

SOURCE OF WATER: A SPRING, A TRIBUTARY OF PACIFIC OCEAN

PURPOSE OR USE: DOMESTIC USE INCLUDING THE IRRIGATION OF LAWN OR
NONCOMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE IN AREA

MAXIMUM RATE ALLOWED: 0.005 CUBIC FOOT PER SECOND

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: NOVEMBER 8, 1999

POINT OF DIVERSION LOCATION: NW 1/4 NW 1/4, SECTION 19, T37S, R14W,
W.M.; 1236 FEET SOUTH & 965 FEET EAST FROM NW CORNER, SECTION 19

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NW 1/4
SECTION 19

TOWNSHIP 37 SOUTH, RANGE 14 WEST, W.M.

Measurement, recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2004. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Reference: File S-84298

Dear Applicant:

THIS IS NOT A PERMIT AND IS SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.

This letter is to inform you of the favorable preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The proposed use is not prohibited by law or rule.
2. The use of water from an Unnamed Spring, tributary to the Pacific Ocean, for Domestic Use for one household including Irrigation of Lawn and Non-commercial Garden not to exceed ½ acre in area **is allowable** under OAR 690-517-001 (8), the South Coast Basin Program.
3. According to information on the applicant's spring description sheet, the spring arises and does not flow off of their lands and contribute to downstream waters. Because the spring does not flow off of the applicant's lands, use of water from the spring is not subject to the Department's water availability analysis. Therefore, water in the amount of 0.005 Cubic Foot per Second (CFS) for Domestic Use for one household including Irrigation of Lawn and Non-commercial Garden not to exceed ½ acre in area is allowable year round.

Under ORS 537.800, the owner of land on which a spring first arises may use that water without a permit, if the spring does not flow off of those lands under natural conditions. While a permit does not appear to be necessary for the proposed use, the Department assumes that the applicant wishes to pursue a permit unless otherwise notified.

Summary of Initial Determinations

The use of 0.005 CFS from an Unnamed Spring, tributary to the Pacific Ocean, for Domestic Use for one household including Irrigation of Lawn and Non-commercial Garden not to exceed ½ acre in area is allowable year-round.

Because of these favorable determinations, the Department can now move your application to the next phase of the water rights application review process. This phase is where public interest factors will be evaluated.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Tuesday, July 11, 2000**. For your convenience you may use the enclosed "STOP PROCESSING" form.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement, recording and reporting conditions:
 - A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.
 - B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of

water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

2. The use of water allowed herein may be made only at times when waters from the spring would not, under natural conditions, contribute flow to downstream waters, or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.
3. You may be required to install fish screens at the point of diversion to meet Oregon Department of Fish and Wildlife specifications for adequate protection of aquatic life.
4. You may be required to comply with state and federal water quality standards.
5. The priority date for this application is November 1, 1999.

WARNING: This initial review does not attempt to address various public interest issues such as sensitive, threatened, or endangered fish species. These issues will be addressed as the Department reviews public comments and prepares a proposed final order. You should be aware that, if significant public interest issues are found to exist, such a finding could have an impact on the eventual outcome of your application.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our Water Right Information Group at (800) 624-3199 or (503) 378-8455 extension 201. Feel free to call me at (800) 624-3199 or (503) 378-8455, extension 331, if you have any questions regarding the contents of this letter. Please have your application number available if you call. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 158 12th ST. NE Salem, OR 97301-4172, Fax: (503)378-2496.

Watermaster Determination of Water Availability

The following application for use of water is from a surface water source for which a reasonable water availability analysis can not be made. The use is out of stream and consumptive. The determination of water availability is to be made by the Watermaster based on observations of the water source and knowledge of existing water use from that source.

- What impact could the existing diversions have on availability for the proposed use?
None
- Are there periods when there is insufficient water to satisfy existing rights?
Do not know
- Is there sufficient water from this source to meet the proposed use a reasonable amount of the time?
Do not know
- Will the user have use of water at least 80 percent of the time (list by months)?
As dist. WM, I have no objection to issuance of this permit

WATER RESOURCES DEPT.
 SALEM, OREGON

App. No. S-84298		For Department Use	Date 11-1-99
Permit No. _____			

2. SOURCE AND PROPERTY OWNERSHIP

A. The Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: UNNAMED SPRING Tributary to: PACIFIC OCEAN

Source 2: _____ Tributary to: _____

Source 3: _____ Tributary to: _____

Source 4: _____ Tributary to: _____

B. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

☒ Yes (Skip to section 3 "Water Use.")

☐ No Please check the appropriate box below.

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or an easement permitting access.

List the names and mailing addresses of all affected landowners.*

*If more than 25 landowners are involved, a list is not required. See instructions.

3. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express the amount of water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: ONE
- If your proposed use is **irrigation**, please attach Form I
- If your proposed use is **mining**, attach Form R
- If your proposed use is **municipal or quasi-municipal**, attach Form M
- If your proposed use is **commercial/industrial**, attach Form Q

RECEIVED

WATER RESOURCES DEPT.
SALEM, OREGON

RECEIVED

OCT 04 1999

B. Amount of Water

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

WATER RESOURCES DEPT.
SALEM, OREGON

Source	Use	Amount
DALE (SPRING)	DOMESTIC EXPANDED	☒ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af

C. Period of Use

Indicate the time of year you propose to use the water: YEAR ROUND
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

D. Acreage

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 1 1/2 ACRE - LAWN & GARDEN
(This number should be consistent with your application map.)

4. WATER MANAGEMENT**A. Diversion**

What method will you use to divert water from the source?

- ☒ Pump (give horsepower and pump type) 1 1/2 HP SUBMERSIBLE
- ☐ Head-gate (give dimensions) _____
- ☐ Other means (describe) _____

B. Monitoring

How will you monitor your diversion to be sure you are within the limits of your water right (allowed rate and duty) and you are not wasting water?

- ☐ Weir ☐ Meter ☒ Periodic Sampling
- ☐ Other (describe) _____

RECEIVED

JUN 29 2000

RECEIVED

JUN 29 2000

WATER RESOURCES DEPT.
SALEM, OREGON**C. Transport**

How will you transport water to your place of use?

- ☐
- Ditch or canal (give average width and depth)

Width _____ Depth _____

Is the ditch or canal to be lined? ☐ Yes ☐ No

- ☒
- Pipe (give diameter and total length)

Diameter 3/4"Length 260'

- ☐
- Other (describe) _____

D. Application/Distribution Method

What equipment will you use to apply water to your place of use? _____

Irrigation or land application method (check all that apply):

- | | | |
|--|--|---|
| ☐ Flood | ☐ High-pressure sprinkler | ☐ Low pressure sprinkler |
| ☐ Drip | ☐ Water cannons | ☐ Center pivot system |
| ☒ Hand lines | ☐ Wheel lines | |
| ☐ Siphon tubes or gated pipe with furrows | | |
| ☐ Other, describe _____ | | |

Distribution method

- ☐
- Direct pipe from source
- ☒
- In-line storage (tank or pond)
- ☐
- Open canal

E. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain.

OVERFLOW FROM TANK LEADS BACK TO SPRING DRAINAGE**5. RESOURCE PROTECTION****Protection Practices**

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See the instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

Watermaster Determination of Water Availability

The following application for use of water is from a surface water source for which a reasonable water availability analysis can not be made. The use is out of stream and consumptive. The determination of water availability is to be made by the Watermaster based on observations of the water source and knowledge of existing water use from that source.

SECTION 1 - COMPLETED BY WATER RIGHTS DIVISION

Application # S-84298
Source Unnamed Spring
Tributary To Pacific Ocean
Basin S. Coast POD T315 R14W S19
1/4NW 1/4SW
Proposed Use Domestic Expanded
Requested Rate 0.005 cfs Duty —
Allowable Rate 0.01 cfs

SECTION 2 - COMPLETED BY REGION OFFICE STAFF

1. Are there existing diversions for water use downstream? Possibly
at P# 39099, also dom. use w/in NW 1/4 NW 1/4. POD for P# 39099
is ≈ 100' N of POD for this Ap.
2. What impact could the existing diversions have on availability for the proposed use?
None
3. Are there periods when there is insufficient water to satisfy existing rights?
Do not know
4. Is there sufficient water from this source to meet the proposed use a reasonable amount of the time?
Do not know
5. Will the user have use of water at least 80 percent of the time (list by months)?
As dist. WM, I have no objection to issuance of this permit

WATER
RESOURCES
DEPARTMENT

Application No. 84298
Permit No. _____

1. Is the spring on property owned by the applicant? yes
2. If not, give name and address of legal owner: N/A
3. Have you secured consent of owner to appropriate water from this spring and for construction of pipeline or other works? N/A
4. If you do not have such consent, do you expect to secure right-of-way through condemnation? N/A
5. What is the maximum flow from the spring in gallons per minute or cubic feet of water per second? 8 gpm
What is the minimum flow? 2 gpm
Is flow measured or estimated? max = measured; min. = estimated
6. Does the stream flowing from the spring form a well defined natural channel? No
7. Does the water flow off the lands on which it first arises? Not above ground
8. Give the name of the stream or other body of water into which the water from the spring flows: Pacific Ocean
9. If the water from the spring sinks or evaporates before reaching other water, give distance water flows from spring before vanishing: 6-12 inches in wet season; less in dry season

OREGON WATER RESOURCES DEPARTMENT
ADMINISTRATIVE RULES
CHAPTER 690
DIVISION 517
SOUTH COAST BASIN PROGRAM

Classifications

690-517-001

(1) Ground water resources in sections or the portions of Sections 13, 14, 22, 23, 26, 27, 32, 33 and 34 of Township 23 South, Range 13 West; 2, 3, 4, 9, 10, 11, 14, 15, 16, 17, 20, 21, 22, 27, 28, 29, 31, 32, 33 and 34 of Township 24 South, Range 13 West; and 3, 4, 5 and 6 of Township 25 South, Range 13 West, bounded on the north by Tenmile Creek, on the west by the Pacific Ocean, on the south by Coos Bay and on the east by Highway 101 are hereby classified for single or group domestic, livestock, irrigation of lawns and noncommercial gardens not exceeding one-half acre in area and any single industrial or commercial use not exceeding 5,000 gallons per day.

(2) The waters of the following lakes are classified only for domestic, livestock, municipal, irrigation of lawns and noncommercial gardens not exceeding one-half acre in area and in-lake use for recreation, fish life and wildlife. The Director of the Water Resources Department may place specific limits on municipal appropriations from the lakes or require outlet control structures to protect recreation, fish life and wildlife uses:

- (a) Bradley Lake
- (b) Eel Lake
- (c) Garrison Lake

(3) All other natural lakes are classified only for domestic and livestock uses, irrigation of lawns and noncommercial gardens not exceeding one-half acre in area and in-lake use for recreation, fish life and wildlife.

(4) Waters of the following streams and all tributaries are classified only for domestic and livestock uses, irrigation of lawns and noncommercial gardens not exceeding one-half acre in area, fire control and instream use for recreation, fish life and wildlife.

- (a) Glenn Creek (tributary to the East Fork Millicoma River)
- (b) Brush Creek

(5) The waters of the Middle Fork of the Coquille River and tributaries upstream from the confluence with Holmes Creek are classified only for domestic, livestock and irrigation of lawns and noncommercial gardens not exceeding one-half acre in area and instream use for recreation, fish life and wildlife during the period from July 1 to September 30 of every year. Water stored between October 1 and June 30 may be used at any time for purposes specified in section (8).

(6) The waters of the West Fork Millicoma River and tributaries above Stall Falls are classified for municipal, domestic and livestock uses, irrigation of lawns and noncommercial gardens not exceeding one-half acre in area and instream use for recreation, fish life and wildlife.

(7) The waters of Pony Creek above lower Pony Creek Dam and Ferry and Geiger Creeks above the Ferry Creek - Geiger Creek confluence are classified for municipal use.

(8) All other surface and ground water resources are hereby classified for **domestic**, livestock, municipal, industrial, fire control, irrigation, agricultural use, mining, power development, recreation, wildlife and fish life uses.

(9) Applications for the use of water for any purposes contrary to classifications specified in the basin program shall not be accepted or granted except as provided by law. The Director shall notify the Board and other interested individuals or agencies of the intent to accept an application for use in conflict with the adopted program in accordance with ORS 536.380 if the proposed use will not have a significant impact on any other water use as provided in sections (1) through (8) of OAR 690-517-001 and in 690-517-002 through 690-517-003.

(10) The planning, construction and operation of any structures or works for the utilization of water in accordance with the aforementioned classifications are to conform with the applicable provisions of ORS 536.310, including but not restricted to the recommendation of the multiple-purpose concept.

Reservations

690-517-002

Water in the amounts specified is reserved in the following streams for municipal use:

- (1) Chetco River - three cfs, downstream from the confluence with the North Fork Chetco River
- (2) Winchuck River - one cfs, downstream from the confluence with Bear Creek

Minimum Perennial Streamflows

690-517-003

(1) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life, no appropriations of water except for domestic or livestock uses and irrigation of noncommercial gardens not exceeding one-half acre in area shall be allowed for the waters of the streams and tributaries listed in Table 1 when flows are below the specified levels.

(2) The Water Policy Review Board requests the opportunity to review applications for an allowed beneficial use that has traditionally been identified as nonconsumptive or take-and-put, such as fish hatcheries, hydroelectric facilities, municipal or water process industries that could potentially impact, in an adverse way, the Board's minimum flow regime or the public interest. The Water Policy Review Board intends to continue to protect, in its entirety, that portion of the stream system on which any minimum streamflow has been established. Permitting procedures and water use regulation should reflect that objective as far as possible under the law. The Board solicits the advice or complaints of any party who is aware that the objectives are not being met.

(3) Minimum flows established in the Water Resource Program for the South Coast Basin dated May 22, 1964 (Table 3), shall remain in full force and effect except as follows:

- (a) The minimum perennial streamflow for the Elk River above U.S. Highway 101 crossing (45 cfs) is rescinded.

- (b) The minimum perennial streamflow for the Coquille River Middle Fork above Bear Creek (4 cfs) is rescinded.
 - (c) The minimum perennial streamflow for the Sixes River above the U.S. Highway 101 crossing is reduced to 25 cfs during the period from August 1 to September 30.
 - (d) The minimum perennial streamflow for the South Fork Coquille River near Powers is reduced to 15 cfs during the period from June 16 to September 30.
- (4) For purposes of distributing water, minimum flows established in 1964 shall be considered part of and not in addition to revised minimum flow regimes.
- (5) To support aquatic life and minimize pollution, in accordance with Section 3, Chapter 796, Oregon Laws 1983, no appropriations of water shall be made or granted by any state agency or public corporation of the state for the waters of the Coquille River and tributaries when flows are below the specified levels in Table 2. This limitation shall not apply to:
- (a) Domestic and livestock uses and irrigation of non-commercial gardens not exceeding 1/2 acre in area.
 - (b) Water legally released from storage.

Storage

690-517-004

- (1) All applications for appropriation of water for storage in structures impounding more than 3,000,000 gallons of water shall be reviewed by the Water Policy Review Board prior to approval. During the review the Water Policy Review Board may establish additional minimum flows on the natural flow of the stream to support aquatic life or minimize pollution.
- (2) The following reservoir sites should be protected through the comprehensive planning process for possible future development or until alternative methods of meeting water needs have been developed:
- (a) West Fork of the Millicoma River, site 223.
 - (b) South Fork of Coquille River at Eden Ridge, site 430.
 - (c) North Fork Coquille River, site 146A.
 - (d) Rock Creek at Rasler Creek, site 201.
 - (e) Catching Creek, site 101.
 - (f) Fourmile Creek, site 158.
 - (g) North Fork Floras Creek at Okietown, site 435.
 - (h) North Fork Chetco River, site 239.
 - (i) Wheeler Creek, site 241.
 - (j) East Fork Winchuck River, site 243.

(k) Joe Ney Slough.

Out-of-Basin Appropriations

690-517-005

No out-of-basin diversion of South Coast Basin water shall be made or granted by any state agency or public corporation of the state without the prior approval of, and following a public hearing by, the Water Policy Review Board.

Existing Rights

690-517-006

Water rights and permits issued prior to the effective date of this program shall not be affected except as provided in OAR 690-517-003 and section (1) of OAR 690-517-004.

NOTE: The South Coast Basin is delineated on Water Resources Department Map, File 17.6, available from the Water Resources Department.

Watermaster Determination of Water Availability

FAXED
6-16-00
To J. Droler

The following application for use of water is from a surface water source for which a reasonable water availability analysis can not be made. The use is out of stream and consumptive. The determination of water availability is to be made by the Watermaster based on observations of the water source and knowledge of existing water use from that source.

SECTION 1 - COMPLETED BY WATER RIGHTS DIVISION

Application # 5-84298
Source Unnamed Spring
Tributary To Pacific Ocean
Basin S. Coast
POD T37S R14W S19
1/4NW 1/4NW
Proposed Use Domestic Expanded
Requested Rate 0.005 cfs Duty —
Allowable Rate 0.01 cfs

SECTION 2 - COMPLETED BY REGION OFFICE STAFF

1. Are there existing diversions for water use downstream?
2. What impact could the existing diversions have on availability for the proposed use?
3. Are there periods when there is insufficient water to satisfy existing rights?
4. Is there sufficient water from this source to meet the proposed use a reasonable amount of the time?
5. Will the user have use of water at least 80 percent of the time (list by months)?

-------------------------	--	---------------------

2. SOURCE AND PROPERTY OWNERSHIP

A. The Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: UNNAMED SPRING Tributary to: PACIFIC OCEAN
Source 2: _____ Tributary to: _____
Source 3: _____ Tributary to: _____
Source 4: _____ Tributary to: _____

B. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

- ☒ Yes (Skip to section 3 "Water Use.")
- ☐ No Please check the appropriate box below.
- ☐ I have a recorded easement or written authorization permitting access.
 - ☐ I do not currently have written authorization or an easement permitting access.

List the names and mailing addresses of all affected landowners.*

*If more than 25 landowners are involved, a list is not required. See instructions.

3. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express the amount of water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: ONE
- If your proposed use is **irrigation**, please attach Form I
- If your proposed use is **mining**, attach Form R
- If your proposed use is **municipal or quasi-municipal**, attach Form M
- If your proposed use is **commercial/industrial**, attach Form Q

OCT 04 1999

WATER RESOURCES DEPT.
SALEM, OREGON**B. Amount of Water**

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

Source	Use	Amount
DALE (SPRING)	DOMESTIC EXPANDED	☒ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af
		☐ cfs ☐ gpm ☐ af

C. Period of Use

Indicate the time of year you propose to use the water: YEAR ROUND
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

D. Acreage

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 1/2 ACRE - LAWN & GARDEN
(This number should be consistent with your application map.)

4. WATER MANAGEMENT**A. Diversion**

What method will you use to divert water from the source?

- ☒ Pump (give horsepower and pump type) 1 1/2 HP SUBMERSIBLE
- ☐ Head-gate (give dimensions) _____
- ☐ Other means (describe) _____

B. Monitoring

How will you monitor your diversion to be sure you are within the limits of your water right (allowed rate and duty) and you are not wasting water?

- ☐ Weir ☐ Meter ☒ Periodic Sampling
- ☐ Other (describe) _____

C. Transport

How will you transport water to your place of use?

- ☐ Ditch or canal (give average width and depth)

Width _____ Depth _____

Is the ditch or canal to be lined? ☐ Yes ☐ No

- ☒ Pipe (give diameter and total length)

Diameter 3/4" Length 260'

- ☐ Other (describe) _____

D. Application/Distribution Method

What equipment will you use to apply water to your place of use? _____

Irrigation or land application method (check all that apply):

- | | | |
|--|--|---|
| ☐ Flood | ☐ High-pressure sprinkler | ☐ Low pressure sprinkler |
| ☐ Drip | ☐ Water cannons | ☐ Center pivot system |
| ☒ Hand lines | ☐ Wheel lines | |
| ☐ Siphon tubes or gated pipe with furrows | | |
| ☐ Other, describe _____ | | |

Distribution method

- ☐ Direct pipe from source ☒ In-line storage (tank or pond) ☐ Open canal

E. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain.

OVERFLOW FROM TANK LEADS BACK TO SPRING DRAINAGE

5. RESOURCE PROTECTION

Protection Practices

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See the instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin 8/99

Proposed date construction will be completed 10/99

Proposed date beneficial water use will begin 10/2000

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

Application No. **84298**
Permit No.

Dear Ms. Hinman:

The Department has received your application for a permit to use water and has assigned the above referenced number to your application. Please refer to that number when contacting the Department.

Your application has been accepted and you should expect an Initial Review of your application after 45 days. However, at this time additional information is required to complete your application. Please submit the following:

- ▶ Your application map identifies the location coordinates of the point of Diversion (POD) as being measured from the NE corner of section 19. When, in fact, it appears that the coordinates were measured from the **NW corner of section 19**, township 37 south, range 14 west. Please review the enclosed copy of your application map and provide the Department with an accurate description of the POD location.

Please submit the requested information immediately so that your application can be processed in a timely manner without delay. Your application *may* be rejected at the Proposed Final Order stage if the required information has not been received prior to the issuance. If you have any questions, please call me at 1-800-624-3199, extension 264. If you are calling from outside the state of Oregon, you may contact me at (503) 378-8455, extension 264.

Sincerely,

Lisa J. Juul

- ☒ **Source and tributary** listed? (Including, if applicable, the name and mailing address of any owner of land upon which the source is located.)
- ☒ **Property ownership indicated?** If applicant does not own all the land, is the affected landowner(s) listed? **NOTE: An easement or agreement DOES NOT need to be submitted at this time, but will be required before a permit will be issued.**

N/A ☒ **If a groundwater application...** is the groundwater development section completed? Is the Well Characteristics section completed or is the well log for the actual well proposed to be used included?

- Spring Description Sheet.
- ☒ **Proposed Use of the water....** Has the appropriate supplemental form been completed for each use, ie: I form for irrigation, Q for commercial or industrial uses, M for municipal or quasi-municipal or R for mining? If the application is for the use of a spring, a spring description sheet must be completed.

Domestic Use for One Household
1/2 ac L&G

- ☒ **Amount of water** from each source listed in GPM, CFS or AF? 0.005 cfs

- N/A ☒ Acreage being proposed, if applicable.

- ☒ **Season** being requested by applicant. Year Round

- ☒ The **water management section** has been completed? If system has not been designed, the applicant may estimate this information.

- ☒ **Resource protection system** completed on Surface Water application?

- ☒ Are the **dates of construction** indicated? If system already completed, applicant should indicate existing.

- ☒ Is the **application signed in ink by the applicant?** If the application is in the name of an organization or corporation, the authorized agent must sign the application.

- ☒ Is a **copy of the deed, land sales contract or title insurance policy included?** We cannot accept a copy of the tax bill.

- ☒ A **completed Land-Use Form** or receipt signed by the appropriate planning department officials enclosed?

- Clarify location of POD. ☒ Does the **map meet map requirements** of OAR 690-310-050?

- ☒ **Correct fees enclosed?** Refer to worksheet to calculate fees.

Oregon Water Resources Department

Land Use Information Form

WATER RESOURCES DEPT. SALEM, OREGON

WATER RESOURCES DEPT. SALEM, OREGON

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. ApplicantName: CAROL HINMANApplication No. 84298Address: 4453 BERKSHIRE

Permit No.

City: ROYAL OAKState: MIZip: 48073Day Phone: 248-549-7158**B. Land and Location**

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
<u>37-14-198B</u> <u>T.L. 500</u>	<u>RR10</u>	☒ Diverted	☒ Conveyed	☒ Used
		☐ Diverted	☐ Conveyed	☐ Used
		☐ Diverted	☐ Conveyed	☐ Used

List counties and cities where water is proposed to be diverted, conveyed, or used. _____

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): DOMESTIC EXPANDEDBriefly describe: HOUSEHOLD USE AS WELL AS IRRIGATION OF
NO MORE THAN 1/2 ACRE OF LAWN & GARDEN**D. Source**

Indicate the source for the proposed water use:

☐ Reservoir/Pond ☐ Ground Water ☒ Surface Water SPRING
(source)**E. Quantity**

Indicate the estimated quantity of water the use will require:

.005☒ CFS☐ GPM☐ Acre-Feet**Receipt for Request for Land Use Information**

State of Oregon
Water Resources Department
Commerce Bldg.
158 12th St. NE
Salem, OR 97310-0210
(503)378-8455

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- ☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s); 3.080. Go to section B "Approval" below
- ☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued
		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued
		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued
		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued
		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: DIANNE L. SNOW Date: 09/24/99
Title: ASSOCIATE PLANNER Phone: (541) 247-7011
Signature: Dianne L. Snow

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: CAROL HUNMAN

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.
