

SP-70900-119

Form B (690-9-77)

Application No. G-10546

NOTICE OF COMPLETION OF CONSTRUCTION

I, ANTHONY NEMETH, the holder of Permit No. G-9697

to appropriate the public waters of the state of Oregon, completed the construction of the works described thereon on the 21st day of JULY 1983, 19.....

Remarks: _____

If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed develop-

ment, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this _____ day of _____, 19.....

(Signature of Applicant)

(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is completed.

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. 10068

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Anthony A Nemeth, the holder of Permit No. G9697

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 30 day of August, 1984.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 22 day of Oct, 1984.

(Signature of Applicant)

3400 Cedar Flat. Williams. OR

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER APPROVING A
T-11169, Josephine County, Oregon	)	SUBSTITUTION OF A
	)	SUPPLEMENTAL GROUNDWATER
	)	RIGHT FOR PRIMARY SURFACE
	)	WATER RIGHTS

ORS 540.524 establishes the process in which a water right holder may submit a request to substitute a supplemental water right from a ground water source for a primary water right from a surface water source. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating an application for a water right substitution.

Applicant

STEVEN A. FLORIN
3433 CEDAR FLAT ROAD
WILLIAMS, OR 97544

Findings of Fact

1. On December 20, 2010, Steven A. Florin filed an application to substitute a supplemental right to use ground water under Certificate 67723 for primary rights to use surface water under Certificates 46570 and 67723. The Department assigned the application number T-11169.
2. The supplemental ground water right to be substituted for the primary surface water right is as follows:

Certificate: 67723 in the name of ANTHONY A. NEMETH (perfected under Permit G-9697)

Use: SUPPLEMENTAL IRRIGATION OF 19.0 ACRES

Priority Date: SEPTEMBER 11, 1981

Quantity: 0.16 CUBIC FOOT PER SECOND (CFS) FROM WELL 1 AND 0.08 CFS FROM WELL 2 WITH ANY DEFICIENCY IN THE AVAILABLE SUPPLY FROM WELL 1 TO BE MADE UP BY APPROPRIATION FROM WELL 2, AND SHALL NOT EXCEED 0.24 CFS

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Rate/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

Sources: TWO WELLS in the WEST FORK WILLIAMS CREEK BASIN

Authorized Points of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
39 S	5 W	WM	5	SW SW	WELL 1 - 1150 FEET NORTH AND 400 FEET EAST FROM THE SW CORNER OF SECTION 5
39 S	5 W	WM	5	SW SW	WELL 2 - 660 FEET NORTH AND 60 FEET EAST FROM THE SW CORNER OF SECTION 5

SUPPLEMENTAL IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	Acres	Well
39 S	5 W	WM	5	SW SW	13.0	1
39 S	5 W	WM	5	SW SW	6.0	2

3. The first surface water right to change from primary use to supplemental use under the substitution is as follows:

Certificate: 46570 in the name of TONY NEMETH (confirmed by Rogue River (F) decree)

Use: IRRIGATION OF 6.0 ACRES

Priority Date: FEBRUARY, 1877

Quantity: 0.10 CUBIC FEET PER SECOND

Source: MUNGER CREEK, tributary to WEST FORK WILLIAMS CREEK

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
39 S	5 W	WM	6	NW SE	140 FEET SOUTH AND 540 FEET EAST FROM THE CENTER OF SECTION 6

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
39 S	5 W	WM	5	W½ SW SW	6.0

4. The second surface water right to change from primary use to supplemental use under the substitution is as follows:

Certificate: 76667 in the name of D VINYARD (confirmed by Rogue River (F) decree)

Use: IRRIGATION OF 13.0 ACRES, DOMESTIC AND STOCK USE

Priority Date: FEBRUARY 1877

Quantity: 0.217 CUBIC FOOT PER SECOND

Source: MUNGER CREEK, tributary to WEST FORK OF WILLIAMS CREEK

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q
39 S	5 W	WM	6	NW SE

Authorized Place of Use:

IRRIGATION, LIVESTOCK AND DOMESTIC					
Twp	Rng	Mer	Sec	Q-Q	Acres
39 S	5 W	WM	5	SW SW	13.0

5. Notice of the application for substitution was published on December 28, 2010, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
6. Water has been used within the last five years according to the terms and conditions of the rights and no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
7. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing primary surface water rights is present, and a pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing supplemental ground water right is present.
8. The proposed change would not result in enlargement of the rights.
9. The proposed change would not result in injury to other water rights.

Conclusions of Law

The substitution of the supplemental ground water right for the primary surface water rights proposed in application T-11169 is consistent with the requirements of 540.524 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The substitution of a supplemental ground water right for primary surface water rights proposed in application T-11169 is approved and shall be effective upon issuance of this order.
2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 67723, 46570, 76667, and any related decree.

3. The substitution of a supplemental ground water right for the primary surface water rights may be terminated upon a request by the water right holder. The substitution also may be terminated by an order of the Director if the Director determines the use of the ground water as the primary water right causes injury to other water rights. Upon termination, the substituted primary and supplemental water rights shall revert to their original status.

Dated at Salem, Oregon this 28 day of January, 2011.

FINAL PROOF SURVEY UNDER

Application No. G-10546 Permit No. G-9697
IN NAME OF

ANTHONY A. NEMETH

Surveyed JUL. 11. 1988, by B. S. JAMES

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ANTHONY A. NEMETH
3400 CEDAR FLAT ROAD
WILLIAMS, OREGON 97544

confirms the right to use the waters of TWO WELLS in the WEST FORK WILLIAMS CREEK BASIN for SUPPLEMENTAL IRRIGATION OF 19.0 ACRES.

This right was perfected under Permit G-9697. The date of priority is SEPTEMBER 11, 1981. This right is limited to 0.16 CFS FROM WELL 1 AND 0.08 CFS FROM WELL 2 WITH ANY DEFICIENCY IN THE AVAILABLE SUPPLY FROM WELL 1 TO BE MADE UP BY APPROPRIATION FROM WELL 2, AND SHALL NOT EXCEED 0.24 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

SW 1/4 SW 1/4, SECTION 5, T 39 S, R 5 W, W.M.; WELL 1 - 1150 FEET NORTH AND 400 FEET EAST; WELL 2 - 660 FEET NORTH AND 60 FEET EAST; BOTH FROM THE SOUTHWEST CORNER OF SECTION 5.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use of water shall be limited when it interferes with the prior SURFACE WATER rights of others.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

This right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant, is as follows:

	<u>WELL 1</u>	<u>WELL 2</u>
SW 1/4 SW 1/4	13.0 ACRES	6.0 ACRES
	SECTION 5	
TOWNSHIP 39 SOUTH, RANGE 5 WEST, W.M.		

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed SEPTEMBER 8, 1992.

do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of two drilled wells

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 1) 6" 2) 8" and an estimated depth of 1) 200' 2) 180' feet.1) 1165'2. The well or other source is to be located 2) 460 ft. N and 470 ft. E

(N. or S.)

(E. or W.)

from the SW corner of Section 5

(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ ofSec. 5 Tp. 39 S R. 5 W, W. M., in the county of Josephine

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
<u>39 S</u>	<u>5 W</u>	<u>5</u>	<u>SW/SW</u>	<u>13 - from No. 1</u>
			<u>" "</u>	<u>6 - from No. 2</u>
			<u>" "</u>	<u>13 - from No. 2 if</u>
				<u>No. 1 proves deficien</u>

4. It is estimated that 140 feet of the well will require welded steel casing.

(Kind)

5. Depth to water table is estimated 35 Well drilled by 1) Ed Witcher

(Feet)

2) not drilled yet

6. The amount of water which the applicant intends to apply to beneficial use is ^{.24} cubic feet per second or gallons per minute.

7. The use to which the water is to be applied is supplemental irrigation being 0.16 cfs from well #1 and 0.08 cfs from well #2, with any deficiency in the supply from well #1 to be made up from well #2

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

Well #2 will be about 50 ft from a mostly dry wash tributary to W.F. Williams Creek ground level at well site about 10 ft higher than bed of wash.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

3 HP single phase submersible Berkeley pump on well #1, not sure yet about #2, from #1 to pumping sump with 15 hp deisel irrigation pump

11. Construction work will begin on or before #1 well completed, #2 by 9-1-82

12. Construction work will be completed on or before 10-1-83

13. The water will be completely applied to the proposed use on or before 10-1-84

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Munger Creek - Cert. 31733 and 46570

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from.....

being 0.16 cfs from well #1 & 0.08 cfs from well #2 with any deficiency in the supply from well #1 to be made up from well #2

The use to which this water is to be applied is.....

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

WITNESS my hand this day of....., 19.....

Williams, OR 97544

REFERENCE: File Number G-10546

Dear Mr. Nemeth:

Your notice of Beginning of Construction has been received along with a map print showing the actual location of Well #2.

We have noted your change on our records. The change will be allowed provided we do not receive any protest or that it does not injure other water users. Please note, your original request stated Well #2 would be about 180 feet deep; therefore, the well you have drilled should be about that depth also. It too will be limited to the appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others.

The location of the second well will be made a matter of record after we have been advised of use of water and have made our usual field inspection.

Under the terms of your permit, adequate irrigation equipment is to be on hand by October 1, 1983 and water used to the fullest extent intended on or before October 1, 1984.

Sincerely,

Thomas E. Shook
Senior Water Rights Examiner

TES/jw

NOTICE OF BEGINNING OF CONSTRUCTION

I, Anthony A. Nemeth, the holder of Permit No. G-9697,
to appropriate the public waters of the state of Oregon, began the actual construction of the works described
therein on the 10th day of June, 1983.

Remarks: Well #1 completed 4-28-78; well #2 completed 6-10-83. See
attached map, showing corrected location of well #2 (690' N & 30' E from
SW corner of Sec. 5)
The appropriator must state the manner of beginning of construction, the amount of work completed and the type of equipment
acquired for the water system up to the date of this statement, and any additional information which shows a substantial beginning of construction as
authorized by your permit.

IN WITNESS WHEREOF, I have hereunto set my hand this 11th day of June, 1983.

Dear Mr. Nemeth:

REFERENCE: File G-10546

Your Application G-10546 describing the proposed use of 0.24 cubic foot of water per second from two wells for the supplemental irrigation of 19.0 acres, along with the accompanying map, has been reviewed.

Since it appears that you may be irrigating a certain acreage from each well, you will need to define the amount of water to be appropriated from each well in Item 7, the total of which should be in agreement with the amount of water described in Item 6.

The permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

I am returning your application for correction and completion. The application is endorsed so that in order to retain its priority date, it must be received in this office on or before July 26, 1982.

Sincerely,

Stephen C. Brown
Senior Water Rights Examiner

Dear Mr. Nemeth:

REFERENCE: File G-10546

We have received your application for use of water for supplemental irrigation along with the supporting data and fees. Our Receipt 27129 is enclosed. Your application has been filed and assigned number G-10546.

Because of the many applications which have been filed in recent months, we are temporarily behind in our processing. Your application will be examined in detail as soon as possible. We will contact you if we need any additional information. If a permit is required to satisfy the conditions of a loan or land sale or if other emergency conditions exist, please let us know and we will attempt to process your application in the shortest possible time.

After examining your application, a permit may be issued without further correspondence if no additional information is required and it does not conflict with existing rights. The proposed appropriation will be subject to the Water Policy Review Board's Basin Program Statements, existing minimum flows, and demands of prior rights during periods of low water.

Thank you for your patience.

Sincerely,

RALPH H. JACKSON
Supervisor, Application/Permit Section
Water Rights Division

Dear Mr. Nemeth:

Your application for a permit to use 0.24 cubic foot per second of water from two drilled wells for supplemental irrigation of 19 acres has been received. Unfortunately, the application could not be filed as insufficient fees were submitted.

A new fee schedule, enacted by the Legislature, became effective August 19, 1981. Under the new fee schedule, the required fees for your application are: examination fee, \$40; and a permit recording fee for irrigation of 19 acres, \$29; for a total of \$69.

Since you submitted \$30 with the application, an additional \$39 will be required. The fees submitted with the application have been placed in a pending account and will be applied against the statutory fees when the balance has been received.

Sincerely,

RALPH H. JACKSON, Supervisor
Application/Permit Section

These wells are situated midway on the divide between W. Fork Williams
Cr. and Swamp Cr. Water pumped from these wells is water
that otherwise would flow and discharge to these creeks. In addition,
extended pumping of these wells may cause direct interference
with surface flows. Distribute with surface water
