FINAL PROOF SURVEY
UNDER

Application No. 45133 Permit No. 33722
IN NAME OF

MAUD A. SCHROEDER

Surveyed JULY 22 1970, by L. E. GOULD

STATE OF OREGON
COUNTY OF BAKER

RECEIVED
APR 22 1971
STATE ENGINEER
SALEM, OREGON

Proof of Appropriation of Water

MAUD A. SCHROEDER

of 1835 4th Street, Baker, State of Oregon,
has applied beneficially the waters of
Rouen Gulch Creek

a tributary of Powder River for the purpose of
irrigation of 25.3 acres and supplemental irrigation of 63.6 acres

under Permit No. 33722 of the State Engineer, and that the use of said waters has been
completed under the terms of said permit; that the priority of the
right dates from July 3, 1968

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
2.0 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 9, T. 9 S., R. 39 E., W. M.
Diversion point located: 2950 feet South and 1050 feet West from NE Corner,
Section 9.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed $3\frac{1}{2}$ acre feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

Primary	Supplemental	
	37.9 acres	NE $\frac{1}{4}$ NE $\frac{1}{4}$
14.9 acres		NW $\frac{1}{4}$ NE $\frac{1}{4}$
10.4 acres		SW $\frac{1}{4}$ NE $\frac{1}{4}$
	25.7 acres	SE $\frac{1}{4}$ NE $\frac{1}{4}$
	Section 9	
	T. 9 S., R. 39 E., W. M.	

I have read the above and foregoing proof of appropriation of water; I know the contents
thereof, and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 21st day of April, 1971.

1971.

Remarks: This appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

Basin 9, Vol.

Info: Mrs. Schroeder

Div. Pt: Is merely a Y in the Creek. A couple sand bags are moved from one branch to the other. Sometimes the water runs down the Gardner ditch & Schroeders take it out 2 or 3 places to irrigate a small sheep pasture in the S.E. cor. of property.

Irrigation: Main ditches which are approx. $\frac{11}{16}$ " with nearly vert. sides run along ~~SE~~ All sides of property except on the E. Flooding occurs to the N. & E. Numerous laterals same size as above run around contours in fields, see P.T.S. -1970-U,

Fall: Approximately 1' fall in 500', 1st 500' of Main ditch drops approx. 10' in 500'.

Crop: Pasture, hay & Grain.

Tie: To N.E. Cor. Sec. 9 (P. 1. & Co. Rd. & Fenceline)

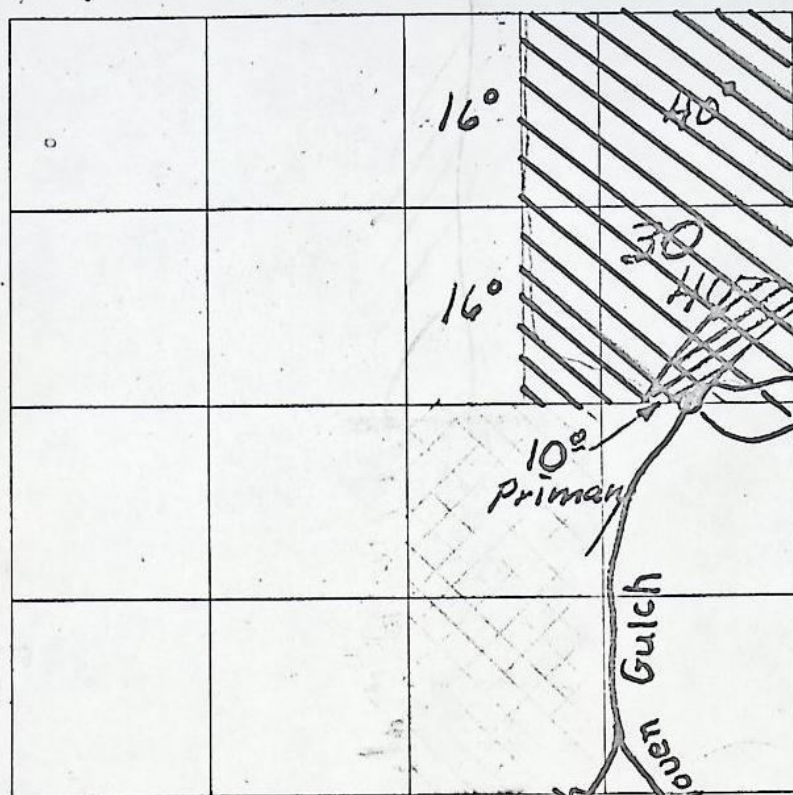

Note: Mrs. Schroeder said that there is plenty of water in early Spring to irrigate all the land.

At Time of F.P. Survey there was only approx. .25 c.f.s. in Rowen Gulch Creek,

Dear Mr. Wheeler:

Enclosed herewith is Proof of Appropriation of Water signed by Nora May Wilson as Personal Representative of the Estate of Maud A. Schroeder, deceased, together with a check in the sum of \$1.00 payable to you which you requested in your letter of March 26, 1971, for payment of the statutory recording fee of the certificate of water right which will issue.

Very truly yours,

A. S. Grant

March 26, 1971

FILE NO. 45133

Maud A. Schroeder
1835 4th Street
Baker, Oregon 97814

Dear Madam:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No. 33722.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Baker, Oregon 97814

Dear Sir:

This will acknowledge receipt of the returned application No. 45133 and map by L. R. Robbins. The application has been amended to indicate 10 acres of primary irrigation and 102 acres of supplemental irrigation.

This application is now in satisfactory form for approval by issuance of a permit.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Maud A. Schroeder
1835 4th Street
Baker, Oregon 97814

Dear Sir:

This will acknowledge receipt of your returned application No. 45133 and two transparency maps.

Item No. 2 on the application should specify the quantity of water to be appropriated using no approximate figures.

The number of acres to be irrigated in each of the four forties must be shown on the application map and be in agreement with item No. 8 on the application.

If the water is to be pumped to the 112 acres of irrigation, then item No. 6c on the application must be completed to describe the pumping unit. However, if this is gravity irrigation, then item No. 7 should be completed.

I am returning the application and the transparency for completion. The application is endorsed so that in order to retain its date of priority, it must be returned on or before October 15, 1968.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Enclosures

July 17, 1968

Maud A. Schroeder
1835 4th Street
Baker, Oregon 97814

Dear Sir:

This will acknowledge receipt of your application for a permit to appropriate 1.5 to 2.0 cubic feet of water per second from run-off in Rouen Gulch for the irrigation of 95 acres, a sketch map, and the fee of \$40 for which our receipt No. 10330 is enclosed. This application has been filed and numbered 45133.

Also acknowledged is receipt of an application for a permit to appropriate 2000 gallons of water per minute from springs of Rouen Gulch for the irrigation of 95 acres, and 4 spring description sheets. This application has not been filed because there is insufficient information to do so.

The required map must be submitted in the form of a reproduceable transparency. Typing paper is not satisfactory. The location of the point of diversion and the distance from a government survey corner to that point of diversion must be clearly designated on the map and described accordingly in item No. 4 on the application. The number of acres to be irrigated in each forty must be shown on the map and described accordingly in item No. 8.

Item No. 6c should be completed if the water is to be pumped. Item No. 7 should be completed if any of the land is to be irrigated through a gravity system.

A spring is considered to be the point where water first rises naturally from the ground. Unless you purpose to make a physical diversion of a measureable quantity of water at each of the springs indicated, the second application should not be filed.

Maud A. Schroeder

Page 2

July 17, 1968

Once the waters from the springs begin to flow, they are considered to be an unnamed stream. Once this water reaches Rouen Gulch, it loses its identity and becomes the water of Rouen Gulch subject to appropriation under your application No. 45133.

If it is your intention to appropriate water at the springs, and you do file the second application, an additional \$19.50 recording fee will be required.

I am returning the application and sketch map and additional data for corrections and completion. The application No. 45133 is endorsed so that in order to retain its date of priority, it must be returned on or before September 17, 1968.

Very truly yours,

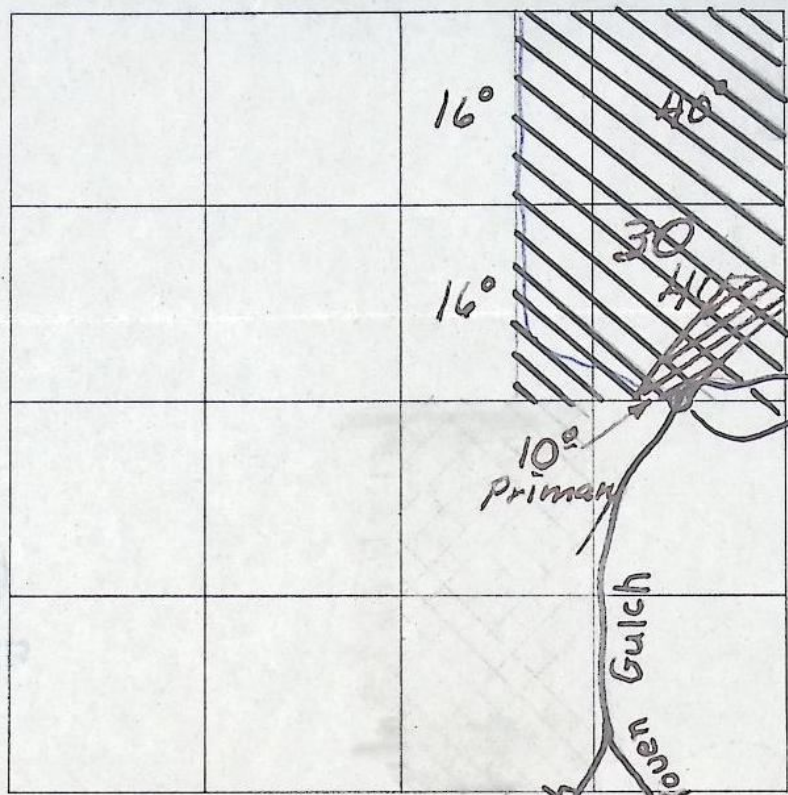

CHRIS L. WHEELER
State Engineer
