Mr. Leslie Lake
5509 Coyote Creek Road
Wolf Creek, Oregon 97497

Dear Mr. Lake:

I apologize for not responding to your request for information as to the location of rights much earlier than this. I have not been able to keep pace with the volume of correspondence and applications submitted. There are some changes being made to alleviate problems here and in the future our service to the public will be more prompt.

Our records are not clear as to the exact location of the 4.0 acres irrigated under permit No. 4636. The right has been forfeited if there was a period of five successive years without use of water for irrigation. The land is located west of the gulch and south of the ditch and the ditch is shown on the map as being near the north line of the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 21. If, in this general area, one or more owners are irrigating more than 4.0 acres and the location of the right was in dispute, the final decision would rest within the courts.

I have written Mr. Robert Steimer regarding this question.

I do not think there is much question as to the location of the water right perfected under permit No. 17561. The map locates the area of use as adjacent to and southeast of the mining claim and this area appears to be tax lot 700 as located on your map.

I do not think there is any question as to the location of use for the right completed under permit No. 17561 as the legal description is part of the proof and this description is for tax lot 700 as shown on your map. This right is for domestic use of one family, including irrigation of not to exceed $\frac{1}{2}$ acre domestic lawn and garden.

The record is not clear as to the location of the place of use under the right perfected under permit No. 4179. The 1.0 acre described is located by the map in the file as adjacent to the south line of the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 21. It may be located within tax lot 700 or just east or west of this lot. Water was conveyed by pipeline according to the proof and not by ditch.

Very truly yours,

Trevor Jones
Assistant

Trevor Jones

Application 7334

The records in file 7334 approved by permit 4636 are not so clear as to give a positive answer to what land the right is appurtenant.

Mr. Leslie Lake wrote regarding this and I didn't get far enough through the backlog of work to respond when I should have.

The map which accompanied the proof locates the diversion point near the NE corner of the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 21, and the ditch extends westerly near the north line of the SW $\frac{1}{4}$ SE $\frac{1}{4}$. If there is about 4 acres being irrigated just west of the gulch and in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ I think the owner has a good claim to the right if the right is valid.

Mr. Lake sent a different map than you did. I'm enclosing a copy of a part so I can refer to it in this letter.

If the ditch used was located as shown on the map, the 4 acres could have been on tax lots 1101, 1102 or 1104, but not 1103 which is above the ditch. I suppose the right was established under permit 4636 before the property was divided so a trace of ownership would not help.

Mr. Lake's letter seems to indicate that there has been no use of water in the vicinity for some time. If there is no evidence that any valid right exists, the location of a right that once existed is not important. If one or more owners are irrigating more than four acres, the location is a factor. If there is more than one claimant and the question of location is disputed and pursued, I suppose a court determination would be necessary.

I'm also enclosing a copy of a letter being sent to Mr. Lake.

Hello Mr. Wheeler,

I'm rewriting this letter as the information I am requesting is very important to my planting plans this spring. I wrote to you about a month ago and I sent all the maps I am sending now again. Please answer this letter.

I'm wondering if permit # 4636 gives water rights to parcel # 1103 & parcel # 1101 if a pipeline easement can be obtained. I've heard from a previous owner that water used to be gotten out of the mining ditch I have drawn in on the assessors map. There is an old pipe leading from the mining ditch to the house in parcel # 1101. Parcel # 1101 has a house on it & Parcel # 1103 is a pasture. Parcel # 700 & # 1103 are going to be combined into one parcel number for tax purposes. Parcel # 1101 is a separate family.

Thank You,
Leslie Lake

Jan. 16, 1975

Hello Mr. Wheeler,

I would like to know if parcel #1103 outlined in ink is included in permit #4636. There are 4 acres with 6-9-1920 priority ^{UNDER PERMIT #4636} I am interested in locating. I am also interested in parcel #1101, hopefully it also is included in this permit.

Thank You,
Leslie Lake
5509 COYOTE CREEK Rd.
WOLF CREEK, OREGON
97497

P.S. I own & live on parcel #700. Enclosed are the two permits (#17561 & #4179) that pertain to my place. I also own parcel #1103 & that is why I am interested in its water rights. I may buy #1101 & that is why I am also interested in it.

Dear Trevor:

Ed Lake, of 5611 Coyote Creek Road, Wolf Creek, Oregon, was in concerning his water right.

He has been using irrigation water from Panning Gulch on his property, which is outlined in red on the enclosed assessor's map.

I wonder if you can locate this 4 acre right for us so that we might determine who has the right to use it.

Very truly yours,

Mr. W M Loban,
Wolf Creek, Josephine Co.,
Oregon.

Dear Sir:- Herewith you will find Application No. 7334, being Permit No. 4636 which has been approved and recorded in this office.

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, W. M. Lohan, the holder of Application No. 5334, being
 Permit No. 4636, issued by the State Engineer of the State of Oregon
 (Reservoir or Enlargement) 0.1 second-feet of the waters of unnamed gulch
 for the appropriation of 0.1 second-feet of the waters of unnamed gulch
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 completely applied the water to a beneficial use, on the 20 day of June, 1920,
 being the time limitation as fixed in said permit or extended by the State Water Board for the complete
 application of water to a beneficial use.

Remarks:

If all of the water granted in the permit had not been fully applied to beneficial use, you should so state, so that delinquent appropriators may
 have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 14 day of June, 1921.

Wolf Creek, Oregon
 (Present Address)

W. M. Lohan
 (Signature of Applicant)

Fill out, detach, and mail to the Secretary, State Water Board, Salem, Oregon.

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE the holder of Application No. 20336 being

October 5, 1921.

Mr. M. L. Opdycke,
Water Master District No. 16,
Grants Pass, Oregon.

Dear Sir:

Proofs of appropriation of water under permits
No. 4636 in the name of W.M. Loban; No. 4119 in the name of
Jesse Gotcher and No. 3399 in the name of H. R. Mehrbas,
together with the required recording fees, have been received
and filed in this office.

These proofs will be presented to the Board at the
next meeting for approval and issuance of certificates.

Yours very truly,

R. W. Potter,
Secretary.

Encls.

July 13, 1921.

Mr. W. M. Loban,

Wolf Creek, Oregon.

Dear Sir:

Blank for proof of appropriation of water under permit No. 4636 has been mailed to Mr. M. L. Opdycke, Water Master for your district, who will make an inspection and assist you in filling out the proof at an early date.

When this proof has been properly filled out, it should be transmitted to this office, together with \$1.00 to cover recording fee for certificate of water right.

Yours very truly,

R. W. Potter,
Secretary.

June 15th, 1921.

Mr. W. M. Loban,
Wolf Creek,
Oregon.

Dear Sir:

Permit No. 4636.

This will acknowledge receipt of the Notice of Complete Application of Water under your application No. 7334, Permit No. 4636, and the same has been placed on file.

Final proof blanks will accordingly be prepared and forwarded for execution through the Water Master of your district within a short time.

Very respectfully,

Percy A. Copper,
State Engineer.

I think the section line is wrong here. If you will look at the assessors map & also in my property discription Section line 21 runs inbetween lot # 700 & lots # 1101 & # 1103. In permit # 17561 the mistake is most obvious as the triangular shape of # 700 is drawn in - not in the section line.
